EDH-EAT-00539 **3TA160EFK** Eaton / Cutler-Hammer lug-kit **ACTIVE EATON PRODUCT P**

Series G EG-frame line/load terminals, 160 A, Cu/Al

OEM part number	3TA160EFK	A	S187, S251 V4-T2-24 (Apr 2014); p.12-19 Table 12-13 (Nov 2008); oem_spec
Alternate / superseded numbers	UPC 782116102495	A	S251 alias; skuPage.3TA160EFK (General/Product specifications); oem_spec
Description	Pressure type line/load terminal	A	S187 V4-T2-24 (Apr 2014); p.12-19 Table 12-13 (Nov 2008); oem_spec
	Eaton molded case circuit breaker accessory line and load terminal, Terminal kit, 160 A, Three-pole, #3 AWG-250 kcmil, Copper/aluminum	A	S251 skuPage.3TA160EFK (General/Product specifications); oem_spec
Application	accessory	A	S187 V4-T2-24 (Apr 2014); p.12-19 Table 12-13 (Nov 2008); oem_spec
Breaker compatibility	EG-frame	A	same as above
Poles	3 (Eaton web: Three-pole)	A	S251 skuPage.3TA160EFK (General/Product specifications); oem_spec
Current rating	160 A max breaker	A	S187 V4-T2-24 (Apr 2014); p.12-19 Table 12-13 (Nov 2008); oem_spec
	160 A	A	S251 skuPage.3TA160EFK (General/Product specifications); oem_spec
Kit contents	package of 3	A	S187 V4-T2-24 (Apr 2014); p.12-19 Table 12-13 (Nov 2008); oem_spec
Wire range	#3-250 kcmil (35-120 mm2)	A	same as above
	#3 AWG-250 kcmil	A	S251 skuPage.3TA160EFK (General/Product specifications); oem_spec
Material	terminal body aluminum	A	S187 V4-T2-24 (Apr 2014); p.12-19 Table 12-13 (Nov 2008); oem_spec
Status	Active Eaton product page (no Discontinued banner), accessed 2026-10-21 (Page presence does not guarantee stock availability)	A	S251 skuPage.3TA160EFK (General/Product specifications); oem_spec
Listing / approvals	Contact Manufacturer	A	S251 skuPage.3TA160EFK (General/Product specifications); oem_spec
Package data (not part dims)	Eaton logistics attributes: length/depth 0.01 in, height 10 in, width 12 in, weight 2 lb (Package/shipping data per Eaton web; NOT verified component dimensions)	A	same as above

Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Torque values		

EDH-EAT-00540	4TA160EFK	Eaton / Cutler-Hammer	lug-kit	STATUS UNKNOWN

Series G EG-frame line/load terminals, 160 A, Cu/Al

OEM part number	4TA160EFK	**A**	S187 V4-T2-24 (Apr 2014); p.12-19 Table 12-13 (Nov 2008); oem_spec
Description	Pressure type line/load terminal	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	EG-frame	**A**	same as above
Current rating	160 A max breaker	**A**	same as above
Kit contents	4-pole kit with four terminals	**A**	same as above
Wire range	#3-250 kcmil (35-120 mm2)	**A**	same as above
Material	terminal body aluminum	**A**	same as above
Cross-links	Breakers: Series G EG-Frame (EGB/EGE/EGS/EGH/EGC)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

Series G JG-frame multiwire connector

OEM part number	3TA250FJ3	**A**	S184, S251 p.12-28, Table 12-39; oem_spec
Alternate / superseded numbers	UPC 782116130887	**A**	S251 alias; skuPage.3TA250FJ3 (General/Product specifications); oem_spec
Description	JG-frame multiwire connector, 3 wires per terminal, 14-2 AWG Cu, 250 A	**A**	S184 p.12-28, Table 12-39; oem_spec

	Eaton molded case circuit breaker accessory line and load terminal, Multiwire terminal connectors kit, 250 A, #14-2 AWG, JG-Frame, Frame J-K, Series G, Three-wire	A	S251 skuPage.3TA250FJ3 (General/Product specifications); oem_spec
Application	accessory	A	S184 p.12-28, Table 12-39; oem_spec
Installation location	load (OFF) end	A	same as above
Breaker compatibility	JG-frame	A	S184, S251 p.12-28, Table 12-39; oem_spec
Breaker frame	Frame J-K	A	S251 skuPage.3TA250FJ3 (General/Product specifications); oem_spec
Current rating	250 A	A	same as above
Kit contents	package of 3 (load side)	A	S184 p.12-28, Table 12-39; oem_spec
Wire range	#14-2 AWG	A	S251 skuPage.3TA250FJ3 (General/Product specifications); oem_spec
Material	tin-plated aluminum connectors	A	S184 p.12-28, Table 12-39; oem_spec
Status	Active Eaton product page (no Discontinued banner), accessed 2026-10-21 (Page presence does not guarantee stock availability)	A	S251 skuPage.3TA250FJ3 (General/Product specifications); oem_spec
Listing / approvals	Contact Manufacturer	A	S251 skuPage.3TA250FJ3 (General/Product specifications); oem_spec
Package data (not part dims)	Eaton logistics attributes: length/depth 6.75 in, height 5.5 in, width 4.25 in, weight 0.8 lb (Package/shipping data per Eaton web; NOT verified component dimensions)	A	same as above
Cross-links	Breakers: Series G JG-Frame (JGE/JGS/JGH/JGC)		
Not yet documented	Dimensions, OEM instruction document, Torque values

4.1 SQD-NQNF-RETRO — Square D NQ / NF retrofit (custom trim + current interior into existing enclosure)

FAM-SQD-015 · other · aka Square D Retrofit offering, RTI 14in NQ interior, NQ/NF retrofit form · markings: Square D, Schneider Electric

Schneider Electric (Square D) offers, through a retrofit form submitted via distributor to the local sales office (panel TAG group feasibility review), a custom trim built to fit an existing Schneider or competitor enclosure combined with a standard current-style NQ or NF interior. Enclosures 17 in wide and above take the standard 20 in W NQ/NF interior; narrower ones take the 'RTI' 14 in W NQ interior. NEMA 1 only (no N3R). Existing box studs are not used; the contractor centres the interior, shims as needed and fastens the mounting rails to the box back wall by any means. Square D does not offer QO/Homeline load center retrofit interiors.

Attribute	Value	Cl.	Sources
Box range	Enclosures >=17 in W: standard 20 in W NQ and NF interiors; enclosures <17 in W: 'RTI 14"W NQ interiors'; an NQ or NF panel can be up to 3 in longer than the existing enclosure; NEMA 1 applications only, not available for N3R (OEM FAQ text read via search-engine extract (se.com 403); upgrade to A once page is read directly)	B	S620 oem_spec
Mounting	Existing box studs are not used in Square D Retrofit offering; contractor attaches interior mounting rails to back wall of existing box with any fastening means; contractor must centre interior and may need to shim to correct elevation (OEM FAQ via search extract)	B	S621, S620 oem_spec
Ordering	Retrofit form completed and submitted to distributor -> local sales office for price, availability and feasibility from the panel TAG group; trim modified to fit existing box where possible, interior stays standard (OEM FAQ via search extract)	B	S620, S622 oem_spec
Listing / approvals	Square D equipment is generally not approved for installation in other manufacturers' gear; Schneider Services can perform a retrofit but UL listings may be voided and the warranty as well unless otherwise specified (US FAQ FA339443). Canadian FAQs describe the custom-trim retrofit offering without a listing statement. (OEM FAQ via search extract; regional answers differ)	B	S624, S620 oem_spec
Exclusions	Square D does not offer QO or Homeline load center retrofit interiors for old QO/Homeline load centers or for other manufacturers' existing boxes (OEM FAQ via search extract)	B	S623 oem_spec

4.2 I-LINE — I-Line circuit breaker panelboard (Class 2110)

FAM-SQD-006 · panelboard · aka Class 2110, HCJ, HCM, HCN, HCP, HCP-SU, HCR-U, HCW, HCWM, I Line, I-Line Combo (CP...), ILine · markings: Schneider Electric, Square D

Square D 600 Vac / 250 Vdc distribution panelboard with plug-on I-Line breakers mounted on a bus-bar stack; breaker held by mounting bracket fingers in pan keyslots and a retaining screw into a 7/32 in. pan hole. Interior types HCJ/HCM (32 in. wide, 250 A max branch), HCP-SU (single row, 26 in.), HCP (42 in.), HCR-U (44 in.). Unused spaces must be closed with blank fillers (HNM1BL/HNM4BL) and blank extensions (HLW/HLN). Solid neutral, sub-feed lug and SE barrier kits are merchandised.

Plug-on I-Line bus stack: breaker line-end jaws are integral to the breaker, shrouded in a molded insulator that keys into slots in the bus support base, are factory lubricated/preset and are 'blow-on'. The load end is held by an integral mounting bracket/foot screwed to the interior pan. The same interiors, fillers and extensions are used in QED switchboard I-Line distribution sections.

Evidence record from 1970 Digest: HCN 26 in W (FA/FY/Q2 to 100 A, 125-225 A KA; 600 A lugs / 400 A MB), HCM 32 in W x 8 in D (125/250 V AC-DC to 600 V AC; 800 A), HCW 41 in W (to LA 400 A branch; 800 A), HCWM 41 in W x 9-1/4 in D (to MA 800 A; 1200 A lugs). Solid neutral assemblies HC-xSN (HCN/HCM) and HCW-xSN (HCW/HCWM); blanks HNM-xBL; blank extensions HLW-xBL; sub-feed lugs SL-100/225/400/800 plug onto bus like a breaker. Q2 max 240 V AC; FY max 277 V AC.

Description	Solid neutral assembly for I-Line HCJ interior	A	S27 p. 9-57; oem_spec
Installation location	I-Line panelboard neutral (ordered separately from merchandised interior)	A	S27 p. 9-51 fn; oem_spec
Current rating	800 A	A	S27 p. 9-57; oem_spec
Material	Aluminum lugs, copper neutral plate	A	same as above
Dimensions	Main terminals (4) 3/0-750 kcmil; branch terminals (7) 6-350, (9) #1/0-14, (34) #4-14	A	same as above
Status	current (listed in 2026 Digest)	A	same as above
Cross-links	Families: I-LINE		
Not yet documented	Aftermarket / reproduction, Finish / plating, Mounting-hole pattern		

EDH-SQD-00181	HC8SNCU	Square D	neutral-assembly	CURRENT (LISTED IN 202

I-Line solid neutral assembly, HCJ, 800 A, Cu/Cu

OEM part number	HC8SNCU	A	S27 oem_spec
Description	Solid neutral assembly for I-Line HCJ interior	A	S27 p. 9-57; oem_spec
Installation location	I-Line panelboard neutral (ordered separately from merchandised interior)	A	S27 p. 9-51 fn; oem_spec
Current rating	800 A	A	S27 p. 9-57; oem_spec
Material	Copper lugs, copper neutral plate	A	same as above
Dimensions	Main terminals (4) 3/0-750 kcmil; branch terminals (7) 6-350, (9) #1/0-14, (28) #4-14	A	same as above
Status	current (listed in 2026 Digest)	A	same as above
Cross-links	Families: I-LINE		
Not yet documented	Aftermarket / reproduction, Finish / plating, Mounting-hole pattern		

EDH-SQD-00178	HCP12SNALCU	Square D	neutral-assembly	CURRENT (LISTED IN 202

I-Line solid neutral assembly, HCP, 1200 A, Al lugs/Cu plate

OEM part number	HCP12SNALCU	A	S27 oem_spec
Description	Solid neutral assembly for I-Line HCP interior	A	S27 p. 9-57; oem_spec
Installation location	I-Line panelboard neutral (ordered separately from merchandised interior)	A	S27 p. 9-51 fn; oem_spec
Current rating	1200 A	A	S27 p. 9-57; oem_spec
Material	Aluminum lugs, copper neutral plate	A	same as above
Dimensions	Main terminals (4) 3/0-750 kcmil; branch terminals (4) 3/0-750, (7) 6-350, (9) #1/0-14, (34) #4-14	A	same as above

4.3 MLN — Square D MLN panelboards and switchboards (ML breakers)

FAM-SQD-013 · panelboard · aka ML, ML-1, ML1, MLN, MLW · markings: Square D

Short-lived Square D panelboard and switchboard line (1962-1968) using ML breakers, superseded by I-Line. Adapter kits once allowed FAL/KAL/LAL/MAL breakers; these are now obsolete. Dealers sell 'ML1 PNL' twin and single mounting hardware for KAP, LAP, LA, MAP, FAP/FAL and 997-frame breakers.

1970 Digest ordering example: '1 - MAL26600, 600 A., 2 P., circuit breaker for use in 600V., 3 Ph., 3 W. panelboard catalog number MLW-5678-6 With mounting assembly for A-B phase connection' - shows an ML-family 'MLW' panel still being serviced in 1970 with MAL breakers and mounting assemblies.

Attribute	Value	Cl.	Sources
Status	Obsolete; Schneider recommends replacing the complete panelboard (new I-Line); FAL/KAL/LAL/MAL adapter kits SK4515/SK4516/SK4517/SK4578 offered as of 1/1/2015 but now obsolete; PowerPact has no adapter kits	A	S456 oem_web
Era of manufacture	Sold in the USA from 1962 to 1968	A	same as above
Successor	I-Line panelboard (complete replacement)	A	same as above
Branch breakers accepted	ML breakers (side label part number 999xxx per forum); later FAL, KAL, LAL, MAL via adapter kits; dealer 'ML1' kits for FAP/FAL, KAP, LA, LAP, MAP and 997 frame	B	S456, S460, S444 oem_web
Identification features	ML breakers carry a side label with a part number like 999xxx	C	S460 forum
Mlw	Panel catalog prefix MLW used with MAL breakers + mounting assembly (1970 replacement example)	A	S463 Digest 152 (1970) p.85; oem_spec

4.4 NA1B — Square D NA1B panelboard (E-frame bolted, AC/DC)

FAM-SQD-012 · panelboard · aka A1B, NA-1B, NA1B-LX, NAIB · markings: Square D

Square D 250 V AC/DC bolted E-frame lighting panelboard of 1960. Schneider guidance (search summary) replaces it with NQ (AC or <=48 V DC) or I-Line (DC up to 250 V).

1970 Digest: NA1B uses distributed phase bussing, galvanized 20 in wide boxes, MONO-FLAT front with concealed trim clamps; top/bottom gutters 5 in min (225 A) and 8 in min (400/600 A). Meets Fed Spec W-P-115a Type I Class 1, UL listed.

Attribute	Value	Cl.	Sources
Era of manufacture	Advertised by Square D in September 1960	A	S438 oem_spec
Successor	NQ panelboard for 240 V AC or DC up to 48 V DC; I-Line for DC up to 250 V (search summary of Schneider FAQ)	C	S459 oem_web
Voltage rating	AC or DC (E frame bolted connection)	A	S438 oem_spec

4.5 NEHB — NEHB panelboard

FAM-SQD-005 · panelboard · aka NEHB, NEHB lighting panelboard, NY1B, NYIB · markings: Schneider Electric, Square D, Square D Canada

Square D 480Y/277 V lighting panelboard using EH plug-on / EHB bolt-on breakers, manufactured 1983-1995 and replaced by NF. EH/EHB breakers reported no longer available. No NEHB kit part numbers were found in this batch.

Square D's pre-NF 480Y/277 V bolt-on lighting panelboards. NY1B: Schneider FAQ FA233845 says 1-pole Y1B breakers are obsolete; 2/3-pole FAL breakers can be replaced if hardware remains; new FAL cannot be added where ML-1/2/3-pole breakers were used (no connectors). NEHB used EH/EHB breakers and was obsoleted in 1995 in favour of NF.

Attribute	Value	Cl.	Sources
Status	obsolete (1995)	A	S87 oem_spec
	NEHB obsoleted 1995; EH/EHB breakers discontinued with no replacement; NY1B 1-pole Y1B breakers obsolete; NY1B mounting kit SK4529 discontinued (search summaries)	C	S459 oem_web

4.7 NH1B — Square D NH1B 480 V AC lighting panelboard (FY / FA breakers)

FAM-SQD-014 · panelboard · aka NH1B, NHIB, NH1B-LX, MH1B (OCR) · markings: Square D

Square D's 1970 480Y/277 V lighting panelboard (NH1B) with distributed phase bussing, FY single-pole and FA multi-pole branch breakers, galvanized boxes with MONO-FLAT front with door, gray baked enamel. Column-width NH1B-LX exists. I-Line box extension HC-2609-EXF/S serves 'HCN or NH1B'. Distinct from the Westinghouse and FPE NH1B designations.

Attribute	Value	Cl.	Sources
Status	Obsolete (inference; superseded by NEHB then NF)	D	inference
Era of manufacture	Catalogued in Square D Digest 152 (1970); NEHB is not in the 1970 index (later successor - inference)	A	S463 Digest 152 (1970) p.55, 68; oem_spec
Successor	NEHB, then NF (inference from Schneider NEHB->NF guidance)	D	S459 inference

Endwall with knockouts for 20 in. wide MH enclosure (one per package)

OEM part number	MHKE20	A	S27 oem_spec
Description	Endwall with knockouts for 20 in. wide MH enclosure (one per package)	A	S27 p. 9-19; oem_spec
Installation location	Top/bottom end of MH box	A	same as above
Status	current (listed in 2026 Digest)	A	same as above
Cross-links	Families: NQ, NF		
Not yet documented	Aftermarket / reproduction, Dimensions, Finish / plating, Mounting-hole pattern, Material		

EDH-SQD-00715	MPX81542	Square D	box/enclosure	STATUS UNKNOWN

Pull box with solid neutral, 42 terminals, column-width NQ/NF

OEM part number	MPX81542	A	S27 Tables 9.87 / 9.89; oem_spec
Description	Pull box with solid neutral, 42 S/N terminals, for column-width panelboards	A	S27 oem_spec
Cross-links	Families: NQ, NF		

EDH-SQD-00707	MTX836	Square D	box/enclosure	STATUS UNKNOWN

Cable trough 36 in for NQ column-width panelboard

OEM part number	MTX836	A	S27 Digest Sec.9 Tables 9.87 / 9.89; oem_spec
Description	Cable trough, length 36 in, cross-section 8.625 x 5 in, standard with trough barrier, for single-row (column width) panelboards	A	S27 oem_spec
Cross-links	Families: NQ		

EDH-SQD-00708	MTX848	Square D	box/enclosure	STATUS UNKNOWN

Cable trough 48 in for NQ column-width panelboard

OEM part number	MTX848	A	S27 Digest Sec.9 Tables 9.87 / 9.89; oem_spec
Description	Cable trough, length 48 in, cross-section 8.625 x 5 in, standard with trough barrier, for single-row (column width) panelboards	A	S27 oem_spec

4.10 NQOB — Square D NQO / NQOB lighting panelboards (QO plug-on / QOB bolt-on)

FAM-SQD-011 · panelboard · aka NQ0, NQH, NQHB, NQO, NQO-LX, NQOB, NQOB column, NQOB-LX, NTFB (basic NQOB bus) · markings: Square D

Square D's 250 V AC lighting/appliance panelboards of the 1960s-1980s: NQO with plug-on QO breakers and NQOB with bolt-on QOB breakers, combinable lighting and power up to 100 A branches; mains 100-600 A. Square D advertised a non-interchangeability system (NEC 240-25(g)) common to NQO, NQOB, NA1B and loadcenters. Replacement-part data: QOB branch breakers, SK5668 branch kit (not SK5669), QOFP fillers, 100 A vs 60 A column-width branch limits per conflicting FAQs.

1970 Square D Digest data for NQO/NQOB: box sizes 14 in W x 4 in D, 14 in W x 5-3/4 in D, 20 in W x 5-3/4 in D (NQOB 14 in widths shown); column width (LX) about 6-3/4 in W x 5 in D; column-width NQOB available factory assembled only. Cabinets: MONO-FLAT fronts with concealed trim clamps, door with concealed hinges and flush lock, gray baked enamel. Catalog numbers of the form NQO-24-203-1, NQOB-35-424, NQO-20-3L (Canada) etc.

Attribute	Value	Cl.	Sources
Status	Obsolete; enclosure parts not available; QSFB switch/fuse unit obsolete; trim clamp PK1TC obsolete (search summaries)	B	S458, S459 oem_web
Era of manufacture	Advertised by Square D in May and September 1960 (NQO plug-in, NQOB bolted connection); a Schneider timeline (search summary) says 'developed in late 1960s till obsolescence in 1987' - conflicts with the 1960 ads (1960 ads are OEM-authored; the 'late 1960s' statement is unverified search text)	B	S437, S438, S459 oem_spec

4.11 NQOD — NQOD panelboard (Class 1630)

FAM-SQD-002 · panelboard · aka NQOD lighting panelboard · markings: Schneider Electric, Square D

Predecessor of NQ; accepted QO plug-on and QOB bolt-on breakers. Sold 1987-2008. Schneider states NQ is the replacement but not a direct one: interior, box and trim must be replaced (e.g. NQOD30L400CU -> NQ30L4C plus new box/trim). All NQOD main breaker kits obsolete as of April 2016; branch connector kit SKNQOD225 existed for <=225 A interiors.

Attribute	Value	Cl.	Sources
Status	obsolete	A	S87, S88 oem_spec
	Obsolescent by 2009 Digest (Section 13 'Obsolescent Panelboards'); all NQOD main breaker kits no longer offered	A	S609, S610 13-1; FA299520; oem_spec
Era of manufacture	1987-2008	A	S87 oem_spec
Successor	NQ (not a direct replacement; replace interior, box and trim)	A	S89, S88 oem_spec
	NQ panelboard (current style)	A	S610, S613 FA299520, FA228483; oem_spec

OEM part number	MH77	A	S609 ; 2009 Digest 13-10/13-11/13-13; oem_spec
Description	Square D MH NEMA Type 1 panelboard box (enclosure), 20 in W x 5.75 in D, nominal 77 in high; galvanized steel with removable endwalls; used for NQ/NF and NQOD panelboards	A	S609 oem_spec
Installation location	Wall / flush or surface mounted enclosure; front (trim) ordered separately (NC or MHC series)	A	same as above
Dimensions	20 in W x 5.75 in D x 77 in H (nominal; detailed dims per PBA600 / PBA711 drawings) (Embossed mounting holes add 0.25 in standoff to back of MH box (2009 Digest note b))	A	same as above
Status	Size listed only in 2009 obsolescent NQOD tables; not in 2026 NQ/NF tables (which use 6 in increments)	B	S609 inference
Cross-links	Families: NQOD		
Not yet documented	gauge, knockout pattern		

EDH-SQD-00668	MH77WP	Square D	box/enclosure	STATUS UNKNOWN

MH weatherproof enclosure Type 3R/5/12, 77 in H (NQ/NF)

OEM part number	MH77WP	A	S609 80043-771-01 kit table; Digest Table 9.3; 2009 Digest 13-10..13-13; oem_spec
Description	MH weatherproof / dust-resistant enclosure (NEMA Type 3R/5/12), includes trim kit; for NQ/NF (and NQOD) panelboards; nominal height 77 in	A	S609 oem_spec
Dimensions	20 in W x 5.75 in D nominal (Digest 2026: 20 in W x 5.75 in D; 2009 NQOD tables: 20 in W x 6.5 in D) (Wall brackets add 0.4 in to back of MHxxWP enclosures (Digest note [6]))	A	same as above
Cross-links	Families: NQOD		
Not yet documented	Finish / plating, gauge

4.12 QMB — QMB fusible panelboard (Class 4620)

FAM-SQD-007 · panelboard · aka Class 4620, QMB fusible, QMB switchboard, QMB-QMJ · markings: Schneider Electric, Square D

Square D fusible-switch panelboard/switchboard; QMBHW and QMBJW adapter units allow H- and J-frame breakers to plug onto QMB bus (spring nuts in mounting rails, 1/4-20 unit mounting screws at 30 lb-in). Included only for breaker-adapter hardware.

Extruded-bus fusible distribution system used both as stand-alone panelboards and as the QMB distribution section of QED-2 / Speed-D switchboards. Branch units have permanently attached mounting brackets and blow-on plug-on jaws onto the QMB bus and mount with a screwdriver; glass-reinforced polyester bus supports. ISCR up to 200 kA at 600 Vac with Class R/J/L/T fuses.

EDH-SQD-00222	**QMB221HW**	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB221HW (2P 240 Vac, 30-blank A)

OEM part number	QMB221HW	**A**	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac / 250 Vdc, 30-blank (single switch in twin frame) A; Blank units cannot be modified to accept a switch interior	**A**	S96 Table 4, pp. 10-11; Table 4 note b; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	**A**	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	**A**	S96 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	**A**	S96 Table 4, pp. 10-11; oem_spec
Poles	2	**A**	same as above
Voltage rating	240 Vac / 250 Vdc	**A**	same as above
Current rating	30-blank (single switch in twin frame) A	**A**	same as above
Kit contents	Optional Class R fuse kit: HRK30 (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	**A**	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	**A**	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	**B**	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	**A**	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight

QMB fusible switch unit QMB223TW (2P 240 Vac, 100-100 A)

OEM part number	QMB223TW	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac / 250 Vdc, 100-100 (twin) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S96 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	240 Vac / 250 Vdc	A	same as above
Current rating	100-100 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB100R (1 req.); Standard lug not replaceable (#12-1/0); no optional lugs	A	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 6 in. (152 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00227	QMB224W	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB224W (2P 240 Vac, 200 A)

OEM part number	QMB224W	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac / 250 Vdc, 200 (single) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB200EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S96 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	240 Vac / 250 Vdc	A	same as above
Current rating	200 (single) A	A	same as above
Kit contents	Optional Class R fuse kit: HRK1020 (1 req.); 40251-162-50 Al mech #6-300 (std); Cu mech 40560-270-50 #6-250; Al crimp VCEL030516H1 #4-300; Cu crimp VCELC03038H1 2/0-300	A	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 9 in. (229 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00228	QMB225W	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB225W (2P 240 Vac, 400 A)

OEM part number	QMB225W	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac / 250 Vdc, 400 (single) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Poles	2	A	S96 Table 4, pp. 10-11; oem_spec
Voltage rating	240 Vac / 250 Vdc	A	same as above
Current rating	400 (single) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB4060R (1 req.); (2) 40251-287-50 Al mech 3/0-600 (std); Al crimp (2) VCEL05012H1 2/0-500 or (2) VCEL07512H1 500-750; Cu crimp (2) VCELC05012H1 250-500 or (2) VCELC07512H1 400-750; no Cu mech option	A	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 15 in. (381 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00229	QMB225WT3	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB225WT3 (2P 240 Vac, 400 A)

OEM part number	QMB225WT3	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 240 Vac, 400 (single, 300 Vac Class T fuses only) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Use 300 Vac Class T fuses only	A	S96 Table 4 note c; oem_spec
Poles	2	A	S96 Table 4, pp. 10-11; oem_spec
Voltage rating	240 Vac	A	same as above
Current rating	400 (single, 300 Vac Class T fuses only) A	A	same as above
Kit contents	Standard lug not replaceable (#1-600); no optional lugs	A	S96 Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 9 in. (229 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00243	QMB261HW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB261HW (2P 600 Vac, 30-blank A)

OEM part number	QMB261HW	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 600 Vac / 250 Vdc, 30-blank A; Blank units cannot be modified to accept a switch interior	A	S96 Table 4, pp. 10-11; Table 4 note b; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S96 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	600 Vac / 250 Vdc	A	same as above
Current rating	30-blank A	A	same as above
Kit contents	Optional Class R fuse kit: QMB36R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00242	QMB261TW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB261TW (2P 600 Vac, 30-30 A)

OEM part number	QMB261TW	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 600 Vac / 250 Vdc, 30-30 (twin) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S96 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above
Voltage rating	600 Vac / 250 Vdc	A	same as above
Current rating	30-30 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB36R (1 req.); 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight		

EDH-SQD-00245	QMB262HW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB262HW (2P 600 Vac, 60-blank A)

OEM part number	QMB262HW	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 2-pole, 600 Vac / 250 Vdc, 60-blank A; Blank units cannot be modified to accept a switch interior	A	S96 Table 4, pp. 10-11; Table 4 note b; oem_spec
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB610EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S96 Table 4, pp. 10-11; oem_spec
Poles	2	A	same as above

EDH-SQD-00249	QMB361TW	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB361TW (3P 600 Vac, 30-30 A)

OEM part number	QMB361TW	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 3-pole, 600 Vac, 30-30 (twin) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Electrical interlock kit QMB300EK-1 or -2 (-1 = 1 NO + 1 NC; -2 = 2 NO + 2 NC)	A	S96 Table 4, pp. 10-11; oem_spec
Poles	3	A	same as above
Voltage rating	600 Vac	A	same as above
Current rating	30-30 (twin) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB36R; 40251-016-51 Al mech #12-#2 (std); optional Cu mech 40256-034-50 #14-#4; no crimp option	A	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 4.5 in. (114 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D

Description	QMB main switch replacement unit, 3-pole, 600 A, 600 Vac, standard Class H/R/K fuse spacing (replaces Series E1)	A	S609 oem_spec
Application	main	A	same as above
Cross-links	Families: QMB		

EDH-SQD-00261	QMB366W	Square D	switch-unit	CURRENT PER 2015 CATAL

QMB fusible switch unit QMB366W (3P 600 Vac, 600 A)

OEM part number	QMB366W	A	S96 Table 4, pp. 10-11; oem_spec
Description	QMB fusible branch switch unit, 3-pole, 600 Vac / 250 Vdc, 600 (single) A	A	same as above
Application	branch (group-mounted QMB distribution in QMB panelboards and QED-2/Speed-D QMB switchboard sections)	A	S96, S94 s3 p. 7; s1 p. 29; oem_spec
Installation location	Plugs onto QMB vertical bus; mounting brackets permanently attached to switch enclosure	A	S96 pp. 6-7; oem_spec
Breaker compatibility	Adapt to 600 Vac Class T fuses with kit QMB600T6 (standard hp ratings only)	A	S96 Table 4 note e; oem_spec
Poles	3	A	S96 Table 4, pp. 10-11; oem_spec
Voltage rating	600 Vac / 250 Vdc	A	same as above
Current rating	600 (single) A	A	same as above
Kit contents	Optional Class R fuse kit: QMB4060R (1 req.); (2) 40251-287-50 Al mech 3/0-600 (std); Al crimp (2) VCEL05012H1; Cu crimp (2) VCELC05012H1	A	S96 Table 4, pp. 10-11; Table 5, pp. 12-13; oem_spec
Dimensions	Unit mounting height 15 in. (381 mm)	A	S96 Table 4, pp. 10-11; oem_spec
Status	current per 2015 catalog (catalog warns it may contain obsolete part numbers)	B	S96 oem_spec
Identification features	Red/black operating handle with large ON-OFF nameplate, lock-off for three 3/8 in. shackle padlocks, dual cover interlock, door-latch hasp; visible blades (30-800 A)	A	S96 pp. 7-8; oem_spec
Cross-links	Families: QMB, QED-2, SPEED-D		
Not yet documented	Fasteners, OEM instruction document, Material, Torque values, weight

4.13 QMB-LEGACY — Legacy QMB distribution (pre-October-1984 QM and QW interiors)

FAM-SQD-010 · panelboard · aka QM, QM interior, QMB Saflex, QMB Series 1-4, QW, QW interior, Saflex, Saflex panelboard, old style QMB · markings: Square D

Older QMB fusible distribution used in panelboards and switchboards before the current (Series E1) design. Legacy switch catalog numbers had no 'W' suffix (e.g. QMB3606T, QMB310T, QMB3620, QMB3240, QMB2240, QMB3260). Current-design units are retrofitted using plug-on extension assemblies (QMB306EX, QMB306LEX, QMB310EX, QMB310LEX, QMB-320-EX) in QW interiors; QM interiors built 1961-1984 accept some current units directly.

Evidence record from 1970 Digest: QMB panelboards 120/208 V to 600 V AC, 125/250 V DC; units 30-200 A plug-on (31 in W box) and 400/600 A bolt-on (38 in W box); 1200 A lugs / 600 A main switch. Mounting assemblies not required in 31 in wide QMB panels; 'Extension Assemblies' (QMB-xxx-EX) required for 30-200 A units in 38 in wide panels (e.g. QW-6789-7). Blanks QM-1BL/3BL/6BL/9BL, solid neutrals QM-1SN..QM-6SN, 250 V adaptor kits QMB-63-AL, QMB-103-AL, QMB-106-AL.

Attribute	Value	Cl.	Sources
Status	obsolete; old-design blank fillers obsolete with no replacement	A	S129 oem_spec
Era of manufacture	QM (31 in. wide box) and QW (38 in. wide box) interiors built before October 1984; pre-1961 interiors (incl. round bus bar) have no replacement switches (From several Schneider FAQs (FA119872, FA88047, FA127541, FA100372))	A	same as above
Saflex	Schneider FAQ refers to 'an old QMB Saflex Panelboard' (QW type 38 in. box with flatwise bus needs QMB310EX for current CB units); surplus listings label QMB3606T Series 2/4 units 'QMB Saflex' ('Saflex' = legacy QMB panelboard trade name per OEM FAQ; surplus label corroborates)	A	S141, S142 oem_spec
Ratings 1970	Units 30-200 A 2/3-pole plug-on; 400/600 A 2/3-pole bolt-on; mains 1200 A lugs / 600 A switch; boxes 31 in W x ~10-3/4 in D and 38 in W x ~14-3/4 in D (Depth fractions OCR)	B	S463 Digest 152 (1970) p.55; oem_spec
Interior generations	Type QM in 31 in wide box built before 1961: interior mounting rails face inward, Series 1-4 switches (30-200 A), no compatible replacement switch. Type QM in 31 in wide box 1961-Oct 1984: rails face outward, accepts Series 1-4 and Series D2 switches (D2 includes rail extensions). Type QW in 38 in wide box before 1984: bolt-on 400/600 A Series 1-4 switches; 30-200 A D2 switches need plug-on extension assemblies. Type QMB after Oct 1984 (35 or 38 in wide box): Series E1/E2 only.	A	S609 p. 13-4 Table 13.1; oem_spec

4.14 QED-2 — Power-Style QED-2 Switchboard

FAM-SQD-008 · switchboard · aka Power-Style QED-2, QED 2, QED-2 Series 2, QED-2/S, QED2 · markings: Schneider Electric, Square D

Free-standing UL 891 low-voltage switchboard, 91.5 in. high with base channels, front or front-and-rear accessible, NEMA 1 or 3R. Distribution is by group-mounted I-Line plug-on breaker sections (interiors up to 3000 A single-row / 2000 A double-row) or QMB/QMJ fusible switch sections, plus individually mounted PowerPact M/P/R, Masterpact NW or Bolt-Loc BP mains/feeders. Adding sections later requires the through-bus construction with splice-plate extensions; through bus sits at top, middle or bottom at 19.5, 27.5 or 36.0 in. from the front.

4.16 Breaker-mounted terminal kits and accessories

Hardware that mounts on the breaker rather than in a specific panel family (lugs, terminal kits, shields, barriers, rear studs), grouped by the first breaker family it is documented for.

Breaker family QO (plug-on)

Hardware Kit

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-SQD-00936	**PK2MB**	Square D QO back-fed main breaker retaining kit PK2MB	QO (plug-on) breakers used as back-fed mains in QO load centers A	unknown

Square D FA Cu compression lug kit

OEM part number	CVC100FA	A	S182 p.3-29, Table 3.91; oem_spec
Description	Copper compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	FA, FH, FC, FI	A	same as above
Kit contents	3 lug(s) per kit; 1 lug(s) per terminal	A	same as above
Wire range	6-1/0 AWG Cu	A	same as above
Material	copper compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 1.4 in	A	same as above
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00488	PDC3FA2	Square D	lug-kit	STATUS UNKNOWN

Square D FA power distribution connector (multi-wire load lug)

OEM part number	PDC3FA2	A	S182 p.3-29, Table 3.92; oem_spec
Description	Field-replacement PDC lug for multiple load connections; tin-plated Al connectors and hardware; load end only; Cu wire only; UL508 / UL1995; not for I-Line	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	FAL, FHL, FCL 15-100 A (OFF end only when OFF is load end)	A	same as above
Kit contents	3 per kit	A	same as above
Wire range	(3) 14-2 AWG Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Dimensions	Dimension A 1.2 in	A	same as above
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00487	PDC6FA6	Square D	lug-kit	STATUS UNKNOWN

Square D FA power distribution connector (multi-wire load lug)

OEM part number	PDC6FA6	A	S182 p.3-29, Table 3.92; oem_spec
Description	Field-replacement PDC lug for multiple load connections; tin-plated Al connectors and hardware; load end only; Cu wire only; UL508 / UL1995; not for I-Line	A	same as above
Application	accessory	A	same as above
Installation location	load end	A	same as above
Breaker compatibility	FAL, FHL, FCL 15-100 A (OFF end only when OFF is load end)	A	same as above
Kit contents	3 per kit	A	same as above
Wire range	(6) 14-6 AWG Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Dimensions	Dimension A 1.0 in	A	same as above
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00472	VC100FA	Square D	lug-kit	STATUS UNKNOWN

Square D FA Al compression lug kit

OEM part number	VC100FA	A	S182 p.3-29, Table 3.91; oem_spec
Description	Aluminum compression lug kit, field-installable (see instruction bulletins for tools)	A	same as above
Application	accessory	A	same as above
Breaker compatibility	FA, FH, FC, FI	A	same as above
Kit contents	3 lug(s) per kit; 1 lug(s) per terminal	A	same as above
Wire range	8-1/0 AWG	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 1.3 in	A	same as above
Cross-links	Breakers: Square D FA/FH/FC/FI (F-frame 100/150 A)

Square D KA mechanical lug kit (Al lugs) - KI

OEM part number	AL250KA	A	S182 p.3-28, Table 3.88; oem_spec
Description	Al lugs for use with Al or Cu wire. Unless otherwise specified, wire sizes apply to both Al and Cu conductors.	A	same as above
Application	accessory	A	same as above
Breaker compatibility	KI 110-175 A standard (2012 table); distributors also list KA, KH, KC	A	same as above
Kit contents	3 lug(s) per kit	A	same as above
Wire range	(1) 4 AWG-350 kcmil	A	same as above
Material	aluminum lug body	A	same as above
Cross-links	Breakers: Square D KA/KH/KC/KI (K-frame 250 A)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*AL250KA: OEM 2012 Digest lists only KI application; confirm KA/KH/KC applicability from KA-era Digest or instruction bulletin.*		

EDH-SQD-00456	AL250KI	Square D	lug-kit	STATUS UNKNOWN

Square D KA mechanical lug kit (Al lugs) - KI

OEM part number	AL250KI	A	S182 p.3-28, Table 3.88; oem_spec
Description	Al lugs for use with Al or Cu wire. Unless otherwise specified, wire sizes apply to both Al and Cu conductors.	A	same as above
Application	accessory	A	same as above
Breaker compatibility	KI 200-250 A standard; KI 110-175 A optional	A	same as above
Kit contents	3 lug(s) per kit	A	same as above
Wire range	(1) 1/0 AWG-350 kcmil	A	same as above
Material	aluminum lug body	A	same as above
Cross-links	Breakers: Square D KA/KH/KC/KI (K-frame 250 A)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00464	CU250KA	Square D	lug-kit	STATUS UNKNOWN

Square D KA mechanical lug kit (Cu lugs) - KI

OEM part number	CU250KA	A	S182 p.3-28, Table 3.88; oem_spec
Description	Cu lugs for use with Cu wire only. Unless otherwise specified, wire sizes apply to both Al and Cu conductors. Use suffix 8002 for factory-installed Cu lugs.	A	same as above
Application	accessory	A	same as above
Breaker compatibility	KI 110-250 A optional	A	same as above
Kit contents	3 lug(s) per kit	A	same as above
Wire range	(1) 4 AWG-250 kcmil Cu	A	same as above
Material	copper lug body	A	same as above
Cross-links	Breakers: Square D KA/KH/KC/KI (K-frame 250 A)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

Application	accessory	A	same as above
Breaker compatibility	LI, LE, LX, LXI (not I-Line)	A	same as above
Kit contents	2 lug(s) per kit; 2 lug(s) per terminal	A	same as above
Wire range	4 AWG-300 kcmil	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 1.05 in	A	same as above
Cross-links	Breakers: Square D LC/LI/LE/LX/LXI (L-frame 600 A)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00480	VC600LI5	Square D	lug-kit	STATUS UNKNOWN

Square D LI Al compression lug kit

OEM part number	VC600LI5	A	S182 p.3-29, Table 3.91; oem_spec
Description	Aluminum compression lug kit, field-installable (see instruction bulletins for tools); cannot be used on I-Line breakers	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LI, LE, LX, LXI (not I-Line)	A	same as above
Kit contents	2 lug(s) per kit; 2 lug(s) per terminal	A	same as above
Wire range	2/0 AWG-500 kcmil	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 3.20 in	A	same as above
Cross-links	Breakers: Square D LC/LI/LE/LX/LXI (L-frame 600 A)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00481	VC600LI7	Square D	lug-kit	STATUS UNKNOWN

Square D LI Al compression lug kit

OEM part number	VC600LI7	A	S182 p.3-29, Table 3.91; oem_spec
Description	Aluminum compression lug kit, field-installable (see instruction bulletins for tools); cannot be used on I-Line breakers	A	same as above
Application	accessory	A	same as above
Breaker compatibility	LI, LE, LX, LXI (not I-Line)	A	same as above
Kit contents	1 lug(s) per kit; 1 lug(s) per terminal	A	same as above
Wire range	500-750 kcmil	A	same as above
Material	aluminum compression lug	A	same as above
Dimensions	Dimension A (max extension past end of breaker) 3.45 in	A	same as above
Cross-links	Breakers: Square D LC/LI/LE/LX/LXI (L-frame 600 A)		
Not yet documented	OEM instruction document, Status, Torque values		

Breaker Accessory

Catalogue ID	OEM part no.	Description	Breakers	Status

PowerPact H-frame Cu compression lug kit

OEM part number	CYA150HD	A	S180 p.128, Table 129; oem_spec
Description	Copper compression (crimp) lug kit for Cu conductors; kit contains insulators and mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact H-frame	A	same as above
Poles	3	A	same as above
Current rating	<=150 A Cu (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 1 lugs per terminal	A	same as above
Wire range	4-2/0 AWG Cu; 1 wire(s) per lug	A	same as above
Material	copper compression lugs	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Requires	S37449 (EDH-SQD-00448)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00390	PDC3HD2	Square D	lug-kit	STATUS UNKNOWN

PowerPact H-Frame power distribution connector (multi-wire load lug)

OEM part number	PDC3HD2	A	S180 p.126, Table 127; oem_spec
Description	Power distribution connector for multiple load wires; tin-plated Al lug, connectors and hardware; load end only; Cu wire only; UL 508 / UL 1995 applications	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end only	A	same as above
Breaker compatibility	PowerPact H-Frame	A	same as above
Kit contents	1 per kit (field kit incl. hardware)	A	same as above
Wire range	(3) 2 AWG or 14-3 AWG Cu	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, exact per-wire torque mapping (see Table 127), OEM instruction document, Status, Torque values		

EDH-SQD-00389	PDC6HD6	Square D	lug-kit	STATUS UNKNOWN

PowerPact H-Frame power distribution connector (multi-wire load lug)

OEM part number	PDC6HD6	A	S180 p.126, Table 127; oem_spec
Description	Power distribution connector for multiple load wires; tin-plated Al lug, connectors and hardware; load end only; Cu wire only; UL 508 / UL 1995 applications	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end only	A	same as above
Breaker compatibility	PowerPact H-Frame	A	same as above
Kit contents	1 per kit (field kit incl. hardware)	A	same as above
Wire range	(6) 8-6 AWG or 14-10 AWG Cu per terminal; 1 terminal per kit... (6 wires)	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, exact per-wire torque mapping (see Table 127), OEM instruction document, Status, Torque values		

EDH-SQD-00395	YA060HD	Square D	lug-kit	STATUS UNKNOWN

PowerPact H-frame Al/Cu compression lug kit

OEM part number	YA060HD	A	S180 p.127, Table 128; oem_spec
Description	Compression (crimp) lug kit for Al/Cu conductors; kit contains required insulators and all mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact H-frame	A	same as above
Poles	3	A	same as above
Current rating	<=60 A Al/Cu (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 1 lugs per terminal	A	same as above
Wire range	6-2 AWG Cu or Al; 1 wire(s) per lug	A	same as above
Material	Al/Cu compression lugs (body material not stated)	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Requires	S37449 (EDH-SQD-00448)

EDH-SQD-00379	S37423	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact H-frame control wire terminal for mechanical lugs

OEM part number	S37423	A	S180 p.124, Tables 120 & 122; oem_spec
Description	Voltage takeoff (control wire terminal) secured under the mechanical lug, tab for 0.250 in slip-on connector; field or factory installed	A	same as above
Application	accessory	A	same as above
Installation location	under mechanical lug at breaker terminal	A	same as above
Breaker compatibility	H-frame lugs (HD/HG/HJ/HL or JD/JG/JJ/JL as applicable)	A	same as above
Kit contents	2 per kit	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00384	S37425	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact H-frame terminal nut insert (1/4-20) for bus bar connection

OEM part number	S37425	A	S180 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	HD/HG/HJ/HL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap 1/4-20; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, OEM instruction document, Status		

EDH-SQD-00385	S37426	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact H-frame terminal nut insert (M6) for bus bar connection

OEM part number	S37426	A	S180 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	HD/HG/HJ/HL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap M6; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, OEM instruction document, Status		

EDH-SQD-00381	S37429	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact H-frame control wire terminal for terminal nut (busbar connection)

OEM part number	S37429	A	S180 p.124, Table 122; oem_spec
Description	Control wire terminal for busbar connection using terminal nut insert	A	same as above
Application	accessory	A	same as above
Breaker compatibility	H-frame with terminal nut inserts	A	same as above
Kit contents	2 per kit	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00432	S37433	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact H-frame short rear connections (set of 2)

OEM part number	S37433	A	S180 p.123, Table 118; oem_spec
Description	Short rear connections (set of 2), H-frame; order two kits	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminals, rear (backplate-mounted breaker)	A	same as above
Breaker compatibility	PowerPact H-frame	A	same as above
Poles	2/3	A	same as above
Kit contents	Short rear connections (set of 2), H-frame; order two kits	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00433	S37434	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact H-frame long rear connections (set of 2)

OEM part number	S37434	A	S180 p.123, Table 118; oem_spec
Description	Long rear connections (set of 2), H-frame	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminals, rear (backplate-mounted breaker)	A	same as above
Breaker compatibility	PowerPact H-frame	A	same as above
Poles	2/3	A	same as above
Kit contents	Long rear connections (set of 2), H-frame	A	same as above
Cross-links	Breakers: Square D PowerPact H-Frame (HD/HG/HJ/HL/HR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Breaker family Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)

Lug Kit

Catalogue ID	OEM part no.	Description	Breakers	Status
EDH-SQD-00410	**CYA150JD**	PowerPact J-frame Cu compression lug kit	PowerPact J-frame A	unknown

EDH-SQD-00410	CYA150JD	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-frame Cu compression lug kit

OEM part number	CYA150JD	A	S180 p.128, Table 129; oem_spec
Description	Copper compression (crimp) lug kit for Cu conductors; kit contains insulators and mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Current rating	<=150 A Cu (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 2 lugs per terminal	A	same as above
Wire range	4-2/0 AWG Cu; 1 wire(s) per lug	A	same as above
Material	copper compression lugs	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Requires	S37450 (EDH-SQD-00449)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00411	CYA250J3	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-frame Cu compression lug kit

OEM part number	CYA250J3	A	S180 p.128, Table 129; oem_spec
Description	Copper compression (crimp) lug kit for Cu conductors; kit contains insulators and mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Current rating	<=250 A Cu (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 2 lugs per terminal	A	same as above
Wire range	2/0 AWG-300 kcmil Cu; 1 wire(s) per lug	A	same as above
Material	copper compression lugs	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Requires	S37450 (EDH-SQD-00449)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00392	PDC3JD20	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-Frame power distribution connector (multi-wire load lug)

OEM part number	PDC3JD20	A	S180 p.126, Table 127; oem_spec
Description	Power distribution connector for multiple load wires; tin-plated Al lug, connectors and hardware; load end only; Cu wire only; UL 508 / UL 1995 applications	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end only	A	same as above
Breaker compatibility	PowerPact J-Frame	A	same as above
Kit contents	1 per kit (field kit incl. hardware)	A	same as above
Wire range	3 total: (2) 14-6 AWG or 4-1 AWG Cu and (1) 3-2/0 AWG Cu	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, exact per-wire torque mapping (see Table 127), OEM instruction document, Status, Torque values		
Open question	*Table 130 lists 'PDC3JD2' for long lug shield compatibility while Table 127 lists PDC3JD20 - same part?*		

EDH-SQD-00391	PDC6JD4	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-Frame power distribution connector (multi-wire load lug)

OEM part number	PDC6JD4	A	S180 p.126, Table 127; oem_spec
Description	Power distribution connector for multiple load wires; tin-plated Al lug, connectors and hardware; load end only; Cu wire only; UL 508 / UL 1995 applications	A	same as above
Application	accessory	A	same as above
Installation location	load (OFF) end only	A	same as above
Breaker compatibility	PowerPact J-Frame	A	same as above
Kit contents	1 per kit (field kit incl. hardware)	A	same as above
Wire range	(6) 8-4 AWG or 14-10 AWG Cu	A	same as above
Material	tin-plated aluminum connectors	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, exact per-wire torque mapping (see Table 127), OEM instruction document, Status, Torque values		

EDH-SQD-00397	YA150JD	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-frame Al/Cu compression lug kit

OEM part number	YA150JD	A	S180 p.127, Table 128; oem_spec
Description	Compression (crimp) lug kit for Al/Cu conductors; kit contains required insulators and all mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Current rating	<=200 A (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 2 lugs per terminal	A	same as above
Wire range	1-3/0 AWG Cu or Al; 1 wire(s) per lug	A	same as above
Material	Al/Cu compression lugs (body material not stated)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Requires	S37450 (EDH-SQD-00449)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00398	YA250J35	Square D	lug-kit	STATUS UNKNOWN

PowerPact J-frame Al/Cu compression lug kit

OEM part number	YA250J35	A	S180 p.127, Table 128; oem_spec
Description	Compression (crimp) lug kit for Al/Cu conductors; kit contains required insulators and all mounting hardware; requires long lug cover pack	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Current rating	<=250 A (rating at 75 C)	A	same as above
Kit contents	3 lugs per kit; 2 lugs per terminal	A	same as above
Wire range	3/0 AWG-350 kcmil Cu or Al; 1 wire(s) per lug	A	same as above
Material	Al/Cu compression lugs (body material not stated)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Requires	S37450 (EDH-SQD-00449)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

Barrier

PowerPact J-frame short terminal cover 3p

OEM part number	S37440	A	S180 p.123, Table 118; oem_spec
Description	Short terminal cover 3P, J-frame	A	same as above
Application	accessory	A	same as above
Installation location	over breaker terminals	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Kit contents	Short terminal cover 3P, J-frame	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00447	S37448	Square D	barrier	STATUS UNKNOWN

PowerPact J-frame short lug shield

OEM part number	S37448	A	S180 p.129, Table 130; oem_spec
Description	Terminal shield / phase barrier: J-frame short lug shield (mechanical lugs); extension 'B' past end of breaker 0.24 in; max wire size 350 kcmil	A	same as above
Application	accessory	A	same as above
Installation location	over line/load terminals	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Kit contents	1 per kit	A	same as above
Dimensions	dimension B (extension past breaker end) = 0.24 in	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	OEM instruction document, Status, Torque values		

EDH-SQD-00449	S37450	Square D	barrier	STATUS UNKNOWN

PowerPact J-frame long lug shield

OEM part number	S37450	A	S180 p.129, Table 130; oem_spec
Description	Terminal shield / phase barrier: J-frame long lug shield (PDC and compression lugs: PDC6JD4, PDC3JD2(0), YA150JD, CYA150JD, CYA250J3); extension 'B' past end of breaker 1.68 in	A	same as above
Application	accessory	A	same as above
Installation location	over line/load terminals	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Kit contents	1 per kit	A	same as above
Dimensions	dimension B (extension past breaker end) = 1.68 in	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	OEM instruction document, Status, Torque values		

Breaker Accessory

EDH-SQD-00386	S37427	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame terminal nut insert (1/4-20) for bus bar connection

OEM part number	S37427	A	S180 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	JD/JG/JJ/JL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap 1/4-20; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status		

EDH-SQD-00387	S37428	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame terminal nut insert (M8) for bus bar connection

OEM part number	S37428	A	S180 p.125, Table 124; oem_spec
Description	Terminal nut insert replacing the mechanical lug for direct bus bar or crimp lug connection; screws not included	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminal (in place of lug)	A	same as above
Breaker compatibility	JD/JG/JJ/JL	A	same as above
Kit contents	2 per kit	A	same as above
Fasteners	tap M8; screws not included	A	same as above
Torque values	80-90 lb-in (9-10.2 N-m)	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status		

EDH-SQD-00382	S37430	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame control wire terminal for terminal nut (busbar connection)

OEM part number	S37430	A	S180 p.124, Table 122; oem_spec
Description	Control wire terminal for busbar connection using terminal nut insert	A	same as above
Application	accessory	A	same as above
Breaker compatibility	J-frame with terminal nut inserts	A	same as above
Kit contents	2 per kit	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00435	S37437	Square D	breaker-accessory	STATUS UNKNOWN

PowerPact J-frame mixed rear connection kit

OEM part number	S37437	A	S180 p.123, Table 118; oem_spec
Description	Mixed rear connection kit, J-frame 3P	A	same as above
Application	accessory	A	same as above
Installation location	breaker line/load terminals, rear (backplate-mounted breaker)	A	same as above
Breaker compatibility	PowerPact J-frame	A	same as above
Poles	3	A	same as above
Kit contents	Mixed rear connection kit, J-frame 3P	A	same as above
Cross-links	Breakers: Square D PowerPact J-Frame (JD/JG/JJ/JL/JR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values

PowerPact L-frame 250 A mechanical lug kit, Al, 3P

OEM part number	AL400L61K3	**A**	S180 p.124, Table 121; oem_spec
Alternate / superseded numbers	AL400L6IK3 [alias] (Typographical variant printed under lug illustration in Table 121)	**A**	same as above
Description	Al lugs for Al or Cu wire, 250 A; unit mount and I-Line; short terminal shield	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	PowerPact L 250 A, 3P, unit-mount and I-Line; FAQ: also optional on 400/600 A L-frame within wire-size/rating limits	**A**	same as above
Poles	3	**A**	same as above
Current rating	250 A	**A**	same as above
Kit contents	3 lugs per kit; short terminal shield	**A**	same as above
Wire range	(1) 2 AWG-500 kcmil Al or (1) 2 AWG-600 kcmil Cu	**A**	same as above
Material	tin-plated aluminum	**A**	same as above
Identification features	L-frame lugs are pre-tapped for control wire: 8-32 x 1/4 in screw (not provided) into tapped hole in lower left corner of lug	**A**	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00422	AL400L61K4	Square D	lug-kit	STATUS UNKNOWN

PowerPact L-frame 250 A mechanical lug kit, Al, 4P

OEM part number	AL400L61K4	A	S180 p.124, Table 121; oem_spec
Description	Al lugs for Al or Cu wire, 250 A, 4-pole, unit mount only; short terminal shield	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact L 250 A, 4P unit mount	A	same as above
Poles	4	A	same as above
Current rating	250 A	A	same as above
Kit contents	4 lugs per kit; short terminal shield	A	same as above
Wire range	(1) 2 AWG-500 kcmil Al or (1) 2 AWG-600 kcmil Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00425	AL600LF52K3	Square D	lug-kit	STATUS UNKNOWN

PowerPact L-frame 400/600 A mechanical lug kit, Al, 3P (short shield, I-Line)

OEM part number	AL600LF52K3	A	S180 p.124, Table 121; oem_spec
Description	Al lugs for Al or Cu wire, 400/600 A, unit mount and I-Line; short terminal shield; standard on I-Line LGA/LLA/LRA 400 A	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact L 400/600 A, 3P unit mount and I-Line	A	same as above
Poles	3	A	same as above
Current rating	400/600 A	A	same as above
Kit contents	3 lugs per kit; short terminal shield	A	same as above
Wire range	(2) 3/0 AWG-500 kcmil Al or Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00423	AL600LS52K3	Square D	lug-kit	STATUS UNKNOWN

PowerPact L-frame 400/600 A mechanical lug kit, Al, 3P (medium shield)

OEM part number	AL600LS52K3	A	S180 p.124, Table 121; oem_spec
Description	Al lugs for Al or Cu wire, 400/600 A, unit mount; medium terminal shield; standard lug on 400/600 A unit-mount L-frame	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact L 400/600 A, 3P unit mount	A	same as above
Poles	3	A	same as above
Current rating	400/600 A	A	same as above
Kit contents	3 lugs per kit; medium terminal shield	A	same as above
Wire range	(2) 2/0 AWG-500 kcmil Al or Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		
Open question	*Digest 2012/2016 lists 'AL600S52K3' - typo for AL600LS52K3 or distinct part?*		

EDH-SQD-00424	AL600LS52K4	Square D	lug-kit	STATUS UNKNOWN

PowerPact L-frame 400/600 A mechanical lug kit, Al, 4P (medium shield)

OEM part number	AL600LS52K4	A	S180 p.124, Table 121; oem_spec
Description	Al lugs for Al or Cu wire, 400/600 A, 4P unit mount; medium terminal shield	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact L 400/600 A, 4P unit mount	A	same as above
Poles	4	A	same as above
Current rating	400/600 A	A	same as above
Kit contents	4 lugs per kit; medium terminal shield	A	same as above
Wire range	(2) 2/0 AWG-500 kcmil Al or Cu	A	same as above
Material	tin-plated aluminum	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values		

EDH-SQD-00426	CU400L61K3	Square D	lug-kit	STATUS UNKNOWN

PowerPact L-frame 250/400 A mechanical lug kit, Cu, 3P

OEM part number	CU400L61K3	A	S180 p.124, Table 121; oem_spec
Description	Cu lugs for use with Cu wire only; short terminal shield; unit mount and I-Line	A	same as above
Application	accessory	A	same as above
Breaker compatibility	PowerPact L 250/400 A, 3P, unit mount and I-Line	A	same as above
Poles	3	A	same as above
Current rating	250/400 A	A	same as above
Kit contents	3 lugs per kit; short terminal shield	A	same as above
Wire range	as printed: (1) 2 AWG-500 kcmil Al / (1) 2 AWG-600 kcmil Cu (row layout garbled) (Table 121 text extraction is column-scrambled for Cu rows; number of conductors and Al/Cu wording not reliable)	C	same as above
Material	copper (Cu-only lugs are made of copper)	A	same as above
Cross-links	Breakers: Square D PowerPact L-Frame (LD/LG/LJ/LL/LR)		
Not yet documented	Dimensions, OEM instruction document, Status, Torque values, wire range (verify against PDF p.124)		
Open question	*Confirm Cu lug wire ranges and conductors per lug from Table 121 image.*

SPECTRA-SB Spectra Series Switchboards (group-mounted Class 1; plug-in Spectra distribution panels)	switchboard	Obsolete (ABB LCM). Replacement: ReliaGear SB switchboards; Tmax XT retrofit kits for Spectra bolt-on panelboards/switchboards (single mount 250/600/1200 A, dual mount 150/250/400 A) offered for field replacement	GET-8032C catalog dated 02/2013 (marked "GE legacy document"); phased out by ABB 2021: no new quotes after May 20 2021, no orders after Aug 12 2021, no shipments after Dec 9 2021	123	1374

5.1 A-SERIES — A-Series Lighting Panelboards (Types AL, AQ, AE/AS, AD / AD Plus, Lighting Control Panel, Pro-Stock AQU/AEU)

FAM-GEA-001 · panelboard · aka A Series, A-Series II, AD, AD Plus, AE, AEF, AL, AQ, AQF, AS, Pro-Stock · markings: ABB, GE, GE Industrial Solutions, General Electric

GE's lighting/appliance panelboard platform. Symmetrical 20 in wide x 5.81 in deep galvanized boxes with removable endwalls, branch-bus direct connection and captive branch hardware. Type letter indicates breaker family: AL = plug-in Q-line, AQ = bolt-on Q-line (THQB), AE = bolt-on E-frame (TEY) 480Y/277 V, AD = 600 V TED/SE/FB. Pro-Stock unassembled interiors (AQU/AEU) are completed with MB main breaker kits, ML main lug kits and NK neutral kits. Pages in the 2014 BuyLog are headed 'A-Series II' on the column-panel kit page.

5.3 A-SERIES-PWR — A-Series Power Panelboards / A-Series II Power Panel (Types AQP, AEP, ADP; 'Type P & N')

FAM-GEA-002 · panelboard · aka A-Series II Powerpanel, AD/AE/AQ Type P & N Power Panel, ADP, AEP, AQP · markings: ABB, GE, GE Industrial Solutions

Power-panel version of the A-Series: 30 in wide x 8 in deep box, single-piece deadfront (no filler plates needed per catalog), up to 600 A branch device, staggered center-mounted SF/SG breakers. Field breaker kits ASPP6xxxx (DEH40150-DEH40158) are installed into 'Un-Specified Space' on the interior, bolting branch bases/straps to the main bus next to the crossbar and replacing a blank shield insert on the deadfront with a breaker-specific filler plate.

5.4 CCB-QMR — Type CCB and QMR power panelboards (legacy; listed under Spectra Series Power renewal parts)

FAM-GEA-006 · panelboard · aka CCB, CDP?, Convertible Circuit Breaker panelboard, NCB, QMR · markings: GE, General Electric, Trumbull

Older GE power panelboards. Breakers mount with copper strap kits suffixed DPK (dual/twin mount) or SPK (single mount) usable on Cu or Al main bus; device product number + suffix ordered as a unit. Replacement CCB fronts CBAxxxxS/F and boxes DASW/DACB; filler plates CCBFPx/QMRFPx. QMR used THFP fusible switches. CDP is named in the batch scope but no CDP-specific data was found.

Evidence record for the existing GE CCB/QMR family: earliest dated GE mention of CCB (1955) and the 1951 Trumbull convertible circuit breaker panelboard description (sectionalized, breakers on steel back plates, removable trip units above 100 A frame). Dealer data shows CCB DPK/SPK strap kits also listed for AV1/AV2 switchboards and QMR.

Attribute	Value	Cl.	Sources
Status	Renewal parts still listed 2014; QMR fusible switches 'Limited availability. Obsolete when inventory depleted.'	A	S143 p.11-49 to 11-51; oem_spec
Era of manufacture	Types NCB and CCB listed as GE power distribution panelboards in March 1955; 1951 Trumbull 'Convertible Circuit Breaker Panelboards' (likely origin of the CCB letters) (CCB = 'Convertible Circuit Breaker' is an inference from the 1951 catalog heading)	B	S436, S452 oem_spec
Voltage rating	1951 Convertible CB panelboards: max 250 V DC, 600 V AC; mains 1200 A lugs or 600 A breaker; branches 15-600 A 1/2/3-pole	A	S452 GE Supply 1951 p.446; oem_spec
Kit family	Dealer 'Panel Type' for TB1DPK, TB4SBK, TB8SPK, TJ6SPK, THJV6DPK, TP8SPK, TED1DPK2: 'AV1, AV2, CCB, QMR'	C	S444 surplus_listing

Description	Mounting hardware for Tri Pac 800A breaker	C	same as above
Application	branch (single)	C	same as above
Installation location	AV1, AV2, CCB, QMR	C	same as above
Breaker compatibility	TB6, TB8 (spec block) / Tri-Pac 800 A (title)	C	same as above
Current rating	800 A	C	same as above
Status	Discontinued OEM item traded new-surplus / recertified by dealers	C	same as above
Cross-links	Families: CCB-QMR, AV-LINE		
Not yet documented	Dimensions, OEM instruction document, Kit contents, Material, oem_status_confirmation		

EDH-GEA-00258	TQ2DPK	GE	branch-connector-kit	STATUS UNKNOWN

CCB/QMR copper strap mounting kit TQ2DPK (TQD 225 A, dual)

OEM part number	TQ2DPK	A	S143 p.11-49; oem_spec
Description	Mounting hardware - copper straps for use on Cu or Al main bus, dual mounted, TQD, 225 A kit	A	same as above
Application	Type CCB and QMR panelboards; suffix DPK = twin (double) mount, SPK = single mount; device ordered as product number plus suffix for unit shipment	A	same as above
Breaker compatibility	TQD	A	same as above
Current rating	225 A	A	same as above
Material	Copper straps	A	same as above
Aftermarket / reproduction	Distributor listings (e.g. Stanion 'tq2dpkge') describe TQ2DPK as 'For Use With: TQD Frame 125 to 225 A Circuit Breaker and Spectra Series CCB, QMR Panelboard' (Stanion page seen only via search summary; returned 404 on fetch)	C	S163 distributor
	Breaker King offers BTQDGE (kit # TQD1K) as a replacement ('Kit # TQD1K replaces OEM TQ2DPK'), labelled 'GE/ABB Aftermarket Replacement' (seller claim; seller cross-reference; equivalence/listing not verified)	C	S627 distributor
Cross-links	Families: CCB-QMR · Breakers: TQD / THQD		
Not yet documented	Dimensions, OEM instruction document, Kit contents, Status

GE QMR fusible switch unit THFP324 (200 A, 3-pole, 240 V, old style)

OEM part number	THFP324	A	S650 9-117/9-118; oem_spec
Description	QMR panelboard fusible switch, 200 A, 3-pole, 240 V, old style; mounting hardware ordered separately (p.9-116/117) or as complete hole filler kit	A	S650 9-117/9-118 "QMR Fusible Switch 240 V"; oem_spec
Poles	3	A	S650 9-117/9-118; oem_spec
Voltage rating	240 V	A	same as above
Current rating	200 A	A	same as above
Status	Listed as replacement ("Old Style") renewal item in 2008 BuyLog	B	S650 9-117; oem_spec
Cross-links	Families: CCB-QMR		
Not yet documented	Dimensions, fuse class, lug data		

EDH-GEA-00985	THFP325	GE	switch-unit	LISTED AS REPLACEMENT

GE QMR fusible switch unit THFP325 (400 A, 3-pole, 240 V, old style)

OEM part number	THFP325	A	S650 9-117/9-118; oem_spec
Description	QMR panelboard fusible switch, 400 A, 3-pole, 240 V, old style; mounting hardware ordered separately (p.9-116/117) or as complete hole filler kit	A	S650 9-117/9-118 "QMR Fusible Switch 240 V"; oem_spec
Poles	3	A	S650 9-117/9-118; oem_spec
Voltage rating	240 V	A	same as above
Current rating	400 A	A	same as above
Status	Listed as replacement ("Old Style") renewal item in 2008 BuyLog	B	S650 9-117; oem_spec
Cross-links	Families: CCB-QMR		
Not yet documented	Dimensions, fuse class, lug data		

EDH-GEA-00987	THFP326	GE	switch-unit	LISTED AS REPLACEMENT

GE QMR fusible switch unit THFP326 (600 A, 3-pole, 240 V, old style)

OEM part number	THFP326	A	S650 9-117/9-118; oem_spec
Description	QMR panelboard fusible switch, 600 A, 3-pole, 240 V, old style; mounting hardware ordered separately (p.9-116/117) or as complete hole filler kit	A	S650 9-117/9-118 "QMR Fusible Switch 240 V"; oem_spec
Poles	3	A	S650 9-117/9-118; oem_spec
Voltage rating	240 V	A	same as above
Current rating	600 A	A	same as above

5.5 CONVERTI-FUSE — Trumbull / GE Converti-Fuse and Swing-Wa fusible distribution panelboards

FAM-GEA-012 · panelboard · aka Converti-Fuse, Safe-Converti-Fuse, Swing-Wa, Swing-WA · markings: Trumbull, General Electric

Trumbull Electric (GE subsidiary) fusible power distribution panelboards. Converti-Fuse: dead-front assembly of phenolic unit sections on a steel back plate whose removable caps hold the fuses and act as pull-out disconnects. Swing-Wa: individually enclosed steel switch units with switching built into the cover. GE bulletin numbers GEC-1253 (Converti-Fuse) and GEC-1255 appear in 1955 trade literature.

Attribute	Value	Cl.	Sources
Status	Obsolete	C	inference
Era of manufacture	Safe-Converti-Fuse introduced by Trumbull c.1930; Converti-Fuse and Swing-Wa catalogued 1951 and listed by GE in 1955 (registered GE trade-marks)	A	S452, S436 oem_spec
Voltage rating	Converti-Fuse: max 250 V DC, 575 V AC, mains 1200 A lugs or 400 A switch, branches 30-400 A; Swing-Wa: max 250 V DC, 575 V AC, mains 1200 A lugs or 600 A switch, branches 30-600 A 2/3-pole	A	S452 GE Supply 1951 p.446; oem_spec
Bulletins	GEC-1253 Converti-Fuse type distribution; GEC-1255 (Swing-Wa / breaker distribution) (From a garbled 1955 Paper Trade Journal snippet; mapping uncertain)	C	S436 inference

5.6 NHB — NAB / NHB bolt-on panelboards (legacy)

FAM-GEA-007 · panelboard · aka ABH, NA, NAB, NHB, NLAB? · markings: General Electric, Trumbull

Legacy GE bolt-on panelboard line. Only distributor evidence found (NHB150PK twin-mount hardware). No OEM document for NHB or NLAB located in this batch.

Evidence record for the existing GE NAB/NHB family. 1951 GE Supply catalog: NAB breakers assembled on a heavy black enamel steel back plate accepting 1, 2 or 3-pole AT breakers; boxes 4-3/4 in deep except 100/225 A main frame which need 5-3/4 in; Type ABH power/lighting panel with AT breakers. NHB appears in the 1955 GE type list; no GE technical description of NHB found yet. ITE/Siemens also used NAB/NHB designations (Canada).

Attribute	Value	Cl.	Sources
Status	discontinued (legacy); hardware sold as new-surplus	C	S159 surplus_listing
Era of manufacture	NAB catalogued 1951 (Trumbull, Type AT breakers); 'Types NAB, NHB' listed in GE March 1955 advertisement; GE 1949 hospital handbook lists 'Type NAB, NA, Multi-Breaker' panels	A	S452, S436 GE Supply 1951 p.441; ECM Mar 1955; oem_spec
Voltage rating	NAB: 125 V DC, 125-250 V or 250 V AC; ABH: max 250 V AC, 125/250 V DC	A	S452 GE Supply 1951 pp.441, 446; oem_spec
Main ampacity	ABH: max 400 A lugs or 225 A circuit breaker mains	A	S452 GE Supply 1951 p.446; oem_spec
Branch breakers accepted	NAB: Type AT, 1/2/3-pole 15, 20, 25, 35, 50 A, one sub-feed up to 225 A; ABH: AT 15-50 A 1/2/3-pole on back plate drilled for universal mounting of 50 A frame breakers; later NAB/NHB twin kits NHB150PK (dealer)	A	S452, S445 oem_spec
	E-frame bolt-on TEB/TED/TEC/THED and SEDA (per distributor)	C	S159 surplus_listing
Dimensions	NAB boxes 4-3/4 in deep (OCR '4%'), 5-3/4 in for 100 or 225 A frame main breakers (Fraction OCR uncertain)	B	S452 p.441; oem_spec

Breaker families associated: GE / Trumbull Type AT and ATB breakers, TEB / TED / THED / TED4 / TED6

	Superbreakers sells 'NHB150PK - General Electric Circuit Breaker Equivalent Mounting Hardware ... twin mount equivalent hardware kit for ... General Electric NAB or NHB model panel boards ... includes screws, a panel cover and brackets'. Breaker King lists BNHB150GE: 'OEM Item NHB150PK Is Provided as PCS Brand ...' (seller claims from two resellers; aftermarket maker possibly PCS (Breaker King wording))	C	S445, S627 distributor
Cross-links	Families: NHB · Breakers: TEB / TED / THED / TED4 / TED6, Spectra SE (SEDA/SEHA/SELA/SEPA)		
Not yet documented	OEM confirmation, Dimensions, OEM instruction document		
Open question	*Does NHB150PK also fit NLAB panels? No evidence found.*		

5.7 NLAB — GE / Trumbull NLAB, NLTQ, NLTQX and DB lighting panelboards (TQ / TQL / TQC / TQB breakers)

FAM-GEA-011 · panelboard · aka DB, GE NLAB, NLAB, NLTQ, NLTQX, NTQ, TQLA, TQLP · markings: G-E, General Electric, Trumbull

GE/Trumbull lighting panelboards of the 1950s-1960s. 1951 GE Supply catalog: NLAB 'formerly called NTQ' uses TQ quick-make quick-break thermal-magnetic breakers, 4-42 circuits, standard and column type for mounting in the web of H beams; NLTQ is 'a Trumbull development' with busbars encased in a PLASTISOL interior (said to run 10% cooler) and plug-in TQL breakers; NLTQX is the column type. Fronts are dual-purpose (flush or surface). Finish medium light grey. GE renewal parts list GEG-13610B (Style 5) covers DB, NLTQ and NLAB with bus supports, insulators, lugs, trim clamps, locks and handle-lock devices. Do not confuse with the Westinghouse NLAB (Quicklag breakers).

Attribute	Value	Cl.	Sources
Status	Obsolete (superseded by GE A-Series lighting panelboards - inference from GE line chronology; no GE supersession statement found)	D	inference
Era of manufacture	NLAB (formerly NTQ) and NLTQ catalogued 1951; NLTQ introduced c.1951 as 'Trumbull's new NLTQ panelboard' with first plug-in quick-make quick-break breaker; NAB, NHB, NLAB, NLTQ, NLTQX listed in 1955 GE ad; renewal parts GEG-13610B 'Types DB, NLTQ and NLAB, Style 5' with GEJ-3006A (1969)	A	S452, S461, S436, S453 GE Supply 1951 pp.441-443; ECM Mar 1955; GEJ-3006A; oem_spec
Successor	Probably GE A-Series (AQ) lighting panelboards with THQB/TQD breakers (1984 schedules show NLAB panels with THQB branch breakers)	D	S450 inference
Voltage rating	3-wire 120/240 V AC or 4-wire 3-phase 120/208 V AC; branches 2-wire 120 V; mains lugs only or AT/ATB breakers (50 A AT, 100 A ATB, 200 A AT)	A	S452 GE Supply 1951 pp.441-443; oem_spec
Main ampacity	Lugs and neutral 100, 225, 400, 600 A (lug table in GEG-13610B); 1951 NLTQ boxes 4-12, 14-20, 22-30, 32-42 circuits	A	S453, S452 oem_spec
Branch breakers accepted	NLAB: GE Type TQ (1951), later TQC (handle lock/padlock list); NLTQ: plug-in Type TQL; TQB and TBQ also listed in renewal parts; standard ratings 15-100 A	A	S452, S453 oem_spec
Finish / plating	Trumbull lighting panelboards finish 'Medium Light Grey'	A	S452 GE Supply 1951 p.441; oem_spec
Construction	NLTQ busbars completely encased in PLASTISOL interior; interiors readily removable	A	S452, S461 oem_spec
Identification features	Breaker family on interior: TQ/TQC/TQB/TQL (GE) vs QC/Quicklag (Westinghouse NLAB); renewal parts card behind directory card in door card holder (GEJ-3006A)	B	S452, S453, S440 oem_spec
Listing / approvals	UL listed as panelboards under file E2366 (Trumbull NLTQ)	A	S452 GE Supply 1951 p.442; oem_spec

Attribute	Value	Cl.	Sources

5.8 RG-LIGHTING — ReliaGear lighting panelboards (Types RQ, RE, RL, RS, RD; AD interiors)

FAM-GEA-015 · panelboard · aka ReliaGear lighting panelboard, ReliaGear LP, ReliaGear RQ, ReliaGear RE, ReliaGear RL, ReliaGear RD · markings: ABB, ReliaGear, GE

ABB successor to GE A-Series lighting panelboards (AQ/RQ, AE/RE, AS/RS per ASPSERENT instructions). Accepts Q-line/FB and ABB Tmax XT1/XT2/XT4 and A2 breakers via ASP...3P mounting hardware kits (spools/Z-straps, insulated bracket, phase barriers). Kit catalog prefix ASP carried over from A-Series.

Key documents: S665 1TQC173000E0048 ReliaGear lighting panelboards - Mounting hardware kit for FB and XT2 circuit breakers; S666 1TQC173000Z0024 ReliaGear lighting panelboards - Mounting hardware kit for A2, XT1 and XT4 circuit breaker; S667 1TQC173000Z0022 / DEH41056 ReliaGear Lighting Panelboards - Interior Mounting Kits; S669 1TQC173000E0032 / GEH6518 ASPSERENT - ReliaGear Lighting Panelboard Service Entrance Field Conversion Kit

5.9 RG-NEXT — ReliaGear neXT Power Panelboards

FAM-GEA-008 · panelboard · aka ReliaGear OEM neXT, ReliaGear neXT · markings: ABB, GE

ABB's post-2018 power panelboard (doc 1SXU900191B0201, 2022). ABB states there is a single catalog number for all circuit breaker installation kits; that number was not found in accessible sources.

Attribute	Value	Cl.	Sources
Voltage rating	up to 600 Vac 3ph3w / 600Y/347 V	A	S158 oem_spec
Main ampacity	Bus 250-1200 A Cu or Al; MLO, MCB (vertical or horizontal) or feed-through lug pads	A	same as above
Branch breakers accepted	Tmax XT1/XT4/XT5/XT6/XT7, Record Plus FB (FBV/FBN/FBH/FBL), TEY (TEYD/TEYH/TEYL); 15-1200 A	A	same as above
Dimensions	One X-space for ReliaGear neXT = 1.385 in; standard interior heights 16X, 24X, 32X, 40X; interiors double sided; enclosure widths 30 in (center), 40 in (offset), 45 in (offset or center)	A	S427 guide p.20; oem_spec
Material	Interiors: tin- and silver-plated aluminum (heat rated) or tin- and silver-plated copper (heat rated or 1000 A/sq in density rated)	A	same as above
X space	Single XT1 3X; two XT1 5X; five XT1 11X; XT4 3X; XT5 4X; XT6 6X; XT7 6X; FB/TEY 1P 1X, 2P 2X; SPD 10X; RELT 3X; AMP1 main meter 4X	A	S427 guide p.21; oem_spec
Torque values	Breaker mounting screws 35-40 lb-in (3.9-4.5 N-m); dual main mechanical lugs to pads 200 lb-in (23 N-m); main lug barrier screws 30-35 lb-in; IP20 barrier HMR rail kit 50-60 lb-in, barrier/brackets 35-40 lb-in	A	S672, S674, S675 various; oem_spec
Breaker mounting	XT1/XT2/XT4 and XT5/XT6/XT7 breakers carry mounting brackets with clearance holes and screwdriver slots for insertion into/removal from the bus stack; legacy IF-series frames also accommodated; 2 mounting screws per breaker	A	S672 p.1; oem_spec

EDH-GEA-00911	ACSMKTB6	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACSMKTB6 (TB6, single mounted)

OEM part number	ACSMKTB6	**A**	S650 9-115; oem_spec
Description	Mounting hardware kit and straps, SCP Plus panelboard, single mounted TB6 breaker, 600 A	**A**	S650 9-115 "Mounting Hardware-Hardware Kit and Straps"; oem_spec
Breaker compatibility	TB6	**A**	S650 9-115; oem_spec
Cross-links	Families: SCP-PLUS · Breakers: GE TB1 / TB4 / TB6 / TB8 breakers (CCB / AV)		
Not yet documented	Dimensions, Kit contents, Material		

EDH-GEA-00912	ACSMKTB8	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACSMKTB8 (TB8, single mounted)

OEM part number	ACSMKTB8	**A**	S650 9-115; oem_spec
Description	Mounting hardware kit and straps, SCP Plus panelboard, single mounted TB8 breaker, 800 A	**A**	S650 9-115 "Mounting Hardware-Hardware Kit and Straps"; oem_spec
Breaker compatibility	TB8	**A**	S650 9-115; oem_spec
Cross-links	Families: SCP-PLUS · Breakers: GE TB1 / TB4 / TB6 / TB8 breakers (CCB / AV)		
Not yet documented	Dimensions, Kit contents, Material		

EDH-GEA-00246	ACTMKEB1P	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKEB1P (TEB, TED, THED, dual)

OEM part number	ACTMKEB1P	**A**	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKEB1P [equivalent] (Companion filler plate and filler hardware kit (same row))	**A**	same as above
	ACTHKEB1P [equivalent] (Companion hardware to mount one breaker (same row))	**A**	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, TEB, TED, THED, 150 A, 1-pole	**A**	same as above
Breaker compatibility	TEB, TED, THED	**A**	same as above
Current rating	150 A max	**A**	same as above
Cross-links	Families: SCP-PLUS · Breakers: TEB / TED / THED / TED4 / TED6		
Not yet documented	OEM instruction document, Kit contents, Material, Status		
Open question	*Filler kits ACTFPKEB1P listed, yet note says SCP+ filler plates must be obtained from Houston plant - clarify.*		

EDH-GEA-00247	ACTMKEB2P	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKEB2P (TEB, TED, THED, dual)

OEM part number	ACTMKEB2P	**A**	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKEB2P [equivalent] (Companion filler plate and filler hardware kit (same row))	**A**	same as above
	ACTHKEB2P [equivalent] (Companion hardware to mount one breaker (same row))	**A**	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, TEB, TED, THED, 150 A, 2-pole	**A**	same as above
Breaker compatibility	TEB, TED, THED	**A**	same as above
Current rating	150 A max	**A**	same as above

Open question	*Filler kits ACTFPKEB3P listed, yet note says SCP+ filler plates must be obtained from Houston plant - clarify.*		

EDH-GEA-00252	ACTMKJD	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKJD (TJD, TJJ, TJK, dual)

OEM part number	ACTMKJD	**A**	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKJD [equivalent] (Companion filler plate and filler hardware kit (same row))	**A**	same as above
	ACTHKJD [equivalent] (Companion hardware to mount one breaker (same row))	**A**	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, TJD, TJJ, TJK, 400 A	**A**	same as above
Breaker compatibility	TJD, TJJ, TJK	**A**	same as above
Current rating	400 A max	**A**	same as above
Cross-links	Families: SCP-PLUS · Breakers: TJD / TJJ / TJK / THJK		
Not yet documented	OEM instruction document, Kit contents, Material, Status		
Open question	*Filler kits ACTFPKJD listed, yet note says SCP+ filler plates must be obtained from Houston plant - clarify.*		

EDH-GEA-00250	ACTMKQD2P	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKQD2P (TQD, THQD, dual)

OEM part number	ACTMKQD2P	A	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKQD2P [equivalent] (Companion filler plate and filler hardware kit (same row))	A	same as above
	ACTHKQD2P [equivalent] (Companion hardware to mount one breaker (same row))	A	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, TQD, THQD, 225 A, 2-pole	A	same as above
Breaker compatibility	TQD, THQD	A	same as above
Current rating	225 A max	A	same as above
Cross-links	Families: SCP-PLUS · Breakers: TQD / THQD		
Not yet documented	OEM instruction document, Kit contents, Material, Status		
Open question	*Filler kits ACTFPKQD2P listed, yet note says SCP+ filler plates must be obtained from Houston plant - clarify.*		

EDH-GEA-00251	ACTMKQD3P	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKQD3P (TQD, THQD, dual)

OEM part number	ACTMKQD3P	A	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKQD3P [equivalent] (Companion filler plate and filler hardware kit (same row))	A	same as above
	ACTHKQD3P [equivalent] (Companion hardware to mount one breaker (same row))	A	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, TQD, THQD, 225 A, 3-pole	A	same as above
Breaker compatibility	TQD, THQD	A	same as above
Current rating	225 A max	A	same as above
Cross-links	Families: SCP-PLUS · Breakers: TQD / THQD		
Not yet documented	OEM instruction document, Kit contents, Material, Status

EDH-GEA-00245	ACTMKSE	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKSE (SHE (SEH), SEL, SED, SEP, dual)

OEM part number	ACTMKSE	A	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKSE [equivalent] (Companion filler plate and filler hardware kit (same row))	A	same as above
	ACTHKSE [equivalent] (Companion hardware to mount one breaker (same row))	A	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, SHE (SEH), SEL, SED, SEP, 150 A	A	same as above
Breaker compatibility	SHE (SEH), SEL, SED, SEP	A	same as above
Current rating	150 A max	A	same as above
Cross-links	Families: SCP-PLUS · Breakers: Spectra SE (SEDA/SEHA/SELA/SEPA)		
Not yet documented	OEM instruction document, Kit contents, Material, Status		
Open question	*Filler kits ACTFPKSE listed, yet note says SCP+ filler plates must be obtained from Houston plant - clarify.*		

EDH-GEA-00249	ACTMKSF	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKSF (TFK, SFH, SFL, SFP, dual)

OEM part number	ACTMKSF	**A**	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKSF [equivalent] (Companion filler plate and filler hardware kit (same row))	**A**	same as above
	ACTHKSF [equivalent] (Companion hardware to mount one breaker (same row))	**A**	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, TFK, SFH, SFL, SFP, 250 A	**A**	same as above
Breaker compatibility	TFK, SFH, SFL, SFP	**A**	same as above
Current rating	250 A max	**A**	same as above
Cross-links	Families: SCP-PLUS · Breakers: Spectra SF (SFHA/SFLA/SFPA)		
Not yet documented	OEM instruction document, Kit contents, Material, Status		
Open question	*Filler kits ACTFPKSF listed, yet note says SCP+ filler plates must be obtained from Houston plant - clarify.*		

EDH-GEA-00253	ACTMKSG	GE	branch-connector-kit	STATUS UNKNOWN

Spectra SCP Plus mounting hardware kit and straps ACTMKSG (SGD, SGH, SGL, SGP, dual)

OEM part number	ACTMKSG	**A**	S143 p.11-48; oem_spec
Alternate / superseded numbers	ACTFPKSG [equivalent] (Companion filler plate and filler hardware kit (same row))	**A**	same as above
	ACTHKSG [equivalent] (Companion hardware to mount one breaker (same row))	**A**	same as above
Description	Mounting hardware - hardware kit and straps, dual mounted, SGD, SGH, SGL, SGP, 400/600 A	**A**	same as above
Breaker compatibility	SGD, SGH, SGL, SGP	**A**	same as above
Current rating	400/600 A max	**A**	same as above
Cross-links	Families: SCP-PLUS · Breakers: Spectra SG (SGDA/SGHA/SGLA/SGPA)		
Not yet documented	OEM instruction document, Kit contents, Material, Status		
Open question	*Filler kits ACTFPKSG listed, yet note says SCP+ filler plates must be obtained from Houston plant - clarify.*

EDH-GEA-00933 — ACF3149S — GE — trim — STATUS UNKNOWN

Spectra SCP Plus surface front ACF3149S (31 in box, 15X)

OEM part number	ACF3149S	**A**	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 15X, box height 49.375 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	**A**	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3149F orderable?*		

EDH-GEA-00934 — ACF3153S — GE — trim — STATUS UNKNOWN

Spectra SCP Plus surface front ACF3153S (31 in box, 18X)

OEM part number	ACF3153S	**A**	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 18X, box height 53.5 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	**A**	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3153F orderable?*		

EDH-GEA-00935 — ACF3157S — GE — trim — STATUS UNKNOWN

Spectra SCP Plus surface front ACF3157S (31 in box, 21X)

OEM part number	ACF3157S	**A**	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 21X, box height 57.625 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	**A**	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3157F orderable?*		

EDH-GEA-00936 — ACF3161S — GE — trim — STATUS UNKNOWN

Spectra SCP Plus surface front ACF3161S (31 in box, 24X)

OEM part number	ACF3161S	**A**	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 24X, box height 61.75 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	**A**	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3161F orderable?*		

EDH-GEA-00937	ACF3165S	GE	trim	STATUS UNKNOWN

Spectra SCP Plus surface front ACF3165S (31 in box, 27X)

OEM part number	ACF3165S	A	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 27X, box height 65.875 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3165F orderable?*		

EDH-GEA-00938	ACF3170S	GE	trim	STATUS UNKNOWN

Spectra SCP Plus surface front ACF3170S (31 in box, 30X)

OEM part number	ACF3170S	A	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 30X, box height 70 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3170F orderable?*		

EDH-GEA-00939	ACF3174S	GE	trim	STATUS UNKNOWN

Spectra SCP Plus surface front ACF3174S (31 in box, 33X)

OEM part number	ACF3174S	A	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 33X, box height 74.125 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3174F orderable?*		

EDH-GEA-00940	ACF3178S	GE	trim	STATUS UNKNOWN

Spectra SCP Plus surface front ACF3178S (31 in box, 36X)

OEM part number	ACF3178S	A	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 36X, box height 78.25 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3178F orderable?*		

EDH-GEA-00941	ACF3182S	GE	trim	STATUS UNKNOWN

Spectra SCP Plus surface front ACF3182S (31 in box, 39X)

OEM part number	ACF3182S	A	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 39X, box height 82.275 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3182F orderable?*		

EDH-GEA-00942	ACF3186S	GE	trim	STATUS UNKNOWN

Spectra SCP Plus surface front ACF3186S (31 in box, 42X)

OEM part number	ACF3186S	**A**	S650 9-115; oem_spec
Description	SCP Plus front for 31 in W x 11.5 in D box, 42X, box height 86.5 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	**A**	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	door/lock details, Finish / plating, Material		
Open question	*Only S (surface) numbers printed; is an F (flush) variant e.g. ACF3186F orderable?*		

EDH-GEA-00943	ACF4049S	GE	trim	STATUS UNKNOWN

Spectra SCP Plus surface front ACF4049S (40 in box, 15X)

OEM part number	ACF4049S	**A**	S650 9-115; oem_spec
Description	SCP Plus front for 40 in W x 11.5 in D box, 15X, box height 49.375 in; S = surface front (1/4 in larger than box); flush fronts (F) are 2 in larger than box	**A**	same as above

OEM part number	ACB401153	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 53.5 in H (add 1/4 in for outside); interior 18X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00925	ACB401157	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401157 (40 in W x 11.5 in D, 21X)

OEM part number	ACB401157	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 57.625 in H (add 1/4 in for outside); interior 21X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00926	ACB401161	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401161 (40 in W x 11.5 in D, 24X)

OEM part number	ACB401161	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 61.75 in H (add 1/4 in for outside); interior 24X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00927	ACB401165	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401165 (40 in W x 11.5 in D, 27X)

OEM part number	ACB401165	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 65.875 in H (add 1/4 in for outside); interior 27X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00928	ACB401170	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401170 (40 in W x 11.5 in D, 30X)

OEM part number	ACB401170	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 70 in H (add 1/4 in for outside); interior 30X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00929	ACB401174	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401174 (40 in W x 11.5 in D, 33X)

OEM part number	ACB401174	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 74.125 in H (add 1/4 in for outside); interior 33X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00930	ACB401178	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401178 (40 in W x 11.5 in D, 36X)

OEM part number	ACB401178	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 78.25 in H (add 1/4 in for outside); interior 36X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00931	ACB401182	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401182 (40 in W x 11.5 in D, 39X)

OEM part number	ACB401182	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 82.275 in H (add 1/4 in for outside); interior 39X	A	same as above
Cross-links	Families: SCP-PLUS		
Not yet documented	Finish / plating, Material		

EDH-GEA-00932	ACB401186	GE	box/enclosure	STATUS UNKNOWN

Spectra SCP Plus replacement box ACB401186 (40 in W x 11.5 in D, 42X)

OEM part number	ACB401186	A	S650 9-115; oem_spec
Description	SCP Plus replacement box, furnished with no knockouts	A	same as above
Dimensions	Inside 40 in W x 11.5 in D x 86.5 in H (add 1/4 in for outside); interior 42X	A	same as above

Spectra SCP Plus hardware to mount one breaker ACTHKSF (TFK, dual mounted)

OEM part number	ACTHKSF	A	S650 9-115; oem_spec
Description	Mounting hardware to mount one breaker, SCP Plus panelboard, dual mounted, TFK, SFH, SFL, SFP, max 250 A	A	same as above
Breaker compatibility	TFK, SFH, SFL, SFP	A	same as above
Current rating	250 A max	A	same as above
Cross-links	Families: SCP-PLUS · Breakers: TFJ / TFK / THFK / TFL, Spectra SF (SFHA/SFLA/SFPA)		
Not yet documented	Dimensions, Kit contents, Material		

EDH-GEA-00902	ACTHKSG	GE	hardware-kit	STATUS UNKNOWN

Spectra SCP Plus hardware to mount one breaker ACTHKSG (SGD, dual mounted)

OEM part number	ACTHKSG	A	S650 9-115; oem_spec
Description	Mounting hardware to mount one breaker, SCP Plus panelboard, dual mounted, SGD, SGH, SGL, SGP, max 400, 600 A	A	same as above
Breaker compatibility	SGD, SGH, SGL, SGP	A	same as above
Current rating	400, 600 A max	A	same as above
Cross-links	Families: SCP-PLUS · Breakers: Spectra SG (SGDA/SGHA/SGLA/SGPA)		
Not yet documented	Dimensions, Kit contents, Material		

5.11 SPECTRA-PP — Spectra Series Power Panelboards (Plug-In interior type APN; Bolt-On interior type APNB)

FAM-GEA-004 · panelboard · aka APN, APNB, Spectra, Spectra Bolt-On (SBO), Spectra Plug-In, Spectra Series, SpectraRMS · markings: ABB, GE, GE Industrial Solutions, General Electric

GE's power distribution panelboard. Two interior styles: APN plug-in (breakers bolt to AMC circuit breaker mounting modules that latch onto the interior rail and clip onto the bus; ADS fusible switch modules) and APNB bolt-on (breakers bolt to copper straps AMCB kits fastened with carriage bolts/antiturn clips to the vertical bus). Vertical space measured in X units (1X = 1-3/8 in). Box widths 27/31/36/40/44 in, APB boxes and APF fronts, AML main-lug modules, ANK/ANKN neutral kits, AEG ground kits. NOTE on 'APN': in GE nomenclature APN is the Spectra plug-in interior type code (APNB = bolt-on), while APN48/APN84/APN126 (A-Series) and APN49/APN99 (Spectra) are permanent circuit-number tab kits; no 'A-Series power panel' code APN was found.

Attribute	Value	Cl.	Sources
Status	ABB guide: "Please note that Spectra, TED, FE, and FG breakers are obsolete"; Spectra bolt-on additions are served by Tmax XT retrofit kits (SRFB...)	A	S427 guide pp.27-32; oem_spec
	Listed as current in 2014 BuyLog; a 2021/2022 ABB BuyLog TOC reportedly labels Spectra bolt-on mounting hardware 'obsoleted' (Obsolescence wording seen only in a search-engine summary of the blocked ABB BuyLog.)	C	S143, S161 inference
Successor	ReliaGear neXT power panelboards (ABB) - inferred from ABB BuyLog placing 'Retrofit kit for Spectra panelboards' alongside ReliaGear neXT	D	S161, S158 inference
Voltage rating	600 Vac / 250 Vdc max	A	S143 p.11-24; oem_spec
Main ampacity	Main bus 250-1200 A Cu or Al; mains up to 1200 A lugs, breaker (SF/SG/SK/FG) or fusible switch	A	same as above
Branch breakers accepted	Double-branch SE, SF, SG, FG, FB, TEY, TEB, TQD (and THQB); center-mounted SK; plug-in version also ADS fusible switches 30-1200 A	A	same as above
X unit	1X = 1 3/8 in vertical panel space	A	S143 p.11-40 note; oem_spec
Box widths	27, 31, 36, 40, 44 in	A	S143 p.11-34, 11-35; oem_spec
Apn meaning	APN = Panelboard Interior Type (plug-in); APNB = Panelboard Interior Type bolt-on; structure APN<X-height><amps>U[B4]	A	S143 p.11-37; oem_spec
Plug in vs bolt on	Main lug kits bolt directly to interior bus bars (either APN Plug-In Style or APNB Bolt-On Style)	A	S143 p.11-28; oem_spec
OEM instruction document	GEH5589 R07: APN/APNB interiors mount on four 3/8 in interior mounting studs on the APB enclosure back wall, secured with wing nuts and washers; line end of interior toward LINE end of box; deadfront ends fastened to mounting posts with 1/4-20 hex-head screws 50-60 in-lb (27-44 in wide panels use 1/4-turn fasteners between end fillers and side plates)	A	S410 pp.1-2; oem_spec
Reference dimension	Bolt-on (APNB) straps and AMB lug kits mount on the side of the interior where the distance from the nearest vertical bus face to the inner face of the bus-support rail is 2.75 in; 1X = 1.38 in (1-3/8 in) vertical space	A	S397, S418 DEH047 p.1; DEH070 p.1; oem_spec

EDH-GEA-00225	**AML3800FP**	Spectra main lug module AML3800FP (800 A mechanical)	—	unknown

EDH-GEA-00530 AMB2120CA — GE / ABB lineage — main-lug-kit — STATUS UNKNOWN

Spectra main lug kit AMB2120CA

OEM part number	AMB2120CA	A	S419 DEH071 p.1; oem_spec
Alternate / superseded numbers	AMB2120CAF [equivalent] (F suffix = kit including cover plates (AFPML))	A	same as above
Description	Spectra Series main lug kit (bolt-on main lug kit), 2-pole, 1200 A; "F" suffix version includes cover plates (pole/amp decoding from catalog-number pattern (AMB<poles><amps>...))	A	same as above
Application	main lugs	A	same as above
Installation location	Line end of APN (lug tangs between buses of each phase) or APNB interior (on 2.75 in reference side); lug wire holes face the LINE end of the box; wire barriers flush with/aligned to side rails or Z rails	A	S419 DEH071 pp.1-2; oem_spec
Poles	2	B	S419 DEH071 p.1; inference
Current rating	1200 A	B	same as above
Mounting-hole pattern	Lug strap mounting holes align with the first and third bus holes from the box end stamped LINE, rear row of holes	A	S419 DEH071 p.2 step 3; oem_spec
Torque values	Lug tangs/straps to bus (carriage bolt fed through bus first, flat washer, Belleville washer, nut) 200-250 in-lb; cover screws 25-30 in-lb; conductor torques: Lug part 252B3638G9-10: 375 in-lb, (1) 8-500 kcmil or (1) #2/0-600 kcmil; 252B3638G1-2: 450 in-lb, (4) 2/0-600 kcmil; 252B3638G3-8: 450 in-lb, (8) 2/0-600 kcmil; GEA2-750: 475 in-lb, (2) 3/0-750 kcmil	A	S419 DEH071 pp.1-2 step 4, Table 1; oem_spec
OEM instruction document	DEH071 R02	A	S419 p.1; oem_spec
Cross-links	Families: SPECTRA-PP		
Requires	252B3638 (EDH-GEA-00540)		
Not yet documented	Dimensions, lug type per suffix (MA/MC/CA/N)		

EDH-GEA-00538 AMB2120DCA — GE / ABB lineage — main-lug-kit — STATUS UNKNOWN

Spectra main lug kit AMB2120DCA

OEM part number	AMB2120DCA	A	S419 DEH071 p.1; oem_spec
Alternate / superseded numbers	AMB2120DCAF [equivalent] (F suffix = kit including cover plates (AFPML))	A	same as above
Description	Spectra Series main lug kit (bolt-on main lug kit), 2-pole, 1200 A, D = double lug set per catalog nomenclature; "F" suffix version includes cover plates (pole/amp decoding from catalog-number pattern (AMB<poles><amps>...))	A	same as above
Application	main lugs	A	same as above
Installation location	Line end of APN (lug tangs between buses of each phase) or APNB interior (on 2.75 in reference side); lug wire holes face the LINE end of the box; wire barriers flush with/aligned to side rails or Z rails	A	S419 DEH071 pp.1-2; oem_spec
Poles	2	B	S419 DEH071 p.1; inference
Current rating	1200 A	B	same as above
Mounting-hole pattern	Lug strap mounting holes align with the first and third bus holes from the box end stamped LINE, rear row of holes	A	S419 DEH071 p.2 step 3; oem_spec
Torque values	Lug tangs/straps to bus (carriage bolt fed through bus first, flat washer, Belleville washer, nut) 200-250 in-lb; cover screws 25-30 in-lb; conductor torques: Lug part 252B3638G9-10: 375 in-lb, (1) 8-500 kcmil or (1) #2/0-600 kcmil; 252B3638G1-2: 450 in-lb, (4) 2/0-600 kcmil; 252B3638G3-8: 450 in-lb, (8) 2/0-600 kcmil; GEA2-750: 475 in-lb, (2) 3/0-750 kcmil	A	S419 DEH071 pp.1-2 step 4, Table 1; oem_spec
OEM instruction document	DEH071 R02	A	S419 p.1; oem_spec
Cross-links	Families: SPECTRA-PP		
Requires	252B3638 (EDH-GEA-00540)		
Not yet documented	Dimensions, lug type per suffix (MA/MC/CA/N)		

EDH-GEA-00518	AMB2120DMA	GE / ABB lineage	main-lug-kit	STATUS UNKNOWN

Spectra main lug kit AMB2120DMA

OEM part number	AMB2120DMA	A	S418 DEH070 p.1; oem_spec
Alternate / superseded numbers	AMB2120DMAF [equivalent] (F suffix = kit including cover plates (AFPML))	A	same as above
Description	Spectra Series main lug kit (type AMB), 2-pole, 1200 A, D = double lug set per catalog nomenclature; "F" suffix version includes cover plates (pole/amp decoding from catalog-number pattern (AMB<poles><amps>...))	A	same as above
Application	main lugs	A	same as above
Installation location	Line end of APN (lug tangs between buses of each phase) or APNB interior (on 2.75 in reference side); lug wire holes face the LINE end of the box; wire barriers flush with/aligned to side rails or Z rails	A	S418 DEH070 pp.1-2; oem_spec
Poles	2	B	S418 DEH070 p.1; inference
Current rating	1200 A	B	same as above
Mounting-hole pattern	Lug tang mounting holes align with the first and second bus holes from the box end stamped LINE, rear row of holes	A	S418 DEH070 p.1 step 3; oem_spec
Torque values	Lug tangs/straps to bus (carriage bolt fed through bus first, flat washer, Belleville washer, nut) 200-250 in-lb; cover screws 25-30 in-lb; conductor torques: Lug part 252B3638G9-10: 375 in-lb, (1) 8-500 kcmil or (1) #2/0-600 kcmil; 252B3638G1-2: 450 in-lb, (4) 2/0-600 kcmil; 252B3638G3-8: 450 in-lb, (8) 2/0-600 kcmil; GEA2-750: 475 in-lb, (2) 3/0-750 kcmil	A	S418 DEH070 pp.1-2 step 4, Table 1; oem_spec
OEM instruction document	DEH070 R02	A	S418 p.1; oem_spec
Identification features	1200 A AMB...MA/MC/DMC/DMA kits: lug tangs must be fed through the support - failure causes destructive behaviour under short circuit	A	S418 DEH070 p.1 step 1; oem_spec
Cross-links	Families: SPECTRA-PP		
Requires	252B3638 (EDH-GEA-00540)		
Not yet documented	Dimensions, lug type per suffix (MA/MC/CA/N)		

EDH-GEA-00516	AMB2120DMC	GE / ABB lineage	main-lug-kit	STATUS UNKNOWN

Spectra main lug kit AMB2120DMC

OEM part number	AMB2120DMC	A	S418 DEH070 p.1; oem_spec
Alternate / superseded numbers	AMB2120DMCF [equivalent] (F suffix = kit including cover plates (AFPML))	A	same as above
Description	Spectra Series main lug kit (type AMB), 2-pole, 1200 A, D = double lug set per catalog nomenclature; "F" suffix version includes cover plates (pole/amp decoding from catalog-number pattern (AMB<poles><amps>...))	A	same as above

EDH-GEA-00221	AML3400SFP	GE	main-lug-kit	STATUS UNKNOWN

Spectra main lug module AML3400SFP (400 A mechanical)

OEM part number	AML3400SFP (Printed with footnote '1' suffix (4X modules cannot be converted to compression))	**A**	S143, S650 p.11-45; oem_spec
Alternate / superseded numbers	AML3400SFP1 (as printed with footnote 1 fused ("4X modules cannot be converted to compression lug version"))	**A**	S650 alias; 9-112; oem_spec
Description	Spectra plug-in lug kit/module, 400 A, Mechanical lugs, 1 lug(s) per phase, 2 wire(s) per lug, #2-500kcmil, includes cover plate AFPML4X	**A**	S143 p.11-45; oem_spec
	4X main lug module with mechanical lugs, cover plate AFPML4X; 4X modules cannot be converted to compression lug version	**A**	S650 9-112; oem_spec
Application	main lug; convertible to feed-thru with AFL cover plate kit; to dual main with AMK lug kits; mechanical to compression with AMKP	**A**	S143 p.11-45; oem_spec
Current rating	400 A	**A**	same as above
Dimensions	4X module height; box width 27, 36, 44 in	**A**	same as above
OEM instruction document	GEH-5588 (Type AML Main Lug Kits); GEH-5630 (AML Feed Thru)	**A**	S143 p.11-52; oem_spec

EDH-GEA-00873	AMKP2500	GE	lug-kit	STATUS UNKNOWN

Spectra compression (crimp) lug kit AMKP2500 (500 kcmil, 6-pack)

OEM part number	AMKP2500	A	S650 9-113; oem_spec
Description	Compression lug kit to convert AML main mechanical lug modules (and ANK neutral main lug) to compression lugs; wire size 500 kcmil; 6-pack (6-pack for dual main)	A	S650 9-113 "Compression Lug Kits and Modules"; oem_spec
Kit contents	6 crimp lugs ("3 PACK"/"6 PACK" package type)	B	S650 9-113; inference
Fasteners	Crimp tool dies: Homac 15CA106A / 15C106R, Burndy 300, T&B 99H	A	S650 9-113; oem_spec
Cross-links	Families: SPECTRA-PP, SPECTRA-SB		
Not yet documented	Dimensions, lug manufacturer part number		

EDH-GEA-00875	AMKP2600	GE	lug-kit	STATUS UNKNOWN

Spectra compression (crimp) lug kit AMKP2600 (600 kcmil, 6-pack)

OEM part number	AMKP2600	A	S650 9-113; oem_spec
Description	Compression lug kit to convert AML main mechanical lug modules (and ANK neutral main lug) to compression lugs; wire size 600 kcmil; 6-pack (6-pack for dual main)	A	S650 9-113 "Compression Lug Kits and Modules"; oem_spec
Kit contents	6 crimp lugs ("3 PACK"/"6 PACK" package type)	B	S650 9-113; inference
Fasteners	Crimp tool dies: Homac 15CA115H / 15C115H, Burndy 473, T&B 106H	A	S650 9-113; oem_spec
Cross-links	Families: SPECTRA-PP, SPECTRA-SB		
Not yet documented	Dimensions, lug manufacturer part number

OEM part number	AMCB3FJ	A	S398 p.1; oem_spec
Description	Spectra bolt-on circuit breaker kit for main or single-branch mounting in APNB interiors	A	same as above
	empower: "BOLT-ON STRAP KIT SF SB" (UPC 783175333820)	A	S426 empower page AMCB3FJ; oem_spec
Application	main (load/OFF-side terminals on straps) or single branch (line/ON-side terminals on straps)	A	S398 p.2 step 3; oem_spec
Installation location	Spectra APNB bolt-on interior: straps bolt to the vertical bus on the side where nearest vertical bus face to inner face of bus-support rail = 2.75 in; breaker mounting brackets fasten to the panel side rails	A	S398 DEH059 pp.1-2; oem_spec
Breaker compatibility	SFH, SFL, SFP, TF and TH(F) breakers; breaker cover kits AFP3SFS, AFP3SFD, AFP3TFS, AFP3TFD ("TF, and TH" as printed (TFJ/TFK/THFK family))	A	S398 p.1; oem_spec
Poles	3	A	S398 p.1; p.2 Table 3; oem_spec
Kit contents	Main/single-branch (Table 1): 1 A pole strap (1); 2 carriage bolt 1/4-20 x 1.50 [or 1/4-20 x 1.00 when single-breaker straps connect to a vertical bus rated 600 A or less] (6); 3 1/4 in Belleville washer (6); 4 1/4-20 nut (6); 5 B pole strap (1); 6 C pole strap (1); 7 breaker mounting bracket (1); 8 breaker mounting bracket (1); 9 thread-forming screw (4); 10 1/4-20 x 3/4 in machine screw (3); 11 1/4 in Belleville washer (3); 12 #10-32 x 3-3/4 in machine screw (2); 13 #10 flat washer (2); 14 #10-32 x 1/2 in machine screw (2); 15 #10 lock washer (2); 16 antiturn clip (6); 17 strap spacer (3)	A	S398 p.1 Table 1; oem_spec
Fasteners	1/4-20 carriage bolts with antiturn clips (clip pin into small hole in strap; bolt in front square hole of vertical bus), 1/4 in Belleville washers and nuts; UL-recognized 105 C thermoplastic tape (OANZ2, Permacel P-30-105 or 3M 66R) on unused strap contact surfaces; overlap > 1/2 each turn; minimum 0.028 in = two complete layers of overlapping turns	A	S398 pp.1-2; oem_spec
Torque values	Single/main: cover support to bracket #10-32 x 1/2 in screws with lock washers 18 in-lb; opposite bracket thread-forming screws 30 in-lb; breaker to bracket #10-32 x 3-3/4 in screws with flat washers 30 in-lb; terminal to strap 1/4-20 x 3/4 in screws with Belleville washers 50 in-lb; strap-to-vertical-bus 65 in-lb	A	S398 p.2 steps 2-4; oem_spec
OEM instruction document	DEH059 R02 (09/2001) Installation Instructions; replacement hardware kit AHKBF1	A	S398 p.1, p.6; oem_spec
Identification features	Main/single-branch kit includes 3 strap spacers used for left-hand cable connection (strap and spacer square holes aligned; carriage bolt passes through both)	A	S398 p.1 step 1a/1b; oem_spec
Cross-links	Families: SPECTRA-PP · Breakers: Spectra SF (SFHA/SFLA/SFPA), TFJ / TFK / THFK / TFL		
Requires	AHKBF1 (EDH-GEA-00195)

Spectra bolt-on breaker strap kit AMCB6FJ (SF/TF, DEH059)

OEM part number	AMCB6FJ	A	S398 p.1; oem_spec
Description	Spectra bolt-on circuit breaker kit for double-branch mounting in APNB interiors	A	same as above
	empower: "BOLT-ON STRAP KIT SF DB" (UPC 783175333813)	A	S426 empower page AMCB6FJ; oem_spec
Application	double branch	A	S398 p.2 step 3; oem_spec
Installation location	Spectra APNB bolt-on interior: straps bolt to the vertical bus on the side where nearest vertical bus face to inner face of bus-support rail = 2.75 in; breaker mounting brackets fasten to the panel side rails	A	S398 DEH059 pp.1-2; oem_spec
Breaker compatibility	SFH, SFL, SFP, TF and TH(F) breakers; breaker cover kits AFP3SFS, AFP3SFD, AFP3TFS, AFP3TFD ("TF, and TH" as printed (TFJ/TFK/THFK family))	A	S398 p.1; oem_spec
Poles	3	A	S398 p.1; p.2 Table 3; oem_spec
Kit contents	Double-branch (Table 2): 18 A&C pole outer strap (2); 19 A&C pole inner strap (2); 20 carriage bolt 1/4-20 x 1.50 [x 1.00 for vertical bus <=600 A] (3); 21 1/4 in Belleville washer (3); 22 1/4-20 nut (3); 23 B pole strap (2); 24 breaker mounting bracket (2); 25 thread-forming screw (4); 26 1/4-20 x 3/4 in machine screw (6); 27 1/4 in Belleville washer (6); 28 #10-32 x 3-3/4 in machine screw (4); 29 #10 flat washer (4); 30 antiturn clip (3)	A	S398 p.1 Table 2; oem_spec
Fasteners	1/4-20 carriage bolts with antiturn clips (clip pin into small hole in strap; bolt in front square hole of vertical bus), 1/4 in Belleville washers and nuts; UL-recognized 105 C thermoplastic tape (OANZ2, Permacel P-30-105 or 3M 66R) on unused strap contact surfaces; overlap > 1/2 each turn; minimum 0.028 in = two complete layers of overlapping turns	A	S398 pp.1-2; oem_spec
Torque values	Double-branch: brackets thread-forming screws 30 in-lb; breaker to bracket #10-32 x 3-3/4 in 30 in-lb; line terminals 1/4-20 x 3/4 in 50 in-lb; strap-to-vertical-bus 65 in-lb	A	S398 p.2 steps 2-4; oem_spec
OEM instruction document	DEH059 R02 (09/2001) Installation Instructions; replacement hardware kit AHKBF1	A	S398 p.1, p.6; oem_spec
Identification features	Double-branch kit uses back-to-back outer and inner A&C straps and two B straps	A	S398 p.1 step 1a/1b; oem_spec
Cross-links	Families: SPECTRA-PP · Breakers: Spectra SF (SFHA/SFLA/SFPA), TFJ / TFK / THFK / TFL		
Requires	AHKBF1 (EDH-GEA-00195)		
Not yet documented	Dimensions, Finish / plating, Material

EDH-OTH-00052	BAMCB6FJGE	Breaker King (aftermarket/PCS-brand kit per seller)	branch-connector-kit	CURRENT AFTERMARKET IT

Aftermarket bus connection kit BAMCB6FJGE (seller cross-ref to GEA AMCB6FJFP)

OEM part number	BAMCB6FJGE (Breaker King catalog/model number)	C	S627 distributor
Alternate / superseded numbers	AMCB6FJFP [equivalent] (seller cross-reference: 'Kit SFD1K; Replaces OEM AMCB6FJFP')	C	same as above
	SFD1K [alias] (seller/PCS kit number quoted in listing)	C	same as above
Description	Bolt-on hardware for GE APNB panelboards; mounts two SF frame breakers (seller listing text (may be truncated))	C	same as above
Breaker compatibility	mounts two SF frame breakers (seller claim; compatibility from distributor only)	C	same as above
Status	current aftermarket item; listing label 'GE/ABB Aftermarket Replacement' (seller claim)	C	same as above
Replacement / successor	Seller states it replaces OEM AMCB6FJFP ('Kit SFD1K; Replaces OEM AMCB6FJFP') (seller claim; not OEM-verified; no listing/UL statement on page)	C	same as above
Cross-links	Families: SPECTRA-PP		
Not yet documented	Dimensions, Finish / plating, Mounting-hole pattern, OEM instruction document, Listing / approvals, Material, Torque values		
Open question	*Who is 'PCS' (maker of Breaker King aftermarket kits)? Is the kit tested/listed with the panelboard?*		

EDH-OTH-00053	BAMCB6GBGE	Breaker King (aftermarket/PCS-brand kit per seller)	branch-connector-kit	CURRENT AFTERMARKET IT

Aftermarket bus connection kit BAMCB6GBGE (seller cross-ref to GEA AMCB6GBFP)

OEM part number	BAMCB6GBGE (Breaker King catalog/model number)	C	S627 distributor
Alternate / superseded numbers	AMCB6GBFP [equivalent] (seller cross-reference: 'Kit SGD1K; Replaces OEM AMCB6GBFP')	C	same as above
	SGD1K [alias] (seller/PCS kit number quoted in listing)	C	same as above
Description	Bolt-on hardware for GE APNB panelboards; mounts two SG frame breakers (seller listing text (may be truncated))	C	same as above
Breaker compatibility	mounts two SG frame breakers (seller claim; compatibility from distributor only)	C	same as above
Status	current aftermarket item; listing label 'GE/ABB Aftermarket Replacement' (seller claim)	C	same as above
Replacement / successor	Seller states it replaces OEM AMCB6GBFP ('Kit SGD1K; Replaces OEM AMCB6GBFP') (seller claim; not OEM-verified; no listing/UL statement on page)	C	same as above
Cross-links	Families: SPECTRA-PP		
Not yet documented	Dimensions, Finish / plating, Mounting-hole pattern, OEM instruction document, Listing / approvals, Material, Torque values		
Open question	*Who is 'PCS' (maker of Breaker King aftermarket kits)? Is the kit tested/listed with the panelboard?*		

EDH-OTH-00051	BAMCB6QDGE	Breaker King (aftermarket/PCS-brand kit per seller)	branch-connector-kit	CURRENT AFTERMARKET IT

Aftermarket bus connection kit BAMCB6QDGE (seller cross-ref to GEA AMCB6QDFP)

OEM part number	BAMCB6QDGE (Breaker King catalog/model number)	C	S627 distributor
Alternate / superseded numbers	AMCB6QDFP [equivalent] (seller cross-reference: 'Kit SQD1K; Replaces OEM AMCB6QDFP')	C	same as above
	SQD1K [alias] (seller/PCS kit number quoted in listing)	C	same as above
Description	Bolt-on hardware for GE APNB panelboards; mounts two TQD frame breakers (seller listing text (may be truncated))	C	same as above
Breaker compatibility	mounts two TQD frame breakers (seller claim; compatibility from distributor only)	C	same as above
Status	current aftermarket item; listing label 'GE/ABB Aftermarket Replacement' (seller claim)	C	same as above
Replacement / successor	Seller states it replaces OEM AMCB6QDFP ('Kit SQD1K; Replaces OEM AMCB6QDFP') (seller claim; not OEM-verified; no listing/UL statement on page)	C	same as above

EDH-GEA-00182	AMC2GMFP	GE	breaker-mounting-kit	STATUS UNKNOWN

Spectra plug-in breaker mounting module AMC2GMFP (SGDA, SGHA, SGLA, SGPA; single branch or main)

OEM part number	AMC2GMFP	A	S143, S649 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
Alternate / superseded numbers	AMC2GM (Module without FP filler plate kit suffix (e.g. AMC4QD, AMC6GB, AMC3GM listed in p.11-44 AHK cross-reference))	B	S143 alias; p.11-38 nomenclature; p.11-44 AHK table; inference
Description	Spectra plug-in circuit breaker mounting module, 2-pole table, Single branch or main, max 600 A, includes filler plate kit AFP4SGS	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
	empower: "SPECTRA SERIES MCCB MOUNTING MODULE" (UPC 783164239683)	A	S426 empower page AMC2GMFP; oem_spec
Application	Single branch or main	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
	Branch device mounting in Spectra Series plug-in switchboard distribution sections (Pro-Stock program) - single branch, 2-pole table	A	S649 p.4 "Circuit Breaker Mounting Modules Plug-In Spectra 2-pole"; oem_spec
Installation location	Latches onto APN plug-in interior rail and engages bus bars	A	S155 GEH5674 step 3; oem_spec
Breaker compatibility	SGDA, SGHA, SGLA, SGPA	A	S143, S155 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
	SGDA, SGHA, SGLA or SGPA, max 600 A; 4X height; box width range 27"-44" in	A	S649 p.4; oem_spec
Current rating	600 A max breaker	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
Kit contents	Module with all necessary hardware; FP = all AFP filler plates with handle cutouts for all applicable box widths (AFP4SGS); breaker not included	A	S143 p.11-40 product features; oem_spec
	Filler kit AFP4SGS	A	S155 GEH5674 pp.1-2; oem_spec
	Complete kit (module with filler plate kit); filler-plate-only kit is AFP4SGS	A	S649 p.4; oem_spec

Dimensions	4X vertical (1X = 1-3/8 in); box width range 27-44 in	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
Torque values	Bus clip screws 27-32 in-lb; hex-head screws with Belleville washers 90-110 in-lb (stud-post side); round-head screws with flat washers 40-50 in-lb; latch screws 25 in-lb	A	S155 GEH5674 steps 1-3; oem_spec
	Breaker to stud posts (hex-head screws + Belleville washers) 90-110 in-lb; round-head screws + flat washers 40-50 in-lb; bus clip screws 27-32 in-lb; latch screws 25 in-lb (Instruction is written for the base module number (without FP); FP = module + filler plate kit)	A	S155 GEH5674 pp.1-2; oem_spec
OEM instruction document	GEH5674 (2-pole) / GEH-5673 (3-pole) SGDA/SGHA/SGLA/SGPA modules	A	S155, S143 GEH5674 p.1; BuyLog p.11-52; oem_spec
	GEH5674 R03 (Circuit Breakers and Modules)	A	S155 p.1; oem_spec
Identification features	Module has stud posts, two latches with latch screws, and a movable bus clip assembly (A/C phase as received; reposition to B for phase balancing of 2-pole devices)	A	S155 GEH5674 figs 1-5; oem_spec

Spectra plug-in breaker mounting module AMC4FJFPTF (TFJ, TFK, THFK; double branch)

OEM part number	AMC4FJFPTF	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
Alternate / superseded numbers	AMC4FJFPTF (Module without FP filler plate kit suffix (e.g. AMC4QD, AMC6GB, AMC3GM listed in p.11-44 AHK cross-reference))	B	S143 alias; p.11-38 nomenclature; p.11-44 AHK table; inference
Description	Spectra plug-in circuit breaker mounting module, 2-pole table, Double branch, max 225 A, includes filler plate kit AFP3TFD	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
Application	Double branch	A	same as above
Installation location	Latches onto APN plug-in interior rail and engages bus bars	A	S155 GEH5674 step 3; oem_spec
Breaker compatibility	TFJ, TFK, THFK	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
	TFJ, TFK, THFK, TFL may be combined; SFHA, SFLA, SFPA may be combined	A	S411 GEH5626 p.1; oem_spec
Current rating	225 A max breaker	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
Kit contents	Module with all necessary hardware; FP = all AFP filler plates with handle cutouts for all applicable box widths (AFP3TFD); breaker not included	A	S143 p.11-40 product features; oem_spec

	Filler kits: AFP3SFD for AMC6FJ/AMC4FJ; AFP3SFS for AMC3FJ/AMC2FJ; AFP4SFD for AMC6FLS/AMC4FLS; AFP4SFS for AMC3FLS/AMC2FLS. Filler support position 4 for AMC6FJ/AMC4FJ/AMC6FLS, position 1 for AMC3FJ/AMC2FJ/AMC3FLS	A	S411 GEH5626 pp.1-3; oem_spec
Dimensions	3X vertical (1X = 1-3/8 in); box width range 31-44 in	A	S143 p.11-40 (2-pole table, continued p.11-40/41); oem_spec
Torque values	Breaker to stud posts/module: 1/4-20 screws with conical washers 40-50 in-lb and #10-32 screws with flat washers 25-30 in-lb; filler supports #10-32 x 3/4 in hex-head screws 15-20 in-lb; Two-pole devices on three-phase systems: reposition bus clip (A&C as received; A&B or B&C) and retighten bus clip screws 27-32 in-lb; Module hooks on interior rail (guide fingers into rail notches), pivots onto bus bars, second latch engaged; rail latch screws 25 in-lb (Instruction is written for the base module number (without FP); FP = module + filler plate kit)	A	S411 GEH5626 pp.1-3; oem_spec
OEM instruction document	GEH-5626 (Circuit Breaker Mounting Instructions (Modules))	A	S143 p.11-52; oem_spec
	GEH5626 R04 (Circuit Breakers and Modules)	A	S411 p.1; oem_spec
Cross-links	Families: SPECTRA-PP · Breakers: Spectra SF (SFHA/SFLA/SFPA), TFJ / TFK / THFK / TFL		
Requires	AFP3TFD (EDH-GEA-00136)		
Not yet documented	bus clip/connector part numbers, Material, Status

Spectra breaker cover support 208C1850P3

OEM part number	208C1850P3	A	S406, S405, S156 DEH042 p.1 Table 1; DEH044 p.1 Table 1; oem_spec
Description	Spectra circuit breaker cover support (snaps onto breaker mounting bracket / module via slots; four flexible prongs carry the push-on breaker cover)	A	S406, S405, S397 DEH042 p.1-2; DEH044 p.1; DEH047 p.1; oem_spec
Application	4-1/8 in (3X) and 5-1/2 in (4X) cover height: 36 & 40 in panelboard / 40 in switchboard and 44 in panelboard / 45 in switchboard; also used for SFHA/SFLA/SFPA/TFL/TFJ/TFK/THFK single-branch mountings in all widths (DEH042 footnote); 3X cover support in AMCB6TEDL (qty 2); DEH044: 4-1/8 in (3X) for 36-45 in widths	A	S406, S405, S156 DEH042 p.1 Table 1; DEH044 p.1 Table 1; oem_spec
Installation location	On bolt-on breaker mounting brackets (uppermost or lowest slot per kit instructions) or on plug-in AMC module	A	S406 DEH042 p.1 step 2; oem_spec
Identification features	Removed by inserting a screwdriver blade into the slot on the underside of the mounting bracket assembly and prying down while pushing the support off	A	S397, S398 DEH047 p.1; DEH059 p.2; oem_spec

Spectra space filler 10096990P1 for FE breaker cover

OEM part number	10096990P1	**A**	S651 p.1 step 3; oem_spec
Description	Space filler attached to the FE breaker cover where no breaker is installed behind one of the holes; secured with two #10 x 3/8 in screws	**A**	S651 p.1; oem_spec
Breaker compatibility	Record Plus FE frame covers 10083889P19-P30	**A**	same as above
Torque values	27-32 in-lb (English text); French text says 15-20 lb-in (inconsistent between language versions)	**A**	S651 p.1 / p.3; oem_spec
Cross-links	Families: SPECTRA-PP, SPECTRA-SB · Breakers: Record Plus FE 250		
Not yet documented	Dimensions, Material		
Open question	*Torque differs between English (27-32 in-lb) and French (15-20 lb-in) text of DEH41271.*		

EDH-GEA-00434	168D1930P3	GE / ABB lineage	filler-plate	STATUS UNKNOWN

GE Filler, TEDL double-branch 3X, for 36/40 in wide - 168D1930P3

OEM part number	168D1930P3	A	S156 p.1 Table 1; oem_spec
Description	Filler, TEDL double-branch 3X, for 36/40 in wide (#CM 36, 40W TEDL DB 3X Filler)	A	same as above
Installation location	Spectra APNB bolt-on interior, TED6 breaker with TEDL current limiter, 3X (4.125 in) vertical space	A	S156 p.1; oem_spec
Kit contents	Qty 1 in circuit breaker cover kit AMCB6TEDL	A	S156 p.1 Table 1; oem_spec
Cross-links	Families: SPECTRA-PP · Breakers: TEB / TED / THED / TED4 / TED6		
Not yet documented	Dimensions, Material

EDH-GEA-00423	208C2291P1	GE / ABB lineage	filler-plate	STATUS UNKNOWN

GE Filler center, G-frame double-branch bolt-on - 208C2291P1

OEM part number	208C2291P1	A	S402 DEH40129 p.1 Table 1; oem_spec
Description	Filler center, G-frame double-branch bolt-on	A	same as above
Installation location	Spectra APNB bolt-on G-frame breaker assembly	A	same as above
Kit contents	Supplied in kits: 2 per AMCB4GB/AMCB6GB	A	same as above
Cross-links	Families: SPECTRA-PP · Breakers: Spectra SG (SGDA/SGHA/SGLA/SGPA)		
Not yet documented	Dimensions, Finish / plating, Material		

EDH-GEA-00465	208C4262G1	GE / ABB lineage	filler-plate	STATUS UNKNOWN

Spectra breaker cover 208C4262G1 (TFJ..., single-branch, (3X))

OEM part number	208C4262G1	A	S406 DEH042 p.1 Table 2; oem_spec
Description	Spectra push-on circuit breaker cover (filler) for TFJ, TFK, THFK, TFL breakers, single-branch mount, cover height 4-1/8 in (3X)	A	S406 DEH042 p.1; oem_spec
Application	single-branch	A	same as above
Installation location	Snaps over the four flexible prongs of the cover supports (208C1850Px) on the breaker module or bolt-on mounting brackets	A	same as above
Breaker compatibility	TFJ, TFK, THFK, TFL	A	same as above
Dimensions	Cover height 4-1/8 in (3X); for box width: 27 & 31 in panelboard / 35 in switchboard	A	S406 DEH042 p.1 Table; oem_spec
Fasteners	Double-branch 3X/4X covers: center barrier attached with two push-in rivets; unused openings closed by steel space filler with two #10 x 3/8 in screws (25 in-lb) plus one #10 x 7/8 in screw (15 in-lb) for SE/SF/TF	A	S406 DEH042 pp.1-2; oem_spec
OEM instruction document	DEH042 R03	A	S406 p.1; oem_spec
Cross-links	Families: SPECTRA-PP · Breakers: TFJ / TFK / THFK / TFL		
Not yet documented	Material, orderable catalog (AFP) kit containing this cover		

EDH-GEA-00476	208C4262G10	GE / ABB lineage	filler-plate	STATUS UNKNOWN

Spectra breaker cover 208C4262G10 (THQB..., double-branch, (4X))

OEM part number	208C4262G10	A	S405 DEH044 p.1 Table 2; oem_spec
Description	Spectra push-on circuit breaker cover (filler) for THQB, THHQB breakers, double-branch mount, cover height 5-1/2 in (4X)	A	S405 DEH044 p.1; oem_spec
Application	double-branch	A	same as above
Installation location	Snaps over the four flexible prongs of the cover supports (208C1850Px) on the breaker module or bolt-on mounting brackets	A	same as above
Breaker compatibility	THQB, THHQB	A	same as above
Dimensions	Cover height 5-1/2 in (4X); for box width: 27 & 31 in panelboard / 35 in switchboard	A	S405 DEH044 p.1 Table; oem_spec
Fasteners	Plastic space fillers snap into unused openings from the top side; cover pushed fully over four flexible prongs on the filler supports	A	S405 DEH044 p.1; oem_spec
OEM instruction document	DEH044 R02	A	S405 p.1; oem_spec

Spectra breaker cover 208C4262G13 (TEY, double-branch, (4X))

OEM part number	208C4262G13	A	S405 DEH044 p.1 Table 2; oem_spec
Description	Spectra push-on circuit breaker cover (filler) for TEY breakers, double-branch mount, cover height 5-1/2 in (4X)	A	S405 DEH044 p.1; oem_spec
Application	double-branch	A	same as above
Installation location	Snaps over the four flexible prongs of the cover supports (208C1850Px) on the breaker module or bolt-on mounting brackets	A	same as above
Breaker compatibility	TEY	A	same as above
Dimensions	Cover height 5-1/2 in (4X); for box width: 27 & 31 in panelboard / 35 in switchboard	A	S405 DEH044 p.1 Table; oem_spec
Fasteners	Plastic space fillers snap into unused openings from the top side; cover pushed fully over four flexible prongs on the filler supports	A	S405 DEH044 p.1; oem_spec
OEM instruction document	DEH044 R02	A	S405 p.1; oem_spec

Spectra breaker cover 208C4262G29 (TEB..., double-branch, (3X))

OEM part number	208C4262G29	A	S406 DEH042 p.1 Table 2; oem_spec
Description	Spectra push-on circuit breaker cover (filler) for TEB, TED, THED, TEL breakers, double-branch mount, cover height 4-1/8 in (3X)	A	S406 DEH042 p.1; oem_spec
Application	double-branch	A	same as above
Installation location	Snaps over the four flexible prongs of the cover supports (208C1850Px) on the breaker module or bolt-on mounting brackets	A	same as above
Breaker compatibility	TEB, TED, THED, TEL	A	same as above
Dimensions	Cover height 4-1/8 in (3X); for box width: 27 & 31 in panelboard / 35 in switchboard	A	S406 DEH042 p.1 Table; oem_spec
Fasteners	Double-branch 3X/4X covers: center barrier attached with two push-in rivets; unused openings closed by steel space filler with two #10 x 3/8 in screws (25 in-lb) plus one #10 x 7/8 in screw (15 in-lb) for SE/SF/TF	A	S406 DEH042 pp.1-2; oem_spec
OEM instruction document	DEH042 R03	A	S406 p.1; oem_spec
Cross-links	Families: SPECTRA-PP · Breakers: TEB / TED / THED / TED4 / TED6		
Not yet documented	Material, orderable catalog (AFP) kit containing this cover		

EDH-GEA-00467	208C4262G3	GE / ABB lineage	filler-plate	STATUS UNKNOWN

Spectra breaker cover 208C4262G3 (TFJ..., single-branch, (3X))

OEM part number	208C4262G3	A	S406 DEH042 p.1 Table 2; oem_spec
Description	Spectra push-on circuit breaker cover (filler) for TFJ, TFK, THFK, TFL breakers, single-branch mount, cover height 4-1/8 in (3X)	A	S406 DEH042 p.1; oem_spec
Application	single-branch	A	same as above
Installation location	Snaps over the four flexible prongs of the cover supports (208C1850Px) on the breaker module or bolt-on mounting brackets	A	same as above
Breaker compatibility	TFJ, TFK, THFK, TFL	A	same as above
Dimensions	Cover height 4-1/8 in (3X); for box width: 44 in panelboard / 45 in switchboard	A	S406 DEH042 p.1 Table; oem_spec
Fasteners	Double-branch 3X/4X covers: center barrier attached with two push-in rivets; unused openings closed by steel space filler with two #10 x 3/8 in screws (25 in-lb) plus one #10 x 7/8 in screw (15 in-lb) for SE/SF/TF	A	S406 DEH042 pp.1-2; oem_spec

EDH-GEA-00468	208C4262G6	GE / ABB lineage	filler-plate	STATUS UNKNOWN

Spectra breaker cover 208C4262G6 (TFJ..., double-branch, (3X))

OEM part number	208C4262G6	**A**	S406 DEH042 p.1 Table 2; oem_spec
Description	Spectra push-on circuit breaker cover (filler) for TFJ, TFK, THFK, TFL breakers, double-branch mount, cover height 4-1/8 in (3X)	**A**	S406 DEH042 p.1; oem_spec
Application	double-branch	**A**	same as above
Installation location	Snaps over the four flexible prongs of the cover supports (208C1850Px) on the breaker module or bolt-on mounting brackets	**A**	same as above
Breaker compatibility	TFJ, TFK, THFK, TFL	**A**	same as above
Dimensions	Cover height 4-1/8 in (3X); for box width: 36 & 40 in panelboard / 40 in switchboard	**A**	S406 DEH042 p.1 Table; oem_spec
Fasteners	Double-branch 3X/4X covers: center barrier attached with two push-in rivets; unused openings closed by steel space filler with two #10 x 3/8 in screws (25 in-lb) plus one #10 x 7/8 in screw (15 in-lb) for SE/SF/TF	**A**	S406 DEH042 pp.1-2; oem_spec
OEM instruction document	DEH042 R03	**A**	S406 p.1; oem_spec
Cross-links	Families: SPECTRA-PP · Breakers: TFJ / TFK / THFK / TFL

Tmax XT retrofit kit for Spectra panelboards SRFB3XT4FPK

OEM part number	SRFB3XT4FPK	**A**	S427 guide pp.28-29; oem_spec
Alternate / superseded numbers	AMCB3FJFP (ABB retrofit table pairs the legacy Spectra-breaker kit with this Tmax XT kit; replaces a different breaker, not an identical part)	**A**	S427 supersedes; guide p.28 table "Legacy Spectra based kit"; oem_spec
Description	Tmax XT bolt-on retrofit (strap) kit for existing Spectra bolt-on panelboards, Tmax XT4, 250 A with Kirk lock provision; all mounting kits, filler plates and hardware under one part number; breaker ordered separately	**A**	S427 guide p.28; oem_spec
Application	Retrofit/addition of breakers in Spectra bolt-on (APNB) panelboards and switchboards; max two XT4, XT5 or XT7 retrofit kits side by side	**A**	S427 guide pp.28-30; oem_spec
Breaker compatibility	Tmax XT4 (replaces legacy Spectra F frame breaker position)	**A**	S427 guide p.28 table; oem_spec
Status	current (ABB retrofit offering)	**B**	S427 guide p.27; oem_spec
Identification features	SRFB nomenclature: SRFB + poles/mounting (6 = dual, 3 = single) + XT1/XT4/XT5/XT7 + modification code (blank = main or branch, B = branch only, M = main only) + FPX (with filler plate kit: full-width plates with handle cutouts) or FPK (with filler plate kit and Kirk lock provision)	**A**	S427 guide p.28; oem_spec
Cross-links	Families: SPECTRA-PP		
Not yet documented	install_doc number, Kit contents, Torque values

Tmax XT retrofit kit for Spectra panelboards SRFB3XT5MFPK

OEM part number	SRFB3XT5MFPK	A	S427 guide pp.28-29; oem_spec
Alternate / superseded numbers	AMCB3GMFP (ABB retrofit table pairs the legacy Spectra-breaker kit with this Tmax XT kit; replaces a different breaker, not an identical part)	A	S427 supersedes; guide p.28 table "Legacy Spectra based kit"; oem_spec
Description	Tmax XT bolt-on retrofit (strap) kit for existing Spectra bolt-on panelboards, Tmax XT5, 600 A with Kirk lock provision; all mounting kits, filler plates and hardware under one part number; breaker ordered separately	A	S427 guide p.28; oem_spec
Application	Retrofit/addition of breakers in Spectra bolt-on (APNB) panelboards and switchboards; max two XT4, XT5 or XT7 retrofit kits side by side	A	S427 guide pp.28-30; oem_spec
Breaker compatibility	Tmax XT5 (replaces legacy Spectra G frame breaker position)	A	S427 guide p.28 table; oem_spec
Status	current (ABB retrofit offering)	B	S427 guide p.27; oem_spec
Identification features	SRFB nomenclature: SRFB + poles/mounting (6 = dual, 3 = single) + XT1/XT4/XT5/XT7 + modification code (blank = main or branch, B = branch only, M = main only) + FPX (with filler plate kit: full-width plates with handle cutouts) or FPK (with filler plate kit and Kirk lock provision)	A	S427 guide p.28; oem_spec
Cross-links	Families: SPECTRA-PP		
Not yet documented	install_doc number, Kit contents, Torque values

GE padlocking device (single padlock), FC frame

OEM part number	FCPLD	**A**	S143 p. 11-30, Spectra Locking Devices; oem_spec
Description	Padlocking device (single padlock) for FCS, FCV, FCN, FCH, FCL, FCPF.	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	FCS, FCV, FCN, FCH, FCL, FCPF	**A**	same as above
Cross-links	Families: SPECTRA-PP · Breakers: Record Plus FC 100		
Not yet documented	Dimensions, Material, Status		
Open question	*Relation to FC1PF / FC1PE in Section 6?*		

EDH-GEA-00657	**FG1PE**	GE	padlock-attachment	**STATUS UNKNOWN**

GE padlocking EUSERC toggle, Record Plus FG 600

OEM part number	FG1PE	**A**	S198 p. 6-88; oem_spec
Description	Padlocking EUSERC toggle.	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	FG 600	**A**	same as above
Cross-links	Families: SPECTRA-PP · Breakers: Record Plus FG 600		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00659	**FGPLD**	GE	padlock-attachment	**STATUS UNKNOWN**

GE padlocking device (single padlock), FG frame

OEM part number	FGPLD	**A**	S143 p. 11-30, Spectra Locking Devices; oem_spec
Description	Padlocking device (single padlock) for FGV, FGN, FGH, FGL, FGP, FGPF.	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	FGV, FGN, FGH, FGL, FGP, FGPF	**A**	same as above
Cross-links	Families: SPECTRA-PP · Breakers: Record Plus FG 600		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00640	SEFPLD2	GE	padlock-attachment	STATUS UNKNOWN

GE EUSERC-approved padlocking device for SE150, SF250

OEM part number	SEFPLD2	**A**	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	EUSERC-approved padlocking device ("EUSERC Approved - Factory Installed Only"; SE150/SF250 SEFPLD2 footnoted as field installable).	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	SE150, SF250 (field installable per footnote)	**A**	same as above
Cross-links	Families: SPECTRA-PP, A-SERIES-PWR · Breakers: Spectra RMS SE150, Spectra RMS SF250		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00634	SEPLD	GE	padlock-attachment	STATUS UNKNOWN

GE standard padlocking device for SE150, SF250

OEM part number	SEPLD	**A**	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	Standard padlocking device. Suitable for breakers used in group-mounted panelboard construction only, except J600, K1200, SE150/SF250, SG600 and SK1200 which screw down to the face of the breaker.	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	SE150, SF250 (padlockable ON or OFF)	**A**	same as above
Cross-links	Families: SPECTRA-PP, A-SERIES-PWR · Breakers: Spectra RMS SE150, Spectra RMS SF250		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00635	SGPLD	GE	padlock-attachment	STATUS UNKNOWN

GE standard padlocking device for SG600

OEM part number	SGPLD	**A**	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	Standard padlocking device. Suitable for breakers used in group-mounted panelboard construction only, except J600, K1200, SE150/SF250, SG600 and SK1200 which screw down to the face of the breaker.	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	SG600 (padlockable ON or OFF)	**A**	same as above
Cross-links	Families: SPECTRA-PP · Breakers: Spectra RMS SG600		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00641	SGPLD2	GE	padlock-attachment	STATUS UNKNOWN

GE EUSERC-approved padlocking device for SG600

OEM part number	SGPLD2	**A**	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	EUSERC-approved padlocking device ("EUSERC Approved - Factory Installed Only"; SE150/SF250 SEFPLD2 footnoted as field installable).	**A**	same as above
Application	accessory	**A**	same as above
Breaker compatibility	SG600	**A**	same as above
Cross-links	Families: SPECTRA-PP, A-SERIES-PWR · Breakers: Spectra RMS SG600		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00636	SKPLD	GE	padlock-attachment	STATUS UNKNOWN

GE standard padlocking device for SK1200

OEM part number	SKPLD	A	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	Standard padlocking device. Suitable for breakers used in group-mounted panelboard construction only, except J600, K1200, SE150/SF250, SG600 and SK1200 which screw down to the face of the breaker.	A	same as above
Application	accessory	A	same as above
Breaker compatibility	SK1200 (padlockable ON or OFF)	A	same as above
Cross-links	Families: SPECTRA-PP · Breakers: Spectra RMS SK1200		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00643	SKPLD2	GE	padlock-attachment	STATUS UNKNOWN

GE EUSERC-approved padlocking device for SK1200

OEM part number	SKPLD2	A	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	EUSERC-approved padlocking device ("EUSERC Approved - Factory Installed Only"; SE150/SF250 SEFPLD2 footnoted as field installable).	A	same as above
Application	accessory	A	same as above
Breaker compatibility	SK1200	A	same as above
Cross-links	Families: SPECTRA-PP, A-SERIES-PWR · Breakers: Spectra RMS SK1200		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00639	TEDPLD2	GE	padlock-attachment	STATUS UNKNOWN

GE EUSERC-approved padlocking device for E150

OEM part number	TEDPLD2	A	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	EUSERC-approved padlocking device ("EUSERC Approved - Factory Installed Only"; SE150/SF250 SEFPLD2 footnoted as field installable).	A	same as above
Application	accessory	A	same as above
Breaker compatibility	E150	A	same as above
Cross-links	Families: SPECTRA-PP, A-SERIES-PWR · Breakers: E150 line (TEB, TED, THED, TEC)		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00632	TJKPLD1	GE	padlock-attachment	STATUS UNKNOWN

GE standard padlocking device for J600 line

OEM part number	TJKPLD1	A	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	Standard padlocking device. Suitable for breakers used in group-mounted panelboard construction only, except J600, K1200, SE150/SF250, SG600 and SK1200 which screw down to the face of the breaker.	A	same as above
Application	accessory	A	same as above
Breaker compatibility	J600 line	A	same as above
Cross-links	Families: SPECTRA-PP · Breakers: J400 / J600 line (TJJ, TJK, THJK, TJD, TJC)		
Not yet documented	Dimensions, Material, Status		

EDH-GEA-00642	TJKPLD2	GE	padlock-attachment	STATUS UNKNOWN

GE EUSERC-approved padlocking device for J600

OEM part number	TJKPLD2	A	S198 p. 6-100, External Accessories: Standard Padlocking Devices / Handle-Locking Devices; oem_spec
Description	EUSERC-approved padlocking device ("EUSERC Approved - Factory Installed Only"; SE150/SF250 SEFPLD2 footnoted as field installable).	A	same as above
Application	accessory	A	same as above
Breaker compatibility	J600	A	same as above
