TECHNICAL REFERENCE LIBRARY

Master Electrical Distribution Hardware Catalogue

Panelboards · Switchboards · Circuit Breakers · Mounting & Connection Hardware

Identification · Compatibility · Supersession · OEM Documentation

Edition 0.1

Generated 2026-10-21 from database build 4e7a349

2599 hardware entries · 94 equipment families · 187 breaker families · 461 sources

Manufacturer lineages covered

EAT — Eaton, Cutler-Hammer, Westinghouse (distribution products), Challenger, Bryant
SQD — Square D, Schneider Electric, Federal Pioneer (Canada)
GEA — General Electric Industrial Solutions; ABB from 2018; ReliaGear
SIE — Siemens, ITE, ITE Imperial, Gould, Murray
FPE — Federal Pacific Electric (Stab-Lok, NA/NE/NF/NH panelboards)
ZIN — Zinsco, GTE-Sylvania
OTH — Other / unassigned

Independent research reference. Not affiliated with or endorsed by any manufacturer named. Trademarks belong to their owners. Compatibility statements carry evidence classes A–D; only class A is manufacturer-documented. Verify before installation.

This catalogue is generated automatically from the structured parts database (*data/* → *build/edh_catalogue.sqlite*). Corrections must be made in the database, never in this PDF. Catalogue identifiers (EDH-…, FAM-…, BRK-…, SRC-…) are permanent and are never reused.

Table of Contents

Document Control 2

1 How to Use This Catalogue 8

2 Hardware Identification Guide 9

2.1 Anatomy of a panelboard interior . . . 9

2.2 Breaker mounting styles . . . 9

2.3 Branch connector straps — what to measure . . . 10

2.4 Terminal lug types . . . 10

3 Eaton lineage 22

3.1 BR — Type BR loadcenter . . . 24

3.2 CH-BR-RETRO — Eaton / Cutler-Hammer Type CH and Type BR panelboard retrofit kits (reuse of existing box) . . . 31

3.3 CDP — Westinghouse CDP / HCDP distribution panelboard . . . 64

3.4 CHA-PM4 — Challenger distribution panelboards (PM4a / PM4b) . . . 91

3.5 CHP/CHB — Cutler-Hammer CHP / CHB lighting panelboards . . . 98

3.6 EE — Cutler-Hammer Type EE plug-in power panelboard / switchboard . . . 98

3.7 EP — Cutler-Hammer Type EP plug-in power panelboard . . . 99

3.8 FDP — Westinghouse FDP fusible distribution panelboard . . . 100

3.9 MP100 — Cutler-Hammer MP100 fusible distribution panelboard . . . 106

3.10 MP40 — Cutler-Hammer MP40 distribution panelboard . . . 107

3.11 NAB — Westinghouse NAB / NA1B / NH1B / NDP / NEB panelboards . . . 113

3.12 NFB — Cutler-Hammer NFB panelboard . . . 114

3.13 NLAB — Westinghouse NLAB lighting panelboard . . . 114

3.14 NM/NMM — Westinghouse NM / NMM / NMIB Multibreaker panelboards . . . 115

3.15 PB — Cutler-Hammer Type PB lighting panelboard . . . 115

3.16 PH — Cutler-Hammer Type PH / PH-L panelboard . . . 115

3.17 PRC — Pow-R-Command lighting control panelboard . . . 116

3.18 PRL-LX — Pow-R-Line column-type (PRL1a-LX, PRL2a-LX, PRL1X-LX, PRL2X-LX) . . . 116

3.19 PRL-RETRO — Pow-R-Line Retrofit panelboards P1R / P2R (P1RL, P1RB, P2RL, P2RB) . . . 117

3.20 PRL1/PRL2 — Westinghouse Pow-R-Line 1 / Pow-R-Line 2 (vintage) . . . 117

3.21 PRL1A — Pow-R-Line 1a . . . 124

3.22 PRL1X — Pow-R-Line Xpert 1X . . . 200

3.23 PRL2A — Pow-R-Line 2a . . . 216

3.24 PRL2X — Pow-R-Line Xpert 2X . . . 217

3.25 PRL3 — Westinghouse Pow-R-Line 3 (vintage) . . . 218

3.26 PRL3A — Pow-R-Line 3a . . . 220

3.27 PRL3E — Pow-R-Line 3E . . . 267

3.28 PRL3FQS — Pow-R-Line 3FQS fusible (coordination) panelboard (ex Bussmann Quik-Spec Coordination Panelboard) . . . 268

3.29 PRL3X — Pow-R-Line Xpert 3X . . . 295

3.30 PRL4 — Pow-R-Line 4 (PRL4B breaker / PRL4F fusible / PRL4D drawout) . . . 297

3.31 PRL4X — Pow-R-Line Xpert 4X (incl. PRL4DX, PRL4F) . . . 339
3.32 PRL5P — Pow-R-Line 5P plug-on distribution panelboard . . . 340
3.33 WEB — Westinghouse WEB/WCA/WEHB/WFB/HWFB panelboards . . . 348
3.34 ES — Cutler-Hammer Type ES switchboard . . . 348
3.35 IFS — Integrated Facility System switchboard . . . 348
3.36 MP2 — Cutler-Hammer MP2 / MP-200 group-mounted switchboard (distribution section) . . . 349
3.37 PRLC — Pow-R-Line C switchboard . . . 349
3.38 PRLCS — Pow-R-Line CS switchboard . . . 350
3.39 PRLXD — Pow-R-Line XD switchboard . . . 350
3.40 PRLi — Pow-R-Line i switchboard . . . 350
3.41 WF/WRP — Westinghouse WF/WRP switchboard . . . 351
3.42 Breaker-mounted terminal kits and accessories . . . 351
Breaker family Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE) . . . 351
Breaker family Series C G-Frame (GD/GHC/GHB) . . . 366
Breaker family Series C J-Frame (JD/HJD/JDC/JDB) . . . 367
Breaker family Series C K-Frame (KD/HKD/KDC/KDB) . . . 374
Breaker family Series C L-Frame (LD/HLD/LDC/LDB) . . . 392
Breaker family Series C M-Frame (MDL/HMDL/MDLB) . . . 401
Breaker family Series C N-Frame (ND/HND/NDC/NB) . . . 408
Breaker family Series C R-Frame (RD/RDC) . . . 413
Breaker family Series G EG-Frame (EGB/EGE/EGS/EGH/EGC) . . . 415
Breaker family Series G JG-Frame (JGE/JGS/JGH/JGC) . . . 421
Breaker family Series G LG-Frame (LGE/LGS/LGH/LGC) . . . 424
Breaker family Series G NG-Frame . . . 432

4 Square D / Schneider Electric 433

4.1 I-LINE — I-Line Circuit Breaker Panelboard / I-Line distribution section . . . 434
4.2 MLN — Square D MLN panelboards and switchboards (ML breakers) . . . 463
4.3 NA1B — Square D NA1B panelboard (E-frame bolted, AC/DC) . . . 467
4.4 NEHB — NEHB panelboard . . . 467
4.5 NF — NF panelboard (Class 1670) . . . 468
4.6 NH1B — Square D NH1B 480 V AC lighting panelboard (FY / FA breakers) . . . 491
4.7 NQ — NQ panelboard (Class 1640) . . . 492
4.8 NQO — NQO / NQOB panelboard . . . 525
4.9 NQOB — Square D NQO / NQOB lighting panelboards (QO plug-on / QOB bolt-on) . . . 525
4.10 NQOD — NQOD panelboard (Class 1630) . . . 531
4.11 QMB — QMB Fusible Panelboard / QMB distribution (current design, Series E1) . . . 532
4.12 QMB-LEGACY — Legacy QMB distribution (pre-October-1984 QM and QW interiors) . . . 580
4.13 QED-2 — Power-Style QED-2 Switchboard . . . 590
4.14 SPEED-D — Speed-D Merchandised Service Section Switchboard . . . 610
4.15 Breaker-mounted terminal kits and accessories . . . 610
Breaker family Square D FA/FH/FC/FI (F-frame 100/150 A) . . . 611

Breaker family Square D KA/KH/KC/KI (K-frame 250 A) . . . 615
Breaker family Square D LA/LH (L-frame 400 A) . . . 618
Breaker family Square D LC/LI/LE/LX/LXI (L-frame 600 A) . . . 622
Breaker family Square D MA/MH/MX/ME (M-frame 1000 A) . . . 626
Breaker family Square D NA/NC/NX/NE (N-frame 1200 A) . . . 627
Breaker family Square D PowerPact D-Frame (DG/DJ/DL) . . . 627
Breaker family Square D PowerPact H-Frame (HD/HG/HJ/HL/HR) . . . 629
Breaker family Square D PowerPact J-Frame (JD/JG/JJ/JL/JR) . . . 635
Breaker family Square D PowerPact L-Frame (LD/LG/LJ/LL/LR) . . . 640
Breaker family Square D PowerPact M-Frame (MG/MJ) . . . 654
Breaker family Square D PowerPact P-Frame (PG/PJ/PL) . . . 656
Breaker family Square D PowerPact R-Frame (RG/RJ/RL) . . . 657
4.16 General / family not yet assigned . . . 658
5 GE / ABB lineage 659
5.1 A-SERIES — A-Series Lighting Panelboards (Types AL, AQ, AE/AS, AD / AD Plus, Lighting Control Panel, Pro-Stock AQU/AEU) 660
5.2 A-SERIES-COL — A-Series Column Panelboards (ALC, AQC, AEC) . . . 678
5.3 A-SERIES-PWR — A-Series Power Panelboards / A-Series II Power Panel (Types AQP, AEP, ADP; 'Type P & N') . . . 678
5.4 CCB-QMR — Type CCB and QMR power panelboards (legacy; listed under Spectra Series Power renewal parts) . . . 691
5.5 CONVERTI-FUSE — Trumbull / GE Converti-Fuse and Swing-Wa fusible distribution panelboards . . . 701
5.6 NHB — NAB / NHB bolt-on panelboards (legacy) . . . 701
5.7 NLAB — GE / Trumbull NLAB, NLTQ, NLTQX and DB lighting panelboards (TQ / TQL / TQC / TQB breakers) . . . 702
5.8 RG-NEXT — ReliaGear neXT Power Panelboards . . . 710
5.9 SCP-PLUS — Spectra Series Type SCP Plus panelboards . . . 711
5.10 SPECTRA-PP — Spectra Series Power Panelboards (Plug-In interior type APN; Bolt-On interior type APNB) . . . 716
5.11 TRUMBULL — Trumbull Electric (Plainville CT) panelboards and switches . . . 865
5.12 AV-LINE — AV-Line switchboards (legacy) . . . 866
5.13 Breaker-mounted terminal kits and accessories . . . 867
Breaker family E150 line (TEB, TED, THED, TEC) . . . 867
Breaker family F225 line (TFJ, TFK, THFK, TFC) . . . 871
Breaker family J400 / J600 line (TJJ, TJK, THJK, TJD, TJC) . . . 874
Breaker family K1200 line (TKM, TKMA, THKMA, TK4V, TB6, TB8) . . . 877
Breaker family Record Plus FB 100 . . . 890
Breaker family Record Plus FE 250 . . . 892
Breaker family Record Plus FG 600 . . . 895
Breaker family Spectra RMS SE150 . . . 896
Breaker family Spectra RMS SF250 . . . 899
Breaker family Spectra RMS SG600 . . . 902
Breaker family Spectra RMS SK1200 . . . 906
Breaker family TQD / THQD (Q-Line 225A) . . . 910
5.14 General / family not yet assigned . . . 910
6 Siemens lineage 911
6.1 MURRAY — Murray / Crouse-Hinds panelboards and loadcenters (pre-Siemens) . . . 912

6.2 CDP-ITE — ITE CDP distribution panelboard (pre-Series 5, 5.25 in deep and CDP-7 variants) . . . 912
6.3 NLAB — ITE-Siemens (Canada) NLAB / NHB / HR-7 lighting panelboards . . . 914
6.4 P1 — Type P1 (original) . . . 915
6.5 P2 — Type P2 panelboard . . . 925
6.6 P3 — Type P3 panelboard . . . 948
6.7 P4 — Type P4 / S4 / Sentron SPP (10in deep) power panelboard . . . 957
6.8 P5 — Type P5 / S5 / Sentron SPP deep (12.75in deep) power panelboard . . . 992
6.9 PUSHMATIC — Bulldog / ITE Pushmatic panelboards and Electri-Centers (incl. 3-phase versions) . . . 1020
6.10 RP1 — Type P1 (Revised P1) . . . 1020
6.11 S1/S2 — Type S1 / S2 lighting panelboards . . . 1085
6.12 SE — Type SE panelboard . . . 1088
6.13 CDP6 — Series 5 / Series 6 CDP, VB5/VB6 panelboards and FC20 / FCI / FCII switchboards (ITE / Siemens-Allis heritage) . . . 1088
6.14 SB — Type SB1 / SB2 / SB3 distribution switchboards . . . 1096
6.15 Breaker-mounted terminal kits and accessories . . . 1107
Breaker family BQ / BQH / HBQ / BQXD bolt-on . . . 1108
Breaker family NGG / HGG / LGG (G-frame bolt-on/lug) . . . 1109
Breaker family QJ2 / QJH2 / QJ2H / HQJ2H (225A frame) . . . 1111
Breaker family QR2 / QRH2 / HQR2 (250A frame) . . . 1111
Breaker family Sentron ED (ED2, ED4, ED6, HED4, HHED6, CED6) . . . 1112
Breaker family Sentron FD (FD6-A, FXD6-A, HFD6, HHFD6, CFD6) . . . 1116
Breaker family Sentron JD (JD6, JXD2, JXD6, HJD6, HHJD6, SJD6-B, CJD6) . . . 1118
Breaker family Sentron LD (LD6, LXD6, HLD6, HHLD6, SLD6-B, CLD6) . . . 1122
Breaker family Sentron LMD (LMD6, LMXD6, HLMD6, HLMXD6) . . . 1123
Breaker family Sentron MD (MD6, MXD6, HMD6, HMXD6, SMD6-B, CMD6) . . . 1125
Breaker family Sentron ND (ND6, NXD6, HND6, HNXD6, SND6-B, CND6) . . . 1131
Breaker family Sentron PD (PD6, PXD6, HPD6, HPXD6, SPD6-B, CPD6) . . . 1132
Breaker family Sentron RD (RD6, RXD6, HRD6, HRXD6) . . . 1133
6.16 General / family not yet assigned . . . 1133
7 Federal Pacific Electric 1134
7.1 BDP — FPE BDP distribution panelboard (double-hole bus) . . . 1134
7.2 CDP — FPE CDP distribution panelboard (single-hole bus) . . . 1137
7.3 FDP — FPE FDP fusible distribution panelboard / QMQB switchboard . . . 1141
7.4 NA1B — FPE NA1B / NH1B lighting and appliance panelboards . . . 1148
7.5 NBLP — FPE NBLP / NQLP bolt-on lighting panelboards . . . 1150
7.6 NDP — FPE NDP panelboard . . . 1151
7.7 FPE-SWBD — FPE switchboards (N-frame bolt-on / NM-NN-NP / Fusematic) . . . 1152
8 Zinsco / Sylvania 1154
8.1 ZIN-DIST — Zinsco / Sylvania distribution panelboards and QSF fusible switch panelboards (double-slot / single-slot split bus) 1154
8.2 ZIN-Q — Zinsco / Sylvania Q-type plug-in panels and lighting panelboards (Magnatrip) . . . 1159
9 Other manufacturers 1162
9.1 COMMANDER — Commander / CEB panels (Zinsco-type) . . . 1162

9.2 FA — Frank Adam Electric panelboards . . . 1162
9.3 KINNEY — Kinney panelboards . . . 1163
9.4 WADSWORTH — Wadsworth panelboards and breakers . . . 1163
10 Breaker Family Register 1164
11 Cross-Reference Tables 1193
11.1 Supersession and alternate numbers . . . 1193
11.2 Replacement and successor statements . . . 1205
11.3 Companion parts required for installation . . . 1207

Appendix C Research Status and Open Questions 1476

1 How to Use This Catalogue

The catalogue is organised by **manufacturer lineage**, then **equipment family** (panelboard, switchboard or loadcenter series), then **component type**. Every hardware item has a permanent catalogue identifier of the form **EDH-<MFR>-nnnnn**.

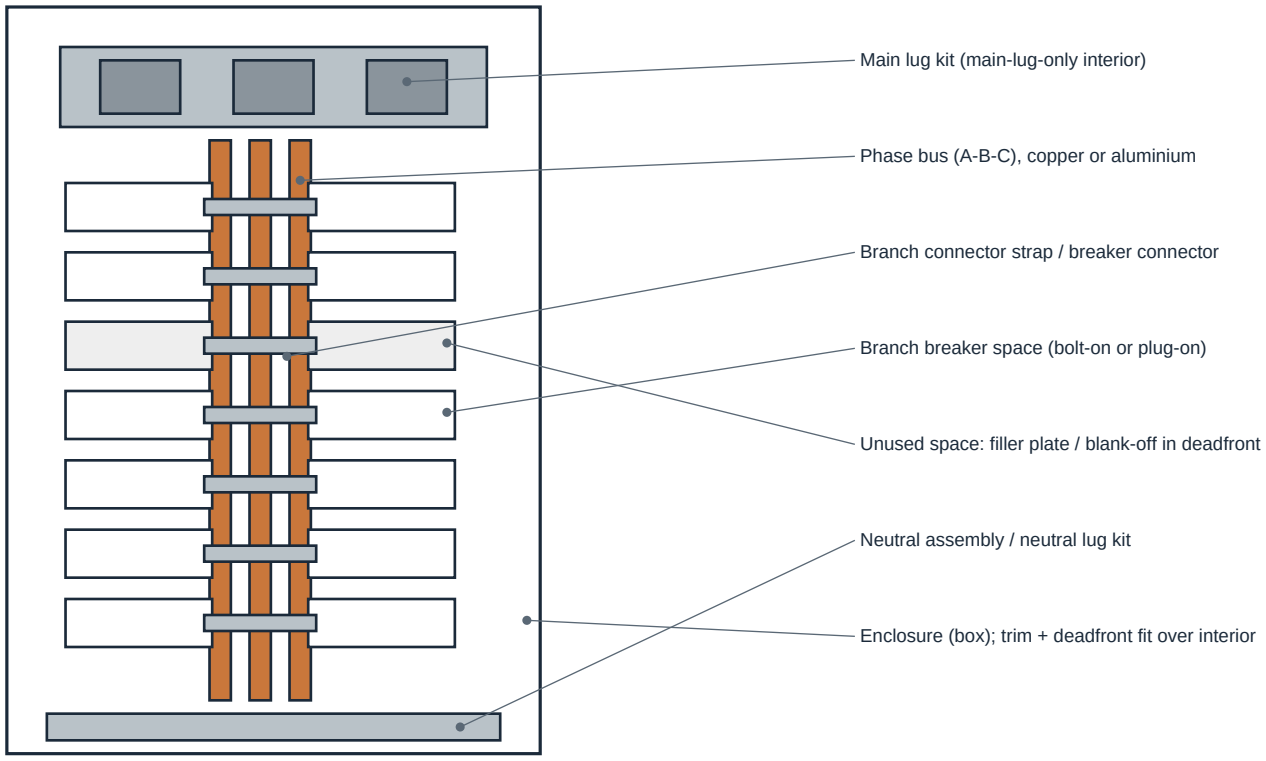
To identify an unknown part: (1) establish the manufacturer and equipment family from the enclosure nameplate, interior label or breaker type; (2) use Section 2 to decide the component type from its function and mounting style; (3) look up any stamped number in the Part-Number Index (partial numbers are listed in normalised alphanumeric order); (4) if no number is legible, use the Breaker Compatibility Index and the identification-feature table to narrow candidates, then compare dimensions and hole patterns against the part entry.

Claims, not records, carry confidence. Each line in a part entry shows the evidence class of that specific statement and the sources supporting it (S-numbers link to the Source Register in Appendix B). A part may have an OEM-verified part number (A) and only a tentative breaker compatibility (C).

Class	Meaning	Typical evidence
A	**OEM Verified**	Explicitly documented in a manufacturer catalogue, instruction leaflet, drawing or bulletin (page cited).
B	**Strongly Corroborated**	Multiple independent credible sources agree (e.g. two distributors plus a photo of the label).
C	**Tentative**	Single non-OEM source, or plausible but incomplete evidence. Distributor compatibility claims are never above C on their own.
D	**Unverified**	Lead, hearsay or inference requiring investigation.

Evidence basis codes

Code	Meaning
oem_spec	Manufacturer specification text or table
oem_drawing	Manufacturer drawing
distributor	Distributor catalogue / listing
surplus_listing	Surplus / used-equipment listing
photo	Photograph of an actual part or label
field_measurement	Measured from a physical sample (record instrument and date)
inference	Engineering inference — never sufficient for compatibility

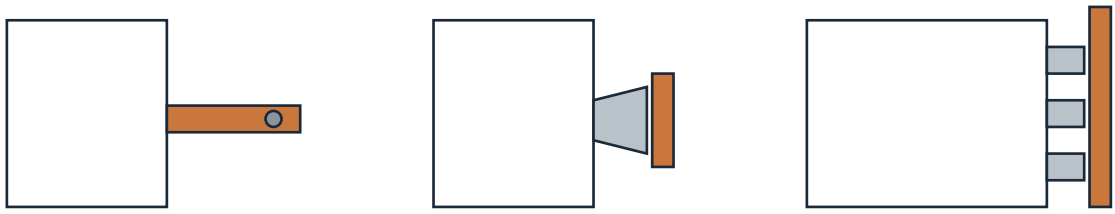


Safety and interchangeability notice

Matching dimensions do not establish electrical interchangeability. Panelboard and switchboard assemblies are listed as systems; substituting non-OEM or cross-manufacturer components may void the listing and short-circuit rating. Nothing in this catalogue states that a reproduced or aftermarket part is approved, listed or electrically equivalent unless an explicit, cited source says so. Distinguish OEM specifications from field measurements and manufacturing assumptions at all times.

2 Hardware Identification Guide

The drawings in this section are generic schematics prepared for this catalogue to illustrate terminology and measurement practice. They are not reproductions of manufacturer drawings and do not depict any specific OEM part.



2.1 Anatomy of a panelboard interior

Generic schematic for orientation only — not an OEM drawing, not to scale

Figure 2-1. Generic panelboard interior showing where each component type installs.

2.2 Breaker mounting styles

Bolt-on: line terminal screws to bus / connector strap

Plug-on: jaw/clip engages bus stab

Plug-on panel/switchboard unit: jaws onto vertical bus stack

Generic schematics — mounting style is a first-level identification key

Figure 2-2. Bolt-on, plug-on and panel/switchboard plug-on unit mounting.

2.3 Branch connector straps — what to measure

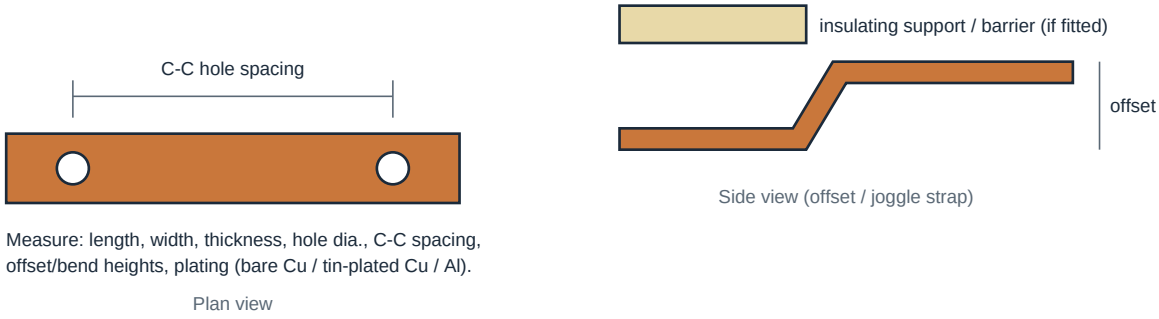


Figure 2-3. Measurement practice for connector straps and bus links.

2.4 Terminal lug types

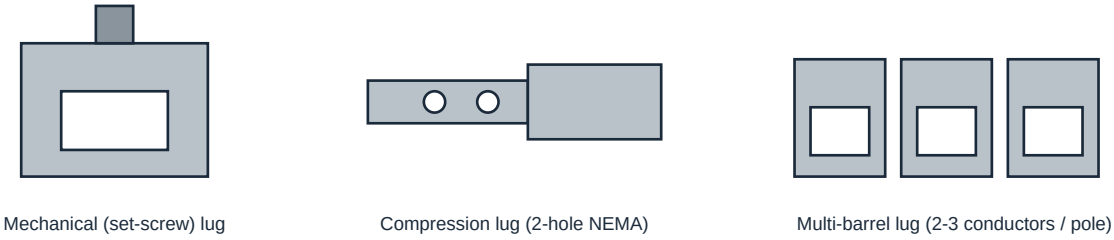

Figure 2-4. Common lug constructions found in main, sub-feed and feed-through lug kits.

2.5 Component-type key

Component type	Function / recognition	Entries
main-breaker-kit	Converts a main-lug interior to main-breaker; includes breaker mounting, connectors to bus.	158
main-lug-kit	Incoming-cable lugs bolted to bus top/bottom; ampere rating set by lug and bus.	218
sub-feed-lug-kit	Second set of lugs to feed a downstream panel from the same bus.	56
through-feed-lug-kit	Lugs at opposite bus end for feeding through to another panel.	9
lug-kit	Lug sets for breakers or assemblies.	274
lug		106
branch-connector-kit	Straps/connectors joining branch breakers to phase bus; series-specific.	361
breaker-mounting-kit	Hardware to mount a breaker frame in a panel/switchboard space.	108
connector-strap	Individual copper/aluminium link between bus and device terminal.	65
bus-assembly		1
neutral-assembly	Neutral bar/lug assembly, incl. 200% neutral options.	127
ground-bar	Equipment grounding bar kit.	32
interior		26
mounting-bracket		26
mounting-rail		8
standoff		1
insulator	Insulating support or standoff for bus or connectors.	8
barrier	Insulating barrier between phases or sections.	116

Component type	Function / recognition	Entries
deadfront	Inner cover exposing only breaker handles.	68
filler-plate	Closes unused breaker space in the deadfront.	216
trim	Front cover/door assembly (surface or flush).	36
box/enclosure		35
hardware-kit		56
fastener		53
conversion-kit	Adapts later breakers or interiors into legacy equipment.	131
spd-kit	Surge-protective-device mounting/connection kit.	8
switch-unit		51
breaker-accessory		159
handle-lock		6
padlock-attachment		15
other		65

2.6 Identification by physical feature

Parts for which distinguishing physical features are recorded. Use with the dimensions and hole-pattern fields of the entry.

Catalogue ID	OEM PN	Features	Pg
EDH-EAT-00218	PRLSEBPD2	Eaton web classifies PRLSEBPD2/PRLSEBPD3 as a Power Defense molded case circuit breaker accessory 'terminal cover' (series PD2/PD3 Global) **A**	214
EDH-EAT-00217	PRLSEBPD3	Eaton web classifies PRLSEBPD2/PRLSEBPD3 as a Power Defense molded case circuit breaker accessory 'terminal cover' (series PD2/PD3 Global) **A**	215
EDH-EAT-00340	KCDPFB100	Kit name retains Westinghouse FB-frame designation; 100 A max (note a) **C**	71
EDH-EAT-00344	KCDPKB	Kit name retains Westinghouse KB-frame designation (KB/HKB -> JD per cross-reference) **C**	72
EDH-EAT-00347	KCDPLA600	Kit name retains Westinghouse LA-frame designation **C**	73
EDH-EAT-00345	KCDPLB	Kit name retains Westinghouse LB-frame designation **C**	74
EDH-EAT-00349	KCDPMC	Kit name retains Westinghouse MC-frame designation **C**	75
EDH-EAT-00350	KCDPNC	Note b: connector kits are not rated for 100 percent breakers **A**	76
EDH-EAT-00748	RABR12B3XXX	Main/feed lug wire range #4-1/0 **A**	36
EDH-EAT-00749	RABR12H3XXX	Main/feed lug wire range #4-1/0 **A**	36
EDH-EAT-00756	RABR12L3125	Main/feed lug wire range #8-2/0 **A**	37
EDH-EAT-00737	RABR20BXXX	Main/feed lug wire range #4-2/0 **A**	37
EDH-EAT-00738	RABR20HXXX	Main/feed lug wire range #4-2/0 **A**	38
EDH-EAT-00744	RABR20L125	Main/feed lug wire range #14-2/0 **A**	38
EDH-EAT-00722	RACH18B3XXX	Main/feed lug wire range #2-1/0 **A**	39
EDH-EAT-00706	RACH22BXXX	Main/feed lug wire range #2-1/0 **A**	39
EDH-EAT-00712	RACH24L125	Main/feed lug wire range #4-2/0 **A**	40
EDH-EAT-00725	RACH24L3125	Main/feed lug wire range #6-2/0 **A**	40
EDH-EAT-00726	RACH30L3125	Main/feed lug wire range #4-#1 **A**	41

2.7 Equipment family identification key

Summary of every equipment family in the database: use era, voltage, main rating and the breaker types fitted to narrow down an unknown panel before looking up hardware. Values are the highest-confidence claim recorded; see the family sheet for evidence.

Family	Mfr	Type	Era	Voltage / mains	Branch breakers / features	Pg
BR	EAT	loadcenter	Made by Westinghouse's Bryant subsidiary, Bridgepo			24
CDP	EAT	panelboard	Westinghouse power panelboard; with FDP, encompass	Up to 600 V AC, 250 V DC (1957); 1600 A maximum	Original EB/EHB/FB/HFB/KA/KB/JA/JB/DA/LA/LB/LC/MA/MC/NB/NC frames; retrofit with Series C EHD..ND via KCDP kit	64
CH-BR-RETRO	EAT	other	Introduced as 'new' offering in undated Eaton Elec	240 V max class (loadcenter-based plug-on CH 3/4 in and BR 1; MLO 100-225 A; main breaker 60-225 A (XXX = amp rating); AIC	Type CH (3/4 in per pole, CH110-CH3100 etc.) or Type BR (1 in per pole, BR/BRH/BJ/BD/BQ/GFCB/GFEP)	31
CHA-PM4	EAT	panelboard			Challenger CA, CE?, CF, CJ, CK, CL, CM, CN frames (inferred from kit names CCA4K, CED*, CFD*, CJD*, CKD*, CLD*	91
CHP/CHB	EAT	panelboard			CHP: Type CH plug-on; CHB: Type CHB bolt-on	98
EE	EAT	panelboard		1200 A maximum	Plug-in modules for CC, CCH, CHH, FS, FH, FL, JS, JH, JL, KS, KH, LS, LH, LL, MS, MH, NS, NH breakers and 30-8	98
EP	EAT	panelboard		1200 A maximum	FS, FH, FL, CC, CCH, CHH (2X/3X), JS, JH, JL (3X), LSB, LHB, LLB, LC (6X), MS, MH, MC, HMC 800 A (6X/12X), NS,	99
ES	EAT	switchboard	Introduced 1991 by Cutler-Hammer as replacement fo	120-600 V; ES switchboard bus 600-4000 A; devices 15-4000 A; 10-200 kA		348
FDP	EAT	panelboard	Vintage Westinghouse	Up to 600 V AC, 250 V DC; 1600 A maximum	FDPW / FDPB fusible switches 30-1200 A (retrofit); breakers via 'picture frame' adapter (+2X); Measure vertical bus phase spacing: 3.50 in = kit-compatible; 4.25 in = no kits/parts	100
IFS	EAT	switchboard				348
MP100	EAT	panelboard	Shown on the Vol 12 time line together with MP40 (		M50 fusible switches	106
MP2	EAT	switchboard				349

Family	Mfr	Type	Era	Voltage / mains	Branch breakers / features	Pg
MP40	EAT	panelboard	Product History Time Line (V12-T4-3) places Cutler	1600 A maximum	Original branch types per Eaton chart: CC, CCH, CHH, EB, EHB, EC, EHC, FB, HFB, FC, HFC, FH, FS, JA, JB, JS, J	107
NAB	EAT	panelboard	NA1B ('NAIB - AB De-ion') listed in 1946 Westingho		E, EA, EAH, EH, FA, E-277 (replacement breaker REH; RHFA for FA)	113
NFB	EAT	panelboard			EB, EHB, EHC, EC, CA, CC, FB, HFB, FD, FC, FH, FS, HFC, CCH, CHH	114
NLAB	EAT	panelboard	Westinghouse panelboards manufactured between 1937	NLAB in 120/208 V 3-phase 4-wire and 120/240 V use (installa	NLAB: QC; NPLAB/NQP: QP (new breaker HQP); NQB: BA (new BAB); NQC: QC	114
NM/NMM	EAT	panelboard	Sold as NOFUZE Multibreaker panelboards in 1946 (N	NMIB: 115/240 V AC single-phase only; NMM: 115/230 V AC	Westinghouse Multibreaker (1946); typical combinations 15 A 1-pole lighting, 20 A 2-pole water heater, 35/50 A	115
PB	EAT	panelboard		400 A maximum	Cutler-Hammer CH (plug-on) and CHB (bolt-on) breakers	115
PH	EAT	panelboard		PH: 800 A main lug only or 600 A main breaker; PH-L: 225 A m	CH, CHB, CC, CCH, CHH, EB, EHB, EC, EHD, FC, FS, FH, FD	115
PRC	EAT	panelboard	Introduced March 1996	240 or 480Y/277 Vac; 400 A max MLO/main	Bolt-on breakers 225 A max incl. remote-operated breakers	116
PRL-LX	EAT	panelboard	PRL1a/2a-LX introduced December 1997	PRL1a-LX 240 Vac; PRL2a-LX 480Y/277 Vac, 125/250 Vdc; 225 A max MLO or main	Bolt-on breakers 15-30 A (a-LX per s7) / 15-100 A (X-LX per s6)	116
PRL-RETRO	EAT	panelboard				117
PRL1/PRL2	EAT	panelboard	Westinghouse panelboards manufactured after 1988 (	PRL1 240 V class (BAB); PRL2 480Y/277 (GHB) - inferred from ; 600 A maximum	PRL1: BAB-family QUICKLAG; PRL2: GHB-family (from replacement connector kits KPRL1BAB / KPRL2GHB)	117
PRL1A	EAT	panelboard	Introduced October 1996 (Cutler-Hammer); part of '	240 Vac maximum; Main lugs 100, 225, 400, 600 A; main breakers 100-600 A (MLO	Bolt-on QUICKLAG BAB/QBHW (incl. GF/AFCI/RP variants) or plug-on HQP/QPHW chassis, 15-100 A, 1-3 pole. Mains: ; Neutral bar in side gutter (Figure 1); same position as PRL1X/2X/2a	124
PRL1X	EAT	panelboard	Introduced 2020 (time line: May 2020)	240 Vac maximum; MLO 600 A max; main device 600 A max; sub-feed breaker 600 A	Bolt-on or plug-on QUICKLAG (BAB, QBHW, HQP, QPHW, GF/AF/EP variants) 15-100 A; mains/sub-feeds PDG2 (Power De	200
PRL2A	EAT	panelboard	Introduced October 1996	240 Vac or 480Y/277 Vac maximum; 250 Vdc. Not for 480 V delt; Main lugs 100, 225, 400 A (selection guide shows 600 A MLO/m	Bolt-on GHB (480Y/277 only), GHQ, HGHB, GHQRSP, GHBGFEP 15-100 A; mains GHB (horizontal), EHD, FDB, FD, HFD, F	216
PRL2X	EAT	panelboard	Introduced 2020	240 or 480Y/277 Vac; 125/250 Vdc; MLO 600 A; main breaker 600 A	Bolt-on GHB-family 15-100 A; mains PDG2/PDG3/GHB	217
PRL3	EAT	panelboard	Pre-1994 Westinghouse	240/480/600 V class (F-frame kits rated 240/480/600 V; ED ki; 600 A maximum (400 A max bus rating for subchassis)	EHD/FDB/FD/HFD/FDC twin-mounted (KPRL3FD), ED/EDH/EDC (KPRL3ED), CA/CAH/HCA (KPRL3CA); BAB space on subchassis	218
PRL3A	EAT	panelboard	Introduced March 1994	240, 480 or 600 Vac maximum; 250 Vdc; Main lugs 100, 250, 400, 600, 800 A; main breakers 100-600 A	Branch 15-225 A bolt-on: BAB/QBHW family and GHB family (on KPRL3ABA/KPRL3AGB 6-24 circuit kits), EHD/FDB/FD/H; Neutral located in main gutter (end), not side gutter (Figure 1)	220
PRL3E	EAT	panelboard	Shown in January 2018 and June 2020 catalogs	240, 480Y/277 or 480 Vac; 250 Vdc; MLO 100, 250, 400, 600 A; main breakers 100-600 A	EGB/EGS/EGH (E-frame) 15-125 A, 1-3 pole; mains EG (horizontal), EDB/EDS/ED/EDH/EDC, FD/HFD/FDC, DK/KD/HKD/KDC	267
PRL3FQS	EAT	panelboard				268

3 Eaton lineage

Lineage / brand markings: Eaton, Cutler-Hammer, Westinghouse (distribution products), Challenger, Bryant

Family	Type	Status	Era	Entries	Pg
BR Type BR loadcenter	loadcenter	current (Eaton Type BR)	Made by Westinghouse's Bryant subsidiary, Bridgeport CT, until 1989 (Westinghouse and Bryant nameplates); Westinghouse bought Challenger Electric 1988, redesigned the product and moved production to Jackson MS; from 1995 Eaton moved all loadcenter production to Lincoln IL	13	24
CH-BR-RETRO Eaton / Cutler-Hammer Type CH and Type BR panelboard retrofit kits (reuse of existing box)	other	Unknown whether still offered as standard kits; Eaton continues custom retrofit interiors via Flex Centers	Introduced as 'new' offering in undated Eaton Electrical guide (Eaton Electrical brand used c.2003-2008)	60	31
CDP Westinghouse CDP / HCDP distribution panelboard	panelboard	Obsolete; retrofit and connector kits available from Sumter Plant Aftermarket	Westinghouse power panelboard; with FDP, encompassed most Westinghouse MCCBs for more than 34 years (to 1988 redesign); Cutler-Hammer also built CDP under supply agreement	42	64
CHA-PM4 Challenger distribution panelboards (PM4a / PM4b)	panelboard	Obsolete (Challenger acquired by Westinghouse late 1980s/1994; Eaton from 1994); kits available as surplus	—	23	91
CHP/CHB Cutler-Hammer CHP / CHB lighting panelboards	panelboard	Out of production; connectors not available (note 2)	—	0	98
EE Cutler-Hammer Type EE plug-in power panelboard / switchboard	panelboard	Out of production; parts via RP01400003E	—	2	98
EP Cutler-Hammer Type EP plug-in power panelboard	panelboard	Out of production; parts via RP01400003E	—	0	99
FDP Westinghouse FDP fusible distribution panelboard	panelboard	Obsolete; switch retrofit/connector kits available	Vintage Westinghouse	29	100
MP100 Cutler-Hammer MP100 fusible distribution panelboard	panelboard	Out of production; parts from Sumter SC Aftermarket Center	Shown on the Vol 12 time line together with MP40 (MP40/MP100)	0	106
MP40 Cutler-Hammer MP40 distribution panelboard	panelboard	Out of production; supported by Eaton Aftermarket Center, Sumter SC (renewal parts RP01400003E)	Product History Time Line (V12-T4-3) places Cutler-Hammer MP40/MP100 between the CHP/CHB/NFB era and the 1988 Pow-R-Line redesign (exact start/end years not legible in text extraction)	12	107
NAB Westinghouse NAB / NA1B / NH1B / NDP / NEB panelboards	panelboard	discontinued; connectors not available; replacement panelboard PRL3a (NAB, NA1B, NDP, NEB, NHDP, NHEB, ABH) or PRL2a (NH1B); panelboard-only replacement breaker REH/RHFA	NA1B ('NAIB - AB De-ion') listed in 1946 Westinghouse NOFUZE catalog	0	113
NFB Cutler-Hammer NFB panelboard	panelboard	unknown	—	0	114

Family	Type	Status	Era	Entries	Pg
NLAB Westinghouse NLAB lighting panelboard	panelboard	discontinued; connectors not available; replace panelboard with PRL1a (NLAB, NPLAB, NQB, NQP, NQC), PRL1aLX (NLAB-LX), PRL3a (NLAB-AB/ABH)	Westinghouse panelboards manufactured between 1937 and 1988	1	114
NM/NMM Westinghouse NM / NMM / NMIB Multibreaker panelboards	panelboard	Obsolete; no Vol 12 replacement row found	Sold as NOFUZE Multibreaker panelboards in 1946 (NMIB 115/240 V single-phase only; NMM 115/230 V AC); Vol 12 time line lists 'Westinghouse NM/NMM' among the earliest types	0	115
PB Cutler-Hammer Type PB lighting panelboard	panelboard	Out of production; connectors not available (chart note 3)	—	0	115
PH Cutler-Hammer Type PH / PH-L panelboard	panelboard	Out of production; parts/retrofit kits via RP01400003E and Sumter Aftermarket Center	—	1	115
PRC Pow-R-Command lighting control panelboard	panelboard	Current (Pow-R-Command E series in 2020 catalog)	Introduced March 1996	22	116
PRL-LX Pow-R-Line column-type (PRL1a-LX, PRL2a-LX, PRL1X-LX, PRL2X-LX)	panelboard	Legacy (a) / current (X)	PRL1a/2a-LX introduced December 1997	0	116
PRL-RETRO Pow-R-Line Retrofit panelboards P1R / P2R (P1RL, P1RB, P2RL, P2RB)	panelboard	unknown	—	0	117
PRL1/PRL2 Westinghouse Pow-R-Line 1 / Pow-R-Line 2 (vintage)	panelboard	Obsolete; limited renewal parts (Sumter Aftermarket Center) per Feb 2013 guide	Westinghouse panelboards manufactured after 1988 (1988 redesign for Series C)	27	117
PRL1A Pow-R-Line 1a	panelboard	Legacy; renewal parts still listed April 2021. Superseded by PRL1X (Pow-R-Line Xpert, introduced 2020; time line shows PRL1X/2X/3X/4X from May 2020)	Introduced October 1996 (Cutler-Hammer); part of 'Pow-R-Line C' line introduced 1993	183	124
PRL1X Pow-R-Line Xpert 1X	panelboard	Current	Introduced 2020 (time line: May 2020)	170	200
PRL2A Pow-R-Line 2a	panelboard	Legacy; renewal parts listed April 2021; superseded by PRL2X	Introduced October 1996	179	216
PRL2X Pow-R-Line Xpert 2X	panelboard	Current	Introduced 2020	169	217
PRL3 Westinghouse Pow-R-Line 3 (vintage)	panelboard	Obsolete; limited renewal parts	Pre-1994 Westinghouse	15	218
PRL3A Pow-R-Line 3a	panelboard	Legacy; renewal parts listed April 2021; superseded by PRL3X. Deadfront/filler hardware changed for panels built after April 2019 (distributor wording)	Introduced March 1994	94	220
PRL3E Pow-R-Line 3E	panelboard	Current in June 2020 catalog	Shown in January 2018 and June 2020 catalogs	0	267
PRL3FQS Pow-R-Line 3FQS fusible (coordination) panelboard (ex Bussmann Quik-Spec Coordination Panelboard)	panelboard	unknown	—	95	268
PRL3X Pow-R-Line Xpert 3X	panelboard	Current	Introduced 2020	69	295
PRL4 Pow-R-Line 4 (PRL4B breaker / PRL4F fusible / PRL4D drawout)	panelboard	Legacy; renewal parts listed April 2021; superseded by PRL4X/PRL4DX (PRL4F continues in Xpert catalog)	PRL4B/F introduced October 1987	54	297

Family	Type	Status	Era	Entries	Pg
PRL4X Pow-R-Line Xpert 4X (incl. PRL4DX, PRL4F)	panelboard	Current	Introduced 2020	53	339
PRL5P Pow-R-Line 5P plug-on distribution panelboard	panelboard	Discontinued (dropped from 2021 renewal parts; in 2009 and 2017 editions)	Introduced August 1995	29	340
WEB Westinghouse WEB/WCA/WEHB/WFB/HWFB panelboards	panelboard	discontinued; replacement panelboard type PRL3a (WGB/WGHB -> PRL2a)	—	3	348
ES Cutler-Hammer Type ES switchboard	switchboard	discontinued (Vol 12 lists as legacy; new PRLC can connect via transition section)	Introduced 1991 by Cutler-Hammer as replacement for their version of WF/WRP; Mullenbach (1962) heritage; used exclusively Westinghouse MCCBs	0	348
IFS Integrated Facility System switchboard	switchboard	current (2018 consulting guide)	—	0	348
MP2 Cutler-Hammer MP2 / MP-200 group-mounted switchboard (distribution section)	switchboard	Out of production; renewal parts RP01400003E 'Renewal Parts Data for MP40 and MP-200'	—	11	349
PRLC Pow-R-Line C switchboard	switchboard	current (listed in April 2018 consulting guide)	Introduced late 1980s (1988) by Westinghouse as successor to WF/WRP; built in Sumter SC and Visalia CA; current Eaton product	0	349
PRLCS Pow-R-Line CS switchboard	switchboard	current (Canadian market; manual IB015002EN effective Nov 2021)	—	0	350
PRLXD Pow-R-Line XD switchboard	switchboard	unknown	—	0	350
PRLi Pow-R-Line i switchboard	switchboard	current (2018 consulting guide)	Evolved in 1991 from Asheville 'Pow-R-I' (itself from WRI); built in Sumter SC	0	350
WF/WRP Westinghouse WF/WRP switchboard	switchboard	discontinued (superseded by Pow-R-Line C)	Introduced 1955 by Westinghouse, St. Louis MO; design transferred 1988 to Sumter SC and Visalia CA as Pow-R-Line C	7	351

3.1 BR — Type BR loadcenter

FAM-EAT-026 · loadcenter · aka BR, Bryant BR, Challenger BR, Type BR · markings: Bryant, Challenger, Cutler-Hammer, Eaton, Westinghouse

1-in-per-pole plug-on residential/light-commercial loadcenter family with Westinghouse/Bryant/Challenger lineage. Vol 12 Tab 5 lists replacement main/subfeed lug blocks, filler plates, interlocks and handle accessories.

Attribute	Value	Cl.	Sources
Status	current (Eaton Type BR)	A	S20 p. V12-T5-2; oem_spec
Era of manufacture	Made by Westinghouse's Bryant subsidiary, Bridgeport CT, until 1989 (Westinghouse and Bryant nameplates); Westinghouse bought Challenger Electric 1988, redesigned the product and moved production to Jackson MS; from 1995 Eaton moved all loadcenter production to Lincoln IL	A	same as above

Breaker families associated: BR

3.2 CH-BR-RETRO — Eaton / Cutler-Hammer Type CH and Type BR panelboard retrofit kits (reuse of existing box)

FAM-EAT-027 · other · aka Retro Size A-E, RA/RB/RC/RD/RE/RAA retrofit kits, Lincoln Flex Center retrofit · markings: Cutler-Hammer, Eaton

Eaton/Cutler-Hammer standardized retrofit kits for re-using an existing (any-manufacturer, e.g. FPE or Zinsco) flush panel box: a cover assembly (field-drilled picture frame + trim) and a field-adjustable interior assembly with riser accommodating 4-6 in box depth (3.5-5.25 in for size AA). Kits are selected by existing box height into Retro Size groups A (21-30 in, cover 33x24), B (29-36, 40x24), C (34-41, 43x24), D (37-45, 47x24), E (45-54, 56x24), plus AA for boxes 14.5-20.5 in high (covers 19x13 or 21x16). Interiors are 'UL recognized under UL67'; whether the installed assembly in a foreign box is listed is debated (forum), so AHJ/field evaluation may be required. Hosted by InspectAPedia as an FPE Stab-Lok replacement option.

Attribute	Value	Cl.	Sources
Status	Unknown whether still offered as standard kits; Eaton continues custom retrofit interiors via Flex Centers	D	S162, S148 inference
Era of manufacture	Introduced as 'new' offering in undated Eaton Electrical guide (Eaton Electrical brand used c.2003-2008)	D	S162 inference
Voltage rating	240 V max class (loadcenter-based plug-on CH 3/4 in and BR 1 in breakers); 120/240 1-ph and 240 V 3-ph	A	S162 pp. 1, 3-4; oem_spec
Main ampacity	MLO 100-225 A; main breaker 60-225 A (XXX = amp rating); AIC options 10K/22K/25K/35K/100K	A	S162 pp. 6-10, charts 1-11; oem_spec
Branch breakers accepted	Type CH (3/4 in per pole, CH110-CH3100 etc.) or Type BR (1 in per pole, BR/BRH/BJ/BD/BQ/GFCB/GFEP)	A	S162 pp. 3-4; oem_spec
Box range	Standard kits A-E: box widths 14.5-22 in, depths 4 in (BR) / 4.25 in (CH) to 6 in, heights 21-45 in (54 in for E)	A	S162 p. 5; oem_spec
Bus	CH 3-ph and SFL: copper bus with tin-plated copper stabs; CH 1-ph: one-piece copper bus; BR: tin-plated aluminum bus	A	S162 pp. 3-4; oem_spec
Listing debate	Components listed but field assembly into existing box may need field evaluation per AHJ	D	S163 inference

Key documents: S148 Retrofit kit for Federal Pacific (forum thread); S162 Eaton Electrical Launches New Options for Upgrading Existing Panelboards - Retrofit Kits (; S163 Eaton's retrofit panel assemblies are not UL listed (forum thread) and related threads

Cutler-Hammer compact BR retrofit kit RAABR10BXXX

OEM part number	RAABR10BXXX	**A**	S162 p. 10, Selection Chart 11; oem_spec
Description	Compact Type BR retrofit kit (Retro Size AA), main breaker, 10 spaces / 20 circuits, #6-1/0 wire, cover 19 x 13 in	**A**	same as above
Application	main breaker	**A**	same as above
Breaker compatibility	Cutler-Hammer Type BR	**A**	same as above
Current rating	60-125 A	**A**	same as above
Kit contents	Picture frame + trim cover assembly; interior with field-adjustable riser (3.5-5.25 in depth)	**A**	same as above
Dimensions	For existing boxes 10.5-15.5 in W, 3.5-5.25 in D, 14.5-20.5 in H; cover 19 x 13 in; trim protrudes 1/2 in from drywall	**A**	same as above
Status	unknown	**D**	S162 inference
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Mounting-hole pattern, Material, Torque values

Cutler-Hammer BR retrofit kit RABR12B3XXX

OEM part number	RABR12B3XXX (XXX = main breaker amp rating)	A	S162 p. 9, Selection Chart 9; oem_spec
Description	Type BR retrofit kit, 3-ph 240, main breaker, 12 circuits, Retro Size A: cover assembly (picture frame + trim) and field-adjustable interior with riser	A	same as above
Application	main breaker	A	same as above
Installation location	Installed inside an existing (any manufacturer, e.g., FPE Stab-Lok or Zinsco) flush panel box after removing old interior	B	S162 oem_spec
Breaker compatibility	Cutler-Hammer Type BR (1 in per pole) plug-on branch breakers incl. BJ/BD/BQ/GFCB/GFEP	A	S162 p. 3-4; oem_spec
Voltage rating	3-ph 240	A	S162 p. 9, Selection Chart 9; oem_spec
Current rating	60-100 A, 10K AIC	A	same as above
Kit contents	Cover assembly (picture frame drilled in field to existing box flange + trim) and interior assembly with field-adjustable riser (existing box drilled to mount riser)	A	S162 p. 2; oem_spec
Material	Tin-plated aluminum bus	A	S162 pp. 3-4; oem_spec
Dimensions	Fits existing box height 21-30 in; retro cover 33 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 9, Selection Chart 9; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range #4-1/0	A	S162 p. 9, Selection Chart 9; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values		
Open question	*Still orderable from Eaton (Lincoln NE Flex Center) and current catalog numbers?*

Kit contents	Cover assembly (picture frame drilled in field to existing box flange + trim) and interior assembly with field-adjustable riser (existing box drilled to mount riser)	A	S162 p. 2; oem_spec
Material	CH 3-ph/SFL: copper bus, tin-plated copper stabs; CH 1-ph: one-piece copper bus	A	S162 pp. 3-4; oem_spec
Dimensions	Fits existing box height 21-30 in; retro cover 33 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 7, Selection Chart 4; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range #2-1/0	A	S162 p. 7, Selection Chart 4; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values		
Open question	*Still orderable from Eaton (Lincoln NE Flex Center) and current catalog numbers?*		

EDH-EAT-00706	RACH22BXXX	Cutler-Hammer	conversion-kit	UNKNOWN

Cutler-Hammer CH retrofit kit RACH22BXXX

OEM part number	RACH22BXXX (XXX = main breaker amp rating)	A	S162 p. 6, Selection Chart 1; oem_spec
Description	Type CH retrofit kit, 1-ph 120/240, main breaker, 22 circuits, Retro Size A: cover assembly (picture frame + trim) and field-adjustable interior with riser	A	same as above
Application	main breaker	A	same as above
Installation location	Installed inside an existing (any manufacturer, e.g., FPE Stab-Lok or Zinsco) flush panel box after removing old interior	B	S162 oem_spec
Breaker compatibility	Cutler-Hammer Type CH (3/4 in per pole) plug-on branch breakers	A	S162 p. 3-4; oem_spec
Voltage rating	1-ph 120/240	A	S162 p. 6, Selection Chart 1; oem_spec
Current rating	60-125 A, 10K AIC	A	same as above
Kit contents	Cover assembly (picture frame drilled in field to existing box flange + trim) and interior assembly with field-adjustable riser (existing box drilled to mount riser)	A	S162 p. 2; oem_spec
Material	CH 3-ph/SFL: copper bus, tin-plated copper stabs; CH 1-ph: one-piece copper bus	A	S162 pp. 3-4; oem_spec
Dimensions	Fits existing box height 21-30 in; retro cover 33 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 6, Selection Chart 1; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range #2-1/0	A	S162 p. 6, Selection Chart 1; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values		
Open question	*Still orderable from Eaton (Lincoln NE Flex Center) and current catalog numbers?*

Kit contents	Cover assembly (picture frame drilled in field to existing box flange + trim) and interior assembly with field-adjustable riser (existing box drilled to mount riser)	A	S162 p. 2; oem_spec
Material	CH 3-ph/SFL: copper bus, tin-plated copper stabs; CH 1-ph: one-piece copper bus	A	S162 pp. 3-4; oem_spec
Dimensions	Fits existing box height 29-30 in (#2-250 kcmil) / 30.5-36 in (#2-300 kcmil); retro cover 40 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 6, Selection Chart 1; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range #2-300 kcmil	A	S162 p. 6, Selection Chart 1; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values		
Open question	*Still orderable from Eaton (Lincoln NE Flex Center) and current catalog numbers?*		

EDH-EAT-00718	RBCH24D225	Cutler-Hammer	conversion-kit	UNKNOWN

Cutler-Hammer CH retrofit kit RBCH24D225

OEM part number	RBCH24D225	A	S162 p. 6, Selection Chart 3; oem_spec
Description	Type CH retrofit kit, 1-ph 120/240, sub-feed lugs, 24 circuits, Retro Size B: cover assembly (picture frame + trim) and field-adjustable interior with riser	A	same as above
Application	sub-feed lugs	A	same as above
Installation location	Installed inside an existing (any manufacturer, e.g., FPE Stab-Lok or Zinsco) flush panel box after removing old interior	B	S162 oem_spec
Breaker compatibility	Cutler-Hammer Type CH (3/4 in per pole) plug-on branch breakers	A	S162 p. 3-4; oem_spec
Voltage rating	1-ph 120/240	A	S162 p. 6, Selection Chart 3; oem_spec
Current rating	225 A	A	same as above
Kit contents	Cover assembly (picture frame drilled in field to existing box flange + trim) and interior assembly with field-adjustable riser (existing box drilled to mount riser)	A	S162 p. 2; oem_spec
Material	CH 3-ph/SFL: copper bus, tin-plated copper stabs; CH 1-ph: one-piece copper bus	A	S162 pp. 3-4; oem_spec
Dimensions	Fits existing box height 29-36 in; retro cover 40 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 6, Selection Chart 3; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range #6-300 kcmil	A	S162 p. 6, Selection Chart 3; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values		
Open question	*Still orderable from Eaton (Lincoln NE Flex Center) and current catalog numbers?*

Dimensions	Fits existing box height 34-36.5 in / 37-41 in; retro cover 43 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 8, Selection Chart 8; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range #1-300 kcmil	A	S162 p. 8, Selection Chart 8; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values		
Open question	*Still orderable from Eaton (Lincoln NE Flex Center) and current catalog numbers?*		

EDH-EAT-00735	RCCH30D3225	Cutler-Hammer	conversion-kit	UNKNOWN

Cutler-Hammer CH retrofit kit RCCH30D3225

OEM part number	RCCH30D3225	A	S162 p. 7, Selection Chart 6; oem_spec
Description	Type CH retrofit kit, 3-ph 240, sub-feed lugs, 30 circuits, Retro Size C: cover assembly (picture frame + trim) and field-adjustable interior with riser	A	same as above
Application	sub-feed lugs	A	same as above
Installation location	Installed inside an existing (any manufacturer, e.g., FPE Stab-Lok or Zinsco) flush panel box after removing old interior	B	S162 oem_spec
Breaker compatibility	Cutler-Hammer Type CH (3/4 in per pole) plug-on branch breakers	A	S162 p. 3-4; oem_spec
Voltage rating	3-ph 240	A	S162 p. 7, Selection Chart 6; oem_spec
Current rating	225 A	A	same as above
Kit contents	Cover assembly (picture frame drilled in field to existing box flange + trim) and interior assembly with field-adjustable riser (existing box drilled to mount riser)	A	S162 p. 2; oem_spec
Material	CH 3-ph/SFL: copper bus, tin-plated copper stabs; CH 1-ph: one-piece copper bus	A	S162 pp. 3-4; oem_spec
Dimensions	Fits existing box height 34-41 in; retro cover 43 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 7, Selection Chart 6; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range #6-300 kcmil	A	S162 p. 7, Selection Chart 6; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values		
Open question	*Still orderable from Eaton (Lincoln NE Flex Center) and current catalog numbers?*

Cutler-Hammer CH retrofit kit RDCH42H3XXX

OEM part number	RDCH42H3XXX (XXX = main breaker amp rating)	A	S162 p. 7, Selection Chart 4; oem_spec
Description	Type CH retrofit kit, 3-ph 240, main breaker, 42 circuits, Retro Size D: cover assembly (picture frame + trim) and field-adjustable interior with riser	A	same as above
Application	main breaker	A	same as above
Installation location	Installed inside an existing (any manufacturer, e.g., FPE Stab-Lok or Zinsco) flush panel box after removing old interior	B	S162 oem_spec
Breaker compatibility	Cutler-Hammer Type CH (3/4 in per pole) plug-on branch breakers	A	S162 p. 3-4; oem_spec
Voltage rating	3-ph 240	A	S162 p. 7, Selection Chart 4; oem_spec
Current rating	100-225 A, 100K AIC	A	same as above
Kit contents	Cover assembly (picture frame drilled in field to existing box flange + trim) and interior assembly with field-adjustable riser (existing box drilled to mount riser)	A	S162 p. 2; oem_spec
Material	CH 3-ph/SFL: copper bus, tin-plated copper stabs; CH 1-ph: one-piece copper bus	A	S162 pp. 3-4; oem_spec
Dimensions	Fits existing box height 37-38.5 in (2/0-250) / 39-45 in (2/0-300); retro cover 47 x 24 in (HxW); depth adjustable 4-6 in	A	S162 p. 7, Selection Chart 4; p. 2,5; oem_spec
Status	unknown	D	S162 inference
Identification features	Main/feed lug wire range 2/0-300 kcmil	A	S162 p. 7, Selection Chart 4; oem_spec
Cross-links	Families: CH-BR-RETRO		
Not yet documented	Fasteners, Finish / plating, Mounting-hole pattern, Torque values

3.3 CDP — Westinghouse CDP / HCDP distribution panelboard

FAM-EAT-013 · panelboard · aka CDP, CDP/HCDP, CPD, Cutler-Hammer CDP, HCDP, Westinghouse CDP · markings: Cutler-Hammer, Westinghouse

Westinghouse distribution panelboard in 30-50 in wide boxes with chassis rails and vertical chassis bus, 3.50 in phase-to-phase bus centre-lines (switch kits). Series C retrofit kits (KCDP+breaker catalog no.) use same X space as original breakers; KD onto LB connectors requires TAD3 adapter.

Westinghouse distribution (circuit-breaker) panelboard on a chassis with vertical phase busbars at 3.50 in centers and mounting rails 19.50 in apart; X unit = 1.38 in. Boxes 30, 38, 42, 48 and 50 in wide; neutral in side gutter. Branch breakers mount on breaker mounting brackets with copper connectors to the chassis bus; unused space closed by filler covers (KCDP_X). Sumter supplies KCDP connector kits (connectors+brackets+covers+hardware), KCDP retrofit kits (breaker + connector kit) and -H hardware-only kits. Older 'LB' style connectors accept Series C K-frame with TAD3 adapter.

Evidence-only record for the existing Westinghouse CDP family. 1957 Westinghouse literature: CDP distribution panelboard uses E-M frame AB De-ion breakers 15-800 A with screw-driver convertibility; Vol 12 also lists a Cutler-Hammer-branded CDP on the time line and in the Cutler-Hammer replacement chart (E/EA/EH -> REH; EB/EHB -> EHD; F/FA/HF/HFA -> RHF/RHFA; up to N-frame -> ND), noting 'not rated for 100% rated breakers'. A 1946 Westinghouse 'AB De-ion Convertible' distribution panel is a plausible predecessor (unverified).

Attribute	Value	Cl.	Sources

Westinghouse FDP switch connector kit KFDP4XT

OEM part number	KFDP4XT	A	S5, S14, S15 p.18 Table 21; oem_spec
Description	FDPW/FDPB switch connector kit for vintage Westinghouse FDP panelboards/switchboards: FDPWT 30-30, 60-60, 100-100 A (240 V) / 30-30, 60-60 A (600 V) twin switch	A	S5 p.18; oem_spec
	FDPW/FDPB switch connector kit: copper connectors, extension wings (when required), mounting brackets, covers, hardware and instructions to mount one switch on an FDP panel chassis (switch not included)	A	S14 p. 18; oem_spec

Application	branch	A	same as above
Installation location	Vintage Westinghouse FDP panelboards and switchboards; vertical bus bars must be 3.50 in phase-to-phase (not 4.25 in)	A	S14 p. 17; oem_spec
Breaker compatibility	FDPWT 30-30, 60-60, 100-100 A (240 V) / 30-30, 60-60 A (600 V) twin switch; requires vertical bus 3.50 in phase-to-phase (will not fit 4.25 in spacing)	A	S5 pp.17-18; oem_spec
	Three-pole switch: 30, 60 A (240/600 V) and 100 A (240 V) FDPWT twin switches: FDPWT3211R, FDPWT3611R, FDPWT3222R, FDPWT3622R, FDPWT3233R	A	S14 p. 18 Table 21; oem_spec
Poles	3	A	S14 p. 18; oem_spec
Kit contents	Copper connectors, extension wings (when required), mounting brackets, covers, hardware and instructions	A	S5 p.18; oem_spec
Dimensions	4X space	A	S5 oem_spec
	Occupies 5.50 in (139.7 mm) = 4X	A	S14 p. 18 Table 21; oem_spec
Status	Listed Feb 2013	A	S5 oem_spec
	listed 2013	B	S14, S15 p. 18; oem_spec
Cross-links	Families: CDP, FDP, WF/WRP		
Not yet documented	Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		
Open question	*Are these kits also the 'connector kits for WF and WRP distribution sections' mentioned on p.20?*		

EDH-EAT-00367 **KFDP5XT** Westinghouse branch-connector-kit **LISTED FEB 2013**

Westinghouse FDP switch connector kit KFDP5XT

OEM part number	KFDP5XT	A	S5, S14, S15 p.18 Table 21; oem_spec
Description	FDPW/FDPB switch connector kit for vintage Westinghouse FDP panelboards/switchboards: FDPWT3633R 600 V 100-100 A twin switch	A	S5 p.18; oem_spec
	FDPW/FDPB switch connector kit: copper connectors, extension wings (when required), mounting brackets, covers, hardware and instructions to mount one switch on an FDP panel chassis (switch not included)	A	S14 p. 18; oem_spec
Application	branch	A	same as above
Installation location	Vintage Westinghouse FDP panelboards and switchboards; vertical bus bars must be 3.50 in phase-to-phase (not 4.25 in)	A	S14 p. 17; oem_spec
Breaker compatibility	FDPWT3633R 600 V 100-100 A twin switch; requires vertical bus 3.50 in phase-to-phase (will not fit 4.25 in spacing)	A	S5 pp.17-18; oem_spec
	Three-pole switch: 100 A 600 V FDPWT3633R	A	S14 p. 18 Table 21; oem_spec
Poles	3	A	S14 p. 18; oem_spec
Kit contents	Copper connectors, extension wings (when required), mounting brackets, covers, hardware and instructions	A	S5 p.18; oem_spec
Dimensions	5X space	A	S5 oem_spec
	Occupies 6.88 in (174.8 mm) = 5X	A	S14 p. 18 Table 21; oem_spec
Status	Listed Feb 2013	A	S5 oem_spec
	listed 2013	B	S14, S15 p. 18; oem_spec
Cross-links	Families: CDP, FDP, WF/WRP		
Not yet documented	Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		
Open question	*Are these kits also the 'connector kits for WF and WRP distribution sections' mentioned on p.20?*

Westinghouse CDP breaker connector kit KCDPCA (CA...)

OEM part number	KCDPCA	A	S5, S14, S15 p.14 Table 19; oem_spec
Description	CDP panelboard breaker connector kit for CA, CAH, HCA 3-pole	A	S5 p.14; oem_spec
	CDP breaker connector kit: copper connectors, mounting brackets, covers, hardware and instructions for mounting breaker(s) on a CDP chassis (breaker not included)	A	S14 p. 14; oem_spec
Application	branch	A	same as above

Installation location	Mounting: Twin; CDP chassis	A	S5 oem_spec
	CDP/HCDP panelboard chassis branch position, bolted to vertical chassis bus (3.50 in phase centers); twin mounting	A	S14 pp. 10, 14, 17; oem_spec
Breaker compatibility	CA, CAH, HCA 3-pole	A	S5 p.14 Table 19; oem_spec
	CA, CAH, HCA	A	S14 p. 14 Table 19; oem_spec
Poles	3	A	same as above
Current rating	225 A frame	A	S14 pp. 12-14; oem_spec
Kit contents	Copper connectors, mounting brackets, covers, hardware and instructions; '-H' suffix = hardware only (mounting brackets, filler plates, hardware), e.g. KCDPFB100-H	A	S5 p.14; oem_spec
	Copper connectors, mounting brackets, covers, hardware, instructions	A	S14 p. 14; oem_spec
Dimensions	3X space (1X = 1.38 in)	A	S5 oem_spec
	Occupies 4.13 in (104.9 mm) = 3X of CDP chassis height (Twin mounting)	A	S14 p. 14 Table 19; oem_spec
Status	Listed Feb 2013 (Sumter Plant Aftermarket Center)	A	S5 oem_spec
	available from Sumter Aftermarket Center per 2013 renewal parts data; current availability unverified	B	S14, S15 pp. 14, 20; oem_spec
Replacement / successor	Order KCDP retrofit kit (breaker + connector kit) or add '-H' for hardware-only (brackets, filler plates, hardware)	A	S14 pp. 12, 14; oem_spec
Cross-links	Families: CDP · Breakers: CA/CAH/HCA 225 A frame, Westinghouse pre-Series C industrial MCCBs, CA		
Not yet documented	Aftermarket / reproduction, Fasteners, Finish / plating, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		
Open question	*Are CDP connectors silver- or tin-plated copper?*		
Open question	*What instruction leaflet number ships with the kit?*		

EDH-EAT-00341	KCDPED225	Westinghouse	breaker-mounting-kit	LISTED FEB 2013 (SUMTE

Westinghouse CDP breaker connector kit KCDPED225 (FD...)

OEM part number	KCDPED225	A	S5, S14, S15 p.14 Table 19; oem_spec
Description	CDP panelboard breaker connector kit for FD, FDB, HFD, FDC, ED, EDH, EDC 3-pole	A	S5 p.14; oem_spec
	CDP breaker connector kit: copper connectors, mounting brackets, covers, hardware and instructions for mounting breaker(s) on a CDP chassis (breaker not included)	A	S14 p. 14; oem_spec
Application	branch	A	same as above
Installation location	Mounting: Twin; CDP chassis	A	S5 oem_spec
	CDP/HCDP panelboard chassis branch position, bolted to vertical chassis bus (3.50 in phase centers); twin mounting	A	S14 pp. 10, 14, 17; oem_spec
Breaker compatibility	FD, FDB, HFD, FDC, ED, EDH, EDC 3-pole	A	S5 p.14 Table 19; oem_spec

CDP Series C MDL breaker retrofit kit (replaces Westinghouse MA, HMA)

OEM part number	KCDPMDL	A	S5 p.13 Table 18; p.12 Tables 16-17; oem_spec
	KCDPMDL (base); full catalog number appends poles and ampere rating, e.g. KCDPKD3400 = 3-pole 400 A KD	A	S14 pp. 12-13 Tables 17-18; oem_spec
Alternate / superseded numbers	Westinghouse MA, HMA breaker (existing breaker superseded by this Series C retrofit)	A	S14 supersedes; p. 13 Table 18; oem_spec
Description	Retrofit kit: one Series C MDL breaker plus copper connectors, mounting brackets, covers, hardware and instructions for a CDP chassis. Full catalog number = KCDP + breaker catalog number (e.g. KCDPKD3400 = 3-pole 400 A KD); one breaker per kit even for twin mounting	A	S5 p.12; oem_spec
	CDP retrofit kit: one Series C MDL breaker plus copper connectors, mounting brackets, covers, hardware and instructions; uses the same X space as the older breaker so no extra filler covers are needed	A	S14 pp. 12-13; oem_spec
Application	branch	A	S14 p. 12; oem_spec
Breaker compatibility	Replaces existing Westinghouse MA, HMA (125-800 A), MC (400-800 A); Series C frame uses the same X space as the older breaker (no filler covers needed)	A	S5 p.13 Table 18; oem_spec
	Replaces existing Westinghouse MA, HMA (125-800 A), MC (400-800 A) with Series C MDL	A	S14 p. 13 Table 18; oem_spec
Kit contents	One breaker only (second breaker for twin mounting ordered separately), copper connectors, mounting brackets, covers, hardware, instructions	A	S14 p. 12; oem_spec
Status	Listed Feb 2013 (Sumter Plant Aftermarket Center)	A	S5 oem_spec
	listed in 2013 renewal parts data; order via Sumter (enter catalog number, list price, multiplier, location Q49/SUM)	B	S14, S15 pp. 2, 12; oem_spec
Cross-links	Families: CDP · Breakers: Series C M-frame (MDL/HMDL, CMDL/CHMDL; MC/HMC; MDS), Westinghouse pre-Series C industrial MCCBs, MA, MC, MDL		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		
Open question	*Does a twin-mount retrofit kit for the second breaker include connectors again or breaker only?*		

EDH-EAT-00364	KCDPND	Westinghouse	conversion-kit	LISTED FEB 2013 (SUMTE

CDP Series C ND breaker retrofit kit (replaces Westinghouse NB, HNB)

OEM part number	KCDPND	A	S5 p.13 Table 18; p.12 Tables 16-17; oem_spec
	KCDPND (base); full catalog number appends poles and ampere rating, e.g. KCDPKD3400 = 3-pole 400 A KD	A	S14 pp. 12-13 Tables 17-18; oem_spec
Alternate / superseded numbers	Westinghouse NB, HNB breaker (existing breaker superseded by this Series C retrofit)	A	S14 supersedes; p. 13 Table 18; oem_spec
Description	Retrofit kit: one Series C ND breaker plus copper connectors, mounting brackets, covers, hardware and instructions for a CDP chassis. Full catalog number = KCDP + breaker catalog number (e.g. KCDPKD3400 = 3-pole 400 A KD); one breaker per kit even for twin mounting	A	S5 p.12; oem_spec
	CDP retrofit kit: one Series C ND breaker plus copper connectors, mounting brackets, covers, hardware and instructions; uses the same X space as the older breaker so no extra filler covers are needed	A	S14 pp. 12-13; oem_spec
Application	branch	A	S14 p. 12; oem_spec
Breaker compatibility	Replaces existing Westinghouse NB, HNB (700-1200 A), NC, HNC (600-1200 A); Series C frame uses the same X space as the older breaker (no filler covers needed)	A	S5 p.13 Table 18; oem_spec
	Replaces existing Westinghouse NB, HNB (700-1200 A), NC, HNC (600-1200 A) with Series C ND	A	S14 p. 13 Table 18; oem_spec
Kit contents	One breaker only (second breaker for twin mounting ordered separately), copper connectors, mounting brackets, covers, hardware, instructions	A	S14 p. 12; oem_spec
Status	Listed Feb 2013 (Sumter Plant Aftermarket Center)	A	S5 oem_spec
	listed in 2013 renewal parts data; order via Sumter (enter catalog number, list price, multiplier, location Q49/SUM)	B	S14, S15 pp. 2, 12; oem_spec
Cross-links	Families: CDP · Breakers: Series C N-frame (ND/HND/NDC, CND/CHND/CNDC; NGS/NGH/NGC; NHH; NC/HNC), Westinghouse pre-Series C industrial MCCBs, NB, NC, ND		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		
Open question	*Does a twin-mount retrofit kit for the second breaker include connectors again or breaker only?*		

3.4 CHA-PM4 — Challenger distribution panelboards (PM4a / PM4b)

FAM-EAT-028 · panelboard · aka PM4a, PM4b, Challenger panelboard · markings: Challenger

Challenger Electrical Equipment (formed c.1981 from GTE-Sylvania's distribution business, Jackson MS) built distribution panelboards annotated 'PM4a' and 'PM4b' in relectric's catalogue. Mounting kits follow the pattern C<frame>D<n>K (twin) / C<frame>DS<n>K (single), with 'B' variants (e.g., CED4BK) annotated PM4b. Eaton-numbered KPRL4C*/KPRL4AC*/KPRL4BC* kits appear to adapt Challenger breakers into Pow-R-Line 4 style interiors. Coded EAT per lineage table.

Attribute	Value	Cl.	Sources
Status	Obsolete (Challenger acquired by Westinghouse late 1980s/1994; Eaton from 1994); kits available as surplus	C	S166, S156, S151 surplus
Branch breakers accepted	Challenger CA, CE?, CF, CJ, CK, CL, CM, CN frames (inferred from kit names CCA4K, CED*, CFD*, CJD*, CKD*, CLD*, CMD4K 800 A, CND4K 1200 A)	D	S166 inference

Breaker families associated: Sylvania S-series bolt-on breakers (SE / SEH / SF / SJD / SJK / SKM)
Key documents: S151 Zinsco; S156 Challenger / GTE / Zinsco ownership discussion; S166 Challenger Breaker Parts & Accessories Catalog

3.5 CHP/CHB — Cutler-Hammer CHP / CHB lighting panelboards

FAM-EAT-036 · panelboard · aka CHP, CHB panelboard, CH lighting panel · markings: Cutler-Hammer

Cutler-Hammer lighting panelboards named for their CH plug-on (CHP) or CHB bolt-on branch breakers; listed on the Vol 12 time line as 'Cutler-Hammer CHP/CHB' and illustrated as 'Cutler-Hammer CHB'. Replacement is a PRL1a interior that still accepts CH/CHB.

Attribute	Value	Cl.	Sources
Status	Out of production; connectors not available (note 2)	A	S13 V12-T4-4; oem_spec
Successor	Pow-R-Line 1a with CH (CHP) or CHB (CHB) breakers	A	same as above
Branch breakers accepted	CHP: Type CH plug-on; CHB: Type CHB bolt-on	A	same as above

Breaker families associated: Cutler-Hammer CH / CHB

3.6 EE — Cutler-Hammer Type EE plug-in power panelboard / switchboard

FAM-EAT-034 · panelboard · aka Type EE · markings: Cutler-Hammer

Cutler-Hammer plug-in power panelboard (Eaton chart heading 'Plug-In Power Panelboards and Switchboards'). Double-bus 42/48 in wide interiors with 10 in gutters, neutral at top (may be at bottom) taking no X space; main device must be at neutral end of a double-bus panel. Mixes breaker modules and fusible switch units (30 A to 800 A) and 600-1200 A lug units. Successor is PRL5P.

Attribute	Value	Cl.	Sources
Status	Out of production; parts via RP01400003E	A	S13 V12-T4-13; oem_spec
Successor	Pow-R-Line 5P (PRL5P); FS->FD, FH->HFD, FL->FDC, JS->JD, JH->HJD, JL->JDC, KS->KD, KH->HKD, LS->LD, LH->HLD, LL->LDC, MS->MDL, NS->ND	A	S13 V12-T4-6; oem_spec
Main ampacity	1200 A maximum	A	S13 V12-T4-13; oem_spec
Branch breakers accepted	Plug-in modules for CC, CCH, CHH, FS, FH, FL, JS, JH, JL, KS, KH, LS, LH, LL, MS, MH, NS, NH breakers and 30-800 A fusible branch switches (240 V R&T fuse, 600 V T fuse)	A	same as above
Dimensions	42 in and 48 in wide double-bus interiors; 10 in gutters; 7 in side spaces; X = 1.38 in; some units usable in 30.00 in wide single-bus interiors	A	same as above
Neutral location	Neutral at top, no X space (may be at bottom)	A	same as above

Breaker families associated: Cutler-Hammer CC / CCH / CHH

3.8 FDP — Westinghouse FDP fusible distribution panelboard

FAM-EAT-014 · panelboard · aka FDP, Westinghouse FDP · markings: Westinghouse

Westinghouse fusible distribution panelboard (30-50 in wide). FDPW/FDPB switch connector kits KFDP* require 3.50 in bus spacing.

Westinghouse fusible distribution panelboard sharing CDP chassis geometry (3.50 in phase centers, 19.50 in rails). FDPW/FDPB switch connector kits fit only 3.50 in bus spacing; if bus spacing is 4.25 in no parts are available. Circuit breakers can be added to an FDP via a 'picture frame' transition (+2X).

Evidence-only record for the existing FDP family: 1957 ratings, and Eaton note that FDP retrofit kits fit only 3.50 in phase-to-phase vertical bus spacing - at 4.25 in spacing 'these retrofit kits will not fit and no parts are available'; 400-1200 A FDP connectors are not compatible with FDPW switches.

Attribute	Value	Cl.	Sources

3.9 MP100 — Cutler-Hammer MP100 fusible distribution panelboard

FAM-EAT-030 · panelboard · aka MP-100 · markings: Cutler-Hammer

Cutler-Hammer fusible-switch counterpart of MP40 using M50 fusible switch units. Eaton lists MP100 fusible switch kits (one 3-pole single or twin switch + connector kit + hardware + instructions, fuses not included) that also add devices to MP2 group-mounted switchboards. Trim locks for MP100, MP2 and M50 appear in RP01400003E (per search snippet).

Attribute	Value	Cl.	Sources

3.10 MP40 — Cutler-Hammer MP40 distribution panelboard

FAM-EAT-029 · panelboard · aka MP-40, MP 40, MP50 (dealer usage) · markings: Cutler-Hammer

Original Cutler-Hammer distribution (circuit-breaker) panelboard built after Cutler-Hammer entered the panelboard business (1962 Mullenbach purchase) and designed/listed for Westinghouse breakers under a supply agreement. Chassis uses 1.38 in X units, 26 in wide (30/38 in boxes in layout), 5 in side gutters, 6.50 in top/bottom gutters up to 400 A (12.0 in for 600-1600 A); standard box depth 10.50 in, 11.38 in for NC/HNC. Branch kits (MP40K-series) add a breaker with connectors, device cover and hardware; Eaton says MP40 kits also fit MP2 group-mounted switchboards, Cutler-Hammer-labelled CDP panelboards and 26.5-36 in wide NFB panelboards.

Attribute	Value	Cl.	Sources
Status	Out of production; supported by Eaton Aftermarket Center, Sumter SC (renewal parts RP01400003E)	A	S13, S248 V12-T4-12; oem_spec
Era of manufacture	Product History Time Line (V12-T4-3) places Cutler-Hammer MP40/MP100 between the CHP/CHB/NFB era and the 1988 Pow-R-Line redesign (exact start/end years not legible in text extraction) (Time-line bars are graphical; years not extractable. Cutler-Hammer entered panelboards in 1962 via Mullenbach (V12-T4-2).)	B	S13 V12-T4-3; oem_spec
Successor	Pow-R-Line 4B (PRL4B); replacement chart maps MP40 branch breakers to PRL4B breakers	A	S13 V12-T4-5; oem_spec
Main ampacity	1600 A maximum	A	S13 V12-T4-12; oem_spec
Branch breakers accepted	Original branch types per Eaton chart: CC, CCH, CHH, EB, EHB, EC, EHC, FB, HFB, FC, HFC, FH, FS, JA, JB, JS, JH, JL, KA, KB, HKB, KS-D, KH-D, DA, LA, HLA, LAB, LB, LBB, HLB, LC, LS(A), LH(A), MA, HMA, MC, HMC, MS, MH, NB, HNB, NC, HNC, NS, NH; Eaton/Westinghouse-type (Series C) breakers also listed for kits	A	S13 V12-T4-5; oem_spec
Dimensions	X unit = 1.38 in (35.1 mm); 5 in side gutters; top/bottom gutter 6.50 in through 400 A, 12.0 in 600-1600 A; standard box depth 10.50 in (266.7 mm), NC/HNC require 11.38 in (289.1 mm) deep box; layouts shown for 26/30/38 in widths	A	S13 V12-T4-12; oem_spec
Layout rules	Breakers of same frame size regardless of poles may be mounted opposite each other; if panel has main breaker, no neutral, no split bus or no sub-feed/feed-through lugs add 1X for nameplate; 1600 A lug mains with (4)-600 kcmil Cu per phase can reduce to 4X	A	same as above
Kit compatibility	MP40 branch kits also add chassis-mounted devices to MP2 group-mounted switchboards, Cutler-Hammer-labelled CDP panelboards and NFB panelboards 26.5-36 in wide; kits = breaker(s) + connector kit + mounting hardware + device cover + instructions; branch only, not for mains	A	S248 oem_web

3.11 NAB — Westinghouse NAB / NA1B / NH1B / NDP / NEB panelboards

FAM-EAT-025 · panelboard · aka A2B, ABH, HNDP, NA1B, NAB, NAIB, NDP, NEB, NH1B, NHB, NHDP, NHEB, NHIB · markings: Cutler-Hammer, Westinghouse

Westinghouse 1937-1988 lighting/appliance and distribution panelboards using E-family plug/bolt breakers. Branch breakers replaced by 'panelboard only' R-prefix breakers (REH, RHF, RHFA) supplied with mounting hardware; connector kits not available. The scope term 'NHB' is not used in Vol 12; nearest OEM designations are NH1B and NHEB.

Evidence-only record: 1946 Westinghouse catalog lists NA1B-AB De-ion lighting panel; Vol 12 Cutler-Hammer chart shows Cutler-Hammer-labelled NA1B, NH1B, NDP and HNDP (E/EA/EH breakers) replaced by PRL3a with REH panelboard replacement breakers, connectors not available.

Attribute	Value	Cl.	Sources
Status	discontinued; connectors not available; replacement panelboard PRL3a (NAB, NA1B, NDP, NEB, NHDP, NHEB, ABH) or PRL2a (NH1B); panelboard-only replacement breaker REH/RHFA	A	S13 p. V12-T4-7; oem_spec
Era of manufacture	NA1B ('NAIB - AB De-ion') listed in 1946 Westinghouse NOFUZE catalog	A	S243 ECM Sept 1946, Westinghouse catalog; oem_spec
Branch breakers accepted	E, EA, EAH, EH, FA, E-277 (replacement breaker REH; RHFA for FA)	A	S13 p. V12-T4-7; oem_spec
Cutler hammer variant	Cutler-Hammer NA1B (E, EA), NH1B (EH), NDP (E, EA), HNDP (EH) -> PRL3a / REH; connectors not available	A	S13 V12-T4-4; oem_spec

Breaker families associated: E, F, Westinghouse AB De-ion molded case breakers (E, F, G, J, K, KL, L, M frames)
Key documents: S13 CA08100014E Volume 12—Aftermarket, Renewal Parts and Life Extension Solutions; S243 sim_ecm_1946-09_45 Electrical Construction and Maintenance, Vol 45, September 1946 (Electrical Contracting) -

3.12 NFB — Cutler-Hammer NFB panelboard

FAM-EAT-037 · panelboard · aka Type NFB · markings: Cutler-Hammer
Cutler-Hammer panelboard (pictured as 'Cutler-Hammer NFB' on V12-T4-2) using Westinghouse E/F-frame and CA/CC breakers. Eaton says MP40 branch kits can add chassis-mounted devices to NFB panelboards 26.5-36 in wide.

Attribute	Value	Cl.	Sources
Successor	PRL3a or PRL4B (EB/EHB->EHD, EHC/FB/HFB/FD/FC/FS->FD, FH/HFC->HFD, CA->CA, CC->CC, CHH->CHH)	A	S13 V12-T4-4; oem_spec
Branch breakers accepted	EB, EHB, EHC, EC, CA, CC, FB, HFB, FD, FC, FH, FS, HFC, CCH, CHH	A	same as above
Kit compatibility	MP40 kits fit NFB panelboards 26.5 to 36 in wide	A	S248 oem_web

3.13 NLAB — Westinghouse NLAB lighting panelboard

FAM-EAT-024 · panelboard · aka NLAB, NLAB single row, NLAB-AB, NLAB-ABH, NLAB-LX, NPLAB, NQB, NQC, NQP · markings: Cutler-Hammer, Westinghouse
Westinghouse plug-in/bolt-on lighting panelboards for Quicklag-type Q breakers. Vol 12 flags 'connectors not available' for this group; replacement is a new PRL1a/PRL3a interior. CDP/FDP/NQB trim clamp 414A380G02 still applies to NQB.

Evidence-only record for the existing Westinghouse NLAB family: 1946 Westinghouse NOFUZE catalog lists NLAB Quicklag De-ion and NLAB single-row (column) panelboards; Vol 12 shows Cutler-Hammer also sold NLAB and NPLAB (QL / P breakers) with connectors not available and PRL1a as replacement. Note that GE also used the NLAB designation (TQ/TQC breakers) - see GEA NLAB.

Attribute	Value	Cl.	Sources
Status	discontinued; connectors not available; replace panelboard with PRL1a (NLAB, NPLAB, NQB, NQP, NQC), PRL1aLX (NLAB-LX), PRL3a (NLAB-AB/ABH)	A	S13 p. V12-T4-7; oem_spec
Era of manufacture	Westinghouse panelboards manufactured between 1937 and 1988	A	same as above
	Offered by Westinghouse by Sept 1946 as 'NLAB Quicklag De-ion' NOFUZE panelboard (also single-row type for mounting on H or I beams); in wide use 1958-1960; Vol 12 groups it with panelboards made 1937-1988	A	S243, S13 ECM Sept 1946 Westinghouse catalog B62; V12-T4-7; oem_spec
Voltage rating	NLAB in 120/208 V 3-phase 4-wire and 120/240 V use (installation reports) (Trade-press installation stories, not OEM specs)	C	S254, S258, S255 surplus_listing
Branch breakers accepted	NLAB: QC; NPLAB/NQP: QP (new breaker HQP); NQB: BA (new BAB); NQC: QC	A	S13 p. V12-T4-7; oem_spec
	Quicklag (QC per Vol 12) breakers; Cutler-Hammer-labelled NLAB used QL per Cutler-Hammer chart	A	S243, S13 V12-T4-4, V12-T4-7; oem_spec
Connectors	Connectors not available (note 2) for NLAB, NLAB-LX, NLAB-AB, NLAB-ABH, NPLAB, NQB, NQC, NQP	A	S13 p. V12-T4-7; oem_spec
Cutler hammer variant	Cutler-Hammer panelboard types NPLAB (P breaker) and NLAB (QL breaker) -> PRL1a, connectors not available	A	S13 V12-T4-4; oem_spec

3.14 NM/NMM — Westinghouse NM / NMM / NMIB Multibreaker panelboards

FAM-EAT-038 · panelboard · aka NMM, NMIB, NM1B, MH Multibreaker, NOFUZE panelboard · markings: Westinghouse

Earliest Westinghouse NOFUZE (later spelled NOFUSE) circuit-breaker panelboards using Multibreaker units, offered alongside NLAB (Quicklag) and NA1B (AB De-ion) in 1946. NMM and NLAB were also offered in single-row type for mounting on H or I beams. Westinghouse introduced breakers in 1927 and NOFUSE panelboards were initially available up to 225 A at 250 V (Vol 12 history).

Attribute	Value	Cl.	Sources
Status	Obsolete; no Vol 12 replacement row found	B	S13 inference
Era of manufacture	Sold as NOFUZE Multibreaker panelboards in 1946 (NMIB 115/240 V single-phase only; NMM 115/230 V AC); Vol 12 time line lists 'Westinghouse NM/NMM' among the earliest types	A	S243, S13 ECM Sept 1946 B62; V12-T4-3; oem_spec
Voltage rating	NMIB: 115/240 V AC single-phase only; NMM: 115/230 V AC (OCR column order makes the type-to-voltage pairing slightly uncertain)	B	S243 ECM Sept 1946 B62; oem_spec
Branch breakers accepted	Westinghouse Multibreaker (1946); typical combinations 15 A 1-pole lighting, 20 A 2-pole water heater, 35/50 A 2-pole range, 70 A mains	A	S243 oem_spec

Key documents: S13 CA08100014E Volume 12—Aftermarket, Renewal Parts and Life Extension Solutions; S243 sim_ecm_1946-09_45 Electrical Construction and Maintenance, Vol 45, September 1946 (Electrical Contracting) -

3.15 PB — Cutler-Hammer Type PB lighting panelboard

FAM-EAT-032 · panelboard · aka Type PB · markings: Cutler-Hammer

Cutler-Hammer lighting panelboard using CH/CHB branch breakers (1 in Cutler-Hammer residential/light-commercial breaker family). Replacement is a new PRL1a interior with CH or CHB breakers; Eaton states connectors are not available. Do not confuse with the Westinghouse/Eaton 'Type PB' power circuit breaker listed elsewhere in Vol 12.

3.21 PRL1A — Pow-R-Line 1a

FAM-EAT-001 · panelboard · aka PRL1a, PRL-1A, Pow-R-Line 1a, POW-R-LINE 1A · markings: Cutler-Hammer, Eaton

Cutler-Hammer/Eaton 240 Vac lighting & appliance panelboard on a 20 in wide box, neutral located in the side gutter. Branch QUICKLAG breakers mount horizontally on factory connector strips (bolt-on 1C96608 or plug-on 2C11642 assemblies); mains, sub-feed breakers and main/sub-feed/through-feed lugs mount vertically on KB/KL connector kits. Fully rated 10/22 kA, series rated to 200 kA at 240 Vac. Suitable for service entrance when specified (PRLSEB barrier kits, 4180B62 bonding jumper). Note: Eaton literature also uses the umbrella name 'Pow-R-Line C' for Series C breaker panelboards; that name is not unique to PRL1a and is also the name of the PRLC switchboard.

Attribute	Value	Cl.	Sources
Status	Legacy; renewal parts still listed April 2021. Superseded by PRL1X (Pow-R-Line Xpert, introduced 2020; time line shows PRL1X/2X/3X/4X from May 2020)	A	S1 p.2 Table 1; oem_spec

PRL1a/PRL2a vertical breaker connector kit, F-Frame (100 A maximum), single-phase, bottom fed, tin-plated aluminum connector

OEM part number	KB11AFB	**A**	S1, S2 s1 p.5 Table 3; s2 p.5 Table 2; oem_spec
Description	Vertical breaker assembly connector kit for F-Frame (100 A maximum) main or sub-feed breaker, single-phase, bottom fed, tin-plated aluminum connector	**A**	S1, S2 s1 p.5 Table 3; oem_spec
Application	main or sub-feed breaker (vertically mounted)	**A**	S1 p.5 Table 3 note a; oem_spec
Installation location	Main/sub-feed position at bottom end of PRL1a/2a interior	**A**	S1 p.5; oem_spec
Breaker compatibility	EHD, FD, HFD, FDC	**A**	S1, S2 s1 p.5 Table 3 notes b/c; oem_spec
Breaker frame	F-Frame (100 A maximum)	**A**	S1 p.5; oem_spec
Poles	2-pole (single-phase A/C) (Inferred from three-/single-phase column)	**C**	S1 inference
Current rating	100 A max	**A**	S1 oem_spec
Kit contents	Connector kit only - order main or sub-feed breaker separately	**A**	S1 p.5 note a; oem_spec
Material	Tin-plated aluminum connector	**A**	S1 p.5 column heading; oem_spec
OEM instruction document	Eaton RP01400001E p.5; matching vertical deadfront cover per p.18 Table 23	**A**	S1 oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	**A**	S1 p.5; oem_spec
Cross-links	Families: PRL1A, PRL2A · Breakers: Series C F-frame (EHD/FDB/FD/HFD/FDC)		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values

OEM part number	KB21AFT	A	S1, S2 s1 p.5 Table 3; s2 p.5 Table 2; oem_spec
Description	Vertical breaker assembly connector kit for F-Frame (225 A maximum) main or sub-feed breaker, single-phase, top fed, tin-plated aluminum connector	A	S1, S2 s1 p.5 Table 3; oem_spec
Application	main or sub-feed breaker (vertically mounted)	A	S1 p.5 Table 3 note a; oem_spec
Installation location	Main/sub-feed position at top end of PRL1a/2a interior	A	S1 p.5; oem_spec
Breaker compatibility	FD, HFD, FDC, ED, EDH, EDC	A	S1, S2 s1 p.5 Table 3 notes b/c; oem_spec
Breaker frame	F-Frame (225 A maximum)	A	S1 p.5; oem_spec
Poles	2-pole (single-phase A/C) (Inferred from three-/single-phase column)	C	S1 inference
Current rating	225 A max	A	S1 oem_spec
Kit contents	Connector kit only - order main or sub-feed breaker separately	A	S1 p.5 note a; oem_spec
Material	Tin-plated aluminum connector	A	S1 p.5 column heading; oem_spec
OEM instruction document	Eaton RP01400001E p.5; matching vertical deadfront cover per p.18 Table 23	A	S1 oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	S1 p.5; oem_spec
Cross-links	Families: PRL1A, PRL2A · Breakers: Series C F-frame (EHD/FDB/FD/HFD/FDC), Series C E-frame 240 V (ED/EDB/EDS/EDH/EDC)		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values

OEM part number	KB41SKT	A	S1, S2 s1 p.5 Table 3; s2 p.5 Table 2; oem_spec
Description	Vertical breaker assembly connector kit for K-Frame main or sub-feed breaker, single-phase, top fed, silver-plated copper connector	A	S1, S2 s1 p.5 Table 3; oem_spec
Application	main or sub-feed breaker (vertically mounted)	A	S1 p.5 Table 3 note a; oem_spec
Installation location	Main/sub-feed position at top end of PRL1a/2a interior	A	S1 p.5; oem_spec
Breaker compatibility	K-Frame (DK/KD family)	A	S1, S2 s1 p.5 Table 3; oem_spec
Breaker frame	K-Frame	A	S1 p.5; oem_spec
Poles	2-pole (single-phase A/C) (Inferred from three-/single-phase column)	C	S1 inference
Current rating	400 A class (frame)	C	same as above
Kit contents	Connector kit only - order main or sub-feed breaker separately	A	S1 p.5 note a; oem_spec
Material	Silver-plated copper connector	A	S1 p.5 column heading; oem_spec
OEM instruction document	Eaton RP01400001E p.5; matching vertical deadfront cover per p.18 Table 23	A	S1 oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	S1 p.5; oem_spec
Cross-links	Families: PRL1A, PRL2A · Breakers: Series C K-frame (DK/KD/KDB/HKD/KDC, CKD/CHKD 100%)		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values		

EDH-EAT-00018	KB43AJB	Cutler-Hammer	main-breaker-kit	LISTED AS STOCK RENEWA

PRL1a/PRL2a vertical breaker connector kit, J-Frame, three-phase, bottom fed, tin-plated aluminum connector

OEM part number	KB43AJB	A	S1, S2 s1 p.5 Table 3; s2 p.5 Table 2; oem_spec
Description	Vertical breaker assembly connector kit for J-Frame main or sub-feed breaker, three-phase, bottom fed, tin-plated aluminum connector	A	S1, S2 s1 p.5 Table 3; oem_spec
Application	main or sub-feed breaker (vertically mounted)	A	S1 p.5 Table 3 note a; oem_spec
Installation location	Main/sub-feed position at bottom end of PRL1a/2a interior	A	S1 p.5; oem_spec

PRL1a/2a/1X/2X 100 A OVS lug kit, aluminum/copper mechanical, single-phase, tin-plated aluminum connector

OEM part number	KL11AMO	A	S1 p.5 Table 4; oem_spec
Description	100 A lug assembly, aluminum/copper mechanical lugs, OVS (oversize lugs - main or through-feed), single-phase, tin-plated aluminum connector	A	same as above
Application	main or through-feed	A	S1 p.5 Table 4 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	100 A	A	S1 p.5 Table 4; oem_spec
Kit contents	Lug assembly: 1 lug(s) per phase, wire range #6-300 kcmil	A	same as above
Material	Tin-plated aluminum connector; aluminum/copper mechanical lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values

PRL1a/2a/1X/2X 100 A STD lug kit, aluminum/copper mechanical, three-phase, tin-plated aluminum connector

OEM part number	KL13AMS	A	S1 p.5 Table 4; oem_spec
Description	100 A lug assembly, aluminum/copper mechanical lugs, STD (standard lugs - main or through-feed), three-phase, tin-plated aluminum connector	A	same as above
Application	main or through-feed	A	S1 p.5 Table 4 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	100 A	A	S1 p.5 Table 4; oem_spec
Kit contents	Lug assembly: 1 lug(s) per phase, wire range #14-1/0	A	same as above
Material	Tin-plated aluminum connector; aluminum/copper mechanical lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values

PRL1a/2a/1X/2X 225 A STD lug kit, aluminum/copper mechanical, three-phase, tin-plated aluminum connector

OEM part number	KL23AMS	A	S1 p.6 Table 5; oem_spec
Description	225 A lug assembly, aluminum/copper mechanical lugs, STD (standard lugs - main or through-feed), three-phase, tin-plated aluminum connector	A	same as above
Application	main or through-feed	A	S1 p.6 Table 5 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	225 A	A	S1 p.6 Table 5; oem_spec
Kit contents	Lug assembly: 1 lug(s) per phase, wire range #6-300 kcmil	A	same as above
Material	Tin-plated aluminum connector; aluminum/copper mechanical lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values		

EDH-EAT-00111	KL23AVO	Cutler-Hammer	main-lug-kit	LISTED AS STOCK RENEWA

PRL1a/2a/1X/2X 225 A OVS lug kit, crimp (compression), three-phase, tin-plated aluminum connector

OEM part number	KL23AVO	A	S1 p.6 Table 5; oem_spec
Description	225 A lug assembly, crimp (compression) lugs, OVS (oversize lugs - main or through-feed), three-phase, tin-plated aluminum connector	A	same as above
Application	main or through-feed	A	S1 p.6 Table 5 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	225 A	A	S1 p.6 Table 5; oem_spec
Kit contents	Lug assembly: 1 lug(s) per phase, wire range 4/0-500 kcmil (Feb 2009 edition (s2) gives wire range 2/0-500 kcmil for this crimp lug - range changed between editions (likely lug vendor change))	A	same as above
Material	Tin-plated aluminum connector; crimp (compression) lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values

Description	400 A lug assembly, crimp (compression) lugs, OVS (oversize lugs - main or through-feed), three-phase, tin-plated aluminum connector	A	same as above
Application	main or through-feed	A	S1 p.7 Table 6 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	400 A	A	S1 p.7 Table 6; oem_spec
Kit contents	Lug assembly: 2 lug(s) per phase, wire range 500-750 kcmil	A	same as above
Material	Tin-plated aluminum connector; crimp (compression) lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values		

EDH-EAT-00129	KL43AVS	Cutler-Hammer	main-lug-kit	LISTED AS STOCK RENEWA

PRL1a/2a/1X/2X 400 A STD lug kit, crimp (compression), three-phase, tin-plated aluminum connector

OEM part number	KL43AVS	A	S1 p.7 Table 6; oem_spec
Description	400 A lug assembly, crimp (compression) lugs, STD (standard lugs - main or through-feed), three-phase, tin-plated aluminum connector	A	same as above
Application	main or through-feed	A	S1 p.7 Table 6 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	400 A	A	S1 p.7 Table 6; oem_spec
Kit contents	Lug assembly: 2 lug(s) per phase, wire range 4/0-500 kcmil (Feb 2009 edition (s2) gives wire range 2/0-500 kcmil for this crimp lug - range changed between editions (likely lug vendor change))	A	same as above
Material	Tin-plated aluminum connector; crimp (compression) lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X

PRL1a/2a/1X/2X 600 A OVS lug kit, crimp (compression), three-phase, bare copper connector

OEM part number	KL63CVO	A	S1 p.7 Table 7; oem_spec
Description	600 A lug assembly, crimp (compression) lugs, OVS (oversize lugs - main or through-feed), three-phase, bare copper connector	A	same as above
Application	main or through-feed	A	S1 p.7 Table 7 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	600 A	A	S1 p.7 Table 7; oem_spec
Kit contents	Lug assembly: 2 lug(s) per phase, wire range 500-750 kcmil	A	same as above
Material	Bare copper connector; crimp (compression) lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X

OEM part number	KL13AVF	A	S1 p.5 Table 4; oem_spec
Description	100 A lug assembly, crimp (compression) lugs, SFL (sub-feed lugs), three-phase, tin-plated aluminum connector	A	same as above
Application	sub-feed	A	S1 p.5 Table 4 note a; oem_spec
Installation location	Main/sub-feed/through-feed lug position at end of PRL1a/2a/1X/2X interior	C	S1 inference
Current rating	100 A	A	S1 p.5 Table 4; oem_spec
Kit contents	Lug assembly: 2 lug(s) per phase, wire range #1-1/0 (Feb 2009 edition (s2) gives wire range #8-1/0 for this crimp lug - range changed between editions (likely lug vendor change))	A	same as above
Material	Tin-plated aluminum connector; crimp (compression) lugs	A	same as above
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1A, PRL2A, PRL1X, PRL2X		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values

3.22 PRL1X — Pow-R-Line Xpert 1X

FAM-EAT-006 · panelboard · aka PRL1x, Pow-R-Line 1X, Pow-R-Line Xpert · markings: Eaton

Pow-R-Line Xpert successor to PRL1a. Shares PRL1a horizontal branch assemblies (1C96608/2C11642/1C96609), lug kits (KL*), neutral/ground assemblies and deadfronts, but vertical main/sub-feed connector kits are for Power Defense frames (KB..2T/B, KB..34, KB..36). Each branch connector rated up to 140 A total by breaker rating.

Attribute	Value	Cl.	Sources
Status	Current	A	S6 oem_spec
Era of manufacture	Introduced 2020 (time line: May 2020)	A	S1 p.2; oem_spec
Voltage rating	240 Vac maximum	A	S6 p.V2-T3-11; oem_spec
Main ampacity	MLO 600 A max; main device 600 A max; sub-feed breaker 600 A	A	same as above
Branch breakers accepted	Bolt-on or plug-on QUICKLAG (BAB, QBHW, HQP, QPHW, GF/AF/EP variants) 15-100 A; mains/sub-feeds PDG2 (Power Defense 225 A frame), PDG3, GHB	A	S1, S6 s1 pp.4,16; s6 p.V2-T3-33; oem_spec
Main handle location	PRL1X/2X Power Defense frame 2 main: handle centerline to top of box D = 10.06 in (100 A max) / 11.06 in (225 A max); PD frame 3 400 A: 20.426 in (500 kcmil lugs) / 23.426 in (750 kcmil); PD frame 3 600 A: 20.488 / 23.488 in; box example EZB2090R = 90 in; NEC 6 ft 7 in (79 in) max handle height (Dimensions are estimates to be verified by installer (per leaflet))	A	S318 pp. 2-6, Figures 1-5; oem_spec

EDH-EAT-00036	**KB13S2B**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (100 A maximum), three-phase, bottom fed, silver-plated copper connector	PDG2 (100 A maximum) A	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00035	**KB13S2T**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (100 A maximum), three-phase, top fed, silver-plated copper connector	PDG2 (100 A maximum) A	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00046	**KB21A2B**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), single-phase, bottom fed, tin-plated aluminum connector	PDG2 (225 A maximum) A	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00045	**KB21A2T**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), single-phase, top fed, tin-plated aluminum connector	PDG2 (225 A maximum) A	Listed as stock renewal part in Eaton RP01400001E (April 202

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00048	**KB21S2B**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), single-phase, bottom fed, silver-plated copper connector	PDG2 (225 A maximum) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00047	**KB21S2T**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), single-phase, top fed, silver-plated copper connector	PDG2 (225 A maximum) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00042	**KB23A2B**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), three-phase, bottom fed, tin-plated aluminum connector	PDG2 (225 A maximum) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00041	**KB23A2T**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), three-phase, top fed, tin-plated aluminum connector	PDG2 (225 A maximum) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00044	**KB23S2B**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), three-phase, bottom fed, silver-plated copper connector	PDG2 (225 A maximum) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00043	**KB23S2T**	PRL1X/PRL2X vertical breaker connector kit, PDG2 (225 A maximum), three-phase, top fed, silver-plated copper connector	PDG2 (225 A maximum) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00054	**KB41A14B**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), single-phase, bottom fed, tin-plated aluminum connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00053	**KB41A14T**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), single-phase, top fed, tin-plated aluminum connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00056	**KB41S14B**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), single-phase, bottom fed, silver-plated copper connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00055	**KB41S14T**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), single-phase, top fed, silver-plated copper connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00050	**KB43A34B**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), three-phase, bottom fed, tin-plated aluminum connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00049	**KB43A34T**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), three-phase, top fed, tin-plated aluminum connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00052	**KB43S34B**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), three-phase, bottom fed, silver-plated copper connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00051	**KB43S34T**	PRL1X/PRL2X vertical breaker connector kit, PDG3A (400 A, adjustable), three-phase, top fed, silver-plated copper connector	PDG3A (400 A, adjustable) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00060	**KB61S16B**	PRL1X/PRL2X vertical breaker connector kit, PDG3B (600 A, electronic trip unit), single-phase, bottom fed, silver-plated copper connector	PDG3B (600 A, electronic trip unit) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00059	**KB61S16T**	PRL1X/PRL2X vertical breaker connector kit, PDG3B (600 A, electronic trip unit), single-phase, top fed, silver-plated copper connector	PDG3B (600 A, electronic trip unit) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00058	**KB63S36B**	PRL1X/PRL2X vertical breaker connector kit, PDG3B (600 A, electronic trip unit), three-phase, bottom fed, silver-plated copper connector	PDG3B (600 A, electronic trip unit) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202
EDH-EAT-00057	**KB63S36T**	PRL1X/PRL2X vertical breaker connector kit, PDG3B (600 A, electronic trip unit), three-phase, top fed, silver-plated copper connector	PDG3B (600 A, electronic trip unit) **A**	Listed as stock renewal part in Eaton RP01400001E (April 202

EDH-EAT-00038	KB11A2B	Cutler-Hammer	main-breaker-kit	LISTED AS STOCK RENEWA

PRL1X/PRL2X vertical breaker connector kit, PDG2 (100 A maximum), single-phase, bottom fed, tin-plated aluminum connector

OEM part number	KB11A2B	A	S1 p.4 Table 2; oem_spec
Description	Vertical breaker assembly connector kit for PDG2 (100 A maximum) main or sub-feed breaker, single-phase, bottom fed	A	same as above
Application	main or sub-feed breaker (vertically mounted)	A	S1 p.4 note a; oem_spec
Installation location	Bottom-end main/sub-feed position, PRL1X/PRL2X	A	S1 oem_spec
Breaker compatibility	PDG2 (100 A maximum)	A	S1 p.4 Table 2; oem_spec
Kit contents	Connector kit only - order breaker separately	A	S1 p.4 note a; oem_spec
Material	Tin-plated aluminum connector	A	S1 p.4; oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above
Cross-links	Families: PRL1X, PRL2X · Breakers: Power Defense frame 2 (PDG2 / PDD2)		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Torque values		

EDH-EAT-00037	KB11A2T	Cutler-Hammer	main-breaker-kit	LISTED AS STOCK RENEWA

PRL1X/PRL2X vertical breaker connector kit, PDG2 (100 A maximum), single-phase, top fed, tin-plated aluminum connector

OEM part number	KB11A2T	A	S1 p.4 Table 2; oem_spec
Description	Vertical breaker assembly connector kit for PDG2 (100 A maximum) main or sub-feed breaker, single-phase, top fed	A	same as above
Application	main or sub-feed breaker (vertically mounted)	A	S1 p.4 note a; oem_spec
Installation location	Top-end main/sub-feed position, PRL1X/PRL2X	A	S1 oem_spec
Breaker compatibility	PDG2 (100 A maximum)	A	S1 p.4 Table 2; oem_spec
Kit contents	Connector kit only - order breaker separately	A	S1 p.4 note a; oem_spec
Material	Tin-plated aluminum connector	A	S1 p.4; oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	same as above

3.23 PRL2A — Pow-R-Line 2a

FAM-EAT-002 · panelboard · aka PRL2a, PRL-2A, Pow-R-Line 2a · markings: Cutler-Hammer, Eaton

480Y/277 Vac lighting panelboard sharing the PRL1a chassis architecture (20 in box, gutter neutral, KB vertical kits, KL lug kits, 1C96638 deadfront). Branch breakers are GHB-family bolt-ons on 1C96609 horizontal connector assemblies. GHB main breaker is horizontally mounted; all other mains vertical. Fully rated 14 kA at 480Y/277, series rated 22-150 kA.

Attribute	Value	Cl.	Sources
Status	Legacy; renewal parts listed April 2021; superseded by PRL2X	A	S1 p.2; oem_spec

3.26 PRL3A — Pow-R-Line 3a

FAM-EAT-003 · panelboard · aka PRL-3A, PRL3a, Pow-R-Line 3a · markings: Cutler-Hammer, Eaton

Power distribution panelboard on a 20 in wide box with the neutral in the main (top/bottom) gutter. Chassis height measured in X units (1X = 1.38 in); deadfront is a rail-and-end-cover frame (6559C59) with individual device covers. Branch devices are horizontally mounted on bus-stab connector kits that ship with their own device deadfront cover. Max 200 A on any one connector.

Attribute	Value	Cl.	Sources

PRL3X horizontal 12-circuit GHB connector kit, 3-phase

OEM part number	KPRL3XGB12	**A**	S1 s1 p.22 Table 29; oem_spec
Alternate / superseded numbers	UPC 786689347017	**A**	S316 alias; skuPage.KPRL3XGB12 (General/Product specifications); oem_spec
Description	Horizontally mounted connector kit, 12 circuits/poles, three-phase (A/B/C connectors)	**A**	S1 s1 p.22 Table 29; oem_spec
	Eaton PRL3X CONN KIT GHB 12 CKT 3 PH (Eaton web product description)	**A**	S316 skuPage.KPRL3XGB12 (General/Product specifications); oem_spec
Application	branch	**A**	S1 oem_spec
Breaker compatibility	GB, GHB, GHQ, GHBS; (2) 100 A devices maximum	**A**	S1 s1 p.22 Table 29; oem_spec
Current rating	100 A max per device (kit label 'Max Amps 100'); max 200 A connected to any one connector	**A**	S1, S4 s1 p.22 intro; s4 p.7; oem_spec
Kit contents	Phase connectors (A,B,C or A,C), deadfront cover, hardware and instructions to twin-mount breakers across from each other	**A**	S1, S2 s1 p.22; oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	**A**	S1 p.22; oem_spec
Listing / approvals	UL 67	**A**	S316 skuPage.KPRL3XGB12 (General/Product specifications); oem_spec
Package data (not part dims)	Eaton logistics attributes: length/depth 28.25 in, height 6.6 in, width 12.375 in, weight 10 lb (Package/shipping data per Eaton web; NOT verified component dimensions)	**A**	same as above
Cross-links	Families: PRL3A, PRL3X · Breakers: GHB family (480Y/277 bolt-on)		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, Material, Torque values

3.27 PRL3E — Pow-R-Line 3E

FAM-EAT-004 · panelboard · aka PRL3e, Pow-R-Line 3E · markings: Cutler-Hammer, Eaton

Compact distribution panelboard variant built around Eaton EG-frame (Series G E-frame) bolt-on branch breakers up to 125 A. Not covered by the renewal-parts guides found; no PRL3E connector kits identified.

3FQS kit, compression lug 1-phase, 2 wire, 30-60A

OEM part number	2A1909-17	A	S313 pp. 12-13, Coordination panelboard replacement parts; oem_spec
Description	Kit, compression lug 1-phase, 2 wire, 30-60A	A	same as above
Application	main lug; also for use as feed-through lugs based upon panelboard ampacity rating	A	S313 pp. 12-13, Coordination panelboard replacement parts (asterisked items); oem_spec
Installation location	A & B - Main devices and lugs position, Pow-R-Line 3FQS coordination panelboard	A	S313 pp. 12-13, Coordination panelboard replacement parts; oem_spec
Current rating	30-60A	A	same as above
Wire range	8 AWG-1/0, 60/75 C Cu-Al conductors	A	S313 p. 10, Main & Feed-Through Lugs; oem_spec
Cross-links	Families: PRL3FQS		
Not yet documented	Dimensions, Material, Torque values

3.30 PRL4 — Pow-R-Line 4 (PRL4B breaker / PRL4F fusible / PRL4D drawout)

FAM-EAT-005 · panelboard · aka PRL-4, PRL4, PRL4B, PRL4D, PRL4F, PRL4X, Pow-R-Line 4, Pow-R-Line 4B, Pow-R-Line 4D, Pow-R-Line 4F · markings: Cutler-Hammer, Eaton, Westinghouse

Heavy distribution panelboard in 24, 36 or 44 in wide boxes (BX2457..BX4490), neutral in main gutter, vertical bus with branch devices horizontally mounted single or twin on KPRL4* connector kits measured in X units (1X = 1.38 in). Front is a vented cover assembly (two side rails, top/bottom vented covers, 6574C74) plus individual device covers and blank covers (6554C01/6554C02). Density-rated bus option required for some 100% rated breaker kits.

Westinghouse-origin power distribution panelboard (24, 36, 44 in box widths) that replaced CDP (PRL4B) and FDP (PRL4F). Its KPRL4 breaker connector kits (copper connectors, brackets, covers, hardware) are the most completely documented group-mount kits for Series C FD/JD/KD/LD/MDL/ND frames; included here because the same device X-spacing is used in Pow-R-Line C switchboard distribution chassis.

PRL4/PRL4X breaker connector kit KPRL4JDT (JD, JDB, HJD, JDC 2-/3-pole)

OEM part number	KPRL4JDT	A	S1, S2, S3, S4, S16 s1 pp.32-33 Tables 46-47; oem_spec
Alternate / superseded numbers	UPC 782114796115	A	S316 alias; skuPage.KPRL4JDT (General/Product specifications); oem_spec
Description	PRL4 breaker connector kit for JD, JDB, HJD, JDC 2-/3-pole	A	S1 pp.32-33; oem_spec
	PRL4 breaker connector kit: copper connectors, mounting brackets, covers, hardware and instructions for mounting breaker(s) in a PRL4; breakers not included	A	S16 p. 24; oem_spec
	Eaton panelboard connector kit, copper connectors, mounting brackets, covers, hardware and instructions, for twin jd, jdb, hjd, jdc breakers, three-phase, three-pole, 250 A (Eaton web product description)	A	S316 skuPage.KPRL4JDT (General/Product specifications); oem_spec
Application	branch	A	S16 p. 24; oem_spec

	branch (horizontally mounted) or sub-feed	C	S1 inference
Installation location	Mounting: Twin; 36 in min box	A	S1 pp.32-33 notes b/c/d; oem_spec
	PRL4B panelboard chassis. Applicability to Pow-R-Line C switchboard distribution chassis not stated by OEM	D	S16, S17 RP01400001E p. 24; CA08104001E Fig 21.1-9; inference
Breaker compatibility	JD, JDB, HJD, JDC 2-/3-pole	A	S1, S2, S3, S4 s1 pp.32-33; oem_spec
	JD, JDB, HJD, JDC	A	S16 p. 24 Table 37; oem_spec
	Twin JD, JDB, HJD, JDC breakers (Eaton web 'Used with' attribute)	A	S316 skuPage.KPRL4JDT (General/Product specifications); oem_spec
Poles	2, 3	A	S16 p. 24 Table 37; oem_spec
	Three-phase (Eaton web 'Phase' attribute)	A	S316 skuPage.KPRL4JDT (General/Product specifications); oem_spec
Current rating	250 A	A	same as above
Kit contents	Each kit includes copper connectors, mounting brackets, covers, hardware and instructions; breakers not included. Hardware-only kit = catalog number + '-H' (mounting brackets and hardware only).	A	S1 pp.32-33; oem_spec
	Copper connectors, mounting brackets, cover(s), hardware, instructions (hardware-only version: add 'H', e.g. KPRL4FD-H)	A	S16 pp. 24-25; oem_spec
	Copper connectors, mounting brackets, covers, hardware and instructions	A	S316 skuPage.KPRL4JDT (General/Product specifications); oem_spec
Dimensions	Space required 3X (4.13 in) (1X = 1.38 in)	A	S1 pp.32-33; oem_spec
	Occupies 4.13 in (104.9 mm) = 3X of chassis height; twin mounting	A	S16 p. 24 Table 37; oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	S1 p.33; oem_spec
	listed in both 2017 and May 2022 RP01400001E	A	S16, S3 2017 p. 24; 2022 p. 33 Table 47; oem_spec
Installation constraint	36.00 in minimum box width	A	S16 p. 24 Table 37 notes b-d; oem_spec
Listing / approvals	UL Listed	A	S316 skuPage.KPRL4JDT (General/Product specifications); oem_spec
Installation requirements	Breakers are not included. 36-inch minimum box width required. (Eaton web 'Catalog Notes')	A	same as above
Package data (not part dims)	Eaton logistics attributes: length/depth 9 in, height 3 in, width 1.5 in, weight 5 lb (Package/shipping data per Eaton web; NOT verified component dimensions)	A	same as above

EDH-EAT-00330	KPRL4LD	Cutler-Hammer	breaker-mounting-kit	IN FEB 2009 AND OCT 20

PRL4 breaker connector kit KPRL4LD (pre-Xpert numbering)

OEM part number	KPRL4LD	A	S2, S3, S4, S16 s2 p.28 Table 32; s3 p.24; oem_spec
Alternate / superseded numbers	UPC 782114858813	A	S316 alias; skuPage.KPRL4LD (General/Product specifications); oem_spec
	KPRL4LC (Same breaker frames/space listed under KPRL4LC in May 2022 RP01400001E while KPRL4LD is no longer listed for them; supersession inferred, not stated)	C	S16, S3 superseded_by; 2017 Table 37 vs 2022 Tables 46-47; inference
Description	PRL4 breaker connector kit for LD, LDB, HLD, LDC, CLD, LC 2-/3-pole, 600 A	A	S2, S3 oem_spec
	PRL4 breaker connector kit: copper connectors, mounting brackets, covers, hardware and instructions for mounting breaker(s) in a PRL4; breakers not included	A	S16 p. 24; oem_spec
	Eaton PB connector kit with copper connectors, mounting brackets, covers, hardware and instructions (Eaton web product description)	A	S316 skuPage.KPRL4LD (General/Product specifications); oem_spec
Application	branch	A	S16 p. 24; oem_spec
Installation location	Mounting: Single; 36 in min box	A	S2 oem_spec
	PRL4B panelboard chassis. Applicability to Pow-R-Line C switchboard distribution chassis not stated by OEM	D	S16, S17 RP01400001E p. 24; CA08104001E Fig 21.1-9; inference
Breaker compatibility	LD, LDB, HLD, LDC, CLD, LC 2-/3-pole, 600 A	A	S2, S3, S4 s2 p.28; oem_spec
	LD, LDB, HLD, LDC, CLD, LC	A	S16 p. 24 Table 37; oem_spec
	LD, LDB, HLD, LDC, CLD, LC breakers (Eaton web 'Used with' attribute)	A	S316 skuPage.KPRL4LD (General/Product specifications); oem_spec
Poles	2, 3	A	S16 p. 24 Table 37; oem_spec
	Three-phase (Eaton web 'Phase' attribute)	A	S316 skuPage.KPRL4LD (General/Product specifications); oem_spec
Current rating	600A	A	same as above
Kit contents	Copper connectors, mounting brackets, covers, hardware and instructions; '-H' suffix = hardware only (example KPRL4FD-H)	A	S2 p.28; oem_spec
	Copper connectors, mounting brackets, cover(s), hardware, instructions (hardware-only version: add 'H', e.g. KPRL4FD-H)	A	S16 pp. 24-25; oem_spec
	Copper connectors, mounting brackets, covers, hardware and instructions	A	S316 skuPage.KPRL4LD (General/Product specifications); oem_spec
Dimensions	6X space (1X = 1.38 in)	A	S2 p.28; oem_spec
	Occupies 8.25 in (209.5 mm) = 6X of chassis height; single mounting	A	S16 p. 24 Table 37; oem_spec
Status	In Feb 2009 and Oct 2017 renewal-parts editions; not in April 2021 edition	B	S1, S2, S3 inference
	Listed Oct 2017; not listed for these frames in May 2022 edition (possibly superseded by KPRL4LC)	C	S16, S3 inference
Replacement / successor	KPRL4LC covers the same frames in the April 2021 table (Not stated as a supersession by Eaton; verify connector geometry/bus compatibility for older PRL4B chassis)	D	S1 inference
Installation constraint	36.00 in minimum box width	A	S16 p. 24 Table 37 notes b-d; oem_spec

Listing / approvals	UL Listed UL 67	A	S316 skuPage.KPRL4LD (General/Product specifications); oem_spec
Installation requirements	Breakers are not included. 36-inch minimum box width required. (Eaton web 'Catalog Notes')	A	same as above
Package data (not part dims)	Eaton logistics attributes: length/depth 9 in, height 4 in, width 2 in, weight 6 lb (Package/shipping data per Eaton web; NOT verified component dimensions)	A	same as above
Cross-links	Families: PRL4, PRL4X · Breakers: Series C L-frame (LD/LDB/HLD/LDC, CLD/CHLD/CLDC 100%, LC/HLC), LD		
Not yet documented	Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		
Open question	*Is this kit (or a sibling) used for Pow-R-Line C switchboard group-mounted distribution chassis?*		

EDH-EAT-00315 KPRL4LG Cutler-Hammer breaker-mounting-kit LISTED AS STOCK RENEWA

PRL4/PRL4X breaker connector kit KPRL4LG (LHH 3-pole)

OEM part number	KPRL4LG	A	S1, S3 s1 pp.32-33 Tables 46-47; oem_spec
Alternate / superseded numbers	UPC 782116654130	A	S316 alias; skuPage.KPRL4LG (General/Product specifications); oem_spec
Description	PRL4 breaker connector kit for LHH 3-pole	A	S1 pp.32-33; oem_spec
	PRL4X/PRL4 breaker connector kit: copper connectors, mounting brackets, cover, hardware and instructions; breakers not included	A	S3 p. 32; oem_spec
	Eaton panelboard connector kit, prl4 connector kit for lge, lgh breakers (Eaton web product description)	A	S316 skuPage.KPRL4LG (General/Product specifications); oem_spec
Application	branch	A	S3 p. 32; oem_spec
	branch (horizontally mounted) or sub-feed	C	S1 inference
Installation location	Mounting: Single; 36 in min box	A	S1 pp.32-33 notes b/c/d; oem_spec
Breaker compatibility	LHH 3-pole	A	S1 s1 pp.32-33; oem_spec
	LHH	A	S3 pp. 32-33; oem_spec
	LGE, LGH breakers (Eaton web 'Used with' attribute)	A	S316 skuPage.KPRL4LG (General/Product specifications); oem_spec
Poles	3	A	S3 pp. 32-33; oem_spec
	Three-phase (Eaton web 'Phase' attribute)	A	S316 skuPage.KPRL4LG (General/Product specifications); oem_spec
Current rating	600A	A	same as above
Kit contents	Each kit includes copper connectors, mounting brackets, covers, hardware and instructions; breakers not included. Hardware-only kit = catalog number + '-H' (mounting brackets and hardware only).	A	S1 pp.32-33; oem_spec
	Copper connectors, mounting brackets, cover, hardware, instructions; hardware-only version add 'H' (e.g. KPRL4X32-H)	A	S3 pp. 32-33; oem_spec
Dimensions	Space required 4X (5.50 in) (1X = 1.38 in)	A	S1 pp.32-33; oem_spec
	5.50 in (139.7 mm) = 4X; single mounting	A	S3 pp. 32-33; oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	S1 p.33; oem_spec
	current (May 2022)	A	S3 p. 33; oem_spec
Listing / approvals	UL Listed UL 67	A	S316 skuPage.KPRL4LG (General/Product specifications); oem_spec

Package data (not part dims)	Eaton logistics attributes: length/depth 24 in, height 6 in, width 8 in, weight 6 lb (Package/shipping data per Eaton web; NOT verified component dimensions)	A	same as above
Cross-links	Families: PRL4, PRL4X · Breakers: Series G L-frame (LGE/LGS/LGH/LGC/LGU) and LHH		
Not yet documented	Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		

EDH-EAT-00316	KPRL4MC	Cutler-Hammer	breaker-mounting-kit	LISTED AS STOCK RENEWA

PRL4/PRL4X breaker connector kit KPRL4MC (MDS/MC/MCY/HMC [MA/HMA])

OEM part number	KPRL4MC	A	S1, S2, S3, S16 s1 pp.32-33 Tables 46-47; oem_spec
Alternate / superseded numbers	UPC 782114887554	A	S316 alias; skuPage.KPRL4MC (General/Product specifications); oem_spec
	KPRL4X34 (Same breaker frames/space listed under KPRL4X34 in May 2022 RP01400001E while KPRL4MC is no longer listed for them; supersession inferred, not stated)	C	S16, S3 superseded_by; 2017 Table 37 vs 2022 Tables 46-47; inference
Description	PRL4 breaker connector kit for MDS/MC/MCY/HMC [MA/HMA]; 100% MCC/HMCC, MDSC	A	S1 pp.32-33; oem_spec
	PRL4 breaker connector kit: copper connectors, mounting brackets, covers, hardware and instructions for mounting breaker(s) in a PRL4; breakers not included	A	S16 p. 24; oem_spec
	Eaton, panelboard connector kit, copper connectors, mounting brackets, cover with hardware and instructions (Eaton web product description)	A	S316 skuPage.KPRL4MC (General/Product specifications); oem_spec
Application	branch	A	S16 p. 24; oem_spec
	branch (horizontally mounted) or sub-feed	C	S1 inference
Installation location	Mounting: Single; 36 in min box	A	S1 pp.32-33 notes b/c/d; oem_spec
	PRL4B panelboard chassis. Applicability to Pow-R-Line C switchboard distribution chassis not stated by OEM	D	S16, S17 RP01400001E p. 24; CA08104001E Fig 21.1-9; inference
Breaker compatibility	MDS/MC/MCY/HMC [MA/HMA]; 100% MCC/HMCC, MDSC	A	S1, S2, S3 s1 pp.32-33; oem_spec
	MDL, HMDL	A	S16 p. 24 Table 37; oem_spec
	MDL, HMDL breakers (Eaton web 'Used with' attribute)	A	S316 skuPage.KPRL4MC (General/Product specifications); oem_spec
Poles	2, 3	A	S16 p. 24 Table 37; oem_spec
	Three-phase (Eaton web 'Phase' attribute)	A	S316 skuPage.KPRL4MC (General/Product specifications); oem_spec
Current rating	800A	A	same as above
Kit contents	Each kit includes copper connectors, mounting brackets, covers, hardware and instructions; breakers not included. Hardware-only kit = catalog number + '-H' (mounting brackets and hardware only).	A	S1 pp.32-33; oem_spec
	Copper connectors, mounting brackets, cover(s), hardware, instructions (hardware-only version: add 'H', e.g. KPRL4FD-H)	A	S16 pp. 24-25; oem_spec
	Copper connectors, mounting brackets, covers, hardware and instructions	A	S316 skuPage.KPRL4MC (General/Product specifications); oem_spec
Dimensions	Space required 6X (8.25 in) (1X = 1.38 in)	A	S1 pp.32-33; oem_spec
	Occupies 8.25 in (209.5 mm) = 6X of chassis height; single mounting	A	S16 p. 24 Table 37; oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	S1 p.33; oem_spec
	Listed Oct 2017; not listed for these frames in May 2022 edition (possibly superseded by KPRL4X34)	C	S16, S3 inference
Installation constraint	36.00 in minimum box width	A	S16 p. 24 Table 37 notes b-d; oem_spec

Listing / approvals	UL Listed UL 67	A	S316 skuPage.KPRL4MC (General/Product specifications); oem_spec

PRL4/PRL4X breaker connector kit KPRL4X12 (PDG2 1-pole (two sets of twin-mounted 1-pole))

OEM part number	KPRL4X12	A	S1, S3 s1 pp.32-33 Tables 46-47; oem_spec
Alternate / superseded numbers	KPRL4FD1 (earlier number for same frames/space; supersession inferred)	C	S16, S3 supersedes; 2017 Table 37 vs 2022 Table 47; inference
Description	PRL4 breaker connector kit for PDG2 1-pole (two sets of twin-mounted 1-pole); EHD/FDB/FD/HFD/FDC 1-pole	A	S1 pp.32-33; oem_spec
	PRL4X/PRL4 breaker connector kit: copper connectors, mounting brackets, cover, hardware and instructions; breakers not included	A	S3 p. 32; oem_spec
Application	branch	A	same as above
	branch (horizontally mounted) or sub-feed	C	S1 inference
Installation location	Mounting: Twin	A	S1 pp.32-33 notes b/c/d; oem_spec
Breaker compatibility	PDG2 1-pole (two sets of twin-mounted 1-pole); EHD/FDB/FD/HFD/FDC 1-pole	A	S1 s1 pp.32-33; oem_spec
	EHD/FDB/FD/HFD/FDC (PD2)	A	S3 pp. 32-33; oem_spec
Poles	1 (two sets of twin-mounted single-pole)	A	same as above
Kit contents	Each kit includes copper connectors, mounting brackets, covers, hardware and instructions; breakers not included. Hardware-only kit = catalog number + '-H' (mounting brackets and hardware only).	A	S1 pp.32-33; oem_spec
	Copper connectors, mounting brackets, cover, hardware, instructions; hardware-only version add 'H' (e.g. KPRL4X32-H)	A	S3 pp. 32-33; oem_spec

Dimensions	Space required 2X (2.75 in) (1X = 1.38 in)	A	S1 pp.32-33; oem_spec
	2.75 in (69.9 mm) = 2X; twin mounting	A	S3 pp. 32-33; oem_spec
Status	Listed as stock renewal part in Eaton RP01400001E (April 2021) (Guide states listed parts are 'most frequently ordered and readily available from stock'; current availability not re-verified)	A	S1 p.33; oem_spec
	current (May 2022)	A	S3 p. 33; oem_spec
Cross-links	Families: PRL4, PRL4X · Breakers: Series C F-frame (EHD/FDB/FD/HFD/FDC), Power Defense frame 2 (PDG2 / PDD2), EHD, FD		
Not yet documented	Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Material, Torque values		
Open question	*What are the PD2-PD5 frame codes (Power Defense) mapping in Table 46?*

Conversion Kit

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00365	**TAD3**	TAD3 adapter kit - KD breaker onto existing Westinghouse LB-frame connectors	Series C K family (DK, KD, KDB, HKD, KDC) replacing LB, HLB, LBB or JA A	Referenced Feb 2013

EDH-EAT-00365	TAD3	Westinghouse	conversion-kit	REFERENCED FEB 2013

TAD3 adapter kit - KD breaker onto existing Westinghouse LB-frame connectors

OEM part number	TAD3	A	S5, S14, S13, S116 p.13 note; oem_spec
Description	Adapter kit required when mounting a Series C KD frame breaker onto existing LB frame connectors; included with KD retrofit or connector kits, may be purchased separately	A	S5 p.13; oem_spec
	Adapter kit required when mounting a Series C KD-frame breaker onto existing LB-frame connectors; included in orders for KD retrofit kits or connector kits, also sold separately	A	S14 p. 13 note; oem_spec
	K-frame terminal adapter for use in replacing LB/DA breakers	A	S116 p.12-244, Table 12-451; oem_spec
Application	branch (line-side adapter)	A	S13 p. V12-T4-7 note 6; oem_spec
	accessory	A	S116 p.12-244, Table 12-451; oem_spec
Installation location	Line side of K-frame breaker on CDP chassis existing LB connectors; allows KD opposite LB breakers	A	S13 p. V12-T4-7 note 6; oem_spec
Breaker compatibility	Series C K family (DK, KD, KDB, HKD, KDC) replacing LB, HLB, LBB or JA in panelboard applications	A	S14, S13 RP01400002E p. 13; V12-T3-11 note 1; oem_spec
	K-frame (replacing Westinghouse LB/DA breakers)	A	S116 p.12-244, Table 12-451; oem_spec
Status	Referenced Feb 2013	A	S5 oem_spec
Cross-links	Families: PRL4, CDP · Breakers: Series C K-frame (DK/KD/KDB/HKD/KDC, CKD/CHKD 100%), Westinghouse pre-Series C industrial MCCBs, JA, LB, KD, Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, Fasteners, Mounting-hole pattern, Identification features, OEM instruction document, Kit contents, Material, Torque values		
Open question	*Exact contents of TAD3 (spacer blocks vs. extended line straps)?*		
Open question	*Is TAD3 also used on WF/WRP switchboard LB provisions?*		
Open question	*Which legacy LB/DA conductor geometry does TAD3 adapt to; quantity per package?*		

3.31 PRL4X — Pow-R-Line Xpert 4X (incl. PRL4DX, PRL4F)

FAM-EAT-009 · panelboard · aka PRL4DX, PRL4x, Pow-R-Line 4X, Pow-R-Xpress PRL4X · markings: Eaton

Successor to PRL4B; renewal parts (blank covers, vented covers, KPRL4X/KPRL4* connector kits, retrofit kits) are listed jointly for PRL4X and PRL4 in RP01400001E (2021).

Attribute	Value	Cl.	Sources

3.33 WEB — Westinghouse WEB/WCA/WEHB/WFB/HWFB panelboards

FAM-EAT-023 · panelboard · aka WEB, WCA, WEHB, WFB, HWFB, WGB, WGHB · markings: Westinghouse

Westinghouse 1937-1988 era panelboards named for their branch breaker (E-frame, CA, F-frame, G-frame). PRL3 connector kits (KPRL3FD, KPRL3ED, KPRL3CA) fit WEB, WCA, WEHB, WFB and HWFB.

Attribute	Value	Cl.	Sources
Status	discontinued; replacement panelboard type PRL3a (WGB/WGHB -> PRL2a)	A	S13 p. V12-T4-7; oem_spec
Branch breakers accepted	WEB: EB (-> EB, EHD); WEHB: EHB; WFB: FB (-> FB, FDB); WCA: CA; WGB: GB; WGHB: GHB	A	same as above
Kit fit	The PRL3 connector kits will fit the following panelboards: WEB, WCA, WEHB, WFB, and HWFB	A	S14 p. 7 note; oem_spec

Breaker families associated: EB, EHB, FB, HFB

Key documents: S13 CA08100014E Volume 12—Aftermarket, Renewal Parts and Life Extension Solutions; S14 RP01400002E Renewal Parts RP01400002E — Vintage Westinghouse panelboards (PRL1-LX, PRL1/PRL2, PRL3, CD

Also fits this family (entry printed elsewhere): KPRL3FD, KPRL3ED, KPRL3CA

3.34 ES — Cutler-Hammer Type ES switchboard

FAM-EAT-019 · switchboard · aka ES switchboard, Type ES · markings: Cutler-Hammer

Cutler-Hammer branded service distribution switchboard using Westinghouse molded-case breakers under the 1960s supply agreement. Existing ES lineups can be extended with new Pow-R-Line C structures through a transition section.

Attribute	Value	Cl.	Sources
Status	discontinued (Vol 12 lists as legacy; new PRLC can connect via transition section)	A	S13 p. V12-T15-5; oem_spec
Era of manufacture	Introduced 1991 by Cutler-Hammer as replacement for their version of WF/WRP; Mullenbach (1962) heritage; used exclusively Westinghouse MCCBs	A	same as above
Voltage rating	120-600 V	A	same as above
Main ampacity	ES switchboard bus 600-4000 A; devices 15-4000 A; 10-200 kA	A	same as above

3.35 IFS — Integrated Facility System switchboard

FAM-EAT-022 · switchboard · aka Integrated Facility Switchboard, IFS switchboard · markings: Eaton

Free-standing front-access UL 891 switchboard that integrates standard panelboards, dry-type transformers and other equipment in 'cells'; used with Type 1 Pow-R-Line C switchboard sections.

Attribute	Value	Cl.	Sources
Status	current (2018 consulting guide)	A	S17 p. 21.6-1; oem_spec
Relationship	Used with Type 1 Pow-R-Line C switchboard sections; mains/feeders selected from Section 21.1 (PRLC)	A	same as above

Key documents: S17 CA08104001E Tab 21 (TB01500003E) Switchboards—Low Voltage (Consulting Application Guide Tab 21)

3.36 MP2 — Cutler-Hammer MP2 / MP-200 group-mounted switchboard (distribution section)

FAM-EAT-031 · switchboard · aka MP-2, MP-200, MP200 · markings: Cutler-Hammer

Cutler-Hammer group-mounted switchboard whose distribution sections accept the MP40 (breaker) and MP100 (fusible) chassis kits. Eaton documents call it both 'MP2' (Bid Manager help, RP01400003E snippets) and 'MP-200' (Vol 12 publication list, PL01400003E). Whether MP2 and MP-200 are the same product or two generations is not confirmed.

Attribute	Value	Cl.	Sources
Status	Out of production; renewal parts RP01400003E 'Renewal Parts Data for MP40 and MP-200'	A	S13 V12-T4-22; oem_spec
Designation	'MP2 group-mounted switchboards' (Eaton Bid Manager); 'MP-200' (Vol 12 Further Information); dealers list 'MP200' alongside MP40/MP50/MP100 (Equivalence of MP2 and MP-200 is inference)	B	S248, S13, S251 oem_spec

Also fits this family (entry printed elsewhere): MP40KF100-3, MP40KC225-3, MP40ED225-3, MP40KJ225-3, MP40KK400-3, MP40KL400-3, MP40KL600-3, MP40KM800-3, MP40KN1200-3, MP40CHH, MPED1K

3.37 PRLC — Pow-R-Line C switchboard

FAM-EAT-017 · switchboard · aka POW-R-LINE C, PRL-C, Pow-R-Line C, Pow-R-Line C switchboard, Type 1 Pow-R-Line C · markings: Cutler-Hammer, Eaton, Westinghouse

Eaton (originally Westinghouse) Class II service-distribution switchboard, UL 891 / NEMA PB-2, front- or rear-access, with individually mounted mains and group-mounted feeder chassis. Evolved from the Westinghouse WF/WRP St. Louis switchboard when the design moved to Sumter SC and Visalia CA in 1988 with the introduction of Series C breakers. Distribution chassis are laid out in X units (1X = 1-3/8 in) on 38X or 50X vertical panel space in 36 in or 45 in wide structures; device X requirements (EHD 1-3X, FD 2-3X, JD 3X, KD 4X, LD/MDL/ND 6X) parallel the PRL4 panelboard chassis. Vol 12 states breaker provisions 'are available for all ratings of the Pow-R-Line C designs including all parts required to complete the cell', but no PRLC-specific provision kit catalog numbers were found in public documents (factory/Sumter quoted).

Renewal parts	Eaton offers match-and-lineup PRLC structures, new breakers, breaker provisions/connectors 'available for all ratings of the Pow-R-Line C designs including all parts required to complete the cell', and switchboard structure parts	A	S13 p. V12-T15-5; oem_spec
Bus torque	Pow-R-Line CS (Canadian derivative) manual gives busbar torque #10 30 lb-in, 1/4 in 65, 5/16 in 130, 3/8 in 240, 1/2 in 600 lb-in; 70 lb-ft when two Belleville washers per bolt. Not verified for PRLC (IM01500001E not obtained)	C	S21 p. 17 Appendix A Table 2; oem_spec

Attribute	Value	Cl.	Sources
Branch kit relationship to prl4	A surplus listing titles the PRL4 connector kit KPRL4KDS as 'Pow-R-Line C'; the PRLC distribution X-space table matches PRL4 kit space requirements. Not OEM-confirmed that PRL4 KPRL4 kits are listed for PRLC switchboard chassis	D	S23, S17, S16 inference
Bus joint torque	Torque values for copper or aluminum bus bar connections: #10 = 30 lb-in (2.5 lb-ft); 1/4 in = 65 lb-in (5.4 lb-ft); 5/16 in = 130 lb-in (10.8 lb-ft); 3/8 in = 240 lb-in (20.0 lb-ft); 1/2 in = 600 lb-in (50.0 lb-ft). For other torque values refer to the instruction leaflet for the specific component. (IM01500001E covers Eaton Pow-R-Line switchboards generally (incl. Pow-R-Line C / i); not stated per sub-type.)	A	S22 p. 20, Appendix A Table 2; oem_spec
Installation doc	Pow-R-Line switchboards instruction manual IM01500001E (May 2021): splice plates installed with carriage bolts and hex nuts with captive Belleville washers, torqued per Appendix A Table 2 and switchboard labels; busway flange tie-bar hardware 0.375 in hex head bolt, flat washer and keps nut tightened to 20 lb-ft.	A	S22 pp. 9, 19, 20; oem_spec

3.38 PRLCS — Pow-R-Line CS switchboard

FAM-EAT-021 · switchboard · aka Pow-R-Line CS, PRL CS · markings: Eaton

Eaton Canada switchboard line documented by instruction manual IB015002EN (Nov 2021). Manual gives bus-joint torque table (Appendix A). No branch kit catalog numbers found.

Attribute	Value	Cl.	Sources
Status	current (Canadian market; manual IB015002EN effective Nov 2021)	B	S21 cover; oem_spec
Bus torque	Busbar connections: #10 30 lb-in; 1/4 in 65 lb-in; 5/16 in 130 lb-in; 3/8 in 240 lb-in; 1/2 in 600 lb-in; with two Belleville washers per bolt (convex side up) torque to 70 lb-ft	A	S21 p. 17 Appendix A Table 2; oem_spec

Key documents: S21 IB015002EN Eaton Pow-R-Line CS switchboards instruction manual

3.39 PRLXD — Pow-R-Line XD switchboard

FAM-EAT-039 · switchboard · aka Pow-R-Line XD, PRL XD

Eaton Pow-R-Line XD low-voltage distribution switchboard; installation per instruction manual MN015002EN (July 2019).

Attribute	Value	Cl.	Sources
Bus joint torque	Torque values for copper or aluminum bus bar connections: #10 30 lb-in (2.5 lb-ft); 1/4 in 65 (5.4); 5/16 in 130 (10.8); 3/8 in 240 (20.0); 1/2 in 600 (50.0). Other torques: refer to the component instruction leaflet.	A	S310 Appendix A Table 1; oem_spec
Installation doc	MN015002EN; system ground fault instructions referenced as IB015002EN	A	S310 maintenance section; oem_spec

Key documents: S310 MN015002EN Pow-R-Line XD switchboards Instruction Manual MN015002EN (Effective July 2019)

3.40 PRLi — Pow-R-Line i switchboard

FAM-EAT-020 · switchboard · aka PRL i, Pow-R-Line I, Pow-R-Line i · markings: Cutler-Hammer, Eaton

Rear-access, front- and rear-aligned UL 891 switchboard with individually compartmentalized feeder devices (not group-mounted). Included here for lineage; branch hardware is device-specific compartments rather than group-mounted connector kits.

Attribute	Value	Cl.	Sources
Status	current (2018 consulting guide)	A	S17 p. 21.0-11; oem_spec
Era of manufacture	Evolved in 1991 from Asheville 'Pow-R-I' (itself from WRI); built in Sumter SC	A	S13 p. V12-T15-2; oem_spec
Main ampacity	4000 A main bus maximum	A	S17 p. 21.0-11; oem_spec
Branch breakers accepted	Individually compartmentalized feeders: MCCB 15-1200 A compartmentalized, fusible switches 100-1200 A, Magnum SB/DS, NRX	A	same as above
Bus joint torque	Pow-R-Line switchboards bus bar connection torque table: #10 30 lb-in; 1/4 in 65 lb-in; 5/16 in 130 lb-in; 3/8 in 240 lb-in; 1/2 in 600 lb-in (50 lb-ft). (Manual is for Pow-R-Line switchboards generally.)	A	S22 p. 20, Appendix A Table 2; oem_spec

Key documents: S13 CA08100014E Volume 12—Aftermarket, Renewal Parts and Life Extension Solutions; S17 CA08104001E Tab 21 (TB01500003E) Switchboards—Low Voltage (Consulting Application Guide Tab 21); S22 IM01500001E Pow-R-Line switchboards instruction manual

3.41 WF/WRP — Westinghouse WF/WRP switchboard

FAM-EAT-018 · switchboard · aka WF, WRP, Type WF, Type WRP, WF/WRP switchboard · markings: Westinghouse

Westinghouse St. Louis Class II switchboard. Type WF = front access (rear flush), Type WRP = rear access (front and rear flush). Feeders were panel-mounted molded-case breakers or FDP fusible switches — the same device family used in CDP/FDP panelboards. Eaton's Sumter aftermarket center offers 'retrofit kits for WF and WRP distribution sections' and 'connector kits for WF and WRP distribution sections' (RP01400002E p.20), and Vol 12 says provisions/connectors are available for most ratings of WF/WRP; no catalog numbers published.

Attribute	Value	Cl.	Sources
Status	discontinued (superseded by Pow-R-Line C)	A	S13 p. V12-T15-5; oem_spec
Era of manufacture	Introduced 1955 by Westinghouse, St. Louis MO; design transferred 1988 to Sumter SC and Visalia CA as Pow-R-Line C	A	same as above
Successor	Pow-R-Line C switchboard (new PRLC match/lineup structures can connect to existing WF/WRP)	A	same as above
Voltage rating	120-600 V	A	S13 p. V12-T15-5 ratings table; oem_spec
Main ampacity	Switchboard bus 600-4000 A; protective devices 15-4000 A; 10-200 kA	A	S13 p. V12-T15-5; oem_spec
Branch breakers accepted	Group (panel)-mounted molded-case breakers or FDP fusible switches as feeders; mains DS, SPB, bolted pressure switch (CBC) or MCCB	A	S13 pp. V12-T15-2, V12-T15-5; oem_spec
Aftermarket / reproduction	Sumter Plant Aftermarket Center offers retrofit kits and connector kits for WF and WRP distribution sections	A	S14 p. 20; oem_spec

EDH-EAT-00469	3TA150FB	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C F-frame line/load terminals, 150 A, Cu/Al, Q18

OEM part number	3TA150FB	C	S121 p.1; oem_spec
Description	Line and load terminals, 150 A, #4-4/0 AWG Cu/Al, pressure type (Eaton web spec; frame field 'Frame J-K' doubtful)	C	same as above
Application	accessory	C	same as above
Current rating	150 A	C	same as above
Kit contents	Quantity 18 (per web spec)	C	same as above
Wire range	#4-4/0 AWG Cu/Al	C	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	breaker compatibility, Dimensions, OEM instruction document, not found in 2008/2015 catalog tables, Status, Torque values		
Open question	*3TA150FB is absent from CA08101001E 2008 F-frame Table 12-163; is it a newer or regional (Canada) part, and which frame does it fit?*		

EDH-EAT-00463	3TA225FD	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C F-frame line/load terminals, 225 A, Cu/Al (pkg of 3)

OEM part number	3TA225FD	A	S116 p.12-91, Table 12-163; oem_spec
Description	Standard pressure-type line/load terminal, Cu/Al wire; package of 3 terminals; Standard on 225 A F-frame; assemble collar enclosing conductor, clip snaps around collar	A	same as above
Application	accessory	A	same as above
Installation location	F-frame line/load conductor (load terminals standard; add suffix L for line)	A	same as above
Breaker compatibility	F-frame (FD, HFD, FDC, EHD etc.); also listed for JG-frame DC breakers (JGEDC/JGSDC/JGHDC 225 A) and FG enclosed breakers	A	same as above
Current rating	225 A max breaker	A	same as above
Kit contents	3 terminals per package	A	same as above
Wire range	4-4/0 AWG (25-95 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE), Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00467	3TA225FDK	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C F-frame line/load terminals, 225 A, Cu/Al (pkg of 3)

OEM part number	3TA225FDK	A	S116 p.12-91, Table 12-163; oem_spec
Description	Optional pressure-type line/load terminal, Cu/Al wire; package of 3 terminals; Includes terminal shield kit; adds approx. 3 in (76.2 mm) to breaker height; 3-pole only	A	same as above
Application	accessory	A	same as above
Installation location	F-frame line/load conductor (load terminals standard; add suffix L for line)	A	same as above
Breaker compatibility	F-frame (FD, HFD, FDC, EHD etc.)	A	same as above
Current rating	225 A max breaker	A	same as above
Kit contents	3 terminals per package; includes terminal shield kit	A	same as above
Wire range	6 AWG-300 kcmil (16-150 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00464	3TA50FB	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C F-frame line/load terminals, 50 A, Cu/Al (pkg of 3)

OEM part number	3TA50FB	A	S116 p.12-91, Table 12-163; oem_spec
Description	Optional pressure-type line/load terminal, Cu/Al wire; package of 3 terminals; Not for use with ED, EDH, EDC breakers	A	same as above
Application	accessory	A	same as above
Installation location	F-frame line/load conductor (load terminals standard; add suffix L for line)	A	same as above
Breaker compatibility	F-frame (FD, HFD, FDC, EHD etc.)	A	same as above
Current rating	50 A max breaker	A	same as above
Kit contents	3 terminals per package	A	same as above
Wire range	14-4 AWG (2.5-25 mm2)	A	same as above
Material	terminal body aluminum	A	same as above

Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00687	1253C73G01	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, center pole, 3.50 in, 150 A

OEM part number	1253C73G01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. center pole, 3.50 in, 150 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00685	1253C73G03	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, center pole, 3.50 in, 100 A

OEM part number	1253C73G03	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. center pole, 3.50 in, 100 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00688	1253C73G05	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, outside pole, 3.50 in, 150 A

OEM part number	1253C73G05	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. outside pole, 3.50 in, 150 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00686	1253C73G06	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, outside pole, 3.50 in, 100 A

OEM part number	1253C73G06	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. outside pole, 3.50 in, 100 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00679	673B142G02	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, center pole, 2.75 in bus spacing, 100 A

OEM part number	673B142G02	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. center pole, 2.75 in bus spacing, 100 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*KM reproduction lists 673B142G02 as center strap for both 50 A and 100 A at 2.75 in spacing; 2008 OEM table lists only 100 A and 150 A rows at 2.75 in.*		

EDH-EAT-00682	673B142G03	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, outside pole, 2.75 in, 150 A

OEM part number	673B142G03	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. outside pole, 2.75 in, 150 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00681	673B142G04	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, center pole, 2.75 in, 150 A

OEM part number	673B142G04	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. center pole, 2.75 in, 150 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00680	673B142G10	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C F-frame panelboard connecting strap, outside pole, 2.75 in, 100 A

OEM part number	673B142G10	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. outside pole, 2.75 in, 100 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	F-frame in panelboards (bus spacing per description)	A	same as above

Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00647	IPB1	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C interphase barrier (F)

OEM part number	IPB1	A	S116 p.12-249, Table 12-469; oem_spec
Description	Interphase barriers: high-dielectric insulating plates installed in molded slots between terminals for added clearance; field installation only; two per package	A	same as above
Application	accessory	A	same as above
Breaker compatibility	F	A	same as above
Kit contents	2 per package	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00645	TEC1	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C F-frame terminal end cover, 0.25 opening

OEM part number	TEC1	A	S116 p.12-249, Table 12-468; oem_spec
Description	Molded glass-polyester terminal end cover sliding over line end of 3-pole F-frame, forming terminal compartments isolating ionized gases (MCC applications); UL File E7819	A	same as above
Application	accessory	A	same as above
Breaker compatibility	F-frame 3-pole	A	same as above
Kit contents	one per breaker	A	same as above
Material	glass-polyester	A	same as above
Dimensions	conductor opening diameter 0.25 in (6.35 mm)	A	S116 p.12-249; oem_spec
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-EAT-00646	TEC2	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C F-frame terminal end cover, 0.41 opening

OEM part number	TEC2	A	S116 p.12-249, Table 12-468; oem_spec
Description	Molded glass-polyester terminal end cover sliding over line end of 3-pole F-frame, forming terminal compartments isolating ionized gases (MCC applications); UL File E7819	A	same as above
Application	accessory	A	same as above
Breaker compatibility	F-frame 3-pole	A	same as above
Kit contents	one per breaker	A	same as above
Material	glass-polyester	A	same as above
Dimensions	conductor opening diameter 0.41 in (10.41 mm)	A	S116 p.12-249; oem_spec
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	OEM instruction document, Status, Torque values		

Fastener

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00609	**KPR1A**	Series C F-frame keeper nut (10-32, line or load end)	F-frame **A**	unknown
EDH-EAT-00610	**KPR1AM**	Series C F-frame keeper nut (M5, line or load end)	F-frame **A**	unknown

EDH-EAT-00609 **KPR1A** Eaton / Cutler-Hammer fastener **STATUS UNKNOWN**

Series C F-frame keeper nut (10-32, line or load end)

OEM part number	KPR1A	**A**	S116 p.12-243, Table 12-448; oem_spec
Description	Keeper nut: slides onto breaker line/load conductor and acts as threaded adapter for ring terminal or bolt-on connector; screws/washers by customer; UL File E7819. L/M/N frames do not need keeper nuts (threaded terminals)	**A**	same as above
Application	accessory	**A**	same as above
Installation location	line or load conductor	**A**	same as above
Breaker compatibility	F-frame	**A**	same as above
Kit contents	package of 12	**A**	same as above
Fasteners	thread 10-32	**A**	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00610 **KPR1AM** Eaton / Cutler-Hammer fastener **STATUS UNKNOWN**

Series C F-frame keeper nut (M5, line or load end)

OEM part number	KPR1AM	**A**	S116 p.12-243, Table 12-448; oem_spec
Description	Keeper nut: slides onto breaker line/load conductor and acts as threaded adapter for ring terminal or bolt-on connector; screws/washers by customer; UL File E7819. L/M/N frames do not need keeper nuts (threaded terminals)	**A**	same as above
Application	accessory	**A**	same as above
Installation location	line or load conductor	**A**	same as above
Breaker compatibility	F-frame	**A**	same as above
Kit contents	package of 12	**A**	same as above
Fasteners	thread M5	**A**	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Breaker Accessory

Catalogue ID	OEM part no.	Description	Breakers	Status

EDH-EAT-00653	451D874G02	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame rear connecting stud, 100 A long stud

OEM part number	451D874G02	A	S116 pp.12-258..12-260, Tables 12-505..12-510; oem_spec
Description	Rear connecting stud assembly (stud + tube; tubes ordered separately); alternate long/short studs between poles; one per pole per end; English threads only; NOT UL listed. 100 A long stud; tubes 32B9446H24-H27	A	same as above
Application	accessory	A	same as above
Installation location	line/load terminal, through mounting panel (rear connection)	A	same as above
Breaker compatibility	F-frame fixed-mounted	A	same as above
Kit contents	stud only; tube(s) 32B9446H24/H25/H26/H27 ordered separately by panel thickness	A	same as above
Fasteners	.31-18 thread	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00617	FCWTK	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame control wire terminal kit

OEM part number	FCWTK	A	S116 p.12-244, Tables 12-452..12-454; oem_spec
Description	F-frame control wire terminal kit, 150 A (12 tangs; terminals ordered separately); for steel or stainless steel terminals only; taps control power using male quick-disconnect	A	same as above
Application	accessory	A	same as above
Breaker compatibility	F-frame	A	same as above
Kit contents	package of 12 control wire tangs, priced individually	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Requires	3T100FB (EDH-EAT-00462)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00618	FCWTK225	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame control wire terminal kit

OEM part number	FCWTK225	A	S116 p.12-244, Tables 12-452..12-454; oem_spec
Description	F-frame control wire terminal kit, 225 A (12 tangs); taps control power using male quick-disconnect	A	same as above
Application	accessory	A	same as above
Breaker compatibility	F-frame	A	same as above
Kit contents	package of 12 control wire tangs, priced individually	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00593	KPEK1	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame end cap kit, 3-pole, 10-32

OEM part number	KPEK1	A	S116 p.12-243, Table 12-447; oem_spec
Description	End cap kit: slides onto line or load conductor, threaded adapter to accept ring terminal or bolt-on connector; field installation; UL File E7819	A	same as above
Application	accessory	A	same as above
Installation location	line or load conductor	A	same as above
Breaker compatibility	F-frame 3-pole (225 A)	A	same as above
Poles	3	A	same as above
Fasteners	thread 10-32	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00591	KPEK12	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame end cap kit, 2-pole, 10-32

OEM part number	KPEK12	A	S116 p.12-243, Table 12-447; oem_spec
Description	End cap kit: slides onto line or load conductor, threaded adapter to accept ring terminal or bolt-on connector; field installation; UL File E7819	A	same as above
Application	accessory	A	same as above
Installation location	line or load conductor	A	same as above
Breaker compatibility	F-frame 2-pole (225 A)	A	same as above
Poles	2	A	same as above
Fasteners	thread 10-32	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00595	KPEK14	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame end cap kit, 4-pole, 10-32

OEM part number	KPEK14	A	S116 p.12-243, Table 12-447; oem_spec
Description	End cap kit: slides onto line or load conductor, threaded adapter to accept ring terminal or bolt-on connector; field installation; UL File E7819	A	same as above
Application	accessory	A	same as above
Installation location	line or load conductor	A	same as above
Breaker compatibility	F-frame 4-pole (225 A)	A	same as above
Poles	4	A	same as above
Fasteners	thread 10-32	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00594	KPEKM1	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame end cap kit, 3-pole, M5

OEM part number	KPEKM1	A	S116 p.12-243, Table 12-447; oem_spec
Description	End cap kit: slides onto line or load conductor, threaded adapter to accept ring terminal or bolt-on connector; field installation; UL File E7819	A	same as above
Application	accessory	A	same as above
Installation location	line or load conductor	A	same as above
Breaker compatibility	F-frame 3-pole (225 A)	A	same as above
Poles	3	A	same as above
Fasteners	thread M5	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00592	KPEKM12	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame end cap kit, 2-pole, M5

OEM part number	KPEKM12	A	S116 p.12-243, Table 12-447; oem_spec
Description	End cap kit: slides onto line or load conductor, threaded adapter to accept ring terminal or bolt-on connector; field installation; UL File E7819	A	same as above
Application	accessory	A	same as above
Installation location	line or load conductor	A	same as above
Breaker compatibility	F-frame 2-pole (225 A)	A	same as above
Poles	2	A	same as above
Fasteners	thread M5	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00596	KPEKM14	Eaton / Cutler-Hammer	breaker-accessory	STATUS UNKNOWN

Series C F-frame end cap kit, 4-pole, M5

OEM part number	KPEKM14	A	S116 p.12-243, Table 12-447; oem_spec
Description	End cap kit: slides onto line or load conductor, threaded adapter to accept ring terminal or bolt-on connector; field installation; UL File E7819	A	same as above
Application	accessory	A	same as above
Installation location	line or load conductor	A	same as above
Breaker compatibility	F-frame 4-pole (225 A)	A	same as above
Poles	4	A	same as above
Fasteners	thread M5	A	same as above
Cross-links	Breakers: Series C F-Frame (FD/HFD/FDC/EHD/FDB/FDE)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Breaker family Series C G-Frame (GD/GHC/GHB)

Lug Kit

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00620	**3TA100G3K**	Series C G-frame multiwire connector, 3 wires/terminal	G-frame (100 A max); GD breakers require special tapping and special t A	unknown
EDH-EAT-00621	**3TA100G6K**	Series C G-frame multiwire connector, 6 wires/terminal	G-frame (100 A max); GD breakers require special tapping and special t A	unknown

EDH-EAT-00620	3TA100G3K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C G-frame multiwire connector, 3 wires/terminal

OEM part number	3TA100G3K	A	S116 p.12-245, Table 12-456; oem_spec
Description	Field-installed multiwire connectors for load (OFF) end; mounting hardware, insulators, tin-plated Al connectors replacing three mechanical load lugs; UL listed on load end	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end	A	same as above
Breaker compatibility	G-frame (100 A max); GD breakers require special tapping and special terminals	A	same as above
Current rating	100 A	A	same as above
Kit contents	package of 3	A	same as above
Wire range	(3) 14-2 AWG Cu per terminal	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Series C G-Frame (GD/GHC/GHB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00621	3TA100G6K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C G-frame multiwire connector, 6 wires/terminal

OEM part number	3TA100G6K	**A**	S116 p.12-245, Table 12-456; oem_spec
Description	Field-installed multiwire connectors for load (OFF) end; mounting hardware, insulators, tin-plated Al connectors replacing three mechanical load lugs; UL listed on load end	**A**	same as above
Application	accessory	**A**	same as above
Installation location	load (OFF) end	**A**	same as above
Breaker compatibility	G-frame (100 A max); GD breakers require special tapping and special terminals	**A**	same as above
Current rating	100 A	**A**	same as above
Kit contents	package of 3	**A**	same as above
Wire range	(6) 14-6 AWG Cu per terminal	**A**	same as above
Material	tin-plated aluminum connectors	**A**	same as above
Cross-links	Breakers: Series C G-Frame (GD/GHC/GHB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Barrier

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00628	**GTSK3**	Series C G-frame terminal shield	G-frame **A**	unknown

EDH-EAT-00628	GTSK3	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C G-frame terminal shield

OEM part number	GTSK3	**A**	S116 p.12-248, Tables 12-461..12-467; oem_spec
Description	Terminal shield: high-dielectric insulating shield fastened over front terminal access openings; small openings allow tightening connectors; field installation only. G-frame terminal shield	**A**	same as above
Application	accessory	**A**	same as above
Installation location	terminal area	**A**	same as above
Breaker compatibility	G-frame	**A**	same as above
Kit contents	package of 10	**A**	same as above
Cross-links	Breakers: Series C G-Frame (GD/GHC/GHB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Breaker family Series C J-Frame (JD/HJD/JDC/JDB)

Lug Kit

Catalogue ID	OEM part no.	Description	Breakers	Status

EDH-EAT-00471	T250KB	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C J-frame line/load terminal, 250 A, Cu only (optional)

OEM part number	T250KB	A	S116 p.12-97, Table 12-175 (Nov 2008); p.12-91 Table 12-163 (May 2008); oem_spec
Description	Optional Cu pressure terminal; stainless steel body; collar/slotted nut and screw	A	same as above
Application	accessory	A	same as above
Breaker compatibility	J-frame JD/HJD/JDC/JDB	A	same as above
Current rating	250 A	A	same as above
Kit contents	1 terminal	A	same as above
Wire range	4-350 kcmil (25-185 mm2) Cu only	A	same as above
Material	stainless steel body	A	same as above
Cross-links	Breakers: Series C J-Frame (JD/HJD/JDC/JDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*Some distributors list body material as copper - OEM says stainless steel.*		

EDH-EAT-00470	TA250KB	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C J-frame line/load terminal, 250 A, Cu/Al (standard)

OEM part number	TA250KB	A	S116 p.12-97, Table 12-175 (Nov 2008); p.12-91 Table 12-163 (May 2008); oem_spec
Description	Standard Cu/Al pressure terminal; bottom has recess positioned over J-frame terminal conductor; individually packed; no dual lugs	A	same as above
Application	accessory	A	same as above
Breaker compatibility	J-frame JD/HJD/JDC/JDB 70-250 A (standard); also HJDDC; JG enclosed 250 A (s7 V4-T2-345)	A	same as above
Current rating	250 A	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	4-350 kcmil (25-185 mm2) Cu/Al	A	same as above
Material	aluminum body	A	same as above
Torque values	275 lb-in (31 N-m) per J-frame IL table (search snippet) (Torque value seen only in search-result snippet of Eaton IL29C402D; not verified from downloaded document)	C	S117 oem_spec
Cross-links	Breakers: Series C J-Frame (JD/HJD/JDC/JDB), Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status		

Connector Strap

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00689	**2600D26G01**	Series C J-frame panelboard connecting strap, center pole, 3.50 in, 250 A	J-frame in panelboards (bus spacing per description) A	unknown
EDH-EAT-00690	**2600D26G02**	Series C J-frame panelboard connecting strap, outside pole, 3.50 in, 250 A	J-frame in panelboards (bus spacing per description) A	unknown

EDH-EAT-00689	2600D26G01	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C J-frame panelboard connecting strap, center pole, 3.50 in, 250 A

OEM part number	2600D26G01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. center pole, 3.50 in, 250 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	J-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C J-Frame (JD/HJD/JDC/JDB)

Series C K-frame multiwire connector, 3 wires/terminal

OEM part number	3TA400K3K	A	S116 p.12-245, Table 12-456; oem_spec
Description	Field-installed multiwire connectors for load (OFF) end; mounting hardware, insulators, tin-plated Al connectors replacing three mechanical load lugs; UL listed on load end	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end	A	same as above
Breaker compatibility	K-frame (400 A max)	A	same as above
Current rating	400 A	A	same as above
Kit contents	package of 3	A	same as above
Wire range	(3) 14-2/0 AWG Cu per terminal	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00627	3TA400K6K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame multiwire connector, 6 wires/terminal

OEM part number	3TA400K6K	A	S116 p.12-245, Table 12-456; oem_spec
Description	Field-installed multiwire connectors for load (OFF) end; mounting hardware, insulators, tin-plated Al connectors replacing three mechanical load lugs; UL listed on load end	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end	A	same as above
Breaker compatibility	K-frame (400 A max)	A	same as above
Current rating	400 A	A	same as above
Kit contents	package of 3	A	same as above
Wire range	(6) 14-3 AWG Cu per terminal	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00492	3TA400KCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame terminal kit with control wire termination (3TA400K)

OEM part number	3TA400KCW	A	S116 p.12-113, Table 12-199; oem_spec
Description	Same as 3TA400K but with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC	A	same as above
Poles	3	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	3-pole kit: one terminal per pole + one terminal cover	A	same as above
Wire range	3/0-250 kcmil (2) (95-120 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00483	3TA401K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal kit, 400 A, Cu/Al

OEM part number	3TA401K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu/Al pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Poles	3	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	3-pole kit	A	same as above
Wire range	2/0-250 kcmil (2) or 2/0-500 kcmil (1) (70-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00498	3TA401KCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame terminal kit with control wire termination (3TA401K)

OEM part number	3TA401KCW	A	S116 p.12-113, Table 12-199; oem_spec
Description	Same as 3TA401K but with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC	A	same as above
Poles	3	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	3-pole kit	A	same as above
Wire range	2/0-250 kcmil (2) or 2/0-500 kcmil (1) (70-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00486	3TA402K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal kit, 400 A, Cu/Al

OEM part number	3TA402K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu/Al pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Poles	3	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	3-pole kit	A	same as above
Wire range	500-750 kcmil (1) (300-400 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00481	4T400K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal kit, 400 A, Cu

OEM part number	4T400K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit	A	same as above
Wire range	3/0-250 kcmil (2) (95-120 mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00496	4T400KCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame terminal kit with control wire termination (4T400K)

OEM part number	4T400KCW	A	S116 p.12-113, Table 12-199; oem_spec
Description	Same as 4T400K but with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit	A	same as above
Wire range	3/0-250 kcmil (2) (95-120 mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00490	4T402K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal kit, 400 A, Cu

OEM part number	4T402K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit	A	same as above
Wire range	500-750 kcmil (1) (- mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00476	4TA400K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal kit, 400 A, Cu/Al

OEM part number	4TA400K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Standard Cu/Al pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit: one terminal per pole + one terminal cover	A	same as above
Wire range	3/0-250 kcmil (2) (95-120 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00493	4TA400KCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame terminal kit with control wire termination (4TA400K)

OEM part number	4TA400KCW	A	S116 p.12-113, Table 12-199; oem_spec
Description	Same as 4TA400K but with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit: one terminal per pole + one terminal cover	A	same as above
Wire range	3/0-250 kcmil (2) (95-120 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00484	4TA401K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal kit, 400 A, Cu/Al

OEM part number	4TA401K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu/Al pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit	A	same as above
Wire range	2/0-250 kcmil (2) or 2/0-500 kcmil (1) (70-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00499	4TA401KCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame terminal kit with control wire termination (4TA401K)

OEM part number	4TA401KCW	A	S116 p.12-113, Table 12-199; oem_spec
Description	Same as 4TA401K but with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit	A	same as above
Wire range	2/0-250 kcmil (2) or 2/0-500 kcmil (1) (70-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00487	4TA402K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal kit, 400 A, Cu/Al

OEM part number	4TA402K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu/Al pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4-pole kit (KM: with three interphase barriers)	A	same as above
Wire range	500-750 kcmil (1) (300-400 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00477	T300K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal , 225 A, Cu

OEM part number	T300K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Current rating	225 A max breaker	A	same as above
Kit contents	1 terminal	A	same as above
Wire range	3 AWG-350 kcmil (1) (35-185 mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00478	T350K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal , 350 A, Cu

OEM part number	T350K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Optional Cu pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB;	A	same as above
Current rating	350 A max breaker	A	same as above
Kit contents	1 terminal	A	same as above
Wire range	250-500 kcmil (1) (120-240 mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00472	TA300K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal , 225 A, Cu/Al

OEM part number	TA300K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Standard Cu/Al pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB; TA300K: standard for KES electronic ratings to 225-300 A; HKDDC 225 A	A	same as above
Current rating	225 A max breaker	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	3 AWG-350 kcmil (1) (35-185 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00473	TA350K	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C K-frame line/load terminal , 350 A, Cu/Al

OEM part number	TA350K	A	S116 p.12-113, Table 12-199; oem_spec
Description	Standard Cu/Al pressure terminal; field installation (shipped separately)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	K-frame KD/HKD/KDC/KDB; also KG enclosed/KP definite purpose 400 A, HKDDC 350 A	A	same as above
Current rating	350 A max breaker	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	250-500 kcmil (1) (120-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*2008 table gives TA350K max 350 A; 2015 KP/KG tables and KM reproduction give 400 A - which is current?*		

Connector Strap

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00692	**4212B77G01**	Series C K-frame panelboard connecting strap, outside pole, 3.50 in, 400 A	K-frame in panelboards (bus spacing per description) A	unknown
EDH-EAT-00691	**4212B78G02**	Series C K-frame panelboard connecting strap, center pole, 3.50 in, 400 A	K-frame in panelboards (bus spacing per description) A	unknown

EDH-EAT-00692	4212B77G01	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C K-frame panelboard connecting strap, outside pole, 3.50 in, 400 A

OEM part number	4212B77G01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. outside pole, 3.50 in, 400 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	K-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00691	4212B78G02	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C K-frame panelboard connecting strap, center pole, 3.50 in, 400 A

OEM part number	4212B78G02	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. center pole, 3.50 in, 400 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	K-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Mounting Bracket

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00703	**208B264H01**	Series C K-frame panelboard strap mounting bracket	K-frame **A**	unknown

EDH-EAT-00703	208B264H01	Eaton / Cutler-Hammer	mounting-bracket	STATUS UNKNOWN

Series C K-frame panelboard strap mounting bracket

OEM part number	208B264H01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Mounting bracket for panelboard connecting straps (CDP panelboard installations)	A	same as above
Application	accessory	A	same as above
Installation location	panelboard interior, supports breaker/strap	A	same as above
Breaker compatibility	K-frame	A	same as above
Poles	2,3	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Barrier

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00641	**TS33LD**	Series C K-frame terminal shield 3-pole, load	K-frame **A**	unknown
EDH-EAT-00639	**TS33LN**	Series C K-frame terminal shield 2/3-pole, line	K-frame **A**	unknown
EDH-EAT-00640	**TS34LN**	Series C K-frame terminal shield 4-pole, line	K-frame **A**	unknown

EDH-EAT-00641	TS33LD	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C K-frame terminal shield 3-pole, load

OEM part number	TS33LD	A	S116 p.12-248, Tables 12-461..12-467; oem_spec
Description	Terminal shield: high-dielectric insulating shield fastened over front terminal access openings; small openings allow tightening connectors; field installation only. K-frame terminal shield 3-pole, load	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	K-frame	A	same as above
Poles	3	A	same as above
Kit contents	package of 10	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00639	TS33LN	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C K-frame terminal shield 2/3-pole, line

OEM part number	TS33LN	A	S116 p.12-248, Tables 12-461..12-467; oem_spec
Description	Terminal shield: high-dielectric insulating shield fastened over front terminal access openings; small openings allow tightening connectors; field installation only. K-frame terminal shield 2/3-pole, line	A	same as above
Application	accessory	A	same as above
Installation location	line terminal area	A	same as above
Breaker compatibility	K-frame	A	same as above
Poles	2,3	A	same as above
Kit contents	package of 10	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00640	TS34LN	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C K-frame terminal shield 4-pole, line

OEM part number	TS34LN	A	S116 p.12-248, Tables 12-461..12-467; oem_spec
Description	Terminal shield: high-dielectric insulating shield fastened over front terminal access openings; small openings allow tightening connectors; field installation only. K-frame terminal shield 4-pole, line	A	same as above
Application	accessory	A	same as above
Installation location	line terminal area	A	same as above
Breaker compatibility	K-frame	A	same as above
Poles	4	A	same as above
Kit contents	package of 10	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Fastener

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00611	**KPR3A**	Series C K-frame keeper nut (.375-16, line end)	K-frame A	unknown
EDH-EAT-00613	**KPR3AM**	Series C K-frame keeper nut (M8, line end)	K-frame A	unknown
EDH-EAT-00612	**KPR3B**	Series C K-frame keeper nut (.375-16, load end)	K-frame A	unknown
EDH-EAT-00614	**KPR3BM**	Series C K-frame keeper nut (M8, load end)	K-frame A	unknown

EDH-EAT-00611	KPR3A	Eaton / Cutler-Hammer	fastener	STATUS UNKNOWN

Series C K-frame keeper nut (.375-16, line end)

OEM part number	KPR3A	A	S116 p.12-243, Table 12-449; oem_spec
Description	Keeper nut: slides onto breaker line/load conductor and acts as threaded adapter for ring terminal or bolt-on connector; screws/washers by customer; UL File E7819. L/M/N frames do not need keeper nuts (threaded terminals)	A	same as above
Application	accessory	A	same as above
Installation location	line conductor	A	same as above
Breaker compatibility	K-frame	A	same as above
Kit contents	package of 3	A	same as above
Fasteners	thread .375-16	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*KM reseller page says K-frame keeper nuts are packages of 12; 2008 OEM table says package of 3.*		

EDH-EAT-00613	KPR3AM	Eaton / Cutler-Hammer	fastener	STATUS UNKNOWN

Series C K-frame keeper nut (M8, line end)

OEM part number	KPR3AM	A	S116 p.12-243, Table 12-449; oem_spec
Description	Keeper nut: slides onto breaker line/load conductor and acts as threaded adapter for ring terminal or bolt-on connector; screws/washers by customer; UL File E7819. L/M/N frames do not need keeper nuts (threaded terminals)	A	same as above
Application	accessory	A	same as above
Installation location	line conductor	A	same as above
Breaker compatibility	K-frame	A	same as above
Kit contents	package of 3	A	same as above
Fasteners	thread M8	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*KM reseller page says K-frame keeper nuts are packages of 12; 2008 OEM table says package of 3.*		

EDH-EAT-00612	KPR3B	Eaton / Cutler-Hammer	fastener	STATUS UNKNOWN

Series C K-frame keeper nut (.375-16, load end)

OEM part number	KPR3B	A	S116 p.12-243, Table 12-449; oem_spec
Description	Keeper nut: slides onto breaker line/load conductor and acts as threaded adapter for ring terminal or bolt-on connector; screws/washers by customer; UL File E7819. L/M/N frames do not need keeper nuts (threaded terminals)	A	same as above
Application	accessory	A	same as above
Installation location	load conductor	A	same as above
Breaker compatibility	K-frame	A	same as above

Open question	*KM reseller page says K-frame keeper nuts are packages of 12; 2008 OEM table says package of 3.*		

EDH-EAT-00614	KPR3BM	Eaton / Cutler-Hammer	fastener	STATUS UNKNOWN

Series C K-frame keeper nut (M8, load end)

OEM part number	KPR3BM	A	S116 p.12-243, Table 12-449; oem_spec
Description	Keeper nut: slides onto breaker line/load conductor and acts as threaded adapter for ring terminal or bolt-on connector; screws/washers by customer; UL File E7819. L/M/N frames do not need keeper nuts (threaded terminals)	A	same as above
Application	accessory	A	same as above
Installation location	load conductor	A	same as above
Breaker compatibility	K-frame	A	same as above
Kit contents	package of 3	A	same as above
Fasteners	thread M8	A	same as above
Cross-links	Breakers: Series C K-Frame (KD/HKD/KDC/KDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

Description	Standard Cu/Al pressure terminal; secured by two pan-head slotted screws + lockwashers; conductors clamped by recessed socket screws; step-type terminal requires terminal cover and warning label	A	S116 p.12-132, Table 12-224 (Nov 2008); V4-T2-203 (Oct 2015); oem_spec
Application	accessory	A	same as above
Breaker compatibility	L-frame LD/HLD/LDC/LDB; standard on 600 A LD/HLD/LDC and molded case switches LD/LDB/HLD 600WK	A	same as above
Poles	4	A	same as above
Current rating	600 A max breaker	A	same as above
Kit contents	4-pole kit + one terminal cover	A	same as above
Wire range	400-500 kcmil (2) (185-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00512	4TA603LDKCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C L-frame terminal with control wire termination (4TA603LDK)

OEM part number	4TA603LDKCW	A	S116 p.12-132 Table 12-224; p.12-244 Table 12-455; oem_spec
Description	Same as 4TA603LDK with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	L-frame LD/HLD/LDC	A	same as above
Poles	4	A	same as above
Kit contents	4-pole kit + one terminal cover	A	same as above
Wire range	400-500 kcmil (2) (185-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00508	T602LD	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C L-frame line/load terminal, 600 A, Cu

OEM part number	T602LD	A	S116 p.12-132, Table 12-224 (Nov 2008); V4-T2-203 (Oct 2015); oem_spec
Description	Optional Cu pressure terminal; secured by two pan-head slotted screws + lockwashers; conductors clamped by recessed socket screws	A	same as above
Application	accessory	A	same as above
Breaker compatibility	L-frame LD/HLD/LDC/LDB	A	same as above
Current rating	600 A max breaker	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	250-350 kcmil (2) (120-250 mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00513	T602LDCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C L-frame terminal with control wire termination (T602LD)

OEM part number	T602LDCW	A	S116 p.12-132 Table 12-224; p.12-244 Table 12-455; oem_spec
Description	Same as T602LD with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	L-frame LD/HLD/LDC	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	250-350 kcmil (2) (120-250 mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*Table 12-455 lists T602LDCW range as (2) 250-350 kcmil Cu 120-150 mm2 and TA602LDCW as (2) 3/0-350 kcmil; KM page notes TA602LDCW 'not for use with T250KB terminals' - verify.*		

EDH-EAT-00503	TA450LD	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C L-frame line/load terminal, 450 A, Cu/Al

OEM part number	TA450LD	A	S116 p.12-132, Table 12-224 (Nov 2008); V4-T2-203 (Oct 2015); oem_spec
Description	Standard Cu/Al pressure terminal; secured by two pan-head slotted screws + lockwashers; conductors clamped by recessed socket screws	A	same as above
Application	accessory	A	same as above
Breaker compatibility	L-frame LD/HLD/LDC/LDB	A	same as above
Current rating	450 A max breaker	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	4-4/0 AWG (2) (25-95 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00504	TA602LD	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C L-frame line/load terminal, 500 A, Cu/Al

OEM part number	TA602LD	A	S116 p.12-132, Table 12-224 (Nov 2008); V4-T2-203 (Oct 2015); oem_spec
Description	Standard Cu/Al pressure terminal; secured by two pan-head slotted screws + lockwashers; conductors clamped by recessed socket screws	A	same as above
Application	accessory	A	same as above
Breaker compatibility	L-frame LD/HLD/LDC/LDB; standard on 300-500 A LD/HLD/LDC; HLDDC; LP definite purpose 500 A	A	same as above
Current rating	500 A max breaker	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	3/0-350 kcmil (2) (95-150 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00509	TA602LDCW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C L-frame terminal with control wire termination (TA602LD)

OEM part number	TA602LDCW	A	S116 p.12-132 Table 12-224; p.12-244 Table 12-455; oem_spec
Description	Same as TA602LD with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	L-frame LD/HLD/LDC	A	same as above
Kit contents	1 terminal (individually packed)	A	same as above
Wire range	3/0-350 kcmil (2) (95-150 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*Table 12-455 lists T602LDCW range as (2) 250-350 kcmil Cu 120-150 mm2 and TA602LDCW as (2) 3/0-350 kcmil; KM page notes TA602LDCW 'not for use with T250KB terminals' - verify.*		

Connector Strap

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00694	**506C052G01**	Series C L-frame panelboard connecting strap, outside pole, 600 A	L-frame in panelboards (bus spacing per description) **A**	unknown
EDH-EAT-00693	**624B609G01**	Series C L-frame panelboard connecting strap, center pole, 600 A	L-frame in panelboards (bus spacing per description) **A**	unknown

EDH-EAT-00694	506C052G01	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C L-frame panelboard connecting strap, outside pole, 600 A

OEM part number	506C052G01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. outside pole, 600 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	L-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00693	624B609G01	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C L-frame panelboard connecting strap, center pole, 600 A

OEM part number	624B609G01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. center pole, 600 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	L-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Mounting Bracket

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00704	**208B297H01**	Series C L-frame panelboard strap mounting bracket	L-frame A	unknown

EDH-EAT-00704	208B297H01	Eaton / Cutler-Hammer	mounting-bracket	STATUS UNKNOWN

Series C L-frame panelboard strap mounting bracket

OEM part number	208B297H01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Mounting bracket for panelboard connecting straps (CDP panelboard installations)	A	same as above
Application	accessory	A	same as above
Installation location	panelboard interior, supports breaker/strap	A	same as above
Breaker compatibility	L-frame	A	same as above
Poles	2,3	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Barrier

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00642	**314C420G05**	Series C L-frame terminal shield	L-frame A	unknown
EDH-EAT-00649	**IPB4**	Series C interphase barrier (L, M)	L, M (2008); KM reproduction: M only A	unknown

EDH-EAT-00642	314C420G05	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C L-frame terminal shield

OEM part number	314C420G05	A	S116 p.12-248, Tables 12-461..12-467; oem_spec
Description	Terminal shield: high-dielectric insulating shield fastened over front terminal access openings; small openings allow tightening connectors; field installation only. L-frame terminal shield	A	same as above
Application	accessory	A	same as above
Installation location	terminal area	A	same as above
Breaker compatibility	L-frame	A	same as above
Kit contents	package of 1	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00649	IPB4	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C interphase barrier (L, M)

OEM part number	IPB4	A	S116 p.12-249, Table 12-469; oem_spec
Description	Interphase barriers: high-dielectric insulating plates installed in molded slots between terminals for added clearance; field installation only; two per package (Conflicting assignments)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	L, M (2008); KM reproduction: M only	A	same as above
Kit contents	2 per package	A	same as above
Cross-links	Breakers: Series C L-Frame (LD/HLD/LDC/LDB), Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*Is IPB4 L+M or M only (newer edition)?*		

Breaker Accessory

Catalogue ID	OEM part no.	Description	Breakers	Status

EDH-EAT-00517 **T600MA1** Eaton / Cutler-Hammer lug-kit **STATUS UNKNOWN**

Series C M-frame line/load terminal, 600 A, Cu

OEM part number	T600MA1	**A**	S116 p.12-140, Table 12-240; oem_spec
Description	Optional Cu pressure terminal	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	M-frame MDL/HMDL/MDLB	**A**	same as above
Current rating	600 A max breaker	**A**	same as above
Wire range	(2) 2/0-500 kcmil	**A**	same as above
Material	terminal body copper	**A**	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00518 **T800MA1** Eaton / Cutler-Hammer lug-kit **STATUS UNKNOWN**

Series C M-frame line/load terminal, 800 A, Cu

OEM part number	T800MA1	**A**	S116 p.12-140, Table 12-240; oem_spec
Description	Optional Cu pressure terminal	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	M-frame MDL/HMDL/MDLB	**A**	same as above
Current rating	800 A max breaker	**A**	same as above
Wire range	(3) 3/0-300 kcmil	**A**	same as above
Material	terminal body copper	**A**	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00514 **TA700MA1** Eaton / Cutler-Hammer lug-kit **STATUS UNKNOWN**

Series C M-frame line/load terminal, 600 A, Cu/Al

OEM part number	TA700MA1	**A**	S116 p.12-140, Table 12-240; oem_spec
Description	Standard Cu/Al pressure terminal	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	M-frame MDL/HMDL/MDLB	**A**	same as above
Current rating	600 (700 per KM/DC table) A max breaker	**A**	same as above
Wire range	(2) 1-500 kcmil	**A**	same as above
Material	terminal body aluminum	**A**	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00519	TA700MA1CWT	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C M-frame terminal with control wire termination (TA700MA1)

OEM part number	TA700MA1CWT	A	S116 p.12-140, Table 12-240; oem_spec
Description	Same as TA700MA1 with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	M-frame MDL/HMDL	A	same as above
Wire range	(2) 1-500 kcmil	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00515	TA800MA2	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C M-frame line/load terminal, 800 A, Cu/Al

OEM part number	TA800MA2	A	S116 p.12-140, Table 12-240; oem_spec
Description	Standard Cu/Al pressure terminal	A	same as above
Application	accessory	A	same as above
Breaker compatibility	M-frame MDL/HMDL/MDLB; MP definite purpose 800 A; HMDLDC	A	same as above
Current rating	800 (std.) A max breaker	A	same as above
Wire range	(3) 3/0-400 kcmil	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00520	TA800MA2CWT	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C M-frame terminal with control wire termination (TA800MA2)

OEM part number	TA800MA2CWT	A	S116 p.12-140, Table 12-240; oem_spec
Description	Same as TA800MA2 with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	M-frame MDL/HMDL	A	same as above
Wire range	(3) 3/0-400 kcmil	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00516	TA801MA	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C M-frame line/load terminal, 800 A, Cu/Al

OEM part number	TA801MA	A	S116 p.12-140, Table 12-240; oem_spec
Description	Standard Cu/Al pressure terminal	A	same as above
Application	accessory	A	same as above
Breaker compatibility	M-frame MDL/HMDL/MDLB; MP definite purpose 800 A; HMDLDC	A	same as above
Current rating	800 A max breaker	A	same as above
Wire range	(2) 500-750 kcmil	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00521	TA801MACWT	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C M-frame terminal with control wire termination (TA801MA)

OEM part number	TA801MACWT	A	S116 p.12-140, Table 12-240; oem_spec
Description	Same as TA801MA with control wire termination	A	same as above
Application	accessory	A	same as above
Breaker compatibility	M-frame MDL/HMDL	A	same as above
Wire range	(2) 500-750 kcmil	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Connector Strap

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00695	**314C996G01**	Series C M-frame panelboard connecting strap, short, 3.50 in, 800 A	M-frame in panelboards (bus spacing per description) A	unknown
EDH-EAT-00696	**314C996G02**	Series C M-frame panelboard connecting strap, medium, 3.50 in, 800 A	M-frame in panelboards (bus spacing per description) A	unknown
EDH-EAT-00697	**314C996G03**	Series C M-frame panelboard connecting strap, long, 3.50 in, 800 A	M-frame in panelboards (bus spacing per description) A	unknown

EDH-EAT-00695	314C996G01	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C M-frame panelboard connecting strap, short, 3.50 in, 800 A

OEM part number	314C996G01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. short, 3.50 in, 800 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	M-frame in panelboards (bus spacing per description)	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00696	314C996G02	Eaton / Cutler-Hammer	connector-strap	STATUS UNKNOWN

Series C M-frame panelboard connecting strap, medium, 3.50 in, 800 A

OEM part number	314C996G02	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Panelboard connecting strap connecting breaker terminals to panelboard bus; field installation; NOT UL listed; refer to panelboard manufacturer for compatibility. medium, 3.50 in, 800 A	A	same as above
Application	accessory	A	same as above
Installation location	between breaker line terminal and panelboard bus	A	same as above
Breaker compatibility	M-frame in panelboards (bus spacing per description)	A	same as above

Mounting Bracket

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00705	**315C270H01**	Series C M/N-frame panelboard strap mounting bracket	M/N-frame A	unknown

EDH-EAT-00705	315C270H01	Eaton / Cutler-Hammer	mounting-bracket	STATUS UNKNOWN

Series C M/N-frame panelboard strap mounting bracket

OEM part number	315C270H01	A	S116 p.12-261, Tables 12-511..12-521; oem_spec
Description	Mounting bracket for panelboard connecting straps (CDP panelboard installations); N-frame requires four	A	same as above
Application	accessory	A	same as above
Installation location	panelboard interior, supports breaker/strap	A	same as above
Breaker compatibility	M/N-frame	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB), Series C N-Frame (ND/HND/NDC/NB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Barrier

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00643	**208B966G01**	Series C M-frame terminal shield	M-frame A	unknown

EDH-EAT-00643	208B966G01	Eaton / Cutler-Hammer	barrier	STATUS UNKNOWN

Series C M-frame terminal shield

OEM part number	208B966G01	A	S116 p.12-248, Tables 12-461..12-467; oem_spec
Description	Terminal shield: high-dielectric insulating shield fastened over front terminal access openings; small openings allow tightening connectors; field installation only. M-frame terminal shield	A	same as above
Application	accessory	A	same as above
Installation location	terminal area	A	same as above
Breaker compatibility	M-frame	A	same as above
Kit contents	package of 1	A	same as above
Cross-links	Breakers: Series C M-Frame (MDL/HMDL/MDLB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Breaker Accessory

Series C N-frame terminal shield

OEM part number	NTS3K	A	S116 p.12-248, Tables 12-461..12-467; oem_spec
Description	Terminal shield: high-dielectric insulating shield fastened over front terminal access openings; small openings allow tightening connectors; field installation only. N-frame terminal shield	A	same as above
Application	accessory	A	same as above
Installation location	terminal area	A	same as above
Breaker compatibility	N-frame	A	same as above
Kit contents	package of 1	A	same as above
Cross-links	Breakers: Series C N-Frame (ND/HND/NDC/NB)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

Series C R-frame line/load terminal, 1600 A, Cu/Al

OEM part number	TA1600RD	A	S116 p.12-181, Table 12-299; oem_spec
Description	Wire terminal, English hardware	A	same as above
Application	accessory	A	same as above
Breaker compatibility	R-frame RD/RDC	A	same as above
Current rating	1600 A max breaker	A	same as above
Wire range	(4) 500-1000 kcmil (300-500 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C R-Frame (RD/RDC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00532	TA2000RD	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series C R-frame line/load terminal, 2000 A, Cu/Al

OEM part number	TA2000RD	A	S116 p.12-181, Table 12-299; oem_spec
Description	Includes bus connection, terminals and hardware for either line or load side of 3-pole breaker	A	same as above
Application	accessory	A	same as above
Breaker compatibility	R-frame RD/RDC	A	same as above
Current rating	2000 A max breaker	A	same as above
Kit contents	one side (line or load) of 3-pole breaker	A	same as above
Wire range	(6) 2-600 kcmil (35-300 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series C R-Frame (RD/RDC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (imperial threads)	**A**	same as above
Application	accessory	**A**	same as above
Installation location	line side terminal	**A**	same as above
Breaker compatibility	EG-frame	**A**	same as above
Poles	2	**A**	same as above
Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00581 — EF2RTWK — Eaton — breaker-accessory — STATUS UNKNOWN

Series G EG end cap kit, 2-pole, metric

OEM part number	EF2RTWK	**A**	S119 V4-T2-24; oem_spec
Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (metric threads)	**A**	same as above
Application	accessory	**A**	same as above
Installation location	line side terminal	**A**	same as above
Breaker compatibility	EG-frame	**A**	same as above
Poles	2	**A**	same as above
Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00585	EF3RTDK	Eaton	breaker-accessory	STATUS UNKNOWN

Series G EG end cap kit, 3-pole, imperial

OEM part number	EF3RTDK	A	S119 V4-T2-24; oem_spec
Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (imperial threads)	A	same as above
Application	accessory	A	same as above
Installation location	line side terminal	A	same as above
Breaker compatibility	EG-frame	A	same as above
Poles	3	A	same as above
Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00582	EF3RTWK	Eaton	breaker-accessory	STATUS UNKNOWN

Series G EG end cap kit, 3-pole, metric

OEM part number	EF3RTWK	A	S119 V4-T2-24; oem_spec
Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (metric threads)	A	same as above
Application	accessory	A	same as above
Installation location	line side terminal	A	same as above
Breaker compatibility	EG-frame	A	same as above
Poles	3	A	same as above
Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00586	EF4RTDK	Eaton	breaker-accessory	STATUS UNKNOWN

Series G EG end cap kit, 4-pole, imperial

OEM part number	EF4RTDK	A	S119 V4-T2-24; oem_spec
Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (imperial threads)	A	same as above
Application	accessory	A	same as above
Installation location	line side terminal	A	same as above
Breaker compatibility	EG-frame	A	same as above
Poles	4	A	same as above
Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00583	EF4RTWK	Eaton	breaker-accessory	STATUS UNKNOWN

Series G EG end cap kit, 4-pole, metric

OEM part number	EF4RTWK	A	S119 V4-T2-24; oem_spec
Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (metric threads)	A	same as above
Application	accessory	A	same as above
Installation location	line side terminal	A	same as above
Breaker compatibility	EG-frame	A	same as above
Poles	4	A	same as above
Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Breaker family Series G JG-Frame (JGE/JGS/JGH/JGC)

Lug Kit

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00579	**3TA250FJ3**	Series G JG-frame multiwire connector	JG-frame **A**	unknown
EDH-EAT-00580	**3TA250FJ6**	Series G JG-frame multiwire connector	JG-frame **A**	unknown
EDH-EAT-00541	**T250FJ**	Series G JG-frame line/load terminal, 250 A, Cu (standard)	JG-frame; also JGEDC/JGSDC/JGHDC 250 A DC (s7) **A**	unknown
EDH-EAT-00542	**TA250FJ**	Series G JG-frame line/load terminal, 250 A, Cu/Al	JG-frame **A**	unknown

EDH-EAT-00579 **3TA250FJ3** Eaton lug-kit **STATUS UNKNOWN**

Series G JG-frame multiwire connector

OEM part number	3TA250FJ3	**A**	S116 p.12-28, Table 12-39; oem_spec
Description	JG-frame multiwire connector, 3 wires per terminal, 14-2 AWG Cu, 250 A	**A**	same as above
Application	accessory	**A**	same as above
Installation location	load (OFF) end	**A**	same as above
Breaker compatibility	JG-frame	**A**	same as above
Kit contents	package of 3 (load side)	**A**	same as above
Material	tin-plated aluminum connectors	**A**	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00580 **3TA250FJ6** Eaton lug-kit **STATUS UNKNOWN**

Series G JG-frame multiwire connector

OEM part number	3TA250FJ6	**A**	S116 p.12-28, Table 12-39; oem_spec
Description	JG-frame multiwire connector, 6 wires per terminal, 14-6 AWG Cu, 250 A	**A**	same as above
Application	accessory	**A**	same as above
Installation location	load (OFF) end	**A**	same as above
Breaker compatibility	JG-frame	**A**	same as above
Kit contents	package of 3 (load side)	**A**	same as above
Material	tin-plated aluminum connectors	**A**	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00541 **T250FJ** Eaton / Cutler-Hammer lug-kit **STATUS UNKNOWN**

Series G JG-frame line/load terminal, 250 A, Cu (standard)

OEM part number	T250FJ	**A**	S116 p.12-28, Table 12-36; oem_spec
Description	Standard pressure type terminal (standard line and load); individually packed	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	JG-frame; also JGEDC/JGSDC/JGHDC 250 A DC (s7)	**A**	same as above
Current rating	250 A	**A**	same as above
Kit contents	1 terminal	**A**	same as above
Wire range	#4-350 kcmil (25-185 mm2) Cu	**A**	same as above
Material	stainless steel body	**A**	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00542	TA250FJ	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G JG-frame line/load terminal, 250 A, Cu/Al

OEM part number	TA250FJ	A	S116 p.12-28, Table 12-36; oem_spec
Description	Pressure type Cu/Al terminal (contact factory for availability per footnote)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	JG-frame	A	same as above
Current rating	250 A	A	same as above
Kit contents	1 terminal	A	same as above
Wire range	#4-350 kcmil (25-185 mm2) Cu/Al	A	same as above
Material	aluminum body	A	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*Footnote 'Contact factory for availability' attaches to which JG terminal?*		

Barrier

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00568	**FJIPBK**	Series G JG-frame interphase barriers 3-pole (package of 2)	JG-frame A	unknown
EDH-EAT-00569	**FJIPBK4**	Series G JG-frame interphase barriers 4-pole (package of 2)	JG-frame A	unknown
EDH-EAT-00566	**FJTS3K**	Series G JG-frame terminal shield IP30 2/3-pole	JG-frame A	unknown
EDH-EAT-00567	**FJTS4K**	Series G JG-frame terminal shield IP30 4-pole	JG-frame A	unknown

EDH-EAT-00568	FJIPBK	Eaton	barrier	STATUS UNKNOWN

Series G JG-frame interphase barriers 3-pole (package of 2)

OEM part number	FJIPBK	A	S116 p.12-28, Table 12-41; oem_spec
Description	JG-frame interphase barriers, 3-pole (package of 2)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	JG-frame	A	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00569	FJIPBK4	Eaton	barrier	STATUS UNKNOWN

Series G JG-frame interphase barriers 4-pole (package of 2)

OEM part number	FJIPBK4	A	S116 p.12-28, Table 12-41; oem_spec
Description	JG-frame interphase barriers, 4-pole (package of 2)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	JG-frame	A	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00566	FJTS3K	Eaton	barrier	STATUS UNKNOWN

Series G JG-frame terminal shield IP30 2/3-pole

OEM part number	FJTS3K	A	S116 p.12-28, Table 12-40; oem_spec
Description	JG-frame terminal shield IP30, 2/3-pole, line or load	A	same as above
Application	accessory	A	same as above
Breaker compatibility	JG-frame	A	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00567	FJTS4K	Eaton	barrier	STATUS UNKNOWN

Series G JG-frame terminal shield IP30 4-pole

OEM part number	FJTS4K	A	S116 p.12-28, Table 12-40; oem_spec
Description	JG-frame terminal shield IP30, 4-pole, line or load	A	same as above
Application	accessory	A	same as above
Breaker compatibility	JG-frame	A	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Breaker Accessory

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-EAT-00589	**FJ3RTDK**	Series G JG end cap kit, 3-pole, imperial	JG-frame A	unknown
EDH-EAT-00587	**FJ3RTWK**	Series G JG end cap kit, 3-pole, metric	JG-frame A	unknown
EDH-EAT-00590	**FJ4RTDK**	Series G JG end cap kit, 4-pole, imperial	JG-frame A	unknown
EDH-EAT-00588	**FJ4RTWK**	Series G JG end cap kit, 4-pole, metric	JG-frame A	unknown
EDH-EAT-00575	**FJCWTK**	Series G JG-frame control wire terminal kit (package of 14	JG-frame A	unknown

EDH-EAT-00589	FJ3RTDK	Eaton	breaker-accessory	STATUS UNKNOWN

Series G JG end cap kit, 3-pole, imperial

OEM part number	FJ3RTDK	A	S116 p.12-28, Table 12-37; oem_spec
Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (imperial threads)	A	same as above
Application	accessory	A	same as above
Installation location	line side terminal	A	same as above
Breaker compatibility	JG-frame	A	same as above
Poles	3	A	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00587	FJ3RTWK	Eaton	breaker-accessory	STATUS UNKNOWN

Series G JG end cap kit, 3-pole, metric

OEM part number	FJ3RTWK	A	S116 p.12-28, Table 12-37; oem_spec
Description	End cap kit for line side to connect bus bar or similar connections; includes hardware (metric threads)	A	same as above
Application	accessory	A	same as above
Installation location	line side terminal	A	same as above
Breaker compatibility	JG-frame	A	same as above
Poles	3	A	same as above

EDH-EAT-00544	4TA631LK	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G LG-frame line/load terminal kit, 400 A, Cu/Al

OEM part number	4TA631LK	A	S116 p.12-37, Table 12-60; oem_spec
Description	Pressure type Cu/Al terminal for LG-frame	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LG-frame (LGE/LGS/LGH/LGC)	A	same as above
Poles	4	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	4 terminals included; includes LTS3K (3P) / LTS4K (4P) terminal covers	A	same as above
Wire range	500-750 kcmil (1) (240-380 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series G LG-Frame (LGE/LGS/LGH/LGC)		
Requires	LTS4K (EDH-EAT-00559)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00548	4TA632LK	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G LG-frame line/load terminal kit, 630 A, Cu/Al

OEM part number	4TA632LK	A	S116 p.12-37, Table 12-60; oem_spec
Description	Pressure type Cu/Al terminal for LG-frame	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LG-frame (LGE/LGS/LGH/LGC)	A	same as above
Poles	4	A	same as above
Current rating	630 A max breaker	A	same as above
Kit contents	4 terminals included; includes LTS3K (3P) / LTS4K (4P) terminal covers	A	same as above
Wire range	2 AWG-500 kcmil (2) (35-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series G LG-Frame (LGE/LGS/LGH/LGC)		
Requires	LTS4K (EDH-EAT-00559)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00555	4TA632LKW	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G LG-frame control wire terminal kit, 4P, aluminum

OEM part number	4TA632LKW	A	S116 p.12-37, Table 12-63; oem_spec
Description	Control wire terminal kit (terminal body aluminum)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LG-frame	A	same as above
Poles	4	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series G LG-Frame (LGE/LGS/LGH/LGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values, wire range		

EDH-EAT-00552	T350LK	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G LG-frame line/load terminal, 400 A, Cu

OEM part number	T350LK	A	S116 p.12-37, Table 12-60; oem_spec
Description	Pressure type Cu terminal for LG-frame	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LG-frame (LGE/LGS/LGH/LGC)	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	1 terminals included	A	same as above
Wire range	2 AWG-500 kcmil (1) (35-240 mm2)	A	same as above
Material	terminal body copper	A	same as above
Cross-links	Breakers: Series G LG-Frame (LGE/LGS/LGH/LGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00551	TA350LK	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G LG-frame line/load terminal, 400 A, Cu/Al

OEM part number	TA350LK	A	S116 p.12-37, Table 12-60; oem_spec
Description	Pressure type Cu/Al terminal for LG-frame; standard terminal on LGHDC 250-400 A	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LG-frame (LGE/LGS/LGH/LGC)	A	same as above
Current rating	400 A max breaker	A	same as above
Kit contents	1 terminals included	A	same as above
Wire range	2 AWG-500 kcmil (1) (35-240 mm2)	A	same as above
Material	terminal body aluminum	A	same as above
Cross-links	Breakers: Series G LG-Frame (LGE/LGS/LGH/LGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-EAT-00553	TA632L	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G LG-frame single terminal, 630 A, Cu/Al

OEM part number	TA632L	A	S118 V4-T2-356; oem_spec
Description	Single Cu/Al terminal, 1 per package, 2-500 kcmil (2)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LGEDC/LGSDC/LGHDC 630 A	A	same as above
Current rating	630 A	A	same as above
Kit contents	1 terminal	A	same as above
Wire range	2 AWG-500 kcmil (2) (35-240 mm2)	A	same as above
Material	aluminum body	A	same as above
Cross-links	Breakers: Series G LG-Frame (LGE/LGS/LGH/LGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Barrier

4.1 I-LINE — I-Line Circuit Breaker Panelboard / I-Line distribution section

FAM-SQD-004 · panelboard · aka Class 2110, HCJ, HCM, HCN, HCP, HCP-SU, HCR-U, HCW, HCWM, I Line, I-Line Combo (CP...), ILine · markings: Schneider Electric, Square D

Plug-on I-Line bus stack: breaker line-end jaws are integral to the breaker, shrouded in a molded insulator that keys into slots in the bus support base, are factory lubricated/preset and are 'blow-on'. The load end is held by an integral mounting bracket/foot screwed to the interior pan. The same interiors, fillers and extensions are used in QED switchboard I-Line distribution sections.

Square D 600 Vac / 250 Vdc distribution panelboard with plug-on I-Line breakers mounted on a bus-bar stack; breaker held by mounting bracket fingers in pan keyslots and a retaining screw into a 7/32 in. pan hole. Interior types HCJ/HCM (32 in. wide, 250 A max branch), HCP-SU (single row, 26 in.), HCP (42 in.), HCR-U (44 in.). Unused spaces must be closed with blank fillers (HNM1BL/HNM4BL) and blank extensions (HLW/HLN). Solid neutral, sub-feed lug and SE barrier kits are merchandised.

Evidence record from 1970 Digest: HCN 26 in W (FA/FY/Q2 to 100 A, 125-225 A KA; 600 A lugs / 400 A MB), HCM 32 in W x 8 in D (125/250 V AC-DC to 600 V AC; 800 A), HCW 41 in W (to LA 400 A branch; 800 A), HCWM 41 in W x 9-1/4 in D (to MA 800 A; 1200 A lugs). Solid neutral assemblies HC-xSN (HCN/HCM) and HCW-xSN (HCW/HCWM); blanks HNM-xBL; blank extensions HLW-xBL; sub-feed lugs SL-100/225/400/800 plug onto bus like a breaker. Q2 max 240 V AC; FY max 277 V AC.

OEM part number	HC6SNCU	A	S177 oem_spec
Description	Solid neutral assembly for I-Line HCJ interior	A	S177 p. 9-57; oem_spec
Installation location	I-Line panelboard neutral (ordered separately from merchandised interior)	A	S177 p. 9-51 fn; oem_spec
Current rating	600 A	A	S177 p. 9-57; oem_spec
Material	Copper lugs, copper neutral plate	A	same as above
Dimensions	Main terminals (2) 4-600 kcmil; branch terminals (7) 6-350, (9) #1/0-14, (28) #4-14	A	same as above
Status	current (listed in 2026 Digest)	A	same as above
Cross-links	Families: I-LINE		
Not yet documented	Aftermarket / reproduction, Finish / plating, Mounting-hole pattern		

EDH-SQD-00465	HC8SN	Square D	neutral-assembly	CURRENT (LISTED IN 202

I-Line solid neutral assembly, HCJ, 800 A, Al/Al

OEM part number	HC8SN	A	S177, S270 oem_spec
Alternate / superseded numbers	HC-8SN (1970 Digest spelling)	A	S270 alias; oem_spec
Description	Solid neutral assembly for I-Line HCJ interior	A	S177 p. 9-57; oem_spec
	Solid neutral assembly 800 A for Type HCN/HCM interior assemblies; mounted in main lug compartment, no additional height	A	S270 Digest 152 (1970) p.73; oem_spec
Installation location	I-Line panelboard neutral (ordered separately from merchandised interior)	A	S177 p. 9-51 fn; oem_spec
	Main lug compartment	A	S270 Digest 152 (1970) p.73; oem_spec
Current rating	800 A	A	S177, S270 p. 9-57; oem_spec
Material	Aluminum lugs, aluminum neutral plate	A	S177 p. 9-57; oem_spec
Dimensions	Main terminals (4) 3/0-750 kcmil; branch terminals (7) 6-350, (9) #1/0-14, (34) #4-14	A	same as above
Status	current (listed in 2026 Digest)	A	same as above
	1970 catalog item; current status unknown	D	S270 inference
Cross-links	Families: I-LINE

4.2 MLN — Square D MLN panelboards and switchboards (ML breakers)

FAM-SQD-013 · panelboard · aka ML, ML-1, ML1, MLN, MLW · markings: Square D

Short-lived Square D panelboard and switchboard line (1962-1968) using ML breakers, superseded by I-Line. Adapter kits once allowed FAL/KAL/LAL/MAL breakers; these are now obsolete. Dealers sell 'ML1 PNL' twin and single mounting hardware for KAP, LAP, LA, MAP, FAP/FAL and 997-frame breakers.

1970 Digest ordering example: '1 - MAL26600, 600 A., 2 P., circuit breaker for use in 600V., 3 Ph., 3 W. panelboard catalog number MLW-5678-6 With mounting assembly for A-B phase connection' - shows an ML-family 'MLW' panel still being serviced in 1970 with MAL breakers and mounting assemblies.

Attribute	Value	Cl.	Sources
Status	Obsolete; Schneider recommends replacing the complete panelboard (new I-Line); FAL/KAL/LAL/MAL adapter kits SK4515/SK4516/SK4517/SK4578 offered as of 1/1/2015 but now obsolete; PowerPact has no adapter kits	A	S263 oem_web
Era of manufacture	Sold in the USA from 1962 to 1968	A	same as above
Successor	I-Line panelboard (complete replacement)	A	same as above
Branch breakers accepted	ML breakers (side label part number 999xxx per forum); later FAL, KAL, LAL, MAL via adapter kits; dealer 'ML1' kits for FAP/FAL, KAP, LA, LAP, MAP and 997 frame	B	S263, S267, S251 oem_web
Identification features	ML breakers carry a side label with a part number like 999xxx	C	S267 forum
Mlw	Panel catalog prefix MLW used with MAL breakers + mounting assembly (1970 replacement example)	A	S270 Digest 152 (1970) p.85; oem_spec

4.3 NA1B — Square D NA1B panelboard (E-frame bolted, AC/DC)

FAM-SQD-012 · panelboard · aka A1B, NA-1B, NA1B-LX, NAIB · markings: Square D

Square D 250 V AC/DC bolted E-frame lighting panelboard of 1960. Schneider guidance (search summary) replaces it with NQ (AC or <=48 V DC) or I-Line (DC up to 250 V).

1970 Digest: NA1B uses distributed phase bussing, galvanized 20 in wide boxes, MONO-FLAT front with concealed trim clamps; top/bottom gutters 5 in min (225 A) and 8 in min (400/600 A). Meets Fed Spec W-P-115a Type I Class 1, UL listed.

Attribute	Value	Cl.	Sources

4.4 NEHB — NEHB panelboard

FAM-SQD-010 · panelboard · aka NEHB, NEHB lighting panelboard, NY1B, NYIB · markings: Schneider Electric, Square D, Square D Canada

Square D 480Y/277 V lighting panelboard using EH plug-on / EHB bolt-on breakers, manufactured 1983-1995 and replaced by NF. EH/EHB breakers reported no longer available. No NEHB kit part numbers were found in this batch.

Square D's pre-NF 480Y/277 V bolt-on lighting panelboards. NY1B: Schneider FAQ FA233845 says 1-pole Y1B breakers are obsolete; 2/3-pole FAL breakers can be replaced if hardware remains; new FAL cannot be added where ML-1/2/3-pole breakers were used (no connectors). NEHB used EH/EHB breakers and was obsoleted in 1995 in favour of NF.

Attribute	Value	Cl.	Sources
Status	obsolete (1995)	A	S236 oem_spec
	NEHB obsoleted 1995; EH/EHB breakers discontinued with no replacement; NY1B 1-pole Y1B breakers obsolete; NY1B mounting kit SK4529 discontinued (search summaries)	C	S266 oem_web
Era of manufacture	1983-1995	A	S236 oem_spec

4.6 NH1B — Square D NH1B 480 V AC lighting panelboard (FY / FA breakers)

FAM-SQD-014 · panelboard · aka NH1B, NHIB, NH1B-LX, MH1B (OCR) · markings: Square D

Square D's 1970 480Y/277 V lighting panelboard (NH1B) with distributed phase bussing, FY single-pole and FA multi-pole branch breakers, galvanized boxes with MONO-FLAT front with door, gray baked enamel. Column-width NH1B-LX exists. I-Line box extension HC-2609-EXF/S serves 'HCN or NH1B'. Distinct from the Westinghouse and FPE NH1B designations.

NQ sub-feed circuit breaker adapter kit, H/J-frame, 225 A mains

OEM part number	NQSFB2HJ	A	S177 oem_spec
Description	NQ sub-feed circuit breaker adapter kit, H/J-frame, 225 A mains (breaker not included)	A	S177 p. 9-18; oem_spec
Application	sub-feed	A	same as above
Breaker compatibility	HD/HG/HJ/HL/HR, JD/JG/JJ/JL/JR (3-pole H for single-phase 110-150 A)	A	S177, S192 p. 9-18; oem_spec
Current rating	225 A interiors (one SFB)	A	S177 p. 9-18; oem_spec
Kit contents	As NQSFB2Q but main lug wires (6) and 8-32x3-1/4 screws only	A	S192 Kit Contents; oem_spec
Torque values	Bus screws 25-30 lb-in; panel lug wire binding screws 275 lb-in (31 N-m)	A	S192 oem_spec
OEM instruction document	80043-730-01	A	same as above
Status	current (listed in 2026 Digest)	A	S177 p. 9-18; oem_spec
Cross-links	Families: NQ · Breakers: PowerPacT Q-frame (QB/QD/QG/QJ), PowerPacT H-frame (HD/HG/HJ/HL/HR), PowerPacT J-frame (JD/JG/JJ/JL/JR)		
Not yet documented	Aftermarket / reproduction, Dimensions, Finish / plating, Mounting-hole pattern, Material

4.9 NQOB — Square D NQO / NQOB lighting panelboards (QO plug-on / QOB bolt-on)

FAM-SQD-011 · panelboard · aka NQ0, NQH, NQHB, NQO, NQO-LX, NQOB, NQOB column, NQOB-LX, NTFB (basic NQOB bus) · markings: Square D

Square D's 250 V AC lighting/appliance panelboards of the 1960s-1980s: NQO with plug-on QO breakers and NQOB with bolt-on QOB breakers, combinable lighting and power up to 100 A branches; mains 100-600 A. Square D advertised a non-interchangeability system (NEC 240-25(g)) common to NQO, NQOB, NA1B and loadcenters. Replacement-part data: QOB branch breakers, SK5668 branch kit (not SK5669), QOFP fillers, 100 A vs 60 A column-width branch limits per conflicting FAQs.

1970 Square D Digest data for NQO/NQOB: box sizes 14 in W x 4 in D, 14 in W x 5-3/4 in D, 20 in W x 5-3/4 in D (NQOB 14 in widths shown); column width (LX) about 6-3/4 in W x 5 in D; column-width NQOB available factory assembled only. Cabinets: MONO-FLAT fronts with concealed trim clamps, door with concealed hinges and flush lock, gray baked enamel. Catalog numbers of the form NQO-24-203-1, NQOB-35-424, NQO-20-3L (Canada) etc.

Attribute	Value	Cl.	Sources
Status	Obsolete; enclosure parts not available; QSFB switch/fuse unit obsolete; trim clamp PK1TC obsolete (search summaries)	B	S265, S266 oem_web
Era of manufacture	Advertised by Square D in May and September 1960 (NQO plug-in, NQOB bolted connection); a Schneider timeline (search summary) says 'developed in late 1960s till obsolescence in 1987' - conflicts with the 1960 ads (1960 ads are OEM-authored; the 'late 1960s' statement is unverified search text)	B	S245, S246, S266 oem_spec

4.10 NQOD — NQOD panelboard (Class 1630)

FAM-SQD-007 · panelboard · aka NQOD lighting panelboard · markings: Square D, Schneider Electric

Predecessor of NQ; accepted QO plug-on and QOB bolt-on breakers. Sold 1987-2008. Schneider states NQ is the replacement but not a direct one: interior, box and trim must be replaced (e.g. NQOD30L400CU -> NQ30L4C plus new box/trim). All NQOD main breaker kits obsolete as of April 2016; branch connector kit SKNQOD225 existed for <=225 A interiors.

4.11 QMB — QMB Fusible Panelboard / QMB distribution (current design, Series E1)

FAM-SQD-003 · panelboard · aka Class 4620, QMB fusible, QMB switchboard, QMB-QMJ · markings: Schneider Electric, Square D

Extruded-bus fusible distribution system used both as stand-alone panelboards and as the QMB distribution section of QED-2 / Speed-D switchboards. Branch units have permanently attached mounting brackets and blow-on plug-on jaws onto the QMB bus and mount with a screwdriver; glass-reinforced polyester bus supports. ISCR up to 200 kA at 600 Vac with Class R/J/L/T fuses.

Square D fusible-switch panelboard/switchboard; QMBHW and QMBJW adapter units allow H- and J-frame breakers to plug onto QMB bus (spring nuts in mounting rails, 1/4-20 unit mounting screws at 30 lb-in). Included only for breaker-adapter hardware.

QMB blank filler plate QMB15BLW (15 in.)

OEM part number	QMB15BLW	A	S71, S31, S32 oem_spec
Alternate / superseded numbers	GTIN 785901798019	A	S30 alias; oem_spec
Description	Panelboard blank filler plate, 15 in.; Speed-D switchboards with current-series QMB provisions ship with (2)	A	S30, S31 oem_spec
Application	filler for unused QMB mounting space	A	S71 oem_spec
Installation location	Deadfront/unit space of QMB interior (current design, post-1984)	B	same as above
Kit contents	Blanking plate, (2) support brackets, (2) self-tapping screws, (2) bolts, (2) nuts	C	S52 distributor
Dimensions	Package 2.30 x 16.00 x 26.00 in., 9.04 lb (packaged) (Packaging dimensions, not part dimensions)	A	S30 oem_spec
Status	current	B	S71 oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Finish / plating, Material, part dimensions		
Open question	*Do current QMBxBLW fillers fit QED-2 Series 2 QMB sections identically to QMB panelboards?*		

EDH-SQD-00089 **QMB1BLW** Square D filler-plate **CURRENT (CRESCENT LIST**

QMB blank filler plate QMB1BLW (1.5 in.)

OEM part number	QMB1BLW	A	S71, S31, S32 oem_spec
Description	Blank filler (closing plate) 1.5 in. for current-style QMB panelboards and switchboards with QMB distribution	A	same as above
Application	filler for unused QMB mounting space	A	S71 oem_spec
Installation location	Deadfront/unit space of QMB interior (current design, post-1984)	B	same as above
Kit contents	Blanking plate, (2) support brackets, (2) self-tapping screws, (2) bolts, (2) nuts	C	S52 distributor
Dimensions	Covers 1.5 in. of QMB mounting space	A	S71 oem_spec
Status	current (Crescent lists QMB1BLW as discontinued - unverified)	C	S52 distributor
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Finish / plating, Material, part dimensions		
Open question	*Do current QMBxBLW fillers fit QED-2 Series 2 QMB sections identically to QMB panelboards?*		

EDH-SQD-00090 **QMB3BLW** Square D filler-plate **CURRENT**

QMB blank filler plate QMB3BLW (3 in.)

OEM part number	QMB3BLW	A	S71, S31, S32 oem_spec
Description	Blank filler (closing plate) 3 in. for current-style QMB panelboards and switchboards with QMB distribution	A	same as above
Application	filler for unused QMB mounting space	A	S71 oem_spec
Installation location	Deadfront/unit space of QMB interior (current design, post-1984)	B	same as above
Kit contents	Blanking plate, (2) support brackets, (2) self-tapping screws, (2) bolts, (2) nuts	C	S52 distributor
Dimensions	Covers 3 in. of QMB mounting space	A	S71 oem_spec
Status	current	B	same as above
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Finish / plating, Material, part dimensions

EDH-SQD-00002	**QMB221HW**	Square D	switch-unit	**CURRENT PER 2015 CATAL**

QMB fusible switch unit QMB221HW (2P 240 Vac, 30-blank A)

OEM part number	QMB221HW	**A**	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac / 250 Vdc, 30-blank (single switch in twin frame) A; Blank units cannot be modified to accept a switch interior	**A**	S28 Table 4, pp. 10-11; Table 4 note b; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	**A**	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	**A**	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	**A**	S28 Table 4, pp. 10-11; oem_spec
Poles	2	**A**	same as above
Voltage rating	240 Vac / 250 Vdc	**A**	same as above
Current rating	30-blank (single switch in twin frame) A	**A**	same as above
Kit contents	Optional Class R fuse kit: HRK30 (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	**A**	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	**A**	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	**B**	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	**A**	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00001	QMB221TW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB224W (2P 240 Vac, 200 A)

OEM part number	QMB224W	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac / 250 Vdc, 200 (single) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB200EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	240 Vac / 250 Vdc	A	same as above
Current rating	200 (single) A	A	same as above
Kit contents	Optional Class R fuse kit: HRK1020 (1 req.); 40251-162-50 Al mech #6-300 (std); Cu mech 40560-270-50 #6-250; Al crimp VCEL030516H1 #4-300; Cu crimp VCELC03038H1 2/0-300	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 9 in. (229 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00008	QMB225W	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB225W (2P 240 Vac, 400 A)

OEM part number	QMB225W	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac / 250 Vdc, 400 (single) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Poles	2	A	S28 Table 4, pp. 10-11; oem_spec
Voltage rating	240 Vac / 250 Vdc	A	same as above
Current rating	400 (single) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB4060R (1 req.); (2) 40251-287-50 Al mech 3/0-600 (std); Al crimp (2) VCEL05012H1 2/0-500 or (2) VCEL07512H1 500-750; Cu crimp (2) VCELC05012H1 250-500 or (2) VCELC07512H1 400-750; no Cu mech option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 15 in. (381 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00009	QMB225WT3	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB225WT3 (2P 240 Vac, 400 A)

OEM part number	QMB225WT3	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac, 400 (single, 300 Vac Class T fuses only) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Use 300 Vac Class T fuses only	A	S28 Table 4 note c; oem_spec
Poles	2	A	S28 Table 4, pp. 10-11; oem_spec
Voltage rating	240 Vac	A	same as above
Current rating	400 (single, 300 Vac Class T fuses only) A	A	same as above
Kit contents	Standard lug not replaceable (#1-600); no optional lugs	A	S28 Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 9 in. (229 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00023	QMB261HW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB261HW (2P 600 Vac, 30-blank A)

OEM part number	QMB261HW	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 600 Vac / 250 Vdc, 30-blank A; Blank units cannot be modified to accept a switch interior	A	S28 Table 4, pp. 10-11; Table 4 note b; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	600 Vac / 250 Vdc	A	same as above
Current rating	30-blank A	A	same as above
Kit contents	Optional Class R fuse kit: QMB36R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00022	QMB261TW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB261TW (2P 600 Vac, 30-30 A)

OEM part number	QMB261TW	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 600 Vac / 250 Vdc, 30-30 (twin) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	600 Vac / 250 Vdc	A	same as above
Current rating	30-30 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB36R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00025	QMB262HW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB262HW (2P 600 Vac, 60-blank A)

OEM part number	QMB262HW	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 600 Vac / 250 Vdc, 60-blank A; Blank units cannot be modified to accept a switch interior	A	S28 Table 4, pp. 10-11; Table 4 note b; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	600 Vac / 250 Vdc	A	same as above
Current rating	60-blank A	A	same as above
Kit contents	Optional Class R fuse kit: QMB60R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00024	QMB262TW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB262TW (2P 600 Vac, 60-60 A)

OEM part number	QMB262TW	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 600 Vac / 250 Vdc, 60-60 (twin) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	600 Vac / 250 Vdc	A	same as above
Current rating	60-60 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB60R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec

Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	3	A	same as above
Voltage rating	240 Vac	A	same as above
Current rating	60-blank A	A	same as above
Kit contents	Optional Class R fuse kit: QMB36R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00012	QMB322TW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB322TW (3P 240 Vac, 60-60 A)

OEM part number	QMB322TW	A	S28 Table 4, pp. 10-11; oem_spec

Alternate / superseded numbers	QMB322TD (Distributor-listed variant; FA119872/FA122651-family FAQs cite 'TD' units as replacements for legacy switches; relation of TD vs TW suffix unknown)	C	S55 alias; distributor
Description	QMB fusible branch switch unit, 3-pole, 240 Vac, 60-60 (twin) A	A	S28 Table 4, pp. 10-11; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	3	A	same as above
Voltage rating	240 Vac	A	same as above
Current rating	60-60 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB36R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		
Open question	*What distinguishes QMB322TD from QMB322TW (suffix D vs W)? Is TD the legacy-interior-compatible version?*		

EDH-SQD-00015 QMB323HW Square D switch-unit CURRENT PER 2015 CATAL

QMB fusible switch unit QMB323HW (3P 240 Vac, 100-blank A)

OEM part number	QMB323HW	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 3-pole, 240 Vac, 100-blank A; Blank units cannot be modified to accept a switch interior	A	S28 Table 4, pp. 10-11; Table 4 note b; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	3	A	same as above
Voltage rating	240 Vac	A	same as above
Current rating	100-blank A	A	same as above
Kit contents	Optional Class R fuse kit: QMB100R (1 req.); Standard lug not replaceable (#12-1/0); no optional lugs	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00014 QMB323TW Square D switch-unit CURRENT PER 2015 CATAL

QMB fusible switch unit QMB323TW (3P 240 Vac, 100-100 A)

OEM part number	QMB323TW	A	S28 Table 4, pp. 10-11; oem_spec
Alternate / superseded numbers	QMB323TD (QMB323TD is Schneider's stated replacement for legacy QMB310T; relation to QMB323TW unknown)	C	S55, S64 alias; distributor

Description	QMB fusible branch switch unit, 3-pole, 240 Vac, 100-100 (twin) A	A	S28 Table 4, pp. 10-11; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	3	A	same as above
Voltage rating	240 Vac	A	same as above
Current rating	100-100 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB100R (1 req.); Standard lug not replaceable (#12-1/0); no optional lugs	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		
Open question	*Is QMB323TD a variant of QMB323TW for pre-1984 QM/QW interiors?*		

EDH-SQD-00016	**QMB324W**	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB324W (3P 240 Vac, 200 A)

OEM part number	QMB324W	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 3-pole, 240 Vac, 200 (single) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec

EDH-SQD-00033	QMB362T21W	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB362T21W (3P 600 Vac, 60-30 A)

OEM part number	QMB362T21W	A	S28 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 3-pole, 600 Vac, 60-30 (twin, unequal) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	3	A	same as above
Voltage rating	600 Vac	A	same as above
Current rating	60-30 (twin, unequal) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB60R and QMB36R (1 each); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00031	QMB362TW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB362TW (3P 600 Vac, 60-60 A)

OEM part number	QMB362TW	A	S28 Table 4, pp. 10-11; oem_spec
Alternate / superseded numbers	QMB362T (FAQ FA88047 names 'QMB362T' (no W) as replacement for QMB3606T; relation to QMB362TW unverified)	C	S66 alias; oem_spec
Description	QMB fusible branch switch unit, 3-pole, 600 Vac, 60-60 (twin) A	A	S28 Table 4, pp. 10-11; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S28, S26 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S28 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S28 Table 4, pp. 10-11; oem_spec
Poles	3	A	same as above
Voltage rating	600 Vac	A	same as above
Current rating	60-60 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB60R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S28 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S28 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S28 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S28 pp. 7-8; oem_spec

OEM part number	QMJ362T	A	S28 Table 6/7, p. 16; oem_spec
Description	QMJ Class J fusible branch switch unit, 3-pole, 600 Vac/250 Vdc, 60-60 (twin) A	A	same as above
Application	branch; NEMA 1 vented enclosures only; 400, 600, 800, 1200 A QMB interiors only	A	S28 pp. 14, 16; oem_spec
Breaker compatibility	600 V Class J fuses only; 200 kA SCCR; Electrical interlock kit QMB610EK-1 or -2	A	S28 p. 14; Table 6/7, p. 16; oem_spec
Poles	3	A	S28 p. 16; oem_spec
Voltage rating	600 Vac / 250 Vdc (dc: use top and bottom poles)	A	S28 p. 14; oem_spec
Current rating	60-60 (twin) A	A	S28 Table 6/7, p. 16; oem_spec
Kit contents	Cu mech 40256-034-50; wire #14-#2 Al/Cu; use 90 C insulated conductors sized at 75 C ampacity	A	S28 Table 7; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S28 Table 6/7, p. 16; oem_spec
Status	current per 2015 catalog	B	S28 oem_spec
Cross-links	Families: QMB, QED-2		
Not yet documented	Material, renewal parts		

EDH-SQD-00047	QMJ363H	Square D	switch-unit	CURRENT PER 2015 CATAL

QMJ fusible switch unit QMJ363H (100-blank A)

OEM part number	QMJ363H	A	S28 Table 6/7, p. 16; oem_spec
Description	QMJ Class J fusible branch switch unit, 3-pole, 600 Vac/250 Vdc, 100-blank A; Blank units cannot be modified to accept a switch interior	A	S28 Table 6/7, p. 16; Table 6 note c; oem_spec
Application	branch; NEMA 1 vented enclosures only; 400, 600, 800, 1200 A QMB interiors only	A	S28 pp. 14, 16; oem_spec
Breaker compatibility	600 V Class J fuses only; 200 kA SCCR; Electrical interlock kit QMB610EK-1 or -2	A	S28 p. 14; Table 6/7, p. 16; oem_spec
Poles	3	A	S28 p. 16; oem_spec
Voltage rating	600 Vac / 250 Vdc (dc: use top and bottom poles)	A	S28 p. 14; oem_spec
Current rating	100-blank A	A	S28 Table 6/7, p. 16; oem_spec
Kit contents	Cu mech 40256-014-50; optional VCELC or VCEL-021-14S1; #14-1/0; use 90 C insulated conductors sized at 75 C ampacity	A	S28 Table 7; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S28 Table 6/7, p. 16; oem_spec

EDH-SQD-00183	S37444	Square D	breaker-accessory	UNKNOWN

PowerPact H-frame terminal nut insert (1/4-20) for bus bar connection

OEM part number	S37444	A	S112, S187 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	S112 p.125, Table 124; oem_spec
	Terminal kit inserted into H-frame breaker to accept hard-bus connectors (replaces breaker lugs)	A	S187 oem_spec
Application	accessory	A	S112 p.125, Table 124; oem_spec
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	HD/HG/HJ/HL	A	same as above
Kit contents	3 per kit	A	same as above
	Supplied inside NQMB2HJ/N150MH/N250MJ kits; also referenced by NQOD main kit and QMBHW/QMBJW	A	S187, S211, S184, S233 oem_spec
Fasteners	tap 1/4-20; screws not included	A	S112 p.125, Table 124; oem_spec
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
	Per terminal kit instruction sheet (not in parent bulletins)	D	oem_spec
Status	unknown	D	oem_spec
Cross-links	Families: QMB, NQ, NQOD, NF · Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR), PowerPacT H-frame (HD/HG/HJ/HL/HR)

PowerPact J-frame terminal nut insert (1/4-20) for bus bar connection

OEM part number	S37445	A	S112, S187 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	S112 p.125, Table 124; oem_spec
	Terminal kit inserted into J-frame breaker to accept hard-bus connectors (replaces breaker lugs)	A	S187 oem_spec
Application	accessory	A	S112 p.125, Table 124; oem_spec
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	JD/JG/JJ/JL	A	same as above
Kit contents	3 per kit	A	same as above
	Supplied inside NQMB2HJ/N150MH/N250MJ kits; also referenced by NQOD main kit and QMBHW/QMBJW	A	S187, S211, S184, S233 oem_spec
Fasteners	tap 1/4-20; screws not included	A	S112 p.125, Table 124; oem_spec
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
	Per terminal kit instruction sheet (not in parent bulletins)	D	oem_spec
Status	unknown	D	oem_spec
Cross-links	Families: QMB, NQ, NQOD, NF · Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR), PowerPacT J-frame (JD/JG/JJ/JL/JR)		
Not yet documented	Aftermarket / reproduction, Dimensions, Finish / plating, Mounting-hole pattern, OEM instruction document, Material

4.12 QMB-LEGACY — Legacy QMB distribution (pre-October-1984 QM and QW interiors)

FAM-SQD-005 · panelboard · aka QM, QM interior, QMB Saflex, QMB Series 1-4, QW, QW interior, Saflex, Saflex panelboard, old style QMB · markings: Square D

Older QMB fusible distribution used in panelboards and switchboards before the current (Series E1) design. Legacy switch catalog numbers had no 'W' suffix (e.g. QMB3606T, QMB310T, QMB3620, QMB3240, QMB2240, QMB3260). Current-design units are retrofitted using plug-on extension assemblies (QMB306EX, QMB306LEX, QMB310EX, QMB310LEX, QMB-320-EX) in QW interiors; QM interiors built 1961-1984 accept some current units directly.

Evidence record from 1970 Digest: QMB panelboards 120/208 V to 600 V AC, 125/250 V DC; units 30-200 A plug-on (31 in W box) and 400/600 A bolt-on (38 in W box); 1200 A lugs / 600 A main switch. Mounting assemblies not required in 31 in wide QMB panels; 'Extension Assemblies' (QMB-xxx-EX) required for 30-200 A units in 38 in wide panels (e.g. QW-6789-7). Blanks QM-1BL/3BL/6BL/9BL, solid neutrals QM-1SN..QM-6SN, 250 V adaptor kits QMB-63-AL, QMB-103-AL, QMB-106-AL.

Attribute	Value	Cl.	Sources
Status	obsolete; old-design blank fillers obsolete with no replacement	**A**	S61 oem_spec
Era of manufacture	QM (31 in. wide box) and QW (38 in. wide box) interiors built before October 1984; pre-1961 interiors (incl. round bus bar) have no replacement switches (From several Schneider FAQs (FA119872, FA88047, FA127541, FA100372))	**A**	same as above
Saflex	Schneider FAQ refers to 'an old QMB Saflex Panelboard' (QW type 38 in. box with flatwise bus needs QMB310EX for current CB units); surplus listings label QMB3606T Series 2/4 units 'QMB Saflex' ('Saflex' = legacy QMB panelboard trade name per OEM FAQ; surplus label corroborates)	**A**	S73, S74 oem_spec
Ratings 1970	Units 30-200 A 2/3-pole plug-on; 400/600 A 2/3-pole bolt-on; mains 1200 A lugs / 600 A switch; boxes 31 in W x ~10-3/4 in D and 38 in W x ~14-3/4 in D (Depth fractions OCR)	**B**	S270 Digest 152 (1970) p.55; oem_spec

4.13 QED-2 — Power-Style QED-2 Switchboard

FAM-SQD-001 · switchboard · aka Power-Style QED-2, QED 2, QED-2 Series 2, QED-2/S, QED2 · markings: Schneider Electric, Square D

Free-standing UL 891 low-voltage switchboard, 91.5 in. high with base channels, front or front-and-rear accessible, NEMA 1 or 3R. Distribution is by group-mounted I-Line plug-on breaker sections (interiors up to 3000 A single-row / 2000 A double-row) or QMB/QMJ fusible switch sections, plus individually mounted PowerPact M/P/R, Masterpact NW or Bolt-Loc BP mains/feeders. Adding sections later requires the through-bus construction with splice-plate extensions; through bus sits at top, middle or bottom at 19.5, 27.5 or 36.0 in. from the front.

EDH-SQD-00252	**AL100FA**	Square D	lug-kit	**STILL LISTED IN 2016 D**

Square D FA mechanical lug kit (Al lugs) - FA

OEM part number	AL100FA	**A**	S114 p.3-28, Table 3.88; oem_spec
Description	Al lugs for use with Al or Cu wire. Unless otherwise specified, wire sizes apply to both Al and Cu conductors.	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	FA, FH, FI 35-100 A standard; 15-30 A optional	**A**	same as above
Kit contents	3 lug(s) per kit	**A**	same as above
Wire range	(1) 14-1/0 AWG Cu or (1) 12-1/0 AWG Al	**A**	same as above
Material	aluminum lug body	**A**	same as above
Status	Still listed in 2016 Digest Table 3.70	**A**	S115 p.3-26, Table 3.70; oem_spec
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)		
Not yet documented	Dimensions, OEM instruction document, Torque values		
Open question	*Digest Plus web table (search snippet) gives 12-1/0 AWG Al; another edition shows 12-1 AWG - confirm per edition.*

Square D FA Cu compression lug kit

OEM part number	CVC100FA	A	S114 p.3-29, Table 3.91; oem_spec
Description	Copper compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	FA, FH, FC, FI	A	same as above
Kit contents	3 lug(s) per kit; 1 lug(s) per terminal	A	same as above
Wire range	6-1/0 AWG Cu	A	same as above
Material	copper compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 1.4 in	A	same as above
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00288	PDC3FA2	Square D	lug-kit	STATUS UNKNOWN

Square D FA power distribution connector (multi-wire load lug)

OEM part number	PDC3FA2	A	S114 p.3-29, Table 3.92; oem_spec
Description	Field-replacement PDC lug for multiple load connections; tin-plated Al connectors and hardware; load end only; Cu wire only; UL508 / UL1995; not for I-Line	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	FAL, FHL, FCL 15-100 A (OFF end only when OFF is load end)	A	same as above
Kit contents	3 per kit	A	same as above
Wire range	(3) 14-2 AWG Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Dimensions	Dimension A 1.2 in	A	same as above
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00287	PDC6FA6	Square D	lug-kit	STATUS UNKNOWN

Square D FA power distribution connector (multi-wire load lug)

OEM part number	PDC6FA6	A	S114 p.3-29, Table 3.92; oem_spec
Description	Field-replacement PDC lug for multiple load connections; tin-plated Al connectors and hardware; load end only; Cu wire only; UL508 / UL1995; not for I-Line	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	FAL, FHL, FCL 15-100 A (OFF end only when OFF is load end)	A	same as above
Kit contents	3 per kit	A	same as above
Wire range	(6) 14-6 AWG Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Dimensions	Dimension A 1.0 in	A	same as above
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)		
Not yet documented	OEM instruction document, Status, Torque values

EDH-SQD-00285	CVC400LA5	Square D	lug-kit	STATUS UNKNOWN

Square D LA Cu compression lug kit

OEM part number	CVC400LA5	A	S114 p.3-29, Table 3.91; oem_spec
Description	Copper compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LA, LH, Q4	A	same as above
Kit contents	1 lug(s) per kit; 1 lug(s) per terminal	A	same as above
Wire range	250-500 kcmil Cu	A	same as above
Material	copper compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 2.3 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00290	PDC12LA4	Square D	lug-kit	STATUS UNKNOWN

Square D LA power distribution connector (multi-wire load lug)

OEM part number	PDC12LA4	A	S114 p.3-29, Table 3.92; oem_spec
Description	Field-replacement PDC lug for multiple load connections; tin-plated Al connectors and hardware; load end only; Cu wire only; UL508 / UL1995; not for I-Line	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	LAL, LHL, Q4L 125-400 A	A	same as above
Kit contents	1 per kit	A	same as above
Wire range	(12) 14-4 AWG Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Dimensions	Dimension A 1.25 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00291	PDC4LA250	Square D	lug-kit	STATUS UNKNOWN

Square D LA power distribution connector (multi-wire load lug)

OEM part number	PDC4LA250	A	S114 p.3-29, Table 3.92; oem_spec
Description	Field-replacement PDC lug for multiple load connections; tin-plated Al connectors and hardware; load end only; Cu wire only; UL508 / UL1995; not for I-Line	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	LAL, LHL, Q4L 125-400 A	A	same as above
Kit contents	1 per kit	A	same as above
Wire range	(3) 14-2 AWG + (1) 2 AWG-250 kcmil Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Dimensions	Dimension A 2.0 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00289	PDC6LA20	Square D	lug-kit	STATUS UNKNOWN

Square D LA power distribution connector (multi-wire load lug)

OEM part number	PDC6LA20	A	S114 p.3-29, Table 3.92; oem_spec
Description	Field-replacement PDC lug for multiple load connections; tin-plated Al connectors and hardware; load end only; Cu wire only; UL508 / UL1995; not for I-Line	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	LAL, LHL, Q4L 125-400 A	A	same as above
Kit contents	1 per kit	A	same as above
Wire range	(6) 12-2/0 AWG Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Dimensions	Dimension A 2.25 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00276	VC400LA3	Square D	lug-kit	STATUS UNKNOWN

Square D LA Al compression lug kit

OEM part number	VC400LA3	A	S114 p.3-29, Table 3.91; oem_spec
Description	Aluminum compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LA, LH, Q4	A	same as above
Kit contents	2 lug(s) per kit; 2 lug(s) per terminal	A	same as above
Wire range	4 AWG-300 kcmil	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 1.0 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00275	VC400LA35	Square D	lug-kit	STATUS UNKNOWN

Square D LA Al compression lug kit

OEM part number	VC400LA35	A	S114 p.3-29, Table 3.91; oem_spec
Description	Aluminum compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LA, LH, Q4	A	same as above
Kit contents	2 lug(s) per kit; 2 lug(s) per terminal	A	same as above
Wire range	250-350 kcmil	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 1.25 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00277	VC400LA5	Square D	lug-kit	STATUS UNKNOWN

Square D LA Al compression lug kit

OEM part number	VC400LA5	A	S114 p.3-29, Table 3.91; oem_spec
Description	Aluminum compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LA, LH, Q4	A	same as above
Kit contents	1 lug(s) per kit; 1 lug(s) per terminal	A	same as above
Wire range	2/0 AWG-500 kcmil	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 2.2 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00278	VC400LA7	Square D	lug-kit	STATUS UNKNOWN

Square D LA Al compression lug kit

OEM part number	VC400LA7	A	S114 p.3-29, Table 3.91; oem_spec
Description	Aluminum compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LA, LH, Q4	A	same as above
Kit contents	1 lug(s) per kit; 1 lug(s) per terminal	A	same as above
Wire range	500-750 kcmil	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 2.5 in	A	same as above
Cross-links	Breakers: Square D LA/LH (L-frame 400 A), Square D Q4 (400 A, LA-type lugs)

PowerPact D-frame 400 A field-installable lug kit (with terminal cover)

OEM part number	32508	A	S114 p.3-28, Table 3.89; oem_spec
Alternate / superseded numbers	S32508 (Printed without S prefix)	D	S114 alias; p.3-28; inference
Description	Field-installable lug kit, terminal cover included, 400 A	A	S114 p.3-28, Table 3.89; oem_spec
Application	accessory	A	same as above
Breaker compatibility	D-frame 3P 400 A	A	same as above
Poles	3	A	same as above
Kit contents	kit for 3 poles incl. terminal cover	A	same as above
Wire range	(1) 2 AWG-600 kcmil stranded Cu or (1) 2 AWG-500 kcmil stranded Al	A	same as above
Material	not stated	A	same as above
Cross-links	Breakers: Square D PowerPact D-Frame (DG/DJ/DL)		
Requires	29348 (EDH-SQD-00181)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00269	32510	Square D	lug-kit	STATUS UNKNOWN

PowerPact D-frame 600 A field-installable lug kit (with terminal cover)

OEM part number	32510	A	S114 p.3-28, Table 3.89; oem_spec
Alternate / superseded numbers	S32510 (Printed without S prefix)	D	S114 alias; p.3-28; inference
Description	Field-installable lug kit, terminal cover included, 600 A	A	S114 p.3-28, Table 3.89; oem_spec
Application	accessory	A	same as above
Breaker compatibility	D-frame 3P 600 A	A	same as above
Poles	3	A	same as above
Kit contents	kit for 3 poles incl. terminal cover	A	same as above
Wire range	(2) 2/0 AWG-350 kcmil stranded Cu or (2) 2/0 AWG-500 kcmil stranded Al	A	same as above
Material	not stated	A	same as above
Cross-links	Breakers: Square D PowerPact D-Frame (DG/DJ/DL)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00293	PDC12DG4	Square D	lug-kit	STATUS UNKNOWN

PowerPact D-frame power distribution connector

OEM part number	PDC12DG4	A	S114 p.3-29, Table 3.93; oem_spec
Description	Power distribution connector for D-frame; kit includes long terminal shield (adds 1.65 in vs standard lug with short shield)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	DG, DJ, DL 150-600 A	A	same as above
Kit contents	3 per kit	A	same as above
Wire range	(12) 14-4 AWG	A	same as above
Material	not stated	A	same as above
Dimensions	Dimension A 1.28-1.31 in	A	same as above
Cross-links	Breakers: Square D PowerPact D-Frame (DG/DJ/DL)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00292	PDC5DG20	Square D	lug-kit	STATUS UNKNOWN

PowerPact D-frame power distribution connector

OEM part number	PDC5DG20	A	S114 p.3-29, Table 3.93; oem_spec
Description	Power distribution connector for D-frame; kit includes long terminal shield (adds 1.65 in vs standard lug with short shield)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	DG, DJ, DL 150-600 A	A	same as above
Kit contents	3 per kit	A	same as above
Wire range	(3) 14-2 AWG and (2) 14-2/0 AWG	A	same as above
Material	not stated	A	same as above
Dimensions	Dimension A 1.28-1.31 in	A	same as above
Cross-links	Breakers: Square D PowerPact D-Frame (DG/DJ/DL)		
Not yet documented	OEM instruction document, Status, Torque values		

Barrier

Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00190	PDC3HD2	Square D	lug-kit	STATUS UNKNOWN

PowerPact H-Frame power distribution connector (multi-wire load lug)

OEM part number	PDC3HD2	A	S112 p.126, Table 127; oem_spec
Description	Power distribution connector for multiple load wires; tin-plated Al lug, connectors and hardware; load end only; Cu wire only; UL 508 / UL 1995 applications	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end only	A	same as above
Breaker compatibility	PowerPact H-Frame	A	same as above
Kit contents	1 per kit (field kit incl. hardware)	A	same as above
Wire range	(3) 2 AWG or 14-3 AWG Cu	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, exact per-wire torque mapping (see Table 127), OEM instruction document, Status, Torque values		

EDH-SQD-00189	PDC6HD6	Square D	lug-kit	STATUS UNKNOWN

PowerPact H-Frame power distribution connector (multi-wire load lug)

OEM part number	PDC6HD6	A	S112 p.126, Table 127; oem_spec
Description	Power distribution connector for multiple load wires; tin-plated Al lug, connectors and hardware; load end only; Cu wire only; UL 508 / UL 1995 applications	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end only	A	same as above
Breaker compatibility	PowerPact H-Frame	A	same as above
Kit contents	1 per kit (field kit incl. hardware)	A	same as above
Wire range	(6) 8-6 AWG or 14-10 AWG Cu per terminal; 1 terminal per kit... (6 wires)	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, exact per-wire torque mapping (see Table 127), OEM instruction document, Status, Torque values		

EDH-SQD-00195	YA060HD	Square D	lug-kit	STATUS UNKNOWN

PowerPact H-frame Al/Cu compression lug kit

OEM part number	YA060HD	A	S112 p.127, Table 128; oem_spec
Description	Compression (crimp) lug kit for Al/Cu conductors; kit contains required insulators and all mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact H-frame	A	same as above
Poles	3	A	same as above
Current rating	<=60 A Al/Cu (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 1 lugs per terminal	A	same as above
Wire range	6-2 AWG Cu or Al; 1 wire(s) per lug	A	same as above
Material	Al/Cu compression lugs (body material not stated)	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Requires	S37449 (EDH-SQD-00248)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

PowerPact H-frame terminal nut insert (1/4-20) for bus bar connection

OEM part number	S37425	A	S112 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	HD/HG/HJ/HL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap 1/4-20; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, OEM instruction document, Status		

EDH-SQD-00184	S37426	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact H-frame terminal nut insert (M6) for bus bar connection

OEM part number	S37426	A	S112 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	HD/HG/HJ/HL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap M6; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)

PowerPact J-Frame power distribution connector (multi-wire load lug)

OEM part number	PDC6JD4	A	S112 p.126, Table 127; oem_spec
Description	Power distribution connector for multiple load wires; tin-plated Al lug, connectors and hardware; load end only; Cu wire only; UL 508 / UL 1995 applications	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end only	A	same as above
Breaker compatibility	PowerPact J-Frame	A	same as above
Kit contents	1 per kit (field kit incl. hardware)	A	same as above
Wire range	(6) 8-4 AWG or 14-10 AWG Cu	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, exact per-wire torque mapping (see Table 127), OEM instruction document, Status, Torque values		

EDH-SQD-00197	YA150JD	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-frame Al/Cu compression lug kit

OEM part number	YA150JD	A	S112 p.127, Table 128; oem_spec
Description	Compression (crimp) lug kit for Al/Cu conductors; kit contains required insulators and all mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Current rating	<=200 A (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 2 lugs per terminal	A	same as above
Wire range	1-3/0 AWG Cu or Al; 1 wire(s) per lug	A	same as above
Material	Al/Cu compression lugs (body material not stated)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Requires	S37450 (EDH-SQD-00249)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00198	YA250J35	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-frame Al/Cu compression lug kit

OEM part number	YA250J35	A	S112 p.127, Table 128; oem_spec
Description	Compression (crimp) lug kit for Al/Cu conductors; kit contains required insulators and all mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Current rating	<=250 A (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 2 lugs per terminal	A	same as above
Wire range	3/0 AWG-350 kcmil Cu or Al; 1 wire(s) per lug	A	same as above
Material	Al/Cu compression lugs (body material not stated)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Requires	S37450 (EDH-SQD-00249)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Barrier

PowerPact J-frame short terminal cover 3p

OEM part number	S37440	A	S112 p.123, Table 118; oem_spec
Description	Short terminal cover 3P, J-frame	A	same as above
Application	accessory	A	same as above
Installation location	over breaker terminals	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Kit contents	Short terminal cover 3P, J-frame	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00247	S37448	Square D	barrier	STATUS UNKNOWN

PowerPact J-frame short lug shield

OEM part number	S37448	A	S112 p.129, Table 130; oem_spec
Description	Terminal shield / phase barrier: J-frame short lug shield (mechanical lugs); extension 'B' past end of breaker 0.24 in; max wire size 350 kcmil	A	same as above
Application	accessory	A	same as above
Installation location	over line/load terminals	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Kit contents	1 per kit	A	same as above
Dimensions	dimension B (extension past breaker end) = 0.24 in	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00249	S37450	Square D	barrier	STATUS UNKNOWN

PowerPact J-frame long lug shield

OEM part number	S37450	A	S112 p.129, Table 130; oem_spec
Description	Terminal shield / phase barrier: J-frame long lug shield (PDC and compression lugs: PDC6JD4, PDC3JD2(0), YA150JD, CYA150JD, CYA250J3); extension 'B' past end of breaker 1.68 in	A	same as above
Application	accessory	A	same as above
Installation location	over line/load terminals	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Kit contents	1 per kit	A	same as above
Dimensions	dimension B (extension past breaker end) = 1.68 in	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	OEM instruction document, Status, Torque values

PowerPact J-frame control wire terminal for mechanical lugs

OEM part number	S37424	A	S112 p.124, Tables 120 & 122; oem_spec
Description	Voltage takeoff (control wire terminal) secured under the mechanical lug, tab for 0.250 in slip-on connector; field or factory installed	A	same as above
Application	accessory	A	same as above
Installation location	under mechanical lug at breaker terminal	A	same as above
Breaker compatibility	J-frame lugs (HD/HG/HJ/HL or JD/JG/JJ/JL as applicable)	A	same as above
Kit contents	2 per kit	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00185	S37427	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame terminal nut insert (1/4-20) for bus bar connection

OEM part number	S37427	A	S112 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	JD/JG/JJ/JL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap 1/4-20; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status		

EDH-SQD-00187	S37428	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame terminal nut insert (M8) for bus bar connection

OEM part number	S37428	A	S112 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	JD/JG/JJ/JL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap M8; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status		

EDH-SQD-00180	S37430	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame control wire terminal for terminal nut (busbar connection)

OEM part number	S37430	A	S112 p.124, Table 122; oem_spec
Description	Control wire terminal for busbar connection using terminal nut insert	A	same as above
Application	accessory	A	same as above
Breaker compatibility	J-frame with terminal nut inserts	A	same as above
Kit contents	2 per kit	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00235	S37437	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame mixed rear connection kit

OEM part number	S37437	A	S112 p.123, Table 118; oem_spec
Description	Mixed rear connection kit, J-frame 3P	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminals, rear (backplate-mounted breaker)	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Kit contents	Mixed rear connection kit, J-frame 3P	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00236	S37438	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame short rear connections (set of 2)

OEM part number	S37438	A	S112 p.123, Table 118; oem_spec
Description	Short rear connections (set of 2), J-frame; order two kits	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminals, rear (backplate-mounted breaker)	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	2/3	A	same as above
Kit contents	Short rear connections (set of 2), J-frame; order two kits	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00237	S37439	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame long rear connections (set of 2)

OEM part number	S37439	A	S112 p.123, Table 118; oem_spec
Description	Long rear connections (set of 2), J-frame (3P breakers only)	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminals, rear (backplate-mounted breaker)	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Kit contents	Long rear connections (set of 2), J-frame (3P breakers only)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

PowerPact L-frame 250 A mechanical lug kit, Al, 3P

OEM part number	AL400L61K3	**A**	S112 p.124, Table 121; oem_spec
Alternate / superseded numbers	AL400L6IK3 [alias] (Typographical variant printed under lug illustration in Table 121)	**A**	same as above
Description	Al lugs for Al or Cu wire, 250 A; unit mount and I-Line; short terminal shield	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	PowerPact L 250 A, 3P, unit-mount and I-Line; FAQ: also optional on 400/600 A L-frame within wire-size/rating limits	**A**	same as above
Poles	3	**A**	same as above
Current rating	250 A	**A**	same as above
Kit contents	3 lugs per kit; short terminal shield	**A**	same as above
Wire range	(1) 2 AWG-500 kcmil Al or (1) 2 AWG-600 kcmil Cu	**A**	same as above
Material	tin-plated aluminum	**A**	same as above
Identification features	L-frame lugs are pre-tapped for control wire: 8-32 x 1/4 in screw (not provided) into tapped hole in lower left corner of lug	**A**	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)

Current rating	250/400 A	A	same as above
Kit contents	4 lugs per kit; short terminal shield	A	same as above
Wire range	as printed: (1) 2 AWG-600 kcmil Cu (Table 121 text extraction is column-scrambled for Cu rows; number of conductors and Al/Cu wording not reliable)	C	same as above
Material	copper (Cu-only lugs are made of copper)	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values, wire range (verify against PDF p.124)		
Open question	*Confirm Cu lug wire ranges and conductors per lug from Table 121 image.*		

EDH-SQD-00230	CU600LF52K3	Square D	lug-kit	STATUS UNKNOWN

PowerPact L-frame 400/600 A mechanical lug kit, Cu, 3P

OEM part number	CU600LF52K3	A	S112 p.124, Table 121; oem_spec
Description	Cu lugs for use with Cu wire only; short terminal shield; unit mount and I-Line	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact L 400/600 A, 3P, unit mount and I-Line	A	same as above
Poles	3	A	same as above
Current rating	400/600 A	A	same as above
Kit contents	3 lugs per kit; short terminal shield	A	same as above
Wire range	as printed: (1) 3/0 AWG-500 kcmil (Table 121 text extraction is column-scrambled for Cu rows; number of conductors and Al/Cu wording not reliable)	C	same as above
Material	copper (Cu-only lugs are made of copper)	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values, wire range (verify against PDF p.124)		
Open question	*Confirm Cu lug wire ranges and conductors per lug from Table 121 image.*		

EDH-SQD-00228	CU600LS52K3	Square D	lug-kit	STATUS UNKNOWN

PowerPact L-frame 400/600 A mechanical lug kit, Cu, 3P

OEM part number	CU600LS52K3	A	S112 p.124, Table 121; oem_spec
Description	Cu lugs for use with Cu wire only; medium terminal shield; unit mount	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact L 400/600 A, 3P, unit mount	A	same as above
Poles	3	A	same as above
Current rating	400/600 A	A	same as above
Kit contents	3 lugs per kit; medium terminal shield	A	same as above
Wire range	as printed: (1) 2/0 AWG-500 kcmil (Table 121 text extraction is column-scrambled for Cu rows; number of conductors and Al/Cu wording not reliable)	C	same as above
Material	copper (Cu-only lugs are made of copper)	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values, wire range (verify against PDF p.124)		
Open question	*Confirm Cu lug wire ranges and conductors per lug from Table 121 image.*

Lineage / brand markings: General Electric Industrial Solutions; ABB from 2018; ReliaGear

Family	Type	Status	Era	Entries	Pg
A-SERIES A-Series Lighting Panelboards (Types AL, AQ, AE/AS, AD / AD Plus, Lighting Control Panel, Pro-Stock AQU/AEU)	panelboard	current as of BuyLog 07/2014	—	62	660
A-SERIES-COL A-Series Column Panelboards (ALC, AQC, AEC)	panelboard	unknown	—	6	678
A-SERIES-PWR A-Series Power Panelboards / A-Series II Power Panel (Types AQP, AEP, ADP; 'Type P & N')	panelboard	current as of BuyLog 07/2014	—	35	678
CCB-QMR Type CCB and QMR power panelboards (legacy; listed under Spectra Series Power renewal parts)	panelboard	Renewal parts still listed 2014; QMR fusible switches 'Limited availability. Obsolete when inventory depleted.'	Types NCB and CCB listed as GE power distribution panelboards in March 1955; 1951 Trumbull 'Convertible Circuit Breaker Panelboards' (likely origin of the CCB letters)	36	691
CONVERTI-FUSE Trumbull / GE Converti-Fuse and Swing-Wa fusible distribution panelboards	panelboard	Obsolete	Safe-Converti-Fuse introduced by Trumbull c.1930; Converti-Fuse and Swing-Wa catalogued 1951 and listed by GE in 1955 (registered GE trade-marks)	0	701
NHB NAB / NHB bolt-on panelboards (legacy)	panelboard	discontinued (legacy); hardware sold as new-surplus	NAB catalogued 1951 (Trumbull, Type AT breakers); 'Types NAB, NHB' listed in GE March 1955 advertisement; GE 1949 hospital handbook lists 'Type NAB, NA, Multi-Breaker' panels	1	701
NLAB GE / Trumbull NLAB, NLTQ, NLTQX and DB lighting panelboards (TQ / TQL / TQC / TQB breakers)	panelboard	Obsolete (superseded by GE A-Series lighting panelboards - inference from GE line chronology; no GE supersession statement found)	NLAB (formerly NTQ) and NLTQ catalogued 1951; NLTQ introduced c.1951 as 'Trumbull's new NLTQ panelboard' with first plug-in quick-make quick-break breaker; NAB, NHB, NLAB, NLTQ, NLTQX listed in 1955 GE ad; renewal parts GEG-13610B 'Types DB, NLTQ and NLAB, Style 5' with GEJ-3006A (1969)	23	702
RG-NEXT ReliaGear neXT Power Panelboards	panelboard	unknown	—	3	710
SCP-PLUS Spectra Series Type SCP Plus panelboards	panelboard	unknown	—	15	711
SPECTRA-PP Spectra Series Power Panelboards (Plug-In interior type APN; Bolt-On interior type APNB)	panelboard	ABB guide: "Please note that Spectra, TED, FE, and FG breakers are obsolete"; Spectra bolt-on additions are served by Tmax XT retrofit kits (SRFB...)	—	315	716
TRUMBULL Trumbull Electric (Plainville CT) panelboards and switches	panelboard	Obsolete; forum states GE and Trumbull breakers share part numbers (e.g., TQL/THQL)	Trumbull Electric Mfg. Co., Plainville CT, labelled 'A General Electric Organization'; split-bus panels into early 1960s	0	865
AV-LINE AV-Line switchboards (legacy)	switchboard	unknown	—	13	866

5.1 A-SERIES — A-Series Lighting Panelboards (Types AL, AQ, AE/AS, AD / AD Plus, Lighting Control Panel, Pro-Stock AQU/AEU)

FAM-GEA-001 · panelboard · aka A Series, A-Series II, AQ, AE, AS, AL, AD, AD Plus, AQF, AEF, Pro-Stock · markings: GE, General Electric, GE Industrial Solutions, ABB

GE's lighting/appliance panelboard platform. Symmetrical 20 in wide x 5.81 in deep galvanized boxes with removable endwalls, branch-bus direct connection and captive branch hardware. Type letter indicates breaker family: AL = plug-in Q-line, AQ = bolt-on Q-line (THQB), AE = bolt-on E-frame (TEY) 480Y/277 V, AD = 600 V TED/SE/FB. Pro-Stock unassembled interiors (AQU/AEU) are completed with MB main breaker kits, ML main lug kits and NK neutral kits. Pages in the 2014 BuyLog are headed 'A-Series II' on the column-panel kit page.

5.3 A-SERIES-PWR — A-Series Power Panelboards / A-Series II Power Panel (Types AQP, AEP, ADP; 'Type P & N')

FAM-GEA-002 · panelboard · aka AQP, AEP, ADP, A-Series II Powerpanel, AD/AE/AQ Type P & N Power Panel · markings: GE, GE Industrial Solutions, ABB

Power-panel version of the A-Series: 30 in wide x 8 in deep box, single-piece deadfront (no filler plates needed per catalog), up to 600 A branch device, staggered center-mounted SF/SG breakers. Field breaker kits ASPP6xxxx (DEH40150-DEH40158) are installed into 'Un-Specified Space' on the interior, bolting branch bases/straps to the main bus next to the crossbar and replacing a blank shield insert on the deadfront with a breaker-specific filler plate.
