SIEMENS

EWK1 / EWK2 / EWK1B / EWK2B

Installation Instructions for End Wall Kits for Siemens Panelboards

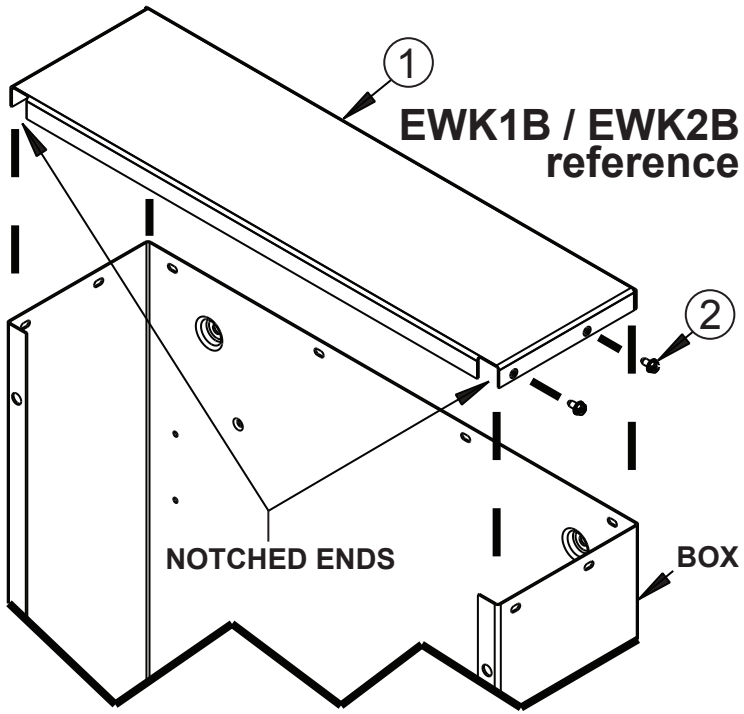

KIT INCLUDES: Qty (2) Box End Walls and Mounting Hardware

Catalog Number	# of Screws
EWK1	16
EWK2	20
EWK1B	16
EWK2B	20

Half of the screws used at each end of the box.

1. **Lock off ALL power supplying this equipment before working on it.**
2. Remove any cables or conduit connected to current end walls.
3. Remove end wall(s) by taking out the screws on three sides. Discard old screws.
4. Modify new end wall to match the old one for required cable/conduit entry locations.
5. Insert new end wall (Item 1) into box with the notched end facing the front.
6. Install ALL new screws (Item 2) thru box holes and into the end wall holes.
7. Re-establish any connections removed in Step 2.
8. **Before energizing the panel**, ensure that ALL connections have been properly torqued, that any barriers and fillers are in place and secure, and that the deadfront, trims and ends are properly installed.

Contact Siemens Sales Office if considering usage in applications other than as shown.

These instructions do not purport to cover all details or variations in equipment, or to provide for every possible contingency to be met in connection with installation, operation or maintenance. Should further information be desired or should particular problems arise, which are not covered sufficiently for the purchaser's purposes, the matter should be referred to the local Siemens sales office. The contents of this Instruction manual shall not become part of or modify any prior or existing agreement, commitment or relationship. The sales contract contains the entire obligation of Siemens. The warranty contained in the contract between the parties is the sole warranty of Siemens. Any statements contained herein do not create new warranties or modify the existing warranty.
